MAYNARD

DIGITAL THIS WEEK

Volume 8 Number 20

October 19, 1981

Two new word processing products unveiled in D.C.

Digital announced two new word processing products, DECword and DECword/DP, designed for use with the company's family of PDP-11 computer systems and RSTS/E operating software.

Harvey Weiss, manager of Government Systems Group (GSG) in Hudson, N.H., unveiled the new products at the Federal Computer Conference in Washington, D.C. The show attracted more than 13,000 visitors.

DECword/DP was demonstrated by Eileen Deal, Commercial Marketing Group, for the first time at the show and during a press reception in Washington. During the press reception, Eileen described and outlined Digital's role in the government mar-

ketplace and how the new product is expected to enhance sales.

Eileen introduced people key to the marketing of these new products: Jackie Kahle, GSG Office Automation manager; William Chisholm, Office System Marketing manager; John Buckley, GSG Marketing manager; and Cathy Jo Butler, DECword/DP product manager.

Available from the Government Systems Group and Commercial Products Group, DECword/DP is a layered application software product for data processing (DP) customers who want word and data processing capabilities on a single system.

DECword is a hard disk-based, package system capable of supporting four to eight

During a press reception, GSG Manager Harvey Weiss observes a demonstration of DECword/DP by Debi Foertsch, GSG senior sales representative in Washington D.C. Harvey announced the new Digital product during the Federal Computer Conference in Washington.

Mighty Micro promotes Digital, in print and in person

Jack Mackeen (right), Microcomputer Products Group (MPG) manager, displays the first in a series of "Mighty Micro" ads now appearing in electronics trade magazines. George Roth (left), MPG marketing specialist and running enthusiast, models a soft sculpture of the "Mighty Micro" character which will be appearing at trade shows and other events to promote Digital's microcomputers.

concurrent users and up to 40 megabytes of storage. It is built around the PDP-11/34 central processor and is designed to be compatible with DECword/DP as well as Digital's other word processors including the DECmate Work Processor system and WS200 shared office system. It is targeted to large, dedicated word processor users such as agencies of the federal government. DECword is available from the Word Processing/Small Systems Product Group in Merrimack.

"The companion DECword Products reinforce our commitment to the office market because they extend word processing capabilities up through the entire range of PDP-11 systems. DECword and DECword/DP take advantage of the powerful system management capabilities of RSTS/E, our most popular PDP-11-based operating software," said Julius Marcus, vice president, group manager.

DECword and DECword/DP are available for immediate shipment. Both products are installed and supported by Digital.

Short Term Institute opens registration to employees' children

Does your high school give your children the opportunity to study visual arts, medicine, law, education, foreign cultures, languages or computer science? Digital, through its Corporate Contributions program, enables employees' children to take full advantage of their secondary education.

The Short Term Institutes (STI) at Phillips Academy, Andover, MA offer a unique experience for 10th, 11th and 12th grade students. Through Digital's Corporate Contributions program scholarships are awarded to children of Digital employees accepted into STI.

The STI experience at Andover is designed to complement a student's high school education. Students live on campus and participate in cultural and social activities at Andover and in Boston. The average Institute enrolls a dozen students.

Subject areas include the sciences, languages, and current issues. Length of the courses offered range from four weeks to 10 weeks. This winter STI is offering Visual Studies, concentrating on disciplines of art; and Issues in Medicine, Law and Education, focusing on personal values of "rights" and "wrongs". Classes begin January 4, 1982.

Spring semester includes An Intensive Look at China, concentrating on the Chinese language, culture and modern living; and Computing, High and Low featuring logic design, addressing techniques and programming in PASCAL. Classes begin March 30, 1982.

Mr. Zab Warren of Phillips Academy is one of the instructors of the course Computing, High and Low. Mr. Warren attended Digital's Training Center in Bedford, MA during the summer months and with the assistance of Digital instructors, formulated the course on computers for STI.

Employees' children who have attended

past courses speak highly of their experience at Phillips Academy. Bob Baker, son of Ginny Baker of the Sales Training facility in Boylston, attended an astronomy course offered at STI. Bob's comments were: "It was great, a lot of fun, and I enjoyed it tremendously. I say thank you to everyone at DEC who made my attending STI possible." Steven Sistare, son of John Sistare working in the Far East terminals group in Marlboro also attended. His comment: "It was a really wonderful experience for all of us, and something not many people get to do."

The deadline for applying for the winter session is December 1; for the spring session it is February 1. Employees may receive more information and an application on STI by contacting Donna Spencer, DTN 223-5320.

