REPORT OF THE BOARD OF SELECTMEN

To the Citizens of Maynard:

Herewith is presented the Annual Report of your Board of Selectmen for the year ending December 31, 1969.

In many respects 1969 was a year of progress wherein some municipal changes were either initiated or accomplished.

The Board of Selectmen feel that the people of Maynard can look upon some events with satisfaction and pride.

In March 1965 the Town voted to adopt the creation of the Maynard Housing Authority. Its efforts were rewarded in 1969; we saw the labors and plans of this Committee take shape. The Maynard Housing Authority who, with enthusiasm and dedication against many obstacles, finalizing their plans for erection of the Maynard Housing Home for the elderly citizens of the Town, held their dedication during June 1969. May we in behalf of the citizens of Maynard congratulate this Committee on their excellent work.

Elsewhere in this Annual Report, the detailed activities and functions of the various Town Departments and Committees under our jurisdiction are presented.

As for the Selectmen's actions and decisions relative to 1969 Town matters, the Board is pleased to report in detail its activities and accomplishments.

Some of the activities of the Board for 1969 are as follows:

1. Attended the Massachusetts Selectmen's Association special state wide Town Meeting on the "tax crisis", which was held in Stoughton, Massachusetts, on March 15th. The rising tax rate is a concern of all cities and towns in Massachusetts.
2. As directed by the voters at our Annual Town Meeting, took by eminent domain the property of Robert D. and Norma L. Quirk for water department purposes.
3. In police department, the following activities:
 - (a) Established the positions of Photographic and Prosecuting Officers.
 - (b) Appointed Richard F. Clark as Sergeant.
 - (c) Appointed four (4) new police officers; one replaced Cyril F. Clark who retired after many years of faithful service and three additional officers were added to the department as directed by the voters at our Annual Town Meeting.

(d) Establishment of traffic fines in order to alleviate the parking problems in the business area.

4. Purchase from the Isadore Reed Estate the land at the corner of Summer Street and Florida Road.

5. Stanley Harding, congenial custodian at the Town Building-Library, retired after twenty (20) years of service to the Town and John Howe was appointed to replace him.

6. Boundary between Maynard and Stow is in the process of being redefined.

7. Held three hearings relative to the "Hatch Act".

8. With the assistance of our Town Moderator Emile Genest and with the co-operation of the School Department, the Selectmen decided to hold our Town Meetings at the Maynard High School because of the parking problem that existed on Summer Street when a Town Meeting was held in the Memorial Gymnasium.

It is with regret that we report that four (4) members and two (2) alternates of the Board of Appeals resigned in a body. These men were dedicated citizens, and in all of their decisions we believe they were fair and we must say that they had the interest of the Town of Maynard at heart.

We also want to thank Mr. James King, our secretary, the Town Building employees, and the various Town Boards who have been most co-operative with the Board. Your Board of Selectmen have endeavored to establish a rapport with all the Boards for the common good of the community.

Very truly yours,

Thomas A. Cocco
Willis D. Dodd
Howard E. Boeske

BOARD OF SELECTMEN

TOWN CLERK'S REPORT

ANNUAL TOWN MEETING

Maynard Memorial Gymnasium

Held March 3, 1969

and continuing March 4, with Article 13
and March 5, with Article 30

The Annual Town Meeting was called to order at 7:30 p.m. in the Maynard Memorial Gymnasium by Town Moderator Emile L. Genest who declared a quorum present.

Visitors admitted included Girl Scouts from Maynard and Somerville, New Jersey; Attorneys Orcutt and Florio; members of Maynard High School and Central Catholic High School Student Government Exchange.

Reverend Edgar Redfern from the Maynard Methodist Church gave the invocation. A tribute and prayer was observed in memory of Mary Ward who had served the town as Town Nurse for over thirty-nine years.

Article 1. Report given by Planning Board Chairman James Coleman. Report read by Highway Garage Committee Chairman John Tomyl. These reports were filed with the Town Clerk.

Article 2. Moderator will fill vacancies for which he is responsible, within the next few weeks.

Article 3. Motion by R. Anderson to approve the Finance Committee recommended budget and under item #78 to add "accept and expend Federal funds" carried unanimously after the following amendments: A motion by H. Krueger to change item #60 (Public Works Maintenance) to \$70,000; item #73 (Legal Fees) to \$3,000; and item #77 (School Salaries) to \$1,057,351.08 did not carry.

A motion by Fire Chief G. Whalen to amend item #36 (Fire Department Maintenance) to \$9,073.55, and item #37 (Fire Department Outlay) to \$1,040 did not carry.

A motion by John Tomyl to change item #61 (Snow Removal) from \$30,000 to \$50,000 carried unanimously.

Article 4. Motion by R. Anderson: Voted to accept as printed in the Warrant. The town will pay the following salaries or compensation to the various elected Town Officials in accordance with Chapter 41, Section 108, of the General Laws, said salary or compensation to be effective and remain in force until the next Annual Town Meeting unless sooner changed by the vote of the Town.

Moderator	\$ 50.00
Town Clerk	5,000.00
Town Treasurer-Collector	8,500.00
Selectmen, 3 members, each	300.00
Board of Assessors, Chairman	900.00
Other Members, each	800.00
Public Works Board, 3 members, each	300.00
Board of Health, 3 members, each	50.00
Library Trustees, 3 members, each	25.00
School Committee, 5 members	NONE
Planning Board, 5 members	NONE
Housing Authority, 5 members	NONE

All fees and charges collected by each department must be paid to the Treasurer at the end of each month.

The above salaries are effective January 1, 1969 to December 31, 1969. For changes in personnel during the year, salaries will be pro-rated according to the length of service at the above recommended rates.

Article 5. Motion by R. Anderson: Amended by Stanley Novick and so voted, to appropriate \$20,000.00 to the Stabilization Fund. (Original sum had been \$40,000.00).

A motion by Denis Doyle to discuss Articles 56 and 57 at this time carried.

Article 57. Motion by J. Gramolini to appropriate the sum of \$120,000.00 for Elementary School Construction did not carry.

233 in favor; 406 opposed. 426 required.

Article 56. Motion by P. Murphy: Voted to authorize the Board of Selectmen on behalf of the Maynard School Building Committee to purchase three parcels of land from Doris and Vincent Crotty, located off Summer Street, containing 9.2 acres more or less, for the purpose of new school construction: the first two parcels of land described as lots B & C in land court case number 16287, certificate of title number 102440; and parcel 3 being a strip of land 50 feet wide by 333 feet plus or minus in length, through a portion of lot 7 as shown on plan number 1391 of 1962, recorded in book 10134, page 89 and that the town appropriate from the tax levy of the current year the sum of \$18,000.00 for said land.

405 in favor; 103 opposed. 338 required.

Article 6. Motion by R. Anderson: Voted to authorize and direct the Assessors to take up to \$100,000.00 from free cash to reduce the tax levy for the current year.

Article 7. Motion by R. Anderson: Voted to appropriate the sum of \$20,000.00 for the Finance Committee Reserve Fund to provide for extraordinary and unforeseen expenditures. Transfer to be made to departments only by vote of the Finance Committee, as provided by Section 6 of Chapter 40 of the General Laws.

Article 8. Motion by Constance Quinn: Voted to appropriate the sum of \$3,600.00 to be expended under the direction of the Board of Selectmen and the School Department for providing cooperative or complementary facilities to the out-patient clinic of the Walden Guidance Association, Inc., established in accordance with the provisions of Chapter 123 of the General Laws, in cooperation with the Department of Mental Health, and for providing payment for services rendered or to be rendered by such clinic.

Article 9. Motion by R. Anderson: Voted to authorize the Town Treasurer-Collector, with the approval of the Selectmen, to borrow money in anticipation of the revenue for the financial years beginning January 1, 1969 and January 1, 1970, in accordance with the provisions of General Laws, Chapter 44, Section 4, and to renew any note or notes as may be given for a period of less than one year, in accordance with the provisions of General Laws, Chapter 44, Section 17.

Unanimous.

Article 10. Motion by T. Cocco: Voted to adopt the provisions of Chapter 90, Section 20C of the General Laws in place of Chapter 90, Section 20A now in effect, to provide for a method whereby the Board of Selectmen may establish schedule of parking meter fines as provided in said General Laws.

Article 11. Motion by R. White: Voted to authorize the Board of Selectmen to purchase a portion of land in fee simple, including all trees and shrubs, from the May Isadore Reed Estate, recorded in Middlesex Registry of Deeds, South, Cambridge, Massachusetts in Book 11635, Page End, for municipal parking and other municipal purposes. Said land is Lot A2 located at the intersection of Summer Street and Florida Road, Maynard and shown on a plan on file at the Town Clerk's Office, and containing 42,150 square feet, and further move that the sum of \$6,500.00 be raised in the tax levy of the current year for the purchase of this land, and other expenses, including taxes, legal fees and recording fees.

427 in favor; 30 opposed. 304 required.

A motion by T. Cocco to act on Article 27 and that this be the last article for the evening - did not carry.

Article 12. Motion by T. Tibbetts: Voted under authority of Section 108A of Chapter 41 of the General Laws to amend the By-Laws of the Town by deleting the Job Titles and Standard Rates for Wages and Salaries under Section XIX as adopted in 1968 and to substitute the following, to take effect as of March 3, 1969:

A motion to table this article did not carry.

Vote: 190 in favor; 80 opposed.

A motion to reconsider Article 12 did not carry.

Article 15. Motion by T. Tibbetts: (Sick Leave Increase) did not carry.

Article 16. Town Clerk acted as moderator. Motion by E. Genest: Voted to delete Section I Personnel Board and substitute the following to be effective immediately:

Section I Personnel Board --

There shall be a Personnel Board to administer the Salary Administration Plan consisting of five members appointed by the

Moderator. In the beginning one member shall be appointed for one year, a second member for two years, a third member for three years, a fourth member for four years, and a fifth member for five years. Thereafter, each member shall be appointed by the Moderator for a five year term.

No member of the Personnel Board shall hold Town Office whether elected or appointed. Members of the Personnel Board shall serve without compensation. After the expiration of the term of office of the first member, a replacement shall be appointed by the Moderator from a group of five town employees who shall be nominated by all the employees under the jurisdiction of the plan. However, at no time shall there be more than one employee representative on the Board. The Personnel Board shall fill by appointment any vacancies which occur in its membership, and said appointee shall serve for the remainder of his predecessor's term of office. If a member fails to attend three consecutive meetings, the Board may by a two-thirds vote declare a vacancy.

Article 17. Motion by J. Dineen: Voted to appropriate the sum of \$168.00 to pay unpaid 1968 bills for care of Veterans Lots in St. Bridget's Cemetery.

Unanimous.

Article 18. Motion by J. Barilone: Voted to amend the Protective Zoning By-Law and the Zoning Map, Town of Maynard, by changing from Single Residence S-1, to General Residence the following described area of land situated westerly of Waltham Street: Beginning at the Southeasterly corner thereof at Waltham Street and the Maynard and Sudbury Town Line, thence running Southwesterly by said Maynard and Sudbury Town Line 353.84 feet to land now or formerly of John Saunders; thence Northwesterly by said land now or formerly of said John Saunders 538.24 feet to land now or formerly of Louis P. Boeske, thence Northeasterly by said land now or formerly of said Louis P. Boeske 747.48 feet to said Waltham Street; thence Southeasterly by said Waltham Street 662.21 feet to the point of beginning.

Vote -- Unanimous. Planning Board recommended this article.

Article 19. Motion by J. King: Voted to amend the Protective Zoning By-Law and the Zoning Map of the Town of Maynard, Massachusetts, as follows: By changing from Single Residence to Industrial that part of the land of Hilja Tuomanen which is presently in the Residential District so that all of the following described area of land is included within the Industrial District: A certain parcel of land situated on the Westerly side of Acton Street, Maynard, Massachusetts, and shown on a plan surveyed for C. H. Williams by Horace F. Tuttle, April 6, 1937, and re-

corded with Middlesex South District Deeds, Book 6159, Page 326, as Plan No. 981 of 1937, and bounded and described as follows:
 EASTERLY by Acton Street, 292.00 feet, more or less;
 SOUTHERLY by land now or formerly of Williams, 115.00 feet;
 EASTERLY by land now or formerly of Williams, 14.00 feet;
 SOUTHWESTERLY by Lots 1 and 3, 1,415.00 feet;
 NORTHWESTERLY by land of owners unknown, 300.00 feet; and
 NORTHEASTERLY by land now or formerly of Navadonsky and others, 1,372.00 feet.

Planning Board recommended this article.
 Vote -- 222 in favor, 13 opposed. 156 needed.

Article 20. Motion by J. Dutkowski: To change from Industrial to General Residence land at Maynard-Acton Town Line at Brown Street -- did not carry.

Planning Board did not recommend.
 Vote -- 59 in favor, 146 opposed. 137 needed.

Article 21. Motion by J. Coleman: Voted to amend the Protective Zoning By-Law of the Town of Maynard, by deleting Section 6 Industrial Districts, in its entirety and substituting the following:

Section VI - Industrial Districts

6 - 1 Requirements

In Industrial Districts now building or structures shall be constructed or altered and no buildings, structures or premises shall be used for any purpose except:

- A. Research laboratories with incidental assembly or manufacture.
- B. Office buildings.
- C. Manufacturing, development or engineering.
- D. Parking areas or garages for use by employees, customers or visitors.
- E. Cafeterias for employees when contained in the same structure as the permitted use.
- F. Business or professional office or bank.
- G. Warehousing.
- H. Garaging incidental to any uses permitted under this section.
- I. Screened storage, accessory buildings and uses.

6 - 2 Performance Standards

A. No buildings or land shall be used or occupied in any manner as to create any injurious or obnoxious noise, vibration, smoke, gas fumes, odor, dust or other objectionable features, or become hazardous to the community on account of fire or

explosion or any other cause dangerous to the neighborhood, or destructive of property values because because of excessive nuisance qualities.

6 - 3 Non-Conforming Uses

A. Nothing in this section shall prohibit the continued lawful use of land or buildings in the same or similar manner in which they were used at the time of the adoption of this section.

The Planning Board recommended this article.
Vote - 266 in favor, 4 opposed. 180 required.

Motion by W. Dodd to act on Article 27 at this time. Carried.

Article 27. Motion by W. Dodd: Voted to appropriate the sum of \$16,000.00 to employ three (3) new permanent police officers.

Motion to reconsider article 20 was defeated.

Motion by R. Anderson to reconsider article 22 carried.

Motion by R. Anderson: Voted as previously read. (Article 22).

