

# ANNUAL TOWN REPORT 1962

- TOWN BUILDING -

MAYNARD  
MASSACHUSETTS

The cover for the Annual Report of the Town of Maynard was designed by CHRISTINE TAYLOR, a student in the Art Class of Maynard High School.

---

The following students of the Maynard High School Art Classes also submitted very fine cover drawings and are to be commended for their efforts:

Ruth Newton  
Richard Murphy  
Elaine Colombo  
Joseph Kelleher  
Gail McGrath  
John Lehto  
Alton Haines  
Brian Murphy  
David O'Laughlin  
Joseph Bobnis  
Elaine Kizik  
Joan Stasinsky  
Gene Paakkonen  
Myrna Gruber  
Robert Brooks

## Report of The Board of Selectmen

To the citizens of Maynard:

Herewith is presented the Annual Report of the Board of Selectmen for the year ending December 31, 1962.

The year 1962 has seen a continuation of physical growth within the Town's bounds which, in turn, casts its reflections upon the elected and appointed officials who are required to give more and more of their time and efforts in order to insure Maynard's progress. The Board of Selectmen has had the pleasure of working closely with many Boards and Committees during 1962, and at this time we wish to direct our remarks toward a few of the more significant developments which transpired.

The Civil Defense Department under the able leadership of Director, Donald A. MacGlashing, and Assistant Director, Harry W. Manuel, completed the master plan for the Town of Maynard. Much effort was also directed toward the establishment of an auxiliary police and fire department, medical group, and first aid survival courses.

On July 29, 1962, impressive ceremonies to commensurate the dedication of our new municipal building and public library were held. The Municipal Building Committee is to be commended for the effort they made to give us our first building designed primarily for municipal affairs.

The High School Building Committee has embarked upon a most difficult task of erecting a new high school, so that the Town may better be able to attend to its educational needs.

The Board of Health has enforced minimum State Housing Standards in the Railroad Street area, and a marked improvement can be noted from their efforts.

Outstanding accomplishments have been attained in the field of safety and the Police Department, Fire Department, and Wire Inspector deserve the plaudits of the community for their tireless efforts. The Police Department has added a new service to the community in the form of an emergency ambulance, which became a reality due largely to the efforts of Raymond Dumas and Larmond R. Simpson who presented an article to the voters at a special town meeting.

The Board of Assessors has undertaken a complete reassessment program during the past year which should be completed soon. The purpose of this program is to have a

fair evaluation of all property so that the total tax revenue needed by the Town may be properly distributed.

The Planning Board has developed a very comprehensive and protective building code for the consideration of the populous, as well as, plans for increased municipal parking.

The Insurance Committee, under the Chairmanship of Patrick Donovan, has begun the formulation of new insurance programs which have already saved the Town many dollars.

We wish to emphasize that the above mentioned developments are only a portion of the accomplishments in 1962 and we direct the readers attention to the reports of the many departments, committees, and Boards that have served the Town of Maynard during the year. It is evident from the diversity of these reports that Maynard people are living under a full and comprehensive system of government.

It is now the pleasure of the Board of Selectmen to briefly outline its actions in 1962 and present recommendations for future consideration.

1. Negotiations with the Postmaster General were completed for the sale of the old Town House building site for the sum of \$21,000.00. The new Post Office erected on this site will be open to the public early in 1963.
2. Continued and active support of the Civil Defense programs which included attending district and state sponsored meetings.
3. Active participation in both the County and State Selectmen Associations.
4. Sponsorship of joint meetings with all Town Officials to discuss welfare problems and the need for a building code.
5. Continued enforcement and investigation of liquor law violations and other matters which pertain to the sale of alcoholic beverages. The Board conducted two hearings and attended one appeal of a ruling before the Alcoholic Beverage Control Commission in Boston. One beer and wine license was permanently revoked and one transfer of license was denied.
6. Enforcement of Town by-laws played a major role in the activities of the Board in 1962. The Board has continued to enforce winter overnight vehicle parking violations, zoning regulations, and general by-law violations. Hearings have been held and the Board brought two cases to court. Regulations prohibiting the placement of advertising signs in residential areas on the

roadway were strictly enforced. Three new buildings which were in violation of the zoning laws were investigated and appropriate action was taken.