Mill Health Services trains employees in first aid and CPR

The Health Services Department at the Mill will conduct first aid and cardiopulmonary resuscitation classes during the months of November, December and January. Classes are open to all Mill employees.

The American Red Cross Standard Multimedia First Aid course is an eight-hour class covering basic rescue breathing, treatment for choking victim, chemical burns, methods to control bleeding and basic splinting. Completion of the course will certify the employee in Standard First Aid.

The cardiopulmonary resuscitation class is the American Heart Association's Heart Saver Course. The four-hour course is designed to acquaint employees with the basic skills of rescue breathing, heart at-

Group formed in merger named

The merger of the Word Processing and Retail Products Groups, announced in August, has been named the **Word Processing/Small Systems Group** according to Buzz Brooks, group manager.

The group is responsible for the worldwide sales and support of the DECmate, WS200 and DECword products in business and word processing applications.

These responsibilities include market and product planning, product field support, merchandising, finance and administration and manufacturing planning and support.

tack risk factors and CPR.

Classes will be held in the Mill cafeteria conference room (ML5-4) on the following days:

FIRST AID	
Nov. 12 and 13	8 a.m. to noon
Dec. 3 and 4	8 a.m. to noon
Jan. 14 and 15	8 a.m. to noon
CPR	
Nov. 20	8 a.m. to noon
Dec. 11	8 a.m. to noon
Jan. 22	8 a.m. to noon

Employees interested in attending any of the classes should register by calling Health Services at 8-223-8796.

Internal DECUS Symposium reminder

The 1981 Fall Internal DECUS Symposium will be held at the Sheraton Conference Center in Boxborough on Nov. 10-13 for internal users of Digital equipment. Pre-registration is required. The deadline for registering is Oct. 30.

Because parking is limited at the Sheraton, attendees are urged to use the special shuttle bus which will run between Maynard and Boxborough. The bus stops will be located at the main entrance at PK3 and the Thompson Street entrance at the Mill.

For more information call Internal DECUS at DTN 8-231-4418 or 231-4332.

Internal DECUS Symposium shuttle schedule:

Send stories, photos and ideas to DTW, PK3-1/K23 or call DTN 223-5042. Direct Marketplace ads to Alice Christian, PK3-1/K23, DTN 223-2261.

DTW is published every other week for employees of Digital Equipment Corporation in the Maynard, Mass. area.

Traditional Products marks last shipment of PDP-15

At a recent reception marking the last system shipment of the 18-bit line, Bob Nealon, product line manager for Traditional Products, said that the last PDP-15 system, as in the past, will go to a customer who expects years of high quality performance from a Digital classic.

"It's the end of an era in Digital history," said Jack Learson, manager of Quality Control and Manufacturing Engineering, Traditional Products. He has been at Digital for 17 years.

Traditional Products, in managing the retirement phase of selected Digital products, provides marketing, manufacturing and engineering support for prior generation equipment as well as add-ons and refurbished equipment.

Since it was formally introduced 12 years ago, the PDP-15 has been serving telephone, manufacturing, scientific and other industries in a multitude of applications. The forerunners of the CPU include the PDP-9, PDP-4 and PDP-1.

The original PDP-15 team members, Gerry Butler, Fred Doll, Paul Hider, Dave Metoyer, Jim Pitts, Ken Vonasek, Ed Wargo and others joined TP in recognizing the importance of the product and exchanged stories about those 800 plus shipments. Averaging 16 years with the company, more than one guest still wore the badge, which was the internal symbol for the PDP-15 team, on his badge.

Bob Nealon commended TP employees for their involvement in the final assembly and test of the system with special mention to Ken Baron, systems engineering technician, and Jim Frazier, system engineer, Corporate Product Support.