Article 28. Motion by J. Tomyl: Voted to borrow the sum of \$31,000.00 for the Public Works Board to purchase or to take by eminent domain for the purpose of establishing a water supply system under General Laws Chapter 40 Section 39B, or any other laws thereby enabling, a parcel of land in Maynard located East of Old Marlboro Road, comprising 19.93 acres and shown as Lot A on a plan entitled, "Revised Compiled Plan of Land in Maynard,

Massachusetts" (known as "Clearwater Heights") Acton Survey and Engineering Inc. John E. Dunphy Jr. Registered Land Surveyor, said map being on file with the Town Clerk, and otherwise bounded and described as follows: by a line beginning at the Northeast corner of lot A on said plan and thence running; South 31 degrees 17 minutes 6 seconds West a distance of seven hundred and ninety (790) feet, and thence; Turning and running North 85 degrees 16 minutes 48 seconds West two hundred and twenty-three and 61/100 (223.61) feet, and thence; Turning and running North 58 degrees 42 minutes 54 seconds West seven hundred and ninety three (793) feet, and thence: Turning and running North 31 degrees 17 minutes 6 seconds East six hundred and forty-four and 47/100 (644.47) feet to a portion of Lot A designated as a 40.00 foot wide right of way, and thence; Turning and running North 63 degrees 19 minutes 15 seconds West two hundred and seventy-nine and 71/100 (279.71) feet, and thence; turning and running by a curvature to the right the radius of which is one hundred and twenty (120) feet a distance of sixty-nine and 55/100 (69.55) feet, and thence; Turning and running by a curve to the left, the radius of which is 35.79 feet a distance of forty-four and 02/100 (44.02) feet to the Southeasterly side line of Old Marlboro Road, and thence; Turning and running by Old Marlboro Road North 85 degrees 41 minutes 50 seconds East fifty-eight and 34/100 (58.34) feet, and thence by a curve to the left, the radius of which is three hundred (300) feet a distance of forty-six and 09/100 (46.09) feet, and thence; Turning and running on a curve to the left the radius of which is twenty-six and 26/100 (26.26) feet a distance of sixty-four and 25/100 (64.25) feet, and thence; turning and running South 63 degrees 19 minutes 15 seconds East a distance of one hundred and nineteen and 13/100 feet (119.13), and thence; turning and running North 37 degrees 37 minutes 58 seconds East a distance of one hundred twenty-five and 89/100 (125.89) feet, and thence; turning and running South 64 degrees 19 minutes 42 seconds East a distance of seventy-nine and 09/100 (79.09) feet, and thence; turning and running South 63 degrees 19 minutes 15 seconds East for a distance of one thousand and sixty-seven and 11/100 (1067.11) feet to the point of the beginning, in fee simple, with all structures and trees thereon, and all appurtenants thereto, not however including poles, towers, lines, wires, cables and other equipment used for the conveyance of electricity and telephone communication and further excepting from rights herein taken all easements for the transmission, installation, and maintenance of gas, oil, electricity and telephone which may now exist, and further excepting from such taking easement rights for the construction, installation, and maintenance of a street with all utilities and drainage thereon and thereunder on the segment of Lot A on the said plan entitled "40 foot wide Right of Way" and to accept any federal, state or county assistance available for such purpose.

Unanimous.

Article 29. Motion by H. Boeske: Voted to authorize the Board of Selectmen to borrow the sum of \$49,000.00 to purchase or take by eminent domain, for a public domain devoted to the preservation of the water supply and other purposes permitted by Chapter 45 of the General Laws, a parcel of land in Maynard located East of Old Marlboro Road, comprising approximately 48.89 acres, and shown as Lot B on a plan entitled "Revised Compiled Plan of Land in Maynard, Mass. (known as "Clear-water Heights")" Acton Survey and Engineering Inc., John E. Dunphy, Registered Land Surveyor, said map being on file with the Town Clerk, and otherwise bounded and described as follows: by a line beginning at the Southeast corner of Lot A on said Plan and thence running South 31 degrees 17 minutes and 06 seconds West for a distance of one thousand one hundred twenty-nine and 76/100 (1129.76) feet, and thence turning and running North 62 degrees 39 minutes 27 seconds West for a distance of three hundred fifty and 32/100 (350.32) feet, and thence turning and running South 21 degrees 20 minutes 50 seconds West for a distance of nine hundred twenty-four (924) feet, and thence turning and running North 62 degrees 11 minutes 08 seconds West for a distance of four hundred twenty-four and 50/100 (424.50) feet, and thence turning and running North 6 degrees 43 minutes 30 seconds East for a distance of seventy (70) feet, thence turning and running North 17 degrees 28 minutes 30 seconds East for a distance of one hundred forty-two (142) feet, thence turning and running North 19 degrees 01 minutes 55 seconds East for a distance of seven hundred four and 57/100 (704.57) feet to a drill hole in a stone marker, thence turning and running North 58 degrees 44 minutes 57 seconds West for a distance of six hundred eighty-four (684) feet, thence turning and running North 50 degrees 22 minutes 48 seconds East six hundred and twenty-one (621) feet, thence turning and running North 40 degrees 39 minutes 31 seconds East for a distance of five hundred sixty-nine (569) feet, thence turning and running North 74 degrees 39 minutes 13 seconds West for a distance of one hundred eighty-one (181) feet, thence turning and running North 20 degrees 02 minutes 47 seconds East for a distance of three hundred ninety-five (395) feet, thence turning and running North 53 degrees 58 minutes 27 seconds East for a distance of sixty-one and 56/100 (61.56) feet, thence turning and running North 36 degrees 01 minutes 33 seconds West for a distance of ninety-one and 74/100 (91.74) feet, thence turning by a curve to the left the radius of which is twenty-eight and 11/100 (28.11) feet for a distance of forty-one and 96/100 (41.96) feet to Old Marlboro Road, thence turning and running on Old Marlboro Road on said plan one hundred and three and 69/100 (103.69) feet, thence turning and running by a curve to the left the radius of which is twenty-five and 24/100 (25.24) feet for a distance of forty-nine and 29/100 (49.29) feet, thence turning and running South 36 degrees 01 minutes 33 seconds East for a distance of one hundred thirty-five (135) feet, thence turning and running North 85 degrees 03 minutes 03 seconds East for a distance of eighty-nine and 48/100 (89.48) feet, thence turning and running North 43 degrees 40 minutes 54 seconds East for a distance of one hundred and sixteen and 17/100

(116.17) feet, thence turning and running South 63 degrees 19 minutes 15 seconds East for a distance of two hundred seventy-nine and 71/100 (279.71) feet, thence turning and running South 31 degrees 17 minutes 06 seconds West for a distance of six hundred forty-four and 47/100 (644.47) feet, thence turning and running South 58 degrees 42 minutes 54 seconds East for a distance of seven hundred and ninety-three (793) feet, thence turning and running South 85 degrees 16 minutes 48 seconds East for a distance of two hundred twenty-three and 61/100 (223.61) feet to the point of the beginning, or however otherwise it may be bounded described, in fee simple, with all structures and trees thereon, and all appurtenant rights thereto, not however including poles, towers, lines, wires, cables and other equipment used for transmission of electricity and telephone communication and all easements for the installation, transmission and maintenance of telephone, electricity, gas and oil, which now exist and to authorize the Board of Selectmen to apply for and to accept any Federal, County, or State assistance available for such purpose.

Unanimous.

At 11:20 p.m. a motion was made by H. Boeske and approved to adjourn until the following evening at 7:30 p.m.

March 5, 1969. At 7:30 p.m. Moderator Genest called the meeting to order and declared a five minute recess as a quorum was not present. At 7:35 p.m. Moderator Genest declared a quorum present.

Motion by V. Tomyl to waive reading of articles in detail. This carried.

Article 30. Motion by A. Crowley: Voted to amend the By-Laws of the Town of Maynard by adding the following: (under authority of Section 108A of Chapter 41 of the General Laws)

Section XIX Job Titles and Standard Rates for Wages & Salaries
Full Time Employees

Police Department

Photographic Officer	8,400.00	8,600.00	----	----
Prosecuting Officer	8,400.00	8,600.00	----	----

Section XX Job Description of Principal Assignments

Photographic Officer: Must be a permanent member of the Maynard Police Department with a minimum of three years service, one of which has been spent in this classification. His duties will include the photographing, processing, and keeping of all necessary records in performing his duties. He will receive a salary amounting to (\$400) four hundred dollars over the

Patrolman's Maximum as a starting salary and (\$600) six hundred dollars a year over a Patrolman's maximum upon completion of one year's service. His position will be filled by the Police Chief, subject to the approval of the Selectmen and the Personnel Board.

Prosecuting Officer: His duties will include the record keeping, preparation and presentation of all court actions. The service requirements, wages, and filling of this position are the same as those of the Photographic Officer.

Article 31. Motion by A. Crowley: Voted to appropriate the sum of \$400.00 to the Police Salary Account for the employment of a Photographic Officer.

Article 32. Motion by W. Dodd: Voted to appropriate the sum of \$400.00 to the Police Salary Account for the employment of a Prosecuting Officer.

Article 63. Motion by H. Reagan: Voted to authorize the Town of Maynard to join the East Middlesex Mosquito Control Project and to appropriate the sum of \$5,000.00 for this purpose.

Article 64. Motion by A. Rogers: Defeated. Re: Tennis Courts at Alumni Field.

Article 65. Motion by A. Crowley: Unanimously voted to appropriate the sum of \$46.00 to pay unpaid 1968 bills for the Police Department.

Article 66. Motion by V. Tomy: Defeated. (No member of the Board of Appeals shall also serve as a member of any other town board or committee).

Vote -- 22 in favor; 79 opposed.

Article 67. Motion by J. King: Voted unanimously to amend the By-Laws of the Town by adding the following new section to Chapter XIV-General, to be numbered Section 6.

Section 6.

The By-Law Committee shall in addition to the other duties prescribed by law at least once in ten (10) years cause to be printed and revised for distribution all the By-Laws of the Town. Said By-Laws shall be distributed free of charge to all departments in the Town, but the By-Law Committee shall determine and the Town Clerk shall collect for the benefit of the Town a reasonable charge for all other copies thereof.

Article 68. Motion by J. King: Voted unanimously to appropriate the sum of \$700.00 (seven hundred dollars) for the purpose of the printing and revision of our present Town By-Laws.

At 11:47 p.m. R. Anderson made a motion to adjourn, which carried overwhelmingly.

Counters for the three nights were -- Nettie Watson, Ruthmary Armour, Judith Hill and Christine Molloy, assisted by Ellen Shaw and Margaret Piecewicz.

Attest:

INGRID A. MARTIN
Town Clerk

Boston, Mass.
June 3, 1969

The foregoing amendments to zoning by-laws adopted under Articles 18, 19 and 21 are approved.

ROBERT H. QUINN
Attorney General

A true copy: Attest:

INGRID A. MARTIN
Town Clerk

The foregoing amendments to zoning by-laws were advertised in the Enterprise Weekly on June 26 and July 3 and 10, 1969.

SPECIAL TOWN MEETING

November 17, 1969

The Special Town Meeting was called to order at 7:30 p.m. by Moderator Emile Genest who declared a quorum present.

Article 1. There were no reports of Town Officers or Committees.

Article 2. Motion by T. Cocco: (Parking Meters) Voice vote was doubted and the tellers were called in. Count showed 111 in favor, 137 opposed. Article was defeated.

Article 3. Motion by J. Dineen: Voted unanimously to transfer from the Excess and Deficiency Account the sum of \$210.95 for the payment of a 1967 unpaid Veterans Benefits Hospital bill.

Article 4. Motion by K. Spratt: Voted to establish as a Town Way and to accept the layout of Colbert Avenue made by the Board of Public Works and approved by the Planning Board and filed in the office of the Town Clerk. Beginning at the already accepted section of Colbert Avenue and extending easterly 255'00 plus or minus, to the end of a cul de sac. Said road being known as the Lemoine Subdivision, a plan of which is on file in the South Middlesex Registry of Deeds; and to accept sewer and water mains and services and drain lines and structures constructed in said road and dedicated to the Town.

Article 5. Motion by J. Tomyl: (Sewer on a part of Great Rd.) Did not carry.

Article 6. Motion by H. King: Voted unanimously to transfer from Excess and Deficiency Account the sum of \$6,337.42 to defray the additional cost of Tax Anticipation Notes.

Article 7. Finance Committee recommended tabling until Annual Town Meeting in order to study this article further.

Motion by J. Coleman and an amendment inserted after the word "government" so that the article was voted as follows:

Voted to establish a board to be known as the Industrial Development Financing Authority, under Chapter 772, Acts of 1967, Board of Selectmen shall appoint five residents of the Town to said board to serve the terms of 1, 2, 3, 4, and 5 years respectively and thereafter for five years. At least one director shall be experienced in financial matters, one in real estate matters, and one in town government. The town declares that there is hereby created this board as needed for security against future unemployment and lack of business opportunity and that unemployment or the threat thereof can be alleviated or the security against future unemployment and lack of business opportunity can be provided, by attracting new industry to the town or substantially expanding industry existing in the town through an industrial development project or projects financed under this chapter.

Article 8. Motion by J. Coleman: Voted to amend the Protective Zoning By Laws by deleting reference to the thirty-five (35) foot set back requirement as provided for in Section 5, sub-section F-2, Business Districts, for garages and filling stations.

Vote -- 363 in favor, 4 opposed. 242 needed for two-thirds vote.

Article 9. Motion by J. Coleman: Voted to amend the Protective Zoning Bylaw by deleting in its entirety Section 7, Non-conforming Uses and to substitute therefor the following:

Section 7.

Non-Conforming Uses

1. Continuation

The lawful use of any structure or land existing at the time of the enactment or subsequent amendment of this bylaw may be continued although each structure or use of land did not conform with the provisions of this bylaw as adopted or amended.

2. Extension

No extension in the extent of the non-conforming use of a structure or land may be beyond the limits of the property

owned at the time of the enactment or subsequent amendment of this bylaw. Alteration, reconstruction and extensions of structures or use of land or new construction of structures on land owned as hereinbefore provided is permitted so long as the use of the structure or land is for substantially the same use, as determined by the Board of Selectmen.

3. Changes

Any non-conforming use may be changed to another non-conforming use or any non-conforming building may be rebuilt or repaired incident to a change under this sub-section upon permit from the Board of Appeals. Such change is not to be substantially different in character or more detrimental or objectionable to the neighborhood.

Once changed to a conforming use, no structure or land shall revert to a non-conforming use.

4. Discontinuance

A non-conforming use which has been discontinued for more than two (2) years shall not be re-established and any future use shall conform with this bylaw.

Vote -- 326 in favor; 14 opposed. 226 required.

Article 10. Finance Committee changed recommendation to "recommend". Motion by G. Lemire: Voted to transfer from the Excess and Deficiency Account the sum of \$650.00 for the Public Library to be used for the purpose of hiring a consultant for planning and equipping a children's library, workroom, office, storage and stock areas on the lower floor of the library, also the relocating and additional adult services on the main floor.

Article 11. Motion by A. Rogers: Voted unanimously to transfer the sum of \$5,000.00 from the School Salary Account to the following accounts:

Special Education	\$2,500.00
Vocational Education	\$2,500.00

Article 12. Motion by D. Doyle: Voted that the present Maynard School Building Committee be authorized to contract for architectural services for plans and specifications of a new elementary school building on land owned by the Town off Summer Street; that the sum of \$100,000.00 be appropriated for that purpose and that to raise this appropriation \$10,000.00 be transferred from the School Building Committee account and the Treasurer, with the approval of the Selectmen, be authorized to borrow \$90,000.00

under Chapter 44 of the General Laws as amended for one year.

Vote -- 264 in favor; 82 opposed. 230 required.

Article 13. Withdrawn.

Article 14. Motion by D. Doyle: Voted to authorize the Maynard School Building Committee for formulate plans for renovating and equipping of the Coolidge, Green Meadow, and Roosevelt Schools as recommended by the Committee; and further voted to transfer from Excess and Deficiency Account the sum of \$9,000.00 for the purpose of procuring working drawings and bids and related necessary expenses for said renovation and equipping; and any other necessary expenses to be incurred in carrying out this purpose and that this Committee be given the authority to contract therefor. Progress and recommendations of this Committee shall be reported to the Town at a future Town Meeting.

Motion to adjourn at 10:50 p.m.

Counters for the evening were Ruthmary Armour, Christine Molloy, Nettie Watson, Judith Hill, Marian Weaving and Ruth Camelio.

INGRID A. MARTIN
Town Clerk

December 5, 1969
Boston, Mass.

The foregoing amendments to zoning by-laws adopted under Articles 8 and 9 are approved.

ROBERT H. QUINN
Attorney General

A true copy: Attest:

INGRID A. MARTIN
Town Clerk

The foregoing amendments to zoning by-laws were advertised in the Assabet Valley Beacon on December 11, 18 and 24, 1969.