7. As recommended in 1961, the Board initiated articles which were presented at the Annual Town Meeting in 1962 and approved by the voters to create a Historical Committee, Insurance Committee, and a Summer Band Concert Program. The insurance program has undergone vast improvements since the new insurance committee was created. The Historical Society and band concerts are vehicles by which civic pride may be expressed.
8. At a special town meeting the Board presented articles calling for the adoption of a Code of Ethics, and the renovation of Memorial Park; these articles did not meet with the approval of the voters.
9. The Selectmen's proposal to create a "candidate's night" in the interest of a more informed public was thwarted because of State laws prohibiting the expenditure of Town money for political reasons. A local civic-minded newspaper came to our rescue, and 1962 saw the first annual "Candidate's Night" in Maynard.
10. The Board received the co-operation of State and Local Health Officials in enforcing minimum housing regulations as outlined in the Commonwealth of Massachusetts Sanitary Code in one area of Maynard.
11. Joint fuel oil bids became a reality in 1962 as the Public Works Department and the Selectmen submitted joint fuel specifications.
12. The Board voted to increase the Town employees Blue Cross-Blue Shield coverage which is now a very attractive fringe benefit. The Board refused to authorize acceptance of Chapter 32, Section 56 through 60 pertaining to veterans retirement benefit because the present Town Retirement Plan is very fair.
13. The Board actively supported the newly created Swimming Pool Building Committee.
14. The Board was presented with a flag in memory of Mr. Morgan Foley, from his widow, Mrs. Pauline Foley, and this flag now flies in front of the Town House.
15. The Board conducted a very successful auction to sell seven lots of land commonly referred to as the McNamara-Coughlin property. Mr. Anthony Ciraso volunteered his services as a licensed auctioneer on this occasion. The Planning Board, Board of Assessors, Public

Works Department, Town Counsel, and Town Treasurer all assisted the Board in order to complete the sale in a most successful manner.

16. The Puerto Rican Department of Labor sent a representative to meet with the Selectmen on matters relevant to standards of living and health for the small group of Puerto Ricans living in Maynard.
17. The Board joined with the Town of Sudbury in opposition to the Boston Edison Company's petition to construct overhead high tension lines over beautiful country sides. The Towns of Wayland and Concord later joined the fight and at the present time the matter is not settled.
18. Recommended for future consideration is the construction of a medical center to be financed by private sources or from tax revenue in order to insure Maynard residents of 24 hour medical attention as well as to induce more doctors to come to Maynard.
19. Recommend that the Town Seal be modernized to better depict the pride of the residents toward their town.
20. Recommend that by-laws be created to eliminate storage of junk vehicles, to allow the Town to take and destroy dangerous buildings, and to make it mandatory that dangerous man-made holes be filled within a reasonable time.
21. In 1962 the Selectmen held 53 regular meetings, many special meetings, participated in 13 meetings outside of Maynard, appeared in 9 parades, issued 5 proclamations, investigated more than a dozen complaints at the location, attended many special events within Maynard, and met with other boards upon request.

In conclusion the Board wishes to recognize the following people and groups for their outstanding contributions to the Town of Maynard.

1. Mr. Benjamin J. Gudzinowicz, who served the Town for 3½ years as a member of the Board of Selectmen until he was forced to retire due to business commitments.
2. Mr. Anthony Ciraso, who volunteered his services as a licensed auctioneer on three occasions during 1962 at a cost saving of more than \$1,800.00 to Maynard.
3. The youth of Maynard, who have served as guides during the dedication of the new Municipal Building, who contributed both financial and moral support toward the erection of a municipal swimming pool, and who have been a credit to our Town in all aspects of community life.