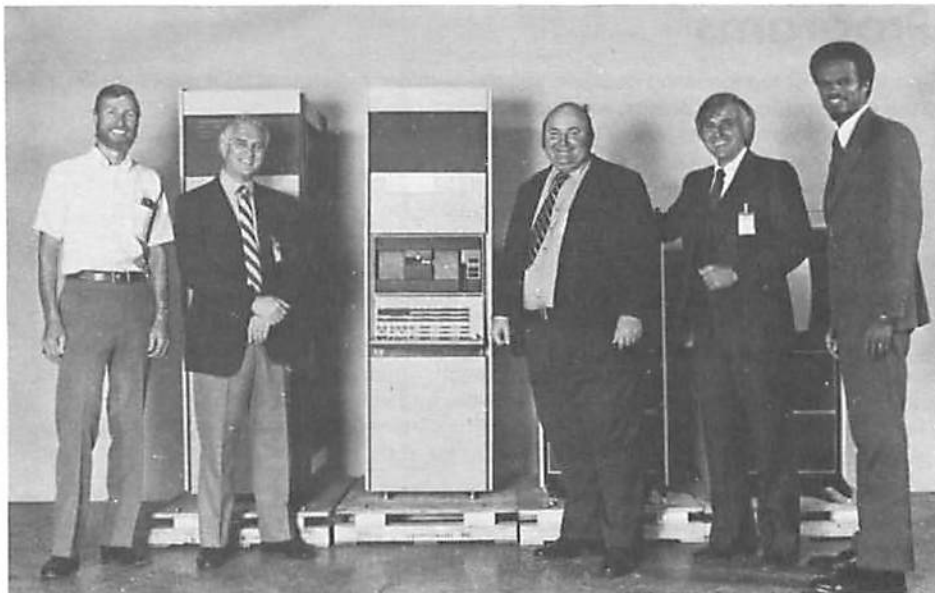

Electromagnetism exhibit featured at museum

The Digital Computer Museum is presenting a special exhibition on electromagnetism until Nov. 11. "Lines and Waves: Faraday, Maxwell and 150 years of Electromagnetism" commemorates Michael Faraday's 1831 discovery of electromagnetic induction and the birth, that same year, of the Scottish physicist, James Clerk Maxwell.

Faraday and Maxwell were the first to demonstrate many of the unifying principles of electricity, magnetism and light. Faraday saw lines of force underlying these phenomena. The more mathematically inclined Maxwell later evolved the famous wave theory to account for their interconnection.

"Lines and Waves" is a travelling exhibit prepared by the Center for the History of Electrical Engineering of the Institute of Electrical and Electronic Engineers.

All employees are invited to visit the exhibit located next to the museum in MR1. For more information call the museum at 8-231-4036.

The original PDP-15 team were the special guests of TP group reception marking the last shipment of the 18-bit system. Present were (left to right) Fred Doll, Ed Wargo, Gerry Butler, Ken Vonasek and Jim Pitts.

The new team taking over the marketing and support of the PDP-15 in Traditional products is (left to right) Jim Frazier, Ken Baron and Steve Diggins.

Toastmasters International offers speaking and leadership skills

Toastmaster International is an organization that provides real communication and leadership skills for people of any profession or skill level. Attending Toastmasters at Digital will give you the experience to communicate effectively with your supervisors and co-workers as well as to give presentations.

Joining the Digital Toastmasters will help you organize your thoughts more clearly, use words more effectively, eliminate distracting mannerisms and develop voice expression.

Presently, active Toastmasters Clubs are meeting each week at Marlboro and Parker Street (PK3). A number of experienced toastmasters are planning to form a club in Hudson. Employees are invited to visit the Parker Street club meetings held on Wednesdays at noon. The agenda includes planned five to seven minute talks and spontaneous presentations.

If you have any questions or are interested in joining the organization please contact: Donna Guest at DTN 223-4509 or Len Winmill at DTN 223-1365.

November offerings from Seminar Programs

To register for the following courses, call the Seminar registrar at DTN 8-249-4949.

Two new application design seminars

"Design of Applications under RSX-11M/M+"

Nov. 16-19 Merrimack, N.H.

"Design of Applications under VAX/VMS"

Nov. 16-19 Stouffer's Bedford Glenn Hotel
44 Middlesex Turnpike, Bedford

These two new, interactive, four-day seminars focus on application design approaches that maximize the use of the hardware and software involved. Three case studies of typical customer applications, data acquisition, process control and transaction processing, show how to exploit the system features to achieve efficient design solutions for each application. Upon completion, attendees will thoroughly understand the interrelationship between system hardware and software functionality for design.

Prerequisites: System User and System Programmer courses and working ability to program Macro-11 for RSX or VAX-11 Macro for VMS.

Accounting and Auditing for Data Processing Management

"Accounting and Auditing" is a new seminar to give data processing management the accounting skills to understand and better manage their operation. The seminar will cover four critical areas: financial accounting, management accounting, accounting applications and auditing and data processing.

Participants will gain important insights into forecasting with a flexible budget-financial forecasting and cash flow management. An important feature of the seminar will be a session on auditing through the computer with a particular emphasis on compliance auditing.

The seminar will be held at the Bedford Training Center on Nov. 19-20.