REPORT OF THE FIRE CHIEF

To The Honorable Board of Selectmen:

I hereby submit the report of the Fire Department for the year 1969.

The number of alarms responded to by the fire department has again increased this year. Though they were not all alarms for fire they were of an emergency nature and the fire department was available to handle them.

Again this year members of the fire department attended fire science classes and training sessions at community colleges and at the fire training academy. These men gave freely of much of their own time to attend these classes and training sessions.

Chief George Whalen and Captain Leonard McKenna attended classes on Municipal Fire Administration at Massachusetts Bay Community College. Captain Richard Higgins and Captain Anthony Arcieri attended classes on Fire Protection at Quinsigmond Community College. Captain Leonard McKenna attended a three-week course on Fire Instructor Training and Firefighters Theodore Clancy and Francis King attended a two-week course on Advanced Firefighting at the Massachusetts Fire Training Academy. All regular members of the department train daily and call members twice a month.

In 1969 all fire alarm boxes were tested and inspected bi-monthly and inspected after each electrical storm as required by NFPA. All fire alarm boxes were cleaned and oiled this summer per annual schedule.

The internal alarm system and the master box located at the Housing for the Elderly was tested and connected to the municipal fire alarm system in May of 1969.

In June of 1969 a new fire alarm numbering system was put into effect for better protection to the town. This project required a year to complete, thus allowing more fire alarm box locations with boxes to be installed as required with numbers assigned per area and grouping.

This year I am requesting a new fire alarm control panel and box transmitter which will accept all the features of the new three fold fire alarm boxes now being installed on a replacement basis.

In the year just past all mercantile establishments, schools and places of assembly have been inspected. Several of these required a return visit because of conditions found in the course of a previous inspection. During the year the fire department found it necessary to issue three (3) Notices of Violations. In all cases the conditions were remedied on receipt of notice. In the

Report of The Fire Chief continued

majority of cases, persons concerned have been very cooperative in following the fire department's recommendations for remedying unsafe conditions. This past year an inspection procedure was instituted whereby in-service inspections are carried out on the first and third Monday of each month, or more often if conditions warrant it.

During Fire Prevention Week the men of the department visited all elementary schools, and a special program entitled "In Fire Seconds Count" was presented to the fourth and fifth grades. This program dealt with home fire escape. Periodic fire drills have been held in all schools throughout the year.

The fire department feels that the time has come for the town to give serious thought to the adoption of a Fire Prevention Code.

All regular maintenance work such as lubrication, oil changes, tune-ups, brake system and cooling systems maintenance is scheduled at regular intervals. All maintenance recommended by vehicle manufacturers is performed. A daily apparatus check, a thorough weekly check, and an extensive monthly check are part of the program.

Due to advancements in firefighting operations, many changes have been made to the older apparatus so that these advancements could be installed into our fire attack plan. Some of the changes to the apparatus to improve our operations are:

Engine #1 -- Splitting the hose bed so that 2 hose lines can be laid at once. Two 1-1/2" hose lines preconnected to apparatus for fast fire attack.

Engine #3 -- 3" hose used for large volume of water for initial attack. Preconnected deluge gun for fast attack on large volume fires. Scott Air Pak mounted in cab for quick rescue in toxic atmospheres.

Ladder #1 -- Battery charger installed on Ladder Truck to keep battery fully charged at all times.

All of this work was accomplished by the men on duty.

This year I am requesting a 1250 gallon-per-minute pumper to replace Engine #2, a 1949 500-gallon-per-minute pumper. It cannot be expected that a piece of apparatus built for the conditions of 1949 to be able to do the job required in 1970.

This year a Fire Hydrant Maintenance Program was instituted. A record card has been made for every hydrant in the town which gives the location, make, type, gallonage flow and

Report of The Fire Chief continued

maintenance performed. At the present time there are 297 hydrants in the Town of Maynard.

During this program, every hydrant was flushed, outlets lubricated and flow tested. Following the test, all necessary hydrants were color coded as follows:

Green Tops and Caps	1000 gallons per minute or more
Yellow Tops and Caps	500-1000 gallons per minute
Red Tops and Caps	250-500 gallons per minute
Black Tops and Caps	less than 250 gallons per minute

Maintenance procedures have been adopted for the interior and exterior of the Fire Station. Because of these procedures the station is constantly kept in good condition.

In closing I would like to thank all other town departments and town officials for their assistance during the past year.

GEORGE F. WHALEN
Fire Chief
Maynard Fire Department

CYRIL F. CLARK

August 1938 - April 1969

REPORT OF THE CHIEF OF POLICE

To The Honorable Board of Selectmen:

I herewith submit my annual report as Chief of Police for the year ending December 31, 1969.

The Maynard Police Department responded to more than four thousand complaints, emergencies, and calls for assistance in the year 1969. The constant investigation into the narcotic problem has brought about eighteen arrests. Eleven of these arrests for violation of the Narcotic Drug Law were made on people not from Maynard. Seven were local residents. Nine were adults and nine were minors. Two of our men received training from the Federal Bureau of Narcotics and they have made our task much easier, although we are far from solving the problem altogether.

The increase in our industry is welcome but naturally has brought new problems that the police department must cope with. In spite of the ever increasing traffic we are thankful that there were no fatalities as a result of the accidents that took place in the year 1969. We would like to be able to say the same at the end of 1970.

The police department cruiser ambulance was used to transport over three hundred emergency cases to the hospital with the able assistance of the fire department. Most of these were heart attack cases and the rest were due to accidents and sudden illness. All of the men received First Aid Training from the Red Cross and this will be repeated in 1970.

The appearance of more serious crimes in Maynard and surrounding towns indicates the change that is taking place in the area. We will do our utmost to keep it in check.

Court Cases and Arrests in 1969

All Clear — Three series of 3 single blasts

3 at 7:00 A.M. or 12 Noon — No school for first six grades

5 at 7:00 A.M. or 12 Noon — No school all grades

REPORT OF THE MAYNARD HISTORICAL COMMITTEE

To the Honorable Board of Selectmen:

We present herewith the annual progress report of the Maynard Historical Committee for the year 1969.

Research has continued and monographs presented at each meeting.

We are now at a crucial period. All of our work to date is being reviewed by the Committee and arranged by chapters in proper historical sequence. Many hours have been spent by a dedicated few, who desire to have the fruits of their labor a lasting credit to the town. In order to fulfill our purpose, we urgently request that everyone who has agreed to prepare a monograph will realize that time is short and will turn them in immediately.

The complete material must be given to the printer in early Fall, in order to have the "History of Maynard" available for sale to the public by January 1, 1971. It will be published in both hard and soft cover.

Many articles of historical value have been donated by interested citizens. We hope all will continue their search for articles, pictures, books, medals, etc. We plead again for everyone not to throw away anything that might be of historical value to the town. Contact one of the members of the Historical Society.

The Maynard Historical Society now has about thirty-five dues paying members. We are seeking new members and assure all a most cordial welcome to our ranks. We meet once each month, on the fourth Wednesday, at the Town Buildings. Our meetings are always open.

The Historical Committee has asked the Selectmen to place an article on the warrant for the annual town meeting to create an Historical Commission under the General Laws.

Respectfully submitted,

HISTORICAL COMMITTEE

Ralph L. Sheridan, Chairman
Birger R. Koski, Vice-Chairman
Beverly G. Allan, Secretary
Winnifred G. Hearon, Treasurer
Elizabeth M. Schnair, Publicity

REPORT OF THE MAYNARD CENTENNIAL COMMITTEE

To the Honorable Board of Selectmen:

Herewith presented is a progress report of the Maynard Centennial Committee for the year 1969.

This committee held 10 meetings during the past year. To assist the Executive Committee in preparation for the Centennial Celebration, the following divisions were created and the positions filled by the committee:

1. Revenue
2. Publicity
3. Participation
4. Special Events

Maynard was incorporated on April 19, 1871, so the committee voted to set April 19, 1971, as Commemoration Day. Saturday, June 26, through Sunday, July 4, 1971, has been designated as the actual celebration period.

In order to strike a commemorative medal for the Centennial, the committee announced there would be a contest to design an appropriate medal. The contest rules were published in the local newspapers but the response has not been as good as expected.

In closing we urge more participation by any interested persons in the work of the various divisions. Everyone is welcome to all meetings.

Respectfully submitted,

WILLIAM BENNETT, Chairman
VIRGINIA MURPHY,

Secretary-Treasurer
BIRGER KOSKI

ELIZABETH SCHNAIR

RALPH SHERIDAN

JOSEPH BOOTHROYD (Alternate)

REPORT OF THE SEALER OF WEIGHTS AND MEASURES

To the Honorable Board of Selectmen:

The annual Report of the Sealer of Weights and Measures is submitted herewith.

The following number of scales, weights, metering and measuring devices were checked, adjusted and sealed. Charges for the sealings were collected and turned into the Town Collector.

12	Scales, 100-5,000 lbs.	\$ 60.00
45	Scales, 10-100 lbs.	90.00
6	Scales, under 10 lbs.	6.00
17	Weights	1.70
5	Vehicle Tanks	25.00
57	Gas Pumps	114.00
9	Grease Pumps	18.00
6	Yard Sticks	.60
1	Measurer, rope cordage	1.00
		<hr/>
		\$316.30

I wish to commend the merchants of Maynard for their co-operation and compliance with good merchandising practices.

Respectfully submitted,

CLEMENT B. MURRAY
Sealer of Weights and Measures

REPORT OF THE BUILDING INSPECTOR

To the Honorable Board of Selectmen:

May I, herein, submit a resume of the activities of the Building Inspection Department for the year 1969.

A total of 77 permits were issued in the following categories:

2	New Residences
5	New Business Buildings
10	Remodel of Business Properties
18	Remodel of Residences
34	Additions to Residences
5	Pools Installed
3	Demolish Buildings

May I take this opportunity to thank the staffs of the various Boards for their cooperation and assistance throughout the year.

Respectfully submitted,
FORREST W. NELSON
Inspector of Buildings

REPORT OF THE GAS INSPECTOR

To the Honorable Board of Selectmen:

During the year 1969 there were 273 gas permits issued.

Inspections were made on all installations. The work done on all installations was most satisfactory.

Respectfully submitted,
WARREN E. BEMIS
Gas Inspector

REPORT OF THE INSPECTOR OF WIRES

To the Honorable Board of Selectmen:

Herewith is presented the report of the Wire Department for the year ending December 31, 1969.

There were one hundred forty-three (143) permits issued during this period:

1	Factory
22	New Homes
3	Electric Heated Homes
2	13,800 Service (Digital & Atkins, Merrill)
45	100 AMP Services
<u>70</u>	Service Increases, Wiring Repairs and Miscellaneous

Total 143

The Wire Department wishes to thank the Board of Selectmen, the Fire Department and the Boston Edison Company for the fine co-operation they gave us throughout the year.

Respectfully submitted,

BENJAMIN A. BIGUSIAK
Inspector

VICTOR A. CARUSO
Assistant Inspector

REPORT OF THE BOARD OF ASSESSORS

To The Citizens of Maynard:

The Annual Report of the Board of Assessors for the year ending December 31, 1969, is submitted herewith.

In accordance with the provisions of the General Laws of Massachusetts, Chapter 59, Section 29, all owners of taxable property, shall each year, on or before March 1st, submit to the local Assessors a list with the valuation of their taxable property. Notices are posted and forms may be obtained at the Assessors' office in the Municipal Building.

All requests for abatement or exemption of taxes must be filed on forms which can be obtained at the Assessors' Office. All applications for abatement or exemption of Personal Property Taxes or Real Estate Taxes must be filed on or before October 1st of each year, except for certain Veterans, Widows and Elderly persons who must file on or before December 15th of each year.

TOWN ACCOUNTANT'S REPORT

To The Honorable Board of Selectmen:

Herewith is presented the report of the Accounting Department for the year ending December 31, 1969. The report is made in accordance with the requirements of the State System of Accounting.

In accordance with the provisions of Section 61, Chapter 41, of the General Laws, I hereby certify that I have verified the cash balance of the Town Treasurer as of December 31, 1969.

The cash balance on December 31, 1969 was \$456,753.42.

In accordance with the provisions of Section 23, Chapter 59, of the General Laws, as amended, the amount available funds or "free cash", as of December 31, 1969, is \$238,087.38.

The courtesy and cooperation received from the various Town Boards, officials and employees is gratefully appreciated.

Respectfully submitted,

JAMES V. KING
Town Accountant

REPORT OF THE BOARD OF REGISTRARS OF VOTERS

To the Honorable Board of Selectmen:

The Board of Registrars herewith submits its annual report for 1969.

The annual listing of residents twenty years of age and older was begun on January 2 and completed at the end of the month. Also a listing of all dog owners.

Special registration sessions were held on Saturday, February 1 from twelve noon until ten in the evening; Tuesday, February 4, from seven to nine p.m.; and Tuesday, February 11 from seven to ten p.m.

Deceased voters and voters who had left town were removed from the list. At the close of registration, and prior to the annual town meeting, the total count showed 4,423 registered voters, comprised of 1,726 Democrats, 773 Republicans and 1,924 Independents.

Respectfully submitted,

FREDERICK S. JOHNSON,

Chairman

CLARK HOOPER

MADALINE K. LUKASHUK

INGRID A. MARTIN, Clerk

Board of Registrars of Voters

ASSABET VALLEY REGIONAL VOCATIONAL DISTRICT SCHOOL COMMITTEE REPORT

Your committee recognizes the pressing need for increased vocational educational training for the youth of this district and has been methodically preparing for the eventual construction of a 1500 pupil regional vocational school.

Many of the details that have to be considered carefully when one plans a facility of this magnitude have been covered and acted upon by the committee during 1969. We are now nearing the point in the planning phase when our preparatory detail work is starting to make itself apparent. We expect the physical aspects of the planning to progress much more rapidly during the coming year.

Early in 1969, Mr. Albert Mlawsky was hired as the Superintendent-Director of the district by unanimous vote of the seven member committee. Mr. Mlawsky, a former Supervisor and Vocational Curriculum expert for the New York City Board of Education, started working for the district in March of 1969 and since his appearance on the scene the work pace has been stepped up considerably.

The Educational Specifications have been completed by the Superintendent Director and are presently under consideration by the State Department of Education, Division of Vocational Education. Based on various professional opinions, these educational specifications are considered to be excellent and approval is expected.

The Ed Specs have already been turned over to our architect, Alderman and MacNeish of Springfield, Mass. This firm is presently working on the preliminary drawings. During the next seven or eight months, the committee, Mr. Mlawsky, various consultants and the architects will be studying, revising and improving the plans for the school. This procedure will provide the most functional type edifice possible within a reasonable price range that will not overburden the taxpayer.

The target for the completion of the plans in September 1970, at which time the final funds for construction will have to be approved by the committee. With another positive response from the voters of the district it is possible that ground will be broken in the fall of 1970.

The site for the school has been selected and received initial approval from appropriate state agencies. As publicized earlier, the site is approximately 90 acres of land in Marlboro, between Bolton Street (Route 85) and Fitchburg Street, bordering the Hudson Town Line. The committee, after much research, selected this site because of its proximity to the geographical and population centers of the entire district. The site has good access for school buses along Route 85 and eventually Routes 290 and 495.

Vocational School Committee Report continued

During the past year Guerard Survey Co. of Westboro has completed a thorough topographical and property line survey. Test borings and percolation tests have also been performed and the results have been approved by the State Board of Health. The land was appraised by Daniel R. Riordan Associates of Worcester and eminent domain proceedings to take the land will begin in January 1970.

Last September the committee voted to borrow \$575,000.00 in order to pay for the appraised value of the land (\$120,000.00) along with architectural fees, legal fees and site preparation expenses. This planning cost met with the unanimous approval of the district as a result of action by City Council, Selectmen and Town Meetings.