The Board wishes to extend its thanks and appreciation to Mr. James V. King, Town Accountant, and Mr. Leonard E. Rae, Town Counsel, for their co-operation and assistance.

Respectfully submitted,

HOWARD E. BOESKE, Chairman  
ALBERT G. ALEXANIAN, JR., Clerk

January 7, 1962

## List of Jurors — 1962 - 1963

Charles E. Allan .....	6 South Street	Troubleman

## Report of Inspector of Animals

Honorable Board of Health:  
Maynard, Massachusetts

Gentlemen:

As Inspector of Animals I hereby submit my report.  
Thirty (30) dogs were quarantined on suspicion of rabies  
and after fourteen days the quarantine was lifted.

Also one horse and barn was checked and found to be clean  
and free from contagious diseases.

Respectfully submitted,

WALTER DONOHUE  
Inspector of Animals

## Report of Dog Officer

Board of Selectmen  
Maynard, Massachusetts

Gentlemen:

I hereby submit my report as Dog Officer.

During the year I returned thirty-four (34) dogs to their  
owners, thirty-eight (38) were destroyed after a ten (10)  
day keeping period.

I wish to thank the Chief of Police, and his officers for  
their assistance during the year.

Respectfully submitted,

WALTER DONOHUE  
Dog Officer

9	Vehicle Tanks @ \$3.00 each .....	27.00
		\$164.55

Respectfully submitted,

JAMES J. RYAN

Sealer of Weights and Measures

## Report of the Inspector of Wires

To the Board of Selectmen  
Town of Maynard, Massachusetts

Herewith is presented the report of the Wire Inspector for the year ending December 31, 1962.

There were two hundred and twenty (220) permits issued during this period. One hundred and eight (108) new homes were built — all of which were wired with one hundred (100) amp. service. Also there were twenty-seven (27) homes that had their service increased to a larger capacity.

Wherever necessary, recommendations were made to property owners to improve their wiring; thus eliminating any fire hazards that could otherwise occur.

I wish to thank the Board of Selectmen and the Fire Department for the fine co-operation they gave me throughout the year.

Respectfully submitted,

BENJAMIN A. BIGUSIAK

Inspector of Wires

# **Town Clerk's Report**

## **Proceedings of**

## **Annual Town Meeting**

**HELD MARCH 5, 1962**

The Annual Town Meeting was held in the Maynard Memorial Gymnasium on March 5, 1962, in accordance with Town Warrant No. 487.

Moderator Philip Wilson called the meeting to order at 7:30 P. M. Prayer was offered by Rev. John J. Callahan of St. Bridget's Church. Announcement was made by the Moderator that a quorum was present.

On motion of R. Frank Punch it was voted to waive the reading of the Warrant as a whole.

On motion of Albert G. Alexanian, Jr., it was voted that no article be taken up for action after 11:00 o'clock P. M. and at that time the meeting adjourn until 7:30 o'clock P. M. on Tuesday, March 6, 1962. If an article is under consideration at 11:00 P. M. action under such article shall be completed.

Article 1. Albert J. Hodgess spoke for the High School Building Committee, mentioning the committee report in Town Report and that a report would be given later in the meeting.

Winfield W. Bemis reported for the Industrial Committee. Report filed with Town Clerk.

Stanley J. Kulik reported for the Municipal Building Committee and on motion of R. Frank Punch this was accepted as a report of progress. Report filed.

Larmond A. Simpson reported for the Personnel Board. Report filed.

Reports of High School Building Committee, Industrial Committee and Personnel Board were accepted as reports of progress.

Article 3. On motion of Robert R. Billups: Voted, unanimously, to adopt the recommendations of the Finance Committee and appropriate the amounts as printed in the official

Warrant under Finance Committee Budget, to defray the regular annual expenses of the Town.

Article 4. On motion of Robert R. Billups: Voted to pay the various elected Town Officials in accordance with Chapter 41, Section 108, of the General Laws, the following salary or compensation, said salary or compensation to be effective from January 1, 1962 and remain in force until the next annual Town Meeting unless sooner changed by the vote of the Town.