Networking: Design and Implementation of Computer Communications Networks

This three day technical seminar is for anyone involved in the design, the use or the selling of networks. The course is a state-of-the-art presentation of fundamental concepts, technology and practical implementation of computer networks. It will include an in-depth discussion of network architectures, components and structures with a focus on complete network design.

The seminar will be held at the Babbage Conference room in Spitbrook, N.H., on Nov. 17-19.

New Advanced Datatrive Applications seminar

Educational Services has announced a new seminar for current users of Datatrive who would like to use the advanced functionalities of this product. The seminar will cover design of domain and record definitions, use of procedures, tables, validations, views and other features to enhance the use of the interactive query language, use of the reporter writer, maintenance of dictionary fields and maintenance of domains with evolving applications.

The seminar will be taught by Rick Landau, Anne Duncan and Wayne Jones of the Central Commercial Engineering Group at the Bedford Training Center on Nov. 9-11.

Add to your skills

Registration is open for Office Education/Educational Services workshops for November. At the time of publication, there are openings in all the classes listed.

Adventures In Attitudes, Nov. 10, 17, 24 TW

Assertiveness Training, Nov. 19 BU

Cost Center Expense Reports, Nov. 23 MR

Electronic Mail System II, Nov. 30 PK

How to Dictate, Nov. 20 PK

Introduction to Word Processing, Nov. 9, 30 PK

Office Use of DECsystem-10, Nov. 16-18 BU

Record Communication System, Nov. 9, 25 PK

Time Management for Secretaries, Nov. 11 PK

Word Processing System to Electronic Mail System,
(WPS to EMS) Nov. 5, 6, 25 PK

Writing Effective Memos, Nov. 10 MR

Understanding Style, Nov. 19 PK

To register, send a memo with your name, badge number, cost center and cost center manager's signature to Registrar, PK3-1/B11 or contact the training coordinator at your facility. For additional information, call 223-5820 for office automation courses or DTN 223-2872 for all others.

A son, Corey Arthur, born July 17 to Joann and Arthur Tunnessen. Joann is a supervisor in Accounts Payable at the Maynard plant. Arthur works at the Mill.

A daughter, Rebecca Michele, born Aug. 12 to Lorine and Jim Blais. Lorine is a PSA in the Semiconductor Engineering Group in Hudson.

A son, Stephan Michael, born Sept. 5 to Ellen and Tom MacGregor. Tom is a Production/Inventory controller in the Materials group for the Heads business in Natick.

A son, Brian James, born Sept. 13 to Dan and Jill McCarthy. Dan is an education specialist at Customer Training in Bedford.

A daughter, Susan Letitia, born Sept. 19 to Bill and Leeann Walker. Bill works as a sales training consultant in Boylston.

A son, Jonathon, born Sept. 20 to Peter and Rose Chow. Peter works for Netwo. Engineering in Tewksbury.

A daughter, Danielle Marie, born Sept. 24 to Sue and Mike deCaussin. Sue is a secretary for SEG Personnel in Hudson. Mike is a maintenance technician in the LSI Manufacturing Group in Hudson.

RSX-11M courses in Bedford

Educational Services is offering four RSX-11M courses at the Bedford Training Center in November and December.

RSX-11M User (5 days)

Dates: Nov. 9-13; Nov. 16-20; Nov. 30-Dec. 4; Dec. 7-11.

RSX-11M Programmer (5 days)

Dates: Nov. 2-6; Nov. 16-20; Dec. 7-11.

RSX-11M System Programmer (5 days)

Dates: Nov. 9-13; Nov. 16-20; Dec. 14-18.

RSX-11M System Installation and Management (3 days)

Dates: Nov. 16-18; Dec. 14-16.

To register, call the Customer Training Registrar at DTN 8-249-4830. For course descriptions, call Employee Education Marketing at DTN 8-249-4300.

Mill Security keeps officers well trained

For a security officer at the Mill knowing what to do in an emergency means being familiar with the special hazards and injuries specific to an environment like the Mill.

During August and September, the Safety/Loss Prevention and Health Services Departments conducted a specialized "first responder" training program for the Mill Security Department.

Pat Goulet, Safety/Loss Prevention, made a presentation on "Recognizing and Evaluating Toxic Substance Hazards." The proper respiratory protection, established by Occupational Safety and Health Administration (OSHA), was discussed for both respiratory hazards and equipment classification.