In conjunction with the planning aspects of the project, the School Committee upon recommendation of the Superintendent is appointing Advisory Councils. These committees, composed of key employees working in industry throughout the region will act as advisors to the superintendent relative to curriculum, equipment purchases and industrial needs. Their influence should help the superintendent in preparing the educational program so that the graduates of this school will be better prepared for their transition into the labor market.

The Committee has studied the labor market and industrial needs within commuting distance, and has decided on the following twenty course offerings:

Auto Body Repair	Electronics
Auto Mechanics	Food Trades
Carpentry	Graphic Arts
Commercial Art & Design	Health Services Assistant
Cosmetology	Homemaking and Child Care
Data Processing	Machine Shop
Dental Assistant	Maintenance Mechanic
Distributive Education	Painting and Decorating
Drafting	Practical Nursing
Electrical Wiring	Sheet Metal & Metal Fab.

We feel that these twenty areas will best serve the students and our region. The School will be designed, however, with maximum flexibility and as new industrial needs are created and others phased out, we will be able to alter our curriculum in order to accomodate these expected changes.

In closing we would like to sincerely thank the City Council of Marlborough, the Selectmen and Finance Committees and other town officials of the district for the support and cooperation that all have extended to this regional endeavor. But most of all we are grateful to the voters and taxpayers of the region, who already under a heavy tax burden, have seen fit to financially support this project.

Vocational School Committee Report continued

All of us recognize the tremendous vocational needs of the youth of the region and the educational potential that the regional vocational school offers to students of all ages. We also recognize that the regional vocational school will be an economic asset to an industrially oriented area and that the future industrial growth will provide the entire district with increased employment opportunities.

REPORT OF THE
MAYNARD SCHOOL BUILDING COMMITTEE

The Maynard School Building Committee respectfully submits its third annual report to the citizens of Maynard.

There were over thirty regular meetings held this past year and many other meetings by the various sub-committees on educational specifications, brochures, site and other areas relating to school planning and construction. Committee members visited several Elementary Schools and with the Massachusetts School Building Assistance Bureau in Boston.

The Committee prepared a report and brochure for the annual town meeting in March. The motion to request the sum of \$144,000.00 for the purpose of procuring final working plans and bids was defeated by the voters. The voters did approve an article to purchase some 10 acres off Summer Street as recommended by the committee.

Shortly after the annual town meeting the building committee published a series of press releases relative to the questions raised at the annual town meeting. Citizens were invited to attend the regular meetings and a public hearing was held.

The Building Committee in the light of the town's action at the annual town meeting reviewed Maynard's educational needs. The Committee prepared a report, brochure and held a public hearing on its new proposal. A special town meeting was requested and was held in November. At this meeting the voters approved \$100,000 for architectural services for plans and specifications for a new elementary school on town owned land off Summer Street. The town also voted to approve the sum of \$10,000.00 to formulate plans for renovating and equipping of the Coolidge, Green Meadow and Roosevelt Schools.

As soon as all working drawings, specifications and bids are received, the Maynard School Building Committee will call for a special town meeting to request the amount of monies needed to carry out its program as voted by the citizens at the special town meeting. If this is voted, ground can be broken in the spring and the school will probably be ready for the 1971-72 school year.

Respectfully submitted,
Maynard School Building Committee

REPORT OF THE LIBRARY TRUSTEES

The Board of Trustees of the Maynard Public Library herewith submits its annual report for the year 1969.

Early in the year Mrs. Olive Alatalo filled the vacancy left by the resignation of Library Clerk, Mrs. Julie LeSage. Other personnel changes included Joanne Falco as an assistant during vacations, to replace Deborah Gott and the addition of Lynn Walsh as a library page.

During the month of April, faithful trustee, Mr. Frank Punch passed away (April 20th). With 17 years of loyal service as a Board member, Mr. Punch left a vacancy difficult to fill. Chairman George Lemire and Secretary Doris Fardy voted to remain in office for the coming year. On September 30th in the Selectmen's Office, a vote was taken (secret ballot) and from the three named candidates, Mr. Richard White was voted to fill the third member vacancy on the Board.

Beneficial projects and donations were generously enjoyed during the year. In April, Head Librarian, Mrs. Edith Carbone, received a check for \$100 from Digital, a sum to be used specifically for the purchase of books.

In October the library received a record-player through the courtesy of the Library of Congress. Likewise, the Perkins School for The Blind donated talking books and magazines for those with impaired eyesight.

The Library served the perceptually handicapped class, under the direction of Mrs. Sullivan, with classroom books.

To keep up-dated in library-procedures and techniques, Mrs. Carbone and her staff librarians attended several workshops and lectures on children's literature.

On November 15th at a special town meeting it was voted "to appropriate or transfer from any available funds in the treasury the sum of \$650.00 for the Public Library to be used for the purpose of hiring a consultant for planning and equipping a children's library, workroom, office, storage and stack areas on the lower floor of the library, also the re-locating and additional adult services on the main floor". Mr. Jack Bryant of the Worcester Public Library has been chosen as the consultant.

Library trustees are necessary as the librarian cannot and should not be expected to carry the tremendous responsibility of administration and policy-making alone. Trustees represent the library both to the community and to the officials of the town.

As members of the Board, the Trustees have made sincere effort to fulfill their responsibilities for the past year. We have attempted to learn what were the appropriate objectives for the library in our community, to find the library personnel qualified

Report of The Library Trustees continued

to attain these objectives and to secure the funds that will make their attainment possible. We are convinced of the vital importance of having an efficient library in the town of Maynard. We feel that libraries are as assential as schools in developing an alert and informed population. And though our Maynard Public Library is one of the many hundreds of smaller libraries in the United States, we wish to serve the school children, the young people, the women's clubs, the business interests, the church groups and all the other community agencies with as much efficiency in its small way as does the large library with its thousand or more employees in its large way.

We wish to express our sincere gratitude to the Head Librarian and her diligent staff, to the large number of friends of the Library, to those who volunteer their services spontaneously, and to the many thoughtful donors of books and gifts who have all contributed toward making the Maynard Public Library a cultural center of which the townspeople can be justly proud.

Respectfully submitted,

GEORGE J. LEMIRE, Chairman
DORIS G. FARDY, Secretary
RICHARD T. WHITE, Third
Member

REPORT OF THE LIBRARIAN

This has been a busy year. Each new service makes additional work, but the staff remains the same. A library page, assisting during vacations helped, but having a year-round page would release our staff for more important duties.

Under the direction of Mrs. Goodwin, seventy-eight Story Hours for pre-schoolers have been held. Average attendance was thirty children - a 20% increase over last year.

A "Busy-Bee" reading club was held during the summer and a seventh grade group read and discussed books with Mrs. Alatalo.

For their Community Service work, the Maynard Girl Scouts, Bluebirds and Campfire Girls made name tags for the Story Hour children. Bluebirds and Campfire Girls helped to decorate the library with Christmas decorations they had made.

Maynard Boy Scouts, Troop 1, bundled all discarded magazines and papers for the paper drive. Our magazines then needed a complete reorganization which John O'Buck undertook as his Eagle Scout Community Service project, assisted by other scouts. In June this troop also helped with the book sale.

Seven film programs for children in Grades 1 to 4 have been held.

Workshops, local, regional and state meetings have been attended by staff members and myself.

National Library Week and Children's Book Week were observed.

The Maynard Woman's Club sponsored a very successful used book fair for the benefit of the library. The goal is a movie projector for the library and for authorized groups to borrow. We are asking for supplementary funds in order to purchase one. Films are available at the Boston Public Library without cost to any organization.

The following have donated books or magazines:

Mr. and Mrs. Olavi Alatalo	Howard E. Boeske, Jr.
Mr. and Mrs. Albert Alexanian	Boston Edison Co.
Mr. and Mrs. Nicholas Barilone	Digital Equipment Corp.
Mr. and Mrs. Edmund Boeske	Inforonics, Inc.
Mr. and Mrs. Walter Carbone	American-Arabian Oil Co.
Dr. and Mrs. Samuel Cremer	United Fruit Company
Mr. and Mrs. Vincent Dimery	Christian Science Church
Mr. George Bradley	Mrs. Ralph Boardman
Mr. Burton Gruber	Mrs. Bessie Dockerty
Mr. Leo Linteri	Mrs. Robert Duggan
Mr. Francis Ward	Mrs. Sidney Cohen
John MacKeen	Mrs. Eugene Erb

Report of The Librarian continued

Mrs. Madaline Lukashuk	Miss Mary Howe
Mrs. Barbara Hunter	Library Trustees and Staff
Mrs. Shirley F. Mosher	Maynard Women's Club
Mrs. Dorothy Hamlin	Bridge Club
Mrs. Victor Nicholas	Steam Bath Crew
Mrs. Ebba Kivinen	Maynard High School,
Mrs. Philip A. Wilson	Class of 1930
Mrs. Gilda (Carbone) Mullins	Lutheran Church

Veterans of Foreign Wars, Post No. 1812
 Veterans of Foreign Wars, Ladies Auxiliary

Books have been donated in memory of Mr. and Mrs. Otto Alatalo, Mrs. Gertrude Wiley, Mrs. Bernice A. Bean, Mrs. Charlotte Stockbridge, Mrs. Gertrude Gruber, Mrs. Gertrude Keene, Mr. Salvatore Graceffa, Mr. Sidney Cohen, Mr. Charles Warren, Mr. John Kivinen, Mr. R. Frank Punch, Mr. John Johnston, Mr. Gustava Katvala, Steven B. Alexanian, Ronald Cormier, George E. Garlick and Frank Smith.

During the summer we enjoyed flowers from the garden of Mr. Milton Whitney.

The staff joins me in thanking those who have been so kind to us.

EDITH N. CARBONE
 Librarian

REPORT OF
THE PUBLIC WORKS COMMISSIONERS

To the Citizens of Maynard:

Herewith is presented the Report of the Board of Public Works for the year ending December 31, 1969.

The resurfacing program which has been going on the past several years, with bond issue money from the State, saw the completion of Florida Road, Hayes Street and Glendale Street this year.

There wasn't any bond issue money for 1969, but a new allotment will be available to us during 1970.

Water consumption is increasing two fold and White Pond dropped to its lowest elevation since 1965. Water Search is now being conducted in the Military Reservation and at the old Mason Farm.

The final plans for the addition and improvements to the Sewer Disposal Plant will be completed this coming year and construction will then begin.

Sanitary Landfill operations are continuing at an ever increasing rate and it will not be too long before incineration will replace Sanitary Landfill because of the lack of space.

The Tree Department is a very busy place with Dutch Elm still taking its heavy toll. With the removal of dead trees and the trimming of branches on other trees wherever needed, it is becoming an almost impossible task to keep abreast of the work. New trees are being planted upon request as long as the supply lasts.

In the near future a truck with a boom and basket will be necessary, to make for a better and safer job for all concerned.

Respectfully submitted,

JOHN J. TOBIN, Chairman
JOHN F. TOMYL, Secretary
MICHAEL BARILONE

REPORT OF THE SUPERINTENDENT OF PUBLIC WORKS

To the Commissioners of Public Works:

Herewith is submitted the Annual Report of the Superintendent of Public Works for the year ending December 31, 1969, which includes Highway, Water, Sewer, Cemetery, Parks, Trees, Insect Pest Control, Parking Areas and Sanitary Landfill.

HIGHWAY DIVISION

Streets treated with Asphalt Oil:

Espie Avenue	Chandler Street	Bates Avenue
Driscoll Avenue	Elmwood Street	Sheridan Avenue
Acton Street	Butler Avenue Ext.	Roosevelt Street
Elm Court	Wood Lane	Arthur Street
Maple Court	Harrison Street	Deane Street
Lewis Street	Walker Street	Charles Street
Fairfield Street	Crane Avenue	Dartmouth Street

Streets resurfaced with Type I Bituminous Mix:

Hayes Street
Glendale St. (Acton St. to Summer St.)
Florida Road

Chapter 90 Maintenance:

Parker Street - Fowler Street to Atkins & Merrill - a distance of 2400 ft. Resurfaced Type I

Traffic, Street Signs and Parking Meters:

35 Parking meters replaced
30 Street Signs replaced

300 Basins cleaned
85 Structures raised for resurfacing

STREET SWEEPING

Business sections were swept 3 times weekly weather permitting. All streets throughout the Town were swept. Additional sweeping was done for oiling of streets.

SNOW REMOVAL

Streets and walks were plowed and sanded. Parking Places were cleared and snow was removed where needed. 90 sand barrels were put in usual places.

Report of The Superintendent of Public Works continued

STREET BETTERMENT

Birch Terrace

New gravel with 1 coat penetration, 1 coat for seal, then sand covered.

SIDEWALKS

Nason Street and Concord Street - cement reconstructed.
Raised blocks replaced throughout the Town.

DRAINAGE

33 Catch Basins Rebuilt

12 Man Holes Rebuilt

1 Pipe erected on Town Property adjoining Coughlin property - 24' to relieve water build-up.

Report of The Superintendent of Public Works continued

CEMETERY DIVISION

Grave Openings	71
Foundations	7
Liners Installed	29
Markers Set	36 Plus 5 G. I.
Sunken Graves Filled	5

The mowing of grass the past year in the Cemetery was done about every week and a half. All the shrubs in the Cemetery and on individual lots were trimmed and snipped.

Twelve tons of lime were purchased and spread out in the Cemetery.

As per custom, roads were graded in the Spring and in the Fall. Three maple trees were planted in the Fall and the side banks around the pond were burned off. Leaves were raked and burned with the Fire Department's approval.

Just before Memorial Day, 100 ft. of picket fence around the Main Gate was demolished by a car, it has since been repaired and paid for by the driver's insurance.

Vandals broke into the Cemetery Building but no extensive damage was done and the Police were notified.

DUMP - SANITARY LANDFILL

The Sanitary Landfill area is working out quite well, although it is being filled in at a much more rapid rate than expected. We are getting a tremendous amount of trash from the stores and factories.

The traxcavator (dump machine) was out of service for a period of ten days and the piles of trash became mountainous.

Fires were set constantly by vandals, causing an undue amount of work for both the Fire Department and the Department of Public Works.

Serious thought should now be given to incineration, as the present site will be filled in within two or three years.

TREE DIVISION

TREES, PARKS AND INSECT PEST CONTROL

John A. Crowe Park was mowed regularly and the baseball diamond was conditioned semi-weekly, so that the schools and various factory teams would find it suitable for play.

The outfield is also used as a softball field by many factory and local ball teams.

Report of The Superintendent of Public Works continued

The tennis courts are in excellent condition, and new nets are provided when needed. These tennis courts are also used for dancing, and the band stand is lighted for our Summer Band Concerts.

Memorial Park was mowed regularly and trash barrels placed in many locations. Vandalism is still rampant in this area, with the smashing of benches and much damage being caused to the Honor Rolls.

Many diseased elm trees were taken down and burned, and a great deal more are to meet the same fate.

Insect pest and tent caterpillars were sprayed and destroyed. Poison ivy, wherever found, was also sprayed.

In conclusion I wish to thank the Commissioners, Public Works employees and all others for their cooperation and help.

Respectfully submitted,

KEVIN T. SPRATT
Superintendent

REPORT OF THE PERSONNEL BOARD

During 1969 this Board met 31 times, the Board currently consists of Mr. Theodore Tibbetts, Chairman; Mr. Joseph Falco, Employees Representative; Mr. Meldon Neimi, Secretary; Mr. Don Henrich.

The meetings generally dealt with administration of the town wage schedule, approval of earned step raises, and the gathering of data necessary in making the 1970 wage increase proposals.

During the year Mr. William Casey resigned from the Board thus leaving the Board one vacancy. The Board wishes to thank Mr. Casey for his assistance during his term of office.