Moderator .....	\$50.00
Town Clerk .....	2,000.00
Town Treasurer-Collector .....	6,000.00
Selectmen, 3 Members, each .....	300.00
Board of Assessors, Chairman .....	900.00
Other Members, each .....	800.00
Public Works Board, 3 Members, each .....	300.00
Board of Public Welfare, Chairman....	200.00
Other Members, each .....	150.00
Board of Health, 3 Members, each ....	50.00
Library Trustees, Secretary .....	50.00
Other Members, each .....	25.00
School Committee, 3 Members .....	No Salary
Planning Board, 5 Members .....	No Salary

All fees and charges collected by each department must be paid to the Treasurer at the end of each month.

The above salaries are effective January 1, 1962 to December 31, 1962. For changes in personnel during the year, salaries will be prorated according to the length of service at above recommended rates.

Article 5. On motion of Stanley M. Kulik: Voted that the sum of \$18,000.00 be transferred from Excess and Deficiency Account for the purpose of constructing and originally equipping and furnishing a combined Town Office and Public Library Building, said sum to be added to the appropriation of \$329,000.00 previously appropriated for the same purposes under Article 3 of the Warrant for the Special Town Meeting held on October 10, 1960.

On motion of James E. Duggan it was voted to consider Articles 55, 56 and 57 before Article 6.

Article 55. On motion of Albert J. Hodgess: Voted, 379 in favor to 175 opposed, to appropriate the sum of \$1,694,600.00 for the purpose of constructing, originally equipping and furnishing a public High School Building on Town owned land located on the southwesterly side of Great Road, known as the Eveleth Estate Property, and that to meet such appropriation, the Treasurer, with the approval of the Selectmen, is authorized to borrow a sum not exceeding \$1,694,600.00 and to issue bonds therefore payable within 20 years from their dates under G. L. c 44S. 7(3) as amended.

A motion for a secret ballot on this article failed to pass.

Article 56. The Moderator ruled that no action was necessary under this article. (Alternate School Building Article.)

Article 57. On motion of Albert J. Hodgess: Voted that the present members of the High School Building Committee continue as the High School Building Committee, be and is hereby authorized to construct, originally equip and furnish a high school building in accordance with the vote of the Town under Article No. 55 of this Warrant; and further that any vacancy which may occur in the membership of this committee shall be filled by appointment to be made by the Moderator.

Article 6. On motion of Albert G. Alexanian, Jr.: Voted to authorize the Board of Selectmen to appoint a committee consisting of five members, to be known as the Historical Committee, to compile and publish a complete history of the Town of Maynard, Massachusetts prior to and in anticipation of Maynard's Centennial Anniversary due in April of 1971: that said committee be authorized to sell the history so published to the general public at a reasonable price to be determined by said committee; that said committee be authorized

to add to its membership without limitation; and that the sum of \$500.00 be appropriated to the use of said committee for any expense it may incur in compiling and publishing said history, said sum to be raised from taxation.

Article 7. On motion of Albert G. Alexanian, Jr.: Voted to appropriate to the Board of Selectmen the sum of \$900.00 for the purpose of establishing a summer band concert program of not less than six (6) concerts to be conducted by the Maynard Community Band at John A. Crowe Park.

Article 8. On motion of Albert G. Alexanian, Jr.: Voted to authorize the Board of Selectmen to appoint a committee, to be known as the Town Insurance Committee, for the purpose of administering and attending to all matters pertaining to all insurance of the Town now or hereafter in force; said committee to be appointed on or before April 1, 1962 and consist of five members, one of whom shall be appointed for a term of one year, one to be appointed for a term of 2 years, one to be appointed for a term of three years, one to be appointed for a term of four years and one to be appointed for a term of five years and thereafter, except to fill an unexpired term, each appointment to be for a term of five years; and further, to transfer to this Town Insurance Committee from all existing Town departments, boards, and committees all 1962 insurance appropriations for the Committee's use and administration effective April 1, 1962. The present Insurance Advisory Committee shall be abolished as of April 1, 1962, upon acceptance of this Article by the Town.