The second presentation was given by John Tripp, Safety/Loss Prevention, on the use of air packs, much like air tanks used by divers, in hazardous situations. The security officers were trained on different kinds of air packs--when to use them and how to wear them. They were updated on the subject of fire extinguishers, reviewing how to use them and the different types of fires.

The last training course was presented by Mary Lou Dopart, Mill Health Services, as the security officer as the first responder assisting an injured employee. She covered common accidents that could occur in the Mill. Her presentation including responding to an unconscious person or one with a seizure and the special treatment of injuries from chemical accidents including eye injuries and cyanide poisoning.

Health Services' part in the training course also included adding to the number of certified officers in CPR and first aid.

Digital Ski Club meets

Attention skiers! Join the Digital Ski Club for the first meeting of the season to be held at the Sheraton-Boxborough (on Rte. 111 at Rte. 495) on Nov. 3 at 7:30 p.m.

Ski trips are planned to Aspen, Killington, Sugarloaf and Smuggler's Notch this season. Other events and social activities will be announced at the meeting.

Membership benefits offered this season include "Ski 93" discount lift ticket booklets and individual Wildcat discount lift tickets.

JOIN THE DIGITAL SKI CLUB

For a membership application and a summary of this season's activities, send this coupon to Digital Ski Club, ML5-3/T72.

MEAC Holiday Fair set for November

The Maynard Employee Activities Committee is organizing a Holiday Crafts Fair for Nov. 15. All Digital employees are invited to rent space and sell their handmade goods. Tables will be provided.

To register for space at the fair to be held at the Will Dodd Boys Club in Maynard, send the fee of \$12.50, check or money order, a completed registration form (below) and a self-addressed, stamped envelope to DEC Recreation Association, P.O. 310, Maynard, Mass.

01754. Deadline for registration is Oct. 30. Space is limited and is on a first-come, first-served basis.

Only employees will be allowed to rent spaces; identification will be requested at the door. No baked goods can be sold due to health regulations. Please bring your own display boards and table cloths. Displayers will not be permitted to hang things on the walls at the Boys Club. The fair will run from 10-4.

Please register me for a space at the MEAC Holiday Crafts Fair on Nov. 15. My registration fee of \$12.50 is enclosed. I understand if the spaces are sold out my money will be refunded.

STEREO EQUIPMENT, Dynaco SCA-80 40W amp, FM-5 tuner, \$100/ea. Stan, WA 221-5434.

Traveling? Take safety with you

You are on a business trip. You arrive in a strange city at a crowded airport at rush hour. You pick up your rental car.

Now, you are in traffic, unfamiliar roads and unfamiliar laws. It starts to rain; you don't know how to turn on the windshield wipers or how to defrost the windows.

The car is just a little larger than your own, but it handles differently. Its accelerating and braking characteristics are new to you.

A combination of two or three of these conditions could make a routine business trip dramatically more dangerous.

If you arrive at the airport late at night after several hours on a plane and a full day's work, you will be tired. Your reactions will be slower than usual.

The Massachusetts Safety Council advises travelers that it may be safer to use a taxi, public transportation or courtesy transportation to get to your hotel. Pick up the rental in the morning when you are rested and the light is better. You will have more time to familiarize yourself with the area and the car.

COMPUTER CORNER

Find out how to cut down on commuter costs by contacting the Commuter Transportation Department, DTN 251-1525.

Call the following DTN numbers to join these routes.

VANPOOLS To Maynard

from **Nashua, Hudson N.H., Chelmsford**, DCV 18, Don Yelton 223-3437 or Bob Cormier 223-5861.

from **Watertown, Waltham, Lincoln**, DCV 90, Mark Lohr 223-5307.

from **Leominster, Fitchburg**, DCV 64, 7:45-4:30, Donna Booth 223-1316.

from **Tewksbury, Lowell, Andover**, DCV 15, Ross Morgan 251-1302.

CARPOOLS To Bedford

from **Newburyport**, Karen Kelly, 249-4457.

To Hudson

from **Malboro** (Rte. 20) to HL2, ride only, Kay, 225-2335.

NEWS BRIEFS

Deadlines for DTW

The next four issues of "Digital This Week" and deadlines for submitting stories are:

Nov. 2 issue--Oct. 22 deadline

Nov. 23 issue--Nov. 12 deadline

Dec. 7 issue--Nov. 26 deadline

Dec. 21 issue--Dec. 10 deadline

Please note that there is a two week interval between the Nov. 2 and 23 issues.