Respectfully submitted,

THEODORE TIBBETTS
MELDON NEIMI
DON HENRICH
JOSEPH FALCO

REPORT OF THE INSURANCE COMMITTEE

To The Honorable Board of Selectmen:

Six meetings were held this year. Fire coverage of all Town Buildings went up a lot due to re-evaluation of the buildings and rate increases.

The cost of liability and Workmen's Compensation also went up due to high wage increases given town employees.

We thank all town boards for their cooperation.

Respectfully submitted,

RUOFF TOMPKINS, Chairman
JAMES DUGGAN
RAYMOND DIONNE
JOHN PIANTEDOSI
WESLEY HIRONS

REPORT OF THE ZONING BOARD OF APPEALS

To the Board of Selectmen:

The following petitions have been considered during the year 1969 under the Protective Zoning By-Law:

Paul H. Green, 253 Great Road Authority to conduct electronics laboratory in garage.	Granted
Mary G. Enneguess, 20C Maple Street Rear yard variance to add porch.	Granted
I. Matti Tervo, 100 Acton Street Renewal of authority to conduct part-time television repair from home.	Granted
Uno Hietanen, 19 Concord Street Renewal of authority to conduct part-time real estate business from home.	Granted

REPORT OF THE MAYNARD HOUSING AUTHORITY

The Maynard Housing Authority is pleased to submit herewith its annual report for the year 1969.

Construction for the Housing for the Elderly which was begun in June of 1968, continued to progress well, and was completed in June of 1969.

At the Annual meeting which was held on April 9th, the following officers were elected for the ensuing year: Edward J. Allard, Chairman; Walter V. Moynihan, Vice-Chairman; James J. Bakun, Treasurer; and Myrne E. Palmer, Secretary.

Tenants began to take occupancy on May 16, 1969 and the apartments were all rented by July.

Dedication of the project was held on June 22, 1969, with representatives from the Department of Community Affairs, State Government, Town Government and Civic Organizations in attendance.

Myrne E. Palmer resigned as a member of the Authority and was appointed as Executive Director of the Project.

Walter W. Larkin received the appointment as State Appointee for a term which will expire on January 28, 1974.

Howard E. Boeske was appointed to fill the vacancy on the Authority on August 26, 1969.

The Authority wishes to thank the members of various organizations who have been thoughtful in giving both gifts of money and furnishings and flags to the Circle.

We also wish to thank all Town Officials and Departments for their excellent cooperation during the past year.

Respectfully submitted,

EDWARD J. ALLARD
WALTER V. MOYNIHAN
JAMES J. BAKUN
HOWARD E. BOESKE
WALTER W. LARKIN

REPORT OF THE INDUSTRIAL COMMITTEE

To the Honorable Board of Selectmen:

We hereby present the report of the Industrial Committee for the year 1969.

Twelve meetings of the Committee were held during the year. An article was proposed at the March Town Meeting to lay out Rockland Avenue. After discussion was heard on the article, the Town voted to table same. It is the intent of the Industrial Committee to resubmit the same or similar article at a future Town Meeting.

An article to change from single residence to industrial that part of the land of Helja Toumanen which is presently in the residential district was also proposed at the March Town Meeting and was passed. It is expected that a proposed industrial sub-division of this land will be presented to the Planning Board in the near future.

Respectfully submitted,

HENRY T. HANSON, Chairman
KIM.B. FRANZONI, Secretary
JAMES S. WHEELER
RAYMOND E. MCGILVARY
GERALD G. D'ERRICO

REPORT OF THE BOARD OF HEALTH

To The Citizens of Maynard:

The Board of Health herewith submits its report for the fiscal year ending December 31, 1969.

The Board organized in March with Henry F. Regan as Chairman, Irving H. Manning as Secretary and John J. Johnston as the third member. It was decided to hold regular meetings on the second and fourth Tuesday of each month in the Board of Health office.

The following appointments were made:

Public Health Nurse	Stella M. Nowick, R.N.
Assistant Public Health Nurse	Katherine McNulty, R.N.
Clerk	Doris McGarry
Agent	Joseph Falco
Milk and Food Inspector	Robert W. Rimbach
Inspector of Slaughtering	Lauri W. Manning
Disposer of Animals	Walter Sokolowski
Inspector of Plumbing	Warren E. Bemis

Mary E. White was appointed to replace Katherine McNulty.

The following licenses and permits were issued:

- 26 Food Service Permits
- 30 Store Milk Licenses
- 10 Vehicle Milk Licenses
- 10 Retail Food Permits
- 3 Ice Cream Licenses
- 2 Mobile Food Permits

RABIES CLINIC

The annual Rabies Clinic was held on Saturday, June 14 at the Town Garage. Dr. Vance Carlson was in charge, assisted by Dog Officer Walter Donahue and Clerks Helen Pieciewicz, Nancy Pieciewicz, and Florence Harley. There were 379 dogs inoculated. The Board regrets that the increase in cost of the Clinic made it necessary to charge a fee but also feels that this Clinic is very important in protecting the public.

GARBAGE CONTRACT

The Garbage Contract expired on March 31. The Board advertised for bids and received 8 replies. Bids were opened in the Board of Health Office on March 25 at 8 p.m. A three year contract was awarded to Mr. Peter D. Scesny of Ashby for the sum of \$12,000 per year.

Report of the Board of Health continued

COMPLAINTS

Complaints of various types continue to come into the Board of Health Office. Those that are of a health nature are investigated immediately by Mr. Falco or Mr. Rimbach. In all cases these have been resolved satisfactorily. Those complaints that do not concern health are referred to other departments.

ST. BRIDGET'S SCHOOL

The health program at St. Bridget's School continues with time tests done in March for the first grade. All results were negative. Visual and audiometric tests were given to all students. Failures were reported to the parents by the Public Health Nurse. In December, 93 students in grades 1, 2, and 3 were given Rubella (German Measles) vaccine.

MOSQUITO CONTROL

Maynard continues as a member of the East Middlesex Control Project. This includes aerial spraying, fogging, ditch spraying, etc. Any complaints regarding this should be directed to the Board of Health Office.

ANNUAL REPORT OF THE MAYNARD
HOME HEALTH AGENCY

The Maynard Home Health Agency during 1969 has continued to focus on the Community bedside nursing needs of the acutely and chronically ill patient. With spiraling medical costs and bulging hospital walls coupled with the psychological value of care at home this Agency has provided a valuable service. With the obvious, demanding needs of the "sick" it is easy to overlook the more abstract health needs of the "well"; however, Prevention - prevention of disease and promotion of wellbeing is a positive approach to health and one which communities cannot afford to overlook.

Modern drug therapy and newly discovered immunizing agents played a large part in reducing communicable disease, morbidity and mortality; however, without a continuing program of casefinding, guidance and education on the local level, the results of our present-day medical treatment in communicable disease would be less visible.

With manned moonflights, computer technology and organ transplants, it is easy to overlook the fact that basic health teaching and guidance is still a vital component of health care and a requisite in the reduction of maternal and child morbidity and mortality. Perhaps, also, it is difficult to comprehend the need for preventive services in an affluent society; however, research and National-State health statistics support the fact

that many premature births can be attributed to inadequate maternal nutrition, that infant death rates from diarrhea and pneumonia is far from commendable and the dental needs of children continue to grow. It is obvious that a gap continues to exist between medical technology and health practice and the public health nurse remains a vital link between this technology and practice because of her central position between family, medical services and community.

With the overwhelming demands on the tax dollar it is understandable to question new methods, expanding programs or less understood concepts in providing health care; however, if one family can be spared a communicable disease, if one infant can be assured a healthier environment through the support and guidance of community health services, or if one hospitalization can be avoided because of public health nursing supervision, it is worth the financial investment.

It is hoped that during 1970 the Maynard Home Health Agency can continue to meet the needs of the ill patient and his family but in addition, to place increased focus on prevention.

For further information regarding this Health Service, please contact the Maynard Board of Health 897-2957 or Emerson Hospital Home Care Service at 369-4340 - Ext. 343.

REPORT OF THE DISPOSER OF ANIMALS

Board of Health
Maynard, Mass.

Gentlemen:

I herewith submit my report as disposer of animals for the Town of Maynard for the year 1969.

This year, 1969, I buried 48 dogs and 27 cats.

Respectfully submitted,
WALTER D. SOKOLOWSKI
Disposer of Animals

REPORT OF THE SANITARIAN

Chairman
Board of Health
Maynard, Mass.

Dear Mr. Chairman:

I again have the honor to present the report of the Sanitarian.

Routine inspections were made of all food handling establishments and samples of dairy products taken at random from delivery trucks and retail outlets were examined for conformance of State Standards.

Much emphasis was placed on bringing the standards of procedure and equipment up to the requirements of the State Sanitary Code.

I would like to take this opportunity to thank you, the other members of the Board, and other town officials for their assistance and co-operation extended to me in carrying out my duties.

Respectfully submitted,
ROBERT W. RIMBACH, R. S.
Sanitarian

REPORT OF THE INSPECTOR OF PLUMBING

Board of Health
Maynard, Mass.

Dear Sirs:

During the year 1969 I have issued 164 plumbing permits. Inspections were made as requested by contractors. I found the contractors very cooperative.

There were no permits issued for septic tanks in 1969.

Respectfully submitted,
WARREN E. BEMIS
Plumbing Inspector

REPORT OF THE PLANNING BOARD

To the Board of Selectmen:

We hereby present the report of the Planning Board for the year 1969.

Several Zoning By-Law changes were adopted at the March Town Meeting which we feel have strengthened and improved the Industrially Zoned sections of the Town.

The Special Town Meeting in November approved two articles dealing with specific sections of the Zoning By-Law.

The Board had new up-to-date Street Maps printed and will have its new Rules and Regulations completed by early in 1970.

During 1969 the Planning Board had representatives on numerous Committees.

The Planning Board Members would like to thank the Selectmen, the Board of Public Works, and the other Town Boards and the Townspeople who have helped us in the past year.

Respectfully submitted,

JAMES F. COLEMAN, Chairman
JAMES T. HANSON, Secretary
HELEN E. HATCH
THOMAS V. SCHULER

REPORT OF THE CIVIL DEFENSE AGENCY

The following is a report of the Civil Defense Agency for the period ending December 31, 1969.

We of the Civil Defense Agency are maintaining contact with the Massachusetts Civil Defense Agency and keeping up with laws and regulations to better serve the Town of Maynard. We would like to express our thanks to the Selectmen, the Police Department and Fire Department and all Town of Maynard officials for their fine co-operation during the year 1969.

DONALD A. MacGLASHING
Director
Civil Defense Agency

REPORT OF THE METROPOLITAN AREA PLANNING COUNCIL REPRESENTATIVE

To The Honorable Board of Selectmen:

I herewith submit the Annual Report of your Representative to the Metropolitan Area Planning Council.

The full Council met on May 7, 1969; June 21, 1969 and November 13, 1969. There were many committee meetings throughout the year.

The Council and staff have studied the following projects this past year.

Census Mapping

The Census Tract Maps have been completed. They will be used in connection with the 1970 Federal Census.

Sewer and Water

Phase II of the Sewer and Water Program was completed and distributed to member communities.

State-Local Fiscal Relationships

The Council and its staff is studying the demand and complexity of Local Government Services, and the availability of local resources to pay for them. Inherent tax computation, regressivity, inequity and complexity are endemic to the local revenue system. These conditions seriously limit the expanded use of the local tax system for meeting critical local fiscal requirements. The Urban Fiscal Crisis will not be met unless and until the state undertakes major renovations of the entire State-Local system.

Solid - Waste Disposal Program

The 1969 Massachusetts General Court session enacted an act of legislation authorizing the Massachusetts Department of Public Works to create disposal districts.

Metropolitan Airport System

The Council and staff report recommends a new airport be constructed in the vicinity of Uxbridge and East Douglas, because of the heavy volume of traffic at Logan Airport.

The Uniform Emergency Telephone Number Concept

Every local community should pursue at the earliest possible date the development of the 911 emergency phone system on

Report of the Metropolitan Area Planning Council
Representative continued

an areawide basis in order to get faster notice and relief in times of emergencies affecting life, limb and property.

All applications for Federal Grants are reviewed by the Council.

If anyone desires any information on any of the subjects I have reported on, I will be happy to assist them.

Respectfully submitted,

RAYMOND J. SHERIDAN
Metropolitan Area Planning
Council Representative

REPORT OF THE CONSERVATION COMMISSION

To the Board of Selectmen:

The Maynard Conservation Commission submits its Annual Report for the year 1969.

During the year the Commission met every first and third Wednesdays at 7:30 p.m., except for the month of October when meetings were held on the second and fourth Wednesdays. There were a few additional special meetings called when circumstances warranted them.

Alfred L. DeGrappo, Jr., was forced to resign from the Commission because of increasing business and family commitments. His resignation was regrettably accepted. In his place, Mr. Gordon C. Johnson was appointed to the Commission.

At the Annual Town Meeting, three articles were submitted: two dealing with land acquisition and the other proposing the establishment of a Conservation Fund of \$5,000.00. When the Conservation Fund was approved by the Town Meeting, the other two articles were withdrawn, the land to be acquired by the use of the new Conservation Fund.

This year the Commission will sponsor an article asking for an additional amount to be added to the existing Conservation Fund. With land becoming both scarce and yearly more expensive, the Commission feels that land acquisition for both conservation and recreation purposes has a very high priority. This fund allows us to acquire land as it becomes available without time consuming and expensive delays.

During the year, the Commission has been involved several times in the reporting and investigation of possible Hatch Act and Inland Wetlands Act violations. These call for either an appearance or correspondence with the appropriate agencies. This type of commitment to supervising proper conservation practices consumes much of our time. It is becoming fairly obvious that Maynard will have to have a Flood Plain Zoning Act of its own. The State Acts are vague in some areas, and quite hard to enforce in others. The end result is improper filling of the Assabet, and improper use of wetlands in other areas.

The Commission continues to make field trips to areas of the town that appear to have conservation problems or possibilities for future acquisition.

This year two tracts of land were acquired by gift of Carmen Cellucci (C & C Homes), one of 81,450 square feet off Reo Road, and one off Amory Avenue of 37,400 square feet. These were paid for out of the new Conservation Fund, the payment for this land went to the Town in the form of back taxes. The Reo Road plot was cleaned up by Commission members, aided by an interested group of citizens, the majority of whom were Boy Scouts

Report of The Conservation Commission continued

and young teen agers.

During the month of October, several members of the Commission attended State sponsored seminars on conservation topics that were held on Wednesday evenings at the Waltham Field Station. They were of much interest and help to the Commission. Commission members have attended State Conservation District meetings and Public Hearings that had a bearing on conservation.

The slide show and talk on conservation that was put together last year, showing conservation's particular impact and possibilities in Maynard has been well received. The presentation has been made for the Maynard Historical Society. The Maynard Kiwanis, and the Maynard Lions. We have a few bookings for the winter but wish to remind any interested group that the slide/talk exists and we would be glad to have the opportunity to present it.

Unfortunately, our Master Plan is not yet completed. It is, at present, about one half done. It has been necessary to contact all other interested Town Boards where our interests seem to be concurrent: namely, the Recreation Commission, the Planning Board, the Department of Public Works, and the Board of Selectmen. They all have the right and responsibility to make known their needs and future plans for land usage in the Town of Maynard. It has proven much more difficult than anticipated to acquire accurate data, and then assemble the data into a Master Plan that will provide for good conservation practices in land use for the Town. It may be necessary to acquire some outside assistance in finishing our Master Plan. It must be finished in 1970, we are losing possible State and Federal funds by not having this plan.