Direct Inward Dialing comes to Salem

The Salem, N.H., facilities (NI, NS, SV) will be changing their main telephone number. Effective Nov. 2, the new outside number will be 603-894-3111. Direct calls to Salem personnel from non-DTN locations will be available by dialing 603-894 plus the extension.

All calls over the Digital Telephone Network (DTN) must include 8-261 and the four digit extension listed in bold print in the Digital Telephone Directory.

MR Health Services sponsors weekly Alanon meetings

Employees who have alcoholic spouses, children, relatives or friends are welcome to attend the weekly Alanon meeting held in Marlboro.

The meetings are held on Thursdays between 11:30 and 12:30. For more information, please call Alanon's confidential contact, Diana Macy at the Marlboro Health Services, DTN 8-231-5672.

Arts and Crafts Club meets

The Digital Arts and Crafts Club announces their first meeting to be held on Wednesday, Oct. 28. Anyone wishing to join should attend the meeting in the Hudson (HL) cafeteria at 5:30 p.m.

New aviation service to Westfield

Effective Oct. 26, there will be helicopter service between Maynard, PK3 helipad, and Westfield, Mass. There no longer will be airplane service out of Stow airport to Westfield.

The flight will run three times a day, five days a week. Stops "on demand" will be allowed at Marlboro and West Springfield. The helicopter will land at the Westfield plant helipad, not at the airport.

Response to guide allows price cut

Due to the tremendous response to the **Guide to Digital and Its Products**, Sylvia Kaloustian, Sales Secretary Programs within Sales Training, announces a reduction in price from \$100 to \$35 per copy.

There is also a further reduced rate available for bulk orders. Copies may be purchased through your literature contact or by calling Boylston Sales Training at DTN 8-245-5315.

Smoke Out volunteers needed

Parker Street Health Services needs volunteers to support the Great American Smoke Out to be held on Nov. 19.

On this day, smokers are invited to a day of lung health by not smoking for 24 hours. Are you interested in helping your smoking friends and co-workers? How about having a smoke-free day at Parker Street? Please call DTN 223-4595 to find out how you can help.

Enrollment cards for Stock Purchase Plan due by Nov. 20

The next payment period for the Employee Stock Purchase Plan begins Dec. 1. Notification has been mailed to all eligible employees at their home addresses. Enrollment cards for the DECEMBER payment period must be at Investor Services by Nov. 20.

Employees who need enrollment packages should contact their Personnel Services Administrator (PSA). To insure timely receipt of statements of ownership and stock certificates, be sure to update your home address with your PSA.

4:00 p.m.	arrive 4:45 p.m.	
	depart 4:50 p.m.	5:35 p.m.

United Way action at Acton

The Acton manufacturing plant kicked off a week of United Way fund-raising activities by enlisting some of their best managerial talent in a pie-eating contest. Employees at Acton participated by buying tickets to back their favorite contestant. A winner was chosen by drawing a name from among those who backed the most voracious manager. Proceeds were to have

been split between the winner and the United Way. However, the winning backer, Pat Bowe, donated his share of the winnings to the United Way.

Last year some 61 percent of the Acton Plant's 300 employees contributed to the United Way. This year's goal is 65 percent participation.

The contesting managers, who contributed their appetites, were (left to right) Steve Bourgeois, Bob Romanowski, Joe Bukkhegyi (the first to finish), Larry Fahey and Rich Powers.

Acton employees backed their favorite contestant by buying tickets. A winner was drawn from the group who supported the winning pie eater.

Tewksbury gets ready, set, go for United Way Fun Run

Tewksbury has set October 23 as the day of their Fun Run to benefit the United Way. The race starts at noon and will cover a pre-plotted course around the two buildings.

Free t-shirts will be given to all runners who need at least five pledges to partici-

pate. Six gift certificates will be awarded to the three top winners in male and female categories. Scores are determined by multiplying laps times pledges. Showers will be available after the run.

For more information, please contact Marguerite Sullivan at DTN 247-2666.

Merrimack plunges into the United Way campaign

The launch

(left to right) Bob Skladany, Angelo Guadagno, Kerry Bensman and Tom Campbell aboard the SS SY.

The collision

SS SY rams canoe SS Marcus with (left to right) Steve Smith, Dave Fernald, Bill Kiesewetter (visible) and Roger Cady.

Every man for himself!

With a little help from Angelo Guadagno, the canoe and all go under.

"Speaking for all of us who took the plunge for the United Way on the 28th, I hope these campaign activities will lead to enthusiastic participation by all employees in this worthy cause," says MK United Way Chairman Jim Willis.

The race ended in a draw.