Respectfully submitted,

HARRY F. CHAPPELL, Chairman
WALTER CARBONE
FRANK R. HILL, JR.
GORDON C. JOHNSON
MRS. ELLEN SHAW, Secretary

REPORT OF THE RECREATION COMMISSION

Herewith is submitted the annual report of the Recreation Commission for the year ending December 31, 1969.

The year 1969 saw the completion of the second organized summer recreation program. The basic purpose of the program was to teach school age children of this community to use time constructively, by means of various recreational type activities. Youngsters who normally had a great deal of free time with nothing to do were able to attend local playgrounds to make worthwhile use of this time, rather than being out in the streets, where there was a danger of getting into trouble. We were fortunate in retaining most of last year's staff. The program became more refined. We were able to concentrate on sports and events that succeeded last year. This year we added a field trip to Whalom Park and had a movie day.

Some six hundred youngsters, grades one through eight officially registered for the six week program. Activities included simple ball games, sports, quiet table games, running and tag games, special event costume days, arts and crafts, etc. At the conclusion of the program an Olympic Field Day was held which marked the closing day for the 1969 summer recreation program.

The year 1969 was an important year for the Town. The Recreation Commission was authorized by the voters to take over the swimming program so ably handled by the P.T.A. and various other organizations in the past. With the end of the joint P.T.A. in Town, the most logical body in town to take over this program was the Recreation Commission.

The Swimming Program was set up in accordance with the American Red Cross guidelines. The parents or guardians of the children taking part in the program were charged a fee that covered a substantial part of the program. The cost to the parents was \$7.00 per child. A total of 236 children took part in the program.

Recreation can prove to be of great value to all. The Recreation Commission discussed many new proposals to expand its program but felt it should consolidate its present program. It is hoped that the program can be expanded into a year-round program and also include provisions for high school age students as well as adults.

The Recreation Commission wishes to express its sincere thanks to Mr. Joseph F. Kulevich, summer program director and Miss Stephanie Gramolini, swimming program director and

Report of the Recreation Commission continued

their staffs for the excellence in which they conducted the programs. The Commission also wishes to thank the School Department, the Selectmen, Town Accountant, Town Treasurer and the Department of Public Works for their cooperation this past year.

Respectfully submitted,

JOSEPH F. GRAMOLINI, Chairman
ANTHONY RIOUX
CHARLES PIECEWICZ
MRS. DONALD WEAVER,
Secretary
MRS. WALTER JUSTICE,
Treasurer

Maynard Recreation Commission

REPORT OF THE FINANCE COMMITTEE

The Finance Committee held 32 meetings during 1969. In addition to regularly scheduled meetings, two Subcommittees have been active in carrying out studies related to formulation of long term fiscal policy and fiscal planning.

Town Moderator, Emile Genest, appointed Walter Justice and Mark Waldron to the Finance Committee and re-appointed Robert Anderson for a second term. The committee selected Robert Billups to serve as chairman. In addition, the Finance Committee filled two vacancies by electing Robert Gilligan and Eleanor Hunter.

Robert Anderson resigned in September and the Committee elected Jerry Clifford to his chair. Kathy Manchester resigned in November and the Committee elected Richard Grigas to her chair.

During 1969, transfers from the reserve fund totaled \$13,685.94; these are tabulated on the following page.

Respectfully submitted,

R. BILLUPS, Chairman	1971

SCHOOL REPORT

1969

MAYNARD, MASS.

22
21
SCHOOL
REPORT

This cover for the Annual Report of the School Committee for the year 1969 was designed by Enid Kaskiewicz, a student in the Art Class at Maynard High School.

The following students in the Art Classes at Maynard High School also submitted very fine drawings and are to be commended for their efforts:

Paul Keto
Cathy Iannuzzo

REPORT OF THE MAYNARD SCHOOL COMMITTEE

To The Citizens of Maynard:

We herewith submit the annual report of the School Committee for the year ending December 31, 1969.

During the past year, the School Committee has held regular meetings on alternate Thursday evenings and extra meetings whenever necessary for such purposes as budget preparation, discussions with the Finance Committee, joint meetings with the School Building Committee and with the Board of Selectmen, negotiations with the Maynard Teachers' Association and other pertinent school matters.

Due to resignations, retirements, the creation of new positions and the filling of vacancies, the Committee reports the following personnel changes:

REPAIRS, REPLACEMENTS AND MAINTENANCE

The usual and necessary program of repairs and replacements has been carried out this year. Below is a list of the major projects that were completed in order to maintain the building facilities and educational equipment in good condition.

MAYNARD HIGH SCHOOL

- Replaced ten typewriters
- Replaced three sewing machine heads
- Replaced thirty desks for bookkeeping room
- Repairs to plumbing
- Repairs to kitchen cooking unit
- New unions and valves in boiler room
- Installed thirteen large and thirteen small storm windows

EMERSON JUNIOR HIGH SCHOOL

- Replaced stairway ceiling
- Painted general office and rooms 22 and 24
- Replaced chairs and tables in Art room
- Replaced office desk and files
- Replaced ten window shades

MEMORIAL GYMNASIUM

- Repaired back roof over shower rooms
- Repaired electric scoreboard, bleachers and shower room ceilings

COOLIDGE SCHOOL

- Repaired Fire Alarm System
- Painted one classroom
- Replaced six window shades

FOWLER SCHOOL AND AUDITORIUM

- Outside painted
- Repaired Fire Alarm System
- Pointed right side of Auditorium stairway
- Replaced hot water tank
- Replaced five window shades

GREEN MEADOW SCHOOL

- Repaired heating system pipe leaks under cement floors
- Boiler chamber walls repaired
- Water cooler replaced
- New stairway storage area platform
- Powers Regulator contract

ROOSEVELT SCHOOL

Reflashed roof
 Replaced ten light fixtures
 Replaced fifteen classroom door windows with wire glass
 Painted three classrooms
 Replaced four teachers' desks

ALUMNI FIELD

Replaced thirty-four bleacher planks and six rails
 New cable from Field House to Refreshment Stand
 New posts for four tennis courts
 Replaced two tennis nets
 Repaired approximately 210' hot-top from High School
 toward track
 Repaired wooden walls of skating rink
 Wire Fence repaired

In addition to many minor repairs and replacements throughout the school system, the usual repair services for business machines, clocks, heater controls, oil burner service, audio-visual equipment, etc., were also carried on.

TEACHER NEGOTIATIONS

The experience of this committee during the past year in the field of collective bargaining with the Maynard Teachers' Association has led us to the conclusion that if we are to negotiate successfully and in the best interest of the Town of Maynard, it is imperative that we avail ourselves of the guidance and services of parties well-versed in this particular type of activity as the teachers, in fact, have done. To this end, the committee has retained the services of an attorney experienced in negotiating with municipal employees. This arrangement will hopefully put the committee on a more equal footing in negotiating with the teacher groups and their experienced advisors. More importantly, though, it will enable the members of the committee to devote more of their time and efforts to the purposes for which they sought the office they hold -- the constant evaluation and improvement of the existing school program.

SPECIAL EDUCATION

A large step forward was taken in the further expansion and refinement of our program of Special Education this year by providing additional services for those youngsters who, for various reasons, are unfortunately handicapped with learning disabilities.

An additional Special Class for the mentally retarded was established at the junior high school level, thereby allowing for some degree of continuity and articulation in the existing program.

Speech and hearing therapy was expanded from part-time to a full-time staff position, making it possible to reach a larger number of disabled children, as well as meeting the needs of pupils with lesser afflictions. These services are now available for students at all grade levels.

Two teachers, trained and experienced in working with perceptually handicapped children, were added to the staff in order to give individual attention to those children handicapped with specific learning disabilities. One of these teachers is devoting most of her efforts to the area of motor-skill development, while the other is more concerned with language disabilities such as dyslexia.

We expect that these additions to our program of Special Education will allow us to provide all school children for whom we are responsible with all the special help they may require to enable them to become the productive citizens of tomorrow.

CLASSROOM NEEDS

The School Committee was extremely gratified at the success of the School Building Committee in obtaining planning funds at the Special Town Meeting in November. This means, of course, that the Building Committee can now go ahead in planning and designing a new elementary school building. Unfortunately, designing and constructing a building takes time, probably somewhere in the vicinity of two years. This committee, on the other hand, is faced with a near-crisis situation, in that an acute need for classroom space will exist next fall. We are currently formulating plans for the creation of temporary classroom space to tide us over until such time as the new school is built and ready for occupancy. A number of alternative solutions are being considered, including the temporary partitioning of auditorium space.

CONCLUSION

In closing, the Maynard School Committee wishes to express its appreciation for the whole-hearted support, dedication and devoted efforts of the Superintendent of Schools, the Administrative Assistant to the Superintendent, the principals, teachers, secretarial staff, cafeteria workers and custodians in performing their respective duties. The School Committee also wishes to thank all of the Town Boards, Committees and Organizations for their continuing interest and cooperation.

Respectfully submitted,
 ALBERT P. ROGERS, Chairman
 THOMAS F. FITZPATRICK, Secretary
 EDWARD J. TROISI
 RICHARD J. FLAHERTY
 THOMAS H. WHALEN

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Committee and Citizens of Maynard:

I herewith submit the Annual Report of the Maynard Public Schools for the year 1969.

It is with considerable satisfaction that I take this opportunity to inform you of continued success in the educational preparation of Maynard children to meet the ever increasingly complex challenges and burdens of our complicated life.

Maynard, like other communities, is continually evaluating new curriculum materials, new techniques for teaching and current educational research in order to keep its programs meaningful and efficient and be able to continue its offering of quality education.

It is with great reluctance that we find it necessary to ask the community each year to increase expenditures for education, but it is impossible to provide the expanding services to the children which are now considered an integral part of their education without adding to the overall cost to the town.

ENROLLMENT TRENDS

We are continuing to increase our yearly enrollments as has been predicted by the Conroy Survey and by other professional enrollment projections. The present first grade is the largest to ever enter the Maynard Public Schools. We can expect that we will continue to increase our total enrollment yearly for some time to come. At present, every available classroom in all school buildings is being utilized. It would appear that, unless we can temporarily lease or create a minimum of four additional classrooms for September 1970, we will not be able to accomodate all pupils expected to enroll without detrimental overcrowding. This is especially important at the primary level, particularly the first and second grades where it means so much educationally to have low pupil-teacher ratios to insure more individual attention.

We are fortunate that a new elementary school is now in the planning stages, however, it will not be ready in time to alleviate the immediate problem. Temporary additional classrooms are being planned as needed for September, so that the children at the primary level will not be subject to the disadvantages of having too many pupils in a single classroom.

EDUCATIONAL HIGHLIGHTS

The education program for Maynard appears to be keeping pace with the objectives envisioned by the State Department of Education and by the Maynard School authorities.

Report of the Superintendent of Schools continued

The new elementary school, now being planned, will allow us to reach the State recommended elementary pupil-teacher ratio and will also make it possible for the Junior High School to reduce its class sizes by releasing classrooms at the Fowler School for its use. With some recommended increases in staff, the same quality standards will also be realized at the High School.

In line with the new State laws and Department of Education directives, concerned with Special Education and Vocational Education, Maynard has made considerable progress toward providing these services. We are affiliated with the Assabet Valley Regional Vocational-Technical School District and by September, 1973, should have the specialized program of this Regional School available to Maynard children.

To answer our Special Education needs, in addition to our remedial reading teachers and Special Education teachers, we have added a full-time Speech and Hearing teacher and two teachers of the Perceptually Handicapped. These additional specialists will allow for individual and group instruction of many Maynard children with a variety of learning disabilities who, until this service was available, were under a severe handicap in the regular classroom situation.

ADDITIONAL PERSONNEL

As of September 1970, the following additions to the professional staff are planned to provide for increasing enrollments, enrichment of curricula and for reducing the pupil-teacher ratios as recommended by the Willis-Harrington Report and the State Department of Education:

1. Three High School teachers:

- a. Social Studies - To reduce size of classes to provide electives on Law Enforcement, Drugs, Minority Studies and Foreign Policy.
- b. Science - To reduce class sizes and to provide for more lab periods in General Science and Biology.
- c. Home Economics - To add more subject areas not now being taught in sufficient detail such as: -- Nutrition, Home Management, Home Furnishings, etc.

2. Two Junior High Teachers

- a. Science - To decrease overload expected in September when sixth grades enter Junior High.
- b. Social Studies - To decrease anticipated overload expected in September also.

Report of the Superintendent of Schools continued

3. Elementary

- a. Three second grade teachers to provide for three progressions from the first grade level since we now have nine first grades and only six second grades. This situation has been partially responsible for our need for temporary classrooms next September.

EDUCATIONAL PROGRAM

The following excerpts, summaries and reports from members of the professional staff will further help to acquaint you with some highlights and details of day to day programs in the respective departments of the Maynard schools. The reports of the Adult Education Director and the High and Junior High School Principals are again given verbatim so that a more explicit explanation of their objectives and responsibilities may be understood.

HEALTH AND ATTENDANCE

The main objective of the School Nurse is to see that each and every student is in the best of health so that he will be able to attain his maximum development. The general health of students is basically the responsibility of the parents. However, the school contributes greatly to attain a healthy student body.

All the students are given an annual vision and audiometric test. The parents of any pupil who fails either test, are notified in writing, by the school nurse. The nurse then coordinates the physician's orders and sees that they are followed in school in regard to seating plans, etc.

In January, the Mumps Vaccine was given to all students of the seventh and eighth grades with the consent of their parents.

The Tine test for tuberculosis is given to the pupils in grades four, seven and eleven and to all other students who participate in athletic activities on an inter-scholastic basis.

In October students in the fifth and tenth grades were given booster shots of diphtheria and tetanus toxoid, as recommended by the State Department of Public Health.

On December second and fourth, on the recommendation of the Massachusetts Department of Public Health and the Maynard Board of Health, Rubella (German Measles) vaccine was given to pupils in grades one through three with the permission of their parents.

The students in the first three grades of St. Bridget's School went to the Green Meadow School on December fourth. The School Physician administered the Rubella vaccine to them with the Public Health Nurses assisting.

First aid is administered in cases of an accident and the parent is immediately notified. A parent is required to transport his child to the hospital or physician if deemed necessary.

The Attendance Officer reported that during 1969, ten cases of truancy and two cases of school offenders were reported to him.

These cases were investigated and all necessary action was taken.

PHYSICAL EDUCATION

Physical Education is education by means of physical activities. It is concerned with muscle development and related factors which make the boy or girl physically and socially efficient for adulthood.

Physical Education continued

The major objectives of the Physical Education program in Maynard are:

1. The development of many muscular skills.
2. The development of proper ideals and attitudes toward physical activities.
3. The development of desirable habits of conduct.
4. The improvement of posture, control and grace of bodily movement, alertness and quick response.
5. The development of courage, self-control, self-sacrifice, courtesy, loyalty, obedience, cooperation, initiative and good character.

Testing is carried on at all levels, from the early grades through senior high school. Records of physical achievement are kept on cards each year for all boys or girls, through their senior year.

Every student is required to take physical education. The boys have games as part of their class work such as tumbling, parallel bars, trampolines, vaulting, flying and still rings. Girls have tumbling, traveling rings, uneven parallel bars, swedish box, balance beam and folk dancing.

In the spring, a demonstration of physical education activities is conducted at both the junior and senior high schools to exhibit the accomplishments of the students.

The physical education program at the high school level is expanding to provide a greater variety of physical activities for all students. A curriculum guide for physical education has been compiled. Its function is to translate the "why" into "how" in order to achieve our objectives. Units in soccer have been added, as well as new and improved equipment in the corrective room for those who need individual attention. An extensive weight program is conducted for all who need it and elect to take part.

An intramural program in various sports is offered at the junior and senior high schools for those who wish to participate.

An expanding program of interscholastic sports is being pursued, with Maynard High School as a member of the revived Midland League. These sports activities include:

Football - Varsity, Junior Varsity, Freshmen

Cross Country in the fall.

Physical Education continued

Basket Ball during the winter months - Varsity,
Junior Varsity, Freshmen

Track and Baseball in the spring.

Tennis has also been added.

Golf has always had a good turnout in the spring.

Girls have an interscholastic program in Field Hockey,
Basket Ball and Soft Ball.

GUIDANCE

The guidance services for grades one through six consists mainly of testing, an orientation program for sixth grades and referral cases.

The program for grades seven through twelve placed more emphasis on individual counseling, dissemination of educational and vocational information, college and vocational placement, program scheduling and testing.

As part of the orientation program in the spring, sixth graders visited the Junior High School while eighth graders visited the High School. These students attended lectures and were given tours of the Junior High and High Schools respectively.

Tests administered during the year include the Differential Aptitude Test, Stanford Achievement Tests, Otis Test of Mental Ability, the Stanford-Binet and Wechsler tests of intelligence and the Kuder interest inventory.

Tests available to students on a voluntary basis were: The Preliminary Scholastic Aptitude Test, the National Merit Scholarship Qualifying Test and the National Educational Development Test.

A Viewdeck College Selector was added to the Guidance library and has been used most effectively by students who were in search of colleges with specific majors.

The acceptance of students into colleges and universities increased from approximately 50% in 1968 to 67% in 1969.

Students who did not go on to colleges or business schools were readily accepted into the business and industrial complexes of Maynard and surrounding communities.

The Work-Experience Program at the High School has again proven its worth with many students obtaining on the job training as part-time employees.

Guidance continued

The Guidance Department is planning to employ a tele-typewriter terminal for use in college suggesting and career training information systems. The College Suggesting System lists over three hundred characteristics such as geographical location, size of student body, majors available, average college board or American College test scores, costs, etc. The data bank to which the terminal has access is constantly being updated, bringing the latest changes and information for over three thousand colleges and universities.

We are in the process of working out a Career Day Program in conjunction with several other high schools in the area and hope to schedule the first one in October 1970. This would involve colleges, junior colleges and trade-vocational schools.

Also being considered is a quality point evaluative system which would give consideration to the weight of the academic load and enrichment program to which a student is involved. A rating scale would be used in which the total number of quality points amassed during a student's four year period would determine his class rank.

ELEMENTARY EDUCATION

In keeping with the proposition that every child should be engaged in a learning program fully in keeping with his individual capabilities, be they exceptionally high or extremely limited, the offerings at the elementary school level are supplemented with both enrichment and remedial activities.

Various tests are used to properly assess each student, in terms of his strengths and weaknesses in order to more carefully tailor a program designed to meet his individual needs.

The work of the regular classroom teacher is supplemented by programs which are conducted by a staff of specialists in such areas as Art, Music and Physical Education.

An attempt is made to insure that the text materials and other learning tools used are of the highest quality and that they are truly representative of modern philosophies and methods of education. This year, new Spelling and Social Studies texts were adopted for use in the schools. A new series of English texts will be considered for adoption next year. Further refinements are being planned for the areas of Social Studies and Science.

The children are provided with first-hand experiences beyond the confines of the classroom by means of various field trips. During the past year they visited such places as: Peabody Museum, Science Museum, Stoneham Zoo, Worcester Art Museum, Hayden Planetarium, Drumlin Farm, Prudential Center, etc.

Elementary Education continued

A wide range of activities is provided during the year to allow the students an opportunity to develop a social awareness, a feeling of involvement in community affairs and an attitude of confidence. Some of these activities involve participation in concerts, plays, parties, science fairs, parades and fund-raising drives.

During American Education Week, the general public is invited to visit the schools in order to see for themselves what is going on in the classrooms and to observe the changes taking place in education from year to year.

SPECIAL SERVICES

Maynard can boast with justifiable pride one of the finest departments of special pupil services in the entire area, for school districts of comparable size. As a result of further additions to our professional staff this fall, we now have a well balanced and well-coordinated corps of specialists who are trained and skilled in working with children who are handicapped with serious learning disabilities.

SPECIAL CLASSES - A second Special Class for retarded pupils was established this fall. This class is located in the junior high school building and serves as a direct complement to that which we have maintained for years in the Green Meadow School. These classes, established to provide a more individualized program for youngsters of limited capability, are staffed by teachers who are specially trained and certified by the Department of Education to engage in this type of activity. Here, the pupils are not required to compete unrealistically with children who are better endowed to pursue an academic program. As a result, of course, they are subjected to far fewer experiences of failure and frustration which can prove to be psychologically crippling and can further handicap them in a learning situation.

The pace in the Special Class is geared more in keeping with the abilities of the children, and the academic content is limited to that with which they can cope successfully.

At the Green Meadow School, the class is made up of the younger children and is largely self-contained. Special subject teachers, however, do visit the class regularly and the students have access to other special services.

At the Junior High School, on the other hand, the class is made up of children in the adolescent years and though they too receive their academic instruction in a self-contained classroom, they also participate with all of the other students of the junior high school in such activities as Art, Music, Physical Education, Home Economics, Industrial Arts, Assemblies, etc.

Special Services continued

At this level, they have a more direct access to the Guidance Counselor, who is able to advise them in occupational and vocational matters.

REMEDIAL READING - There are two teachers of Remedial Reading in Maynard serving the pupils of the upper primary level through junior high school. These too, are specially trained and certified for this particular type of work and are acutely receptive to the peculiar needs of the pupils requiring their services.

The primary objective of the remedial reading program is to offer extra, specialized, intensive and more individualized instruction to those children who have been experiencing unusual difficulty in attaining their reading potential.

To determine which pupils are in need of special instruction, the classroom teachers make careful analysis of each child's reading level in terms of daily performance, test results and instructional level. Those children with the potential for better performance, but who read consistently below grade level are the ones selected for referral for remedial or corrective help.

Instruction is structured to meet the needs of each individual within a given group. Materials used for remedial instruction consist of basal readers, workbooks, reading kits, games, devices and other media which meet a wide range of interests and reading abilities. Remediation must involve materials and methods in proportion to their usefulness in strengthening the weaknesses of the students. Of equal or even greater importance is the development of each child's confidence in his own ability and establishing a more accurate self image.

PERCEPTUALLY HANDICAPPED - This fall, two new staff members were added, who are skilled and experienced in working with children falling in the broad category referred to as being "Perceptually Handicapped". These are children who have normal intelligence but for various reasons, are unable to proceed through the normal learning process in the same manner as the large majority of pupils. They are seriously handicapped in a regular classroom situation by virtue of the fact that they exhibit deviating capabilities such as poor visual discrimination, poor auditory discrimination, visual-motor problems, poor spatial orientation, figure-ground problems, distorted self-image, perseveration problems, hyper-activity, disinhibition. These pupils in some cases, also experience difficulty in abstraction or generalization.

Pupils with these disabling problems need a strong, repetitive and reinforcing program so that they can learn to organize themselves, their thoughts and their approach to the various learning skills. The most productive motivational approach used is that of individual success. These children, for some

Special Services continued

time, experienced nothing but failure and they will not seek success until they feel assured that they can, in fact, succeed. It is important, therefore, that the special teachers begin working with them at a level where each child can succeed. At this level, they are able to help each child learn to compensate for his handicap by retraining his weaknesses and developing his strengths.

SPEECH AND HEARING - For the past three years we have had a limited, part-time program of Speech and Hearing Therapy at the elementary school level. This year, the program was expanded to a total, full-time program, extending to all grade levels. We are now able to give every child who needs speech remediation the kind of help he requires. One of the most important tools for life that we have is speech, which is a skill that must be learned. With it we are able to share our ideas and form judgements about one another. A whole personality may develop around, or be changed by a specific speech pattern. It is unfortunate to find a child who is an object of ridicule because he "talks funny" and we no longer consider a fifteen year old who lisps to be "cute". The long range goal of our program is to work with the youngsters in the early primary grades so no one will enter our secondary system with serious speech deviations which will call attention to themselves.

The work is gratifying to the teacher because the children want to speak well and be totally accepted and the parents want their children to be happy and well adjusted, so everyone tries hard to apply what they have learned into spontaneous conversation.

SUPPLEMENTARY AGENCIES - In addition to the services provided by our own team of specialists, we have also established a good working relationship with many supplementary agencies which are able to render us invaluable assistance by providing services not ordinarily available within the scope of most school systems.

In this area we receive help in varying degrees from such agencies as the Walden Clinic, Concord Family Service Society and the Liberty Council of Schools. We also enjoy a cooperative relationship with some of the surrounding school systems whereby we are able to share programs and facilities in order to provide services for our pupils which are not available locally.

It is often discouraging trying to meet all of the special needs of our handicapped pupils, considering the physical limitations of space within which we must operate. We have found, however, that a true spirit of understanding and cooperation exists amongst our team of specialists and that they have been able to work around many obstacles.

Special Services continued

We are all anxiously awaiting the completion of a new elementary school and the additional facilities which it will bring, thereby enabling us to improve our whole program of special services.

AUDIO-VISUAL PROGRAM

This past September, the Audio-Visual program of the Maynard Public Schools took on a new look. This department now functions under one Director and for grades 1-12 operates from the High School Library where plans have been formulated for the development of a Media Center. A teacher was also assigned the additional duty of coordinating the AV program at Emerson Junior High School.

The Audio-Visual program in our Maynard schools has continued to grow and flourish. New materials and equipment are being acquired on a regular basis so that our teachers may offer the latest and best in educational media. Catalogs of available materials and equipment have been issued to each teacher and a program of selection, delivery, and return has been instituted, as well as a regular program of maintenance and repair of equipment.

All materials are housed at the Maynard High School Library and Junior High AV Storage Center. Teachers are encouraged to visit and preview the materials at any time. The Director has also arranged for orientation programs on the use of equipment upon the request of any individual teacher of the school staff.

Programs sponsored thus far by the AV Department have included a NASA Space Sciences Demonstration and several feature films for students in both the elementary and secondary levels. In January, the moon film APOLLO 11 will be shown as well as all of Bell Telephone's excellent Science Series of films throughout the year.

A very active group of thirty boys from all grade levels at the High School comprise a school projectionists club. These boys assist teachers in the classroom and are responsible for the cleaning and maintenance of all equipment. They are trained by the Director on the operation and simple repair of the machines. The boys also assist the elementary schools in AV programs and have worked for the community with programs in various churches, at the Town Meeting and in the Public Library.

Plans for the future include continued emphasis on making the High School Library a Multi-Media Center to serve all grade levels and to provide filmstrips, records, tapes, slides, etc., so that our teachers can keep pace with the current trends in education, and the expansion of services to the teachers so that materials and equipment will be easy to obtain and use. This, we feel,

Audio-Visual Program continued

will be effected by keeping our catalogs up-to-date, and by offering assistance in the selection and delivery of desired items. It is also a prime objective of the Director to keep all teachers and Administrators informed of new materials and equipment which appear on the scene annually.

LIBRARY PROGRAM

Elementary

At the elementary school level, the library program has been in the form of small, limited, self-contained classroom libraries. Plans are being developed and budgetary provision has been made, however, for the eventual establishment of building libraries in each of the elementary schools. Upon completion and occupancy of a new elementary school, it is expected that the existing elementary schools will be renovated and modified somewhat to allow for a library in each school. To this end, we are beginning now to amass the collections of books that will be necessary at that time. This will serve to soften the financial impact which occurs anytime a new program is established. It will also enable the present elementary students to begin sooner to realize, to some degree, the benefits of a school library program.

Junior High School

The growth of the Emerson Junior High School Library during the past year has been exciting and impressive. In the past this growth has been possible through federal and local funding programs although federal programs have been discontinued the rapid growth of the library is expected to continue for the next few years. Changes in library policies and practices have been possible due to this growth. Most important is the library's expanding ability to support and enrich the curriculum in all subject areas. There has been an attempt in this regard to supplement the junior high collection with books from the high school when our collection is found to be inadequate for classroom projects or recreational reading. It has also been possible to extend the length of loan from one to two weeks and to abandon the policy of limiting the number of books a student may take out at one time.

The most important program for the second half of the year is to develop a five year plan for the future development of the book and audio-visual collection of the library. It is hoped that this will result in an orderly plan for bringing the facilities of the junior high library more in line with the new state media center standards. In view of these new standards this year, we will be concentrating on adding books and records to the collection as well as adding to the vertical file materials. In order to make all of the materials more useful and accessible there will be a continuation of the effort to catalog and classify the entire collection.

Library Program continued

Considerable progress has been made in this regard during the fall of this year and it is expected to be completed during the spring.

FINE AND APPLIED ARTS

Elementary

The elementary Art Program provides each child with an opportunity to express his thoughts and visually convey his ideas through experimentation with various media and allows for increasing the child's Art understanding and performance by experimentation with materials, through selection, arrangement and evaluation.

Children work with tempera paint, water color, pastels and construction paper. They also experiment and apply uses to "found" or "junk" objects as well as work on craft projects. They are encouraged to work independently, resourcefully and imaginatively.

Emphasis is placed on development, considering the child's product as a gauge of that development. The Art experience is a developmental activity whose final product is secondary to the quality of the experience the child undergoes in the process.

Junior High School

The Art Program at the junior high school level is concerned primarily with providing the students an opportunity to explore the world of art in all of its many facets, and to experiment with the various media through which artistic representations of the world around them may be displayed. It is here that we strive to cultivate in the students a "feeling" for art, and where we urge them to discover art forms as they exist naturally all about. An attempt is then made to reproduce these art forms, utilizing the media with which they have become acquainted.

Art, at the junior high school level, is seen, not as an end in itself, but rather as a means of expression through which the individual may realize a whole new dimension of fulfillment and meaning.

High School

This year all Art classes at the high school meet daily, five times a week and receive major credit. A sequence of art experience is being developed so that beginning students may elect Basic Art, then proceed to more advanced levels each year.

Fine and Applied Arts continued

Two classes are programmed for the beginning student and the curriculum covers basic drawing, design and color as applied to two and three dimensional problems.

One class is comprised of advanced students who work on an individual basis with assignments geared to their needs and abilities.

Three classes are open to beginning and advanced students and because of the range of their interests and abilities, these classes are structured around craft activities with a variety of projects going on simultaneously. Some of these students have shown considerable interest in mosaic tile, batik, fabric printing, stitchery and rug hooking.

The media available for two dimensional work includes pencil, pen and ink, pastel, oil crayons, water color, poster paint and acrylics.

Three dimensional work may be done in wire, plaster, Paris-craft, paper-mache and clay. We have expanded the ceramics skills this year to include not only hand crafted ware and sculptured pieces, but wheel thrown items as well.

Several of the students in the 1969 graduating class are attending art school or majoring in art in college and we hope there will be an even larger percentage from the 1970 class.

MUSIC

The Maynard School Department provides a program of music education that includes every opportunity for participation, performance, and study. The study of music begins in the lower elementary grades when youngsters acquire attitudes, skills, and appreciations in many fields. The early school years focus attention around a singing and creative program of music instruction. At this stage of development, each child is given opportunity to explore music in every aspect that will have meaning for him such as:

- (1) Listening to Music.
- (2) Responding to Music physically through free and controlled body movement.
- (3) Singing and discovering the nature of his voice.

At this level, children learn best by doing, so the development of their aesthetic sensitivity is promoted by singing, playing rhythm and band instruments, and listening by identifying and recognizing rhythmic changes, the sounds of different instruments, and musical styles and forms.

Fine and Applied Arts continued

Instrumental music is introduced in the fifth grade.

At the Junior High School level, students are provided experiences which will broaden the understanding, knowledge, enjoyment and skill developed in the elementary grades. Units of study in music include:

- (1) The Elements of Music
- (2) The Development of Classical Music
- (3) The Development of Jazz
- (4) Folk Music of America
- (5) Early Music
- (6) Music Theatre
- (7) Popular Music in America

Special music groups in both the Junior and Senior High Schools include Glee Clubs, Band, Orchestra, and several vocal and instrumental ensembles.

At the High School level, one of the special events of the year is the Exchange Band Concert which provides important social and musical experiences for the students. The 1969 Cobleskill, New York, Exchange Band Concert was an overwhelming success and plans are under way for a similar program in 1970 with the Seymour High School Band from Connecticut.

Each year there is growth in the number of students participating in the Maynard Musical Organizations. This is evidence that the educational, social, civic and moral values which the music program offers is reaching more and more students; thus providing them opportunity to acquire these values as part of their daily living and experiences.

INDUSTRIAL ARTS

Junior High School

The Industrial Arts program in the Junior High School provides the pupils with two periods of activity each week. The program includes hand woodwork and metalwork in grade seven; basic drawing, woodturning, and plastic forming for grade eight.

The industrial arts program in the senior high school has shown a very large growth in both course offerings and in pupil enrollment. The pressure for improvement is now apparent for the Junior High School Program.

Fine and Applied Arts continued

This school will continue to be, for the foreseeable future, the single feeder school for our high school and will also become one of the feeder schools for the new area vocational school.

Therefore, the following considerations should receive serious attention during the coming year:

1. Expansion of the program when the Junior High expands to include all of the Fowler School Building.
2. The inclusion of a basic electricity and electronics course.
3. Expansion of the drafting course to include the fundamentals now taught in the ninth grade.
4. A course in power mechanics which would encompass small gasoline engines (maintenance and care), small electric appliances and motors.
5. An additional instructor for the program.

High School

The industrial arts program in the high school is designed to meet pupil needs which are the outgrowths of the industrial aspects of American Democracy. Emphasis in instruction is placed upon needs related to the use of industrial goods and services for the home and community for all pupils. The curriculum offers orientation in an industrial environment, together with the opportunity for skill development related to industry and industrial products. It also provides a variety of avenues for leisure time or hobby pursuits adaptable to individual needs and interests.

The following new courses were included in the program this year: Power Mechanics II, an advanced course for seniors, providing the student an opportunity to acquire skills and knowledge about automobile service, maintenance and repair. It is the logical sequence to Power Mechanics I in which small engines were studied.

Some of the theoretical and practical topics covered are compression, exhaust system, electrical system, valves, brakes, tuning and job occupation. Actual work is performed by pupils on their own vehicles.

Electricity I and II - Students study various aspects and topics about electricity as a logical sequence to the structure course (house or frame construction).

Series and parallel circuits are studied and constructed using various components with 6, 12, 18 or 120 volt sources. The

Fine and Applied Arts continued

lower voltages are used in most of the experiments and practical work since the theory is similar to but the safety factor is greater than that in the higher voltage range. Students become knowledgeable about the use of electricity as man's servant and helper. They learn why and how certain standards of safety are maintained.

Research and Design (Technical Drawing III) - A senior level course for students electing technical drawing for either the third or fourth year. The content covers researching and designing architectural models, civic improvements and/or testing. Individual and small group specialization is possible. Students are provided the opportunity and encouraged to apply skills and knowledges acquired from their total high school curriculum.

Industrial Arts minor for junior and senior girls continues to be a profitable and interesting activity. The manipulative skills and knowledges acquired will be extremely useful to these young women in years to come in homemaking or career work.

Course outlines for all areas of industrial arts are currently being rewritten and updated in order to provide the maximum benefits for our students.

Through various industrial arts activities (technical drawing, metalwork, woodwork, electricity and power mechanics) the pupils obtain a well-rounded and integrated industrial arts education.

HOME ECONOMICS

The Home Economics course in the Junior High School is designed to help students understand what homemaking means and why the study of homemaking is important to them. Although girls and boys live in homes with their families every day, they are not aware of all the phases of home living necessary for happy family life. Since the majority of girls will not extend their study of Home Economics beyond Junior High School, it is essential that we acquaint our girls with as many phases of Home Economics as possible during this two year period.

Our aim in the field of clothing is to instruct our girls in the proper use and care of sewing machines, to teach them the basic methods of sewing, pattern selection, and to stress the proper choice of patterns and fabrics suitable to the individual.

The fundamentals of food preparation are taught in the foods area and the girls are also introduced to the varied uses of prepared foods. Efficiency in preparing foods, good housekeeping, and proper storage of foods are also dealt with. They are further taught to plan and prepare well balanced and attractive meals,

Fine and Applied Arts continued

the awareness of calories, and marketing of foods.

Some of the other phases of study introduced to the students during the school year are: 1. Child care and development which enables the girls to understand the growth and development of those they may care for either at home or as baby sitters in other homes. 2. Good grooming which stresses proper diet, rest, cleanliness, and exercises as well as clothing selection and care. 3. The proper methods of laundering new fabrics as well as the various types of normal household washables.

The curriculum for the Home Economics classes in the High School is geared to train people for better family living. The home is still considered to be the basic unit in our society -- socially, culturally, and economically; the home sets standards for individuals and groups, represents a large measure of the wealth of our society, and is a determining factor in the production, distribution and consumption of material goods. Study units are set up to enable pupils to study, analyze, and determine what goods and services are best suited to various types of individuals and families, to consider and plan how to make adjustments as individuals and families change, and to plan various ways these needs may be best satisfied.

The main areas of study are foods and clothing and units in the following areas are also included:

FAMILY RELATIONSHIPS - good family relations are considered as the basis for good social living. Pupils are encouraged to develop a desire to assume various responsibilities involved in good family relationships, how adjustments can and should be made among family members, sharing responsibilities, contributing to the family group, determining a proper concept of authority, democratically exercised. Other phases of family living which are discussed are facts important to a satisfactory and happy marriage, and the effect of working mothers.

CHILD DEVELOPMENT AND CARE -- children are considered one of our greatest resources in making our nation great. Factors studied include prenatal care (health and nutrition), the mental and physical growth of children, the instincts, habits and interests of children at different age levels, individual differences in children, the wise selection of children's clothing, educating, proper rest, medical protection, and developing in children a sense of belonging.

HEALTH AND SAFETY -- health is considered as an individual responsibility and also a social responsibility -- the strength of a country is dependent on the health of the individual. Pupils are encouraged to recognize that healthful living is essential to success and happiness. Various units studied include safeguards to individual and community health, foods in relation to health and correct diets, the relation of preparation of foods

Fine and Applied Arts continued

to good nutrition, personal grooming and adjusting to current styles, home sanitation, care of common diseases and preventive measures, good safety habits to develop in the home.

CONSERVATION AND UTILIZATION OF HUMAN AND PHYSICAL RESOURCES -- pupils are asked to make plans for the conservation and economical use of goods, time and energy, develop an appreciation of thrift and economical use of time, energy and material goods. Pupils study time-saving methods and the economical use of time in the home; the cost, durability, laundering qualities and ease of handling various fabrics; use of all textile fabrics, skills needed to construct, repair and alter garments; techniques used in the preservation and renovation of clothing; techniques used in preservation and renovation of household furnishings; when it is best to repair and when to replace; use of time, handling various mechanical devices.

MONEY MANAGEMENT -- pupils are asked to recognize the value of money in relation to successful and happy living, a factor in the capacity to meet social obligations. Pupils study financial planning in relation to expenditures, insurance, investments, retirement plans; how to build a good credit rating; how to determine values of goods in various categories; how to buy wisely, advertising, labels, grading, installment credit, interest rates; where to get authoritative information, when it is better to buy and when it is better to produce.

RECREATION AND USE OF LEISURE TIME -- time is given to this unit to help pupils appreciate the fact that recreation is an integral and essential part of individual and group living; pupils learn the significance of home and family living, how to plan for individual and group recreation and how to make leisure time activities profitable.

HOME CARE AND BEAUTIFICATION -- this unit tries to have the pupils recognize that physical and environmental factors are an essential part of living and that they contribute to community wealth and welfare; it tries to create a desire to have pleasant physical surroundings that meet with economical and practical standards and result in an atmosphere conducive to happy living; also considered in this unit are house plans, furnishings and decorations, studying both arrangements and utilization.

FOODS -- the chief object of this unit is to study the relation of the preparation and preservation of food to good nutrition. Pupils are taught the importance of planning meals carefully, how to purchase food wisely, how to prepare and serve meals which are correctly prepared and nutritious, and how to meet various budget and time allowances.

Fine and Applied Arts continued

CLOTHING — the psychological and social significance of being well-groomed and well-dressed for all occasions and the adjustment to current styles and fads are studies in this unit. Pupils work on wardrobe plans to meet their various needs, learn how to make garments, improve and learn various sewing skills, how to purchase garments wisely, how to handle, care for, and use many new textiles appearing on the market today.

CONCLUSION

I have outlined in some detail the various programs and activities which the public schools have conducted during the past year. In pursuing this course, I have attempted to maintain what I feel is a program of quality education, geared to meet the needs of all of our students.

The year ahead, as I see it, will be an extremely challenging one in that all of the existing school facilities will be strained to their utmost capacity. In spite of having to operate under adverse conditions because of overcrowding and limited building facilities, we will strive to adjust as best we can with the hope and expectation that it will not be too long before the completion of a new elementary school is realized and we are able to operate our schools in a more efficient and productive manner once again.

I would like to close by expressing my sincere appreciation to all who have contributed toward making the past year a rewarding one. I want to especially thank the School Committee, the school personnel, the various Town Officials and the civic organizations for their understanding and support in helping to make this another successful school year.

Respectfully submitted,

ALBERT LERER
Superintendent of Schools

REPORT OF THE
DIRECTOR OF ADULT EVENING EDUCATION

Mr. Albert Lerer
Superintendent of Schools
Maynard, Massachusetts

Dear Mr. Lerer:

I herewith submit my ninth annual report as Director of Adult Evening Education for the Maynard Public Schools.

We have long said that the public schools in America are charged with the responsibility of educating all the children of all the people. This concept must be extended to include the responsibility to educate not only the children, but also all of the adults as well.

Public school systems must play a leading role in providing learning opportunities for adults for the simple reason that they are best equipped and best prepared to accomplish this task.

The term "adult education" is sometimes confusing and can convey different meanings to different people. In other countries and in other cultures, adult education has developed for reasons quite different from those in the United States. In some under-developed countries, adult education has been instituted primarily as a means of trying to eliminate illiteracy, while some nations have employed adult education as an instrument of state policy directed at producing loyalty to the state and developing technical competencies required by national plans.

In the United States, on the other hand, the adult education program has developed almost haphazardly in response to various individual needs and interests, occupational goals, and social pressures. One of its most distinguishing features has been the absence of domination and control by any single agency, clientele or doctrine. Because of this freedom and diversification the program has penetrated to more phases of life in America than in any other country.

A recent national study has found that twenty-five million adults in the United States (about one in every five in the country) are actively involved in some form of program of continuing education.

The adult education program in Maynard follows the national pattern fairly closely in that it has evolved largely in response to the stated needs and interests of the townspeople.

A large number of courses are offered in many different areas in order to provide opportunities for the adults of Maynard to pursue their cultural interests, to develop homemaking and craft skills, to take refresher courses in order to become more

Adult Education continued

proficient in their occupations, and to make fuller and more rewarding use of their leisure time by participating in meaningful and interesting activities.

The number of adult participants has been growing steadily every year and has now reached about three hundred fifty. Twenty different courses were actually conducted last year in such diverse areas as Spanish, Cake Decorating, Investments and Furniture Refinishing.

We will continue to operate on the philosophy that we will attempt to offer any course which the public desires, providing that there are enough interested people to form a class and that a capable instructor is available.

I thoroughly appreciate the cooperation, support and understanding which I have received from you and from the School Committee.

Respectfully submitted,

GEORGE J. LEMIRE, Director
Adult Evening Education

REPORT OF THE JUNIOR HIGH SCHOOL PRINCIPAL

Mr. Albert Lerer
Superintendent of Schools
Maynard, Massachusetts

Dear Mr. Lerer:

I herewith submit the annual report for the Emerson Junior High School.

The aims and objectives of any Junior High School program are many and complex. Students are taken from an elementary school program which is largely self contained and primarily with one teacher. They are put into a departmentalized situation where they meet with approximately ten different teachers each week.

It is a time for considerable adjustment, both socially and academically. It is a time when tremendous academic and social growth must take place. Students decide, when they are in Junior High School, which course of study they will pursue in High School, and this to a large extent, determines what kind of life they will lead.

Report of the Junior High School Principal continued

In order to meet the academic adjustment and growth, we offer three levels of instruction in each of the major subjects. Students are placed in what we feel is their proper level for each distinct subject. This is our third year operating under this system. It is quite refined now as evidenced by the number of changes from one level to another in different subjects during the school year.

We are continuing with our Math Enrichment program for third level students. This program has met with continued success as these children can, once a week, receive small group assistance in a non-pressure situation. Our Math Laboratory has been more extensively equipped and is receiving much more use from our students.

Our science laboratory is quite busy this year. Animals, aquariums, terrariums, and other projects are quite in evidence. In addition, during the regular classes students are using the lab for daily science experiments. The emphasis on science is placed on learning through first hand experience.

New literature anthologies and poetry books have been added to our English department as we continue to offer grammar, composition, and literature, as one integrated subject six times a week with the same teacher.

In social studies, we are endeavoring to make the program more real to life by studying and discussing current affairs, including civil rights, poverty, and the due process of the laws of our country.

In French, we are converting to the revised editions of the Audio-Lingual Method of instruction. This revision introduces French grammar earlier and treats it to a greater extent than previous editions.

As I mentioned, students are also undergoing social change. They come into contact with a much larger number of students of their own age. We sponsor dance classes in the fall for both the seventh and eighth graders.

Periodically we hold school dances, customarily in the afternoon, with the exception of an evening dance for the eighth graders in June. Various clubs and activities are conducted during the school year including Chess Club, Art Club, Dramatics, Folk Singing Club, Physical Education Promoters Club, Library Aides and Audio-Visual Club.

It is hoped and anticipated that by providing students with these academic and social services, we are preparing them for a successful high school career.

Respectfully submitted,
JOSEPH J. FALLO, Principal

REPORT OF THE HIGH SCHOOL PRINCIPAL

Mr. Albert Lerer
Superintendent of Schools
Maynard, Massachusetts

Dear Mr. Lerer:

The 1969 Annual Report for Maynard High School is submitted herewith:

The acquisition of one additional teacher in both English and Mathematics has provided an excellent pupil-teacher ratio in all subject areas except Social Studies and a few in Mathematics. The added staff members have made it possible for three levels of classes to be conducted in English, Mathematics and Science. Teachers are thus enabled to teach content which is closely identified with and related to the needs and interests of the students.

It is anticipated that in 1970-71, desirable class size will be reached in all areas. Also, the teaching load of department heads should be reduced in order that they have sufficient time in which to properly discharge departmental responsibilities.

Seventy-seven percent of the parents participated in Parent-Teacher conferences conducted in November. Such a response is very gratifying to the high school faculty and indicates that the parents are enthusiastic about these conferences which are conducted privately.

In order to remain accredited by the New England Association of Colleges and Secondary Schools, each high school must be re-evaluated every ten years by a Visiting Committee which represents the Association. Maynard High School will be re-evaluated sometime during 1971. The Visiting Committee will determine to what degree the Town of Maynard provides for its young people the quality of education it purports to provide and that which it is financially able to provide.

To this end, the faculty is engaged in monthly workshops to discuss current curricula offerings, to consider more current courses of study and to prepare written curriculum guides for courses taught in each subject area.

Respectfully,

KENNETH G. ABBOTT
Principal