Article 9. On motion of Robert R. Billups: Voted to raise and appropriate the sum of \$10,000.00 to the Stabilization Fund as provided in Section 5B of Chapter 40 of the General Laws, as amended.

Article 10. On motion of Robert R. Billups: Voted to raise and appropriate the sum of \$15,000.00 for the Finance Committee Reserve Fund to provide for extraordinary and unforeseen expenditures. Transfer to be made to departments only by vote of the Finance Committee, as provided by Section 6 of Chapter 40 of the General Laws.

Article 11. On motion of Robert R. Billups: Voted to amend the By-Laws of the Town of Maynard by adding the following sections to Chapter II — Finance Committee.

*Section 7.* Any member of the Finance Committee running for Public Office shall first resign from said Committee.

*Section 8.* No member of the Finance Committee shall serve on any other Board or Committee as a voting member.

Boston, Mass.

May 16, 1962

The foregoing amendment to by-laws is hereby approved.

E. J. McCORMACK, JR.,  
Attorney General.

Article 12. Motion under this article was not carried.  
(re Municipal Ambulance)

Article 13. On motion of Worsley Fardy: Voted 273 in favor to 3 opposed, to amend the Protective Zoning By-Law and the Zoning Map of the Town of Maynard, Massachusetts by changing from residential to business the following described area of land, situated westerly of Acton Street and northwesterly of Conant Street.

Beginning at a point at the intersection of Conant Street and Acton Street, thence, running northerly by Acton Street, 542 feet, more or less, to the Maynard and Acton Town line; thence southeasterly by said Maynard and Acton Town line 225 feet, more or less, to land of George Brown; thence southerly by said land of George Brown 34 feet, more or less; thence southeasterly by said land of George Brown, 100 feet more or less, to Conant Street; thence southwesterly by Conant Street 379 feet, more or less, to Acton Street and the point of beginning.

Boston, Mass.

June 4, 1962

The foregoing amendment to Zoning By-Laws is hereby approved.

E. J. McCORMACK, JR.,  
Attorney General.

Article 14. On motion of Michael Barilone: Voted that the Board of Public Works be authorized to purchase a new 5 Ton Truck complete with body and hoist and to trade in one 1949 Truck chassis in conjunction with the transaction and to appropriate the sum of \$8,400.00 for this purpose.

Article 15. On motion of Michael Barilone: Voted that the Board of Public Works be authorized to purchase a new

crawler type sidewalk tractor and snow plow and to trade in one 1941 Case wheel tractor on the transaction and that the sum of \$5,500.00 be appropriated for this purpose.

On motion of Raymond J. Sheridan it was voted to take up Article 25 before Article 16.

Article 25. On motion of Raymond J. Sheridan: Voted:

A) That the uniform rate fixed under Section 6 of Chapter 340 of the Special Acts of 1916 as amended by vote at the annual Town Meeting of March 13, 1950 be increased from \$2.60 per linear foot of frontage to \$3.50 per linear foot of frontage as provided by Chapter 83 Section 15A.

B) In case of corner lots on more than one sewered street 75 foot frontage shall be exempted instead of 60 foot frontage provided by vote of Town Meeting, August 19, 1929.

C) In a single residence district there shall be a minimum assessment of 100 foot frontage. If lot is less than minimum, actual frontage to be charged.

D) In a general residence district there shall be a minimum assessment of 75 foot frontage, if lot is less than minimum, actual frontage to be charged.

E) In subdivisions there shall be an entrance or use charge of \$75.00 for each lot which is to be built upon, to be paid by the owner of the subdivision.

Article 16. On motion of John J. Tobin: Voted unanimously, to authorize the Board of Public Works to install sewer mains subject to assessments or betterments in accepted or unaccepted streets in accordance with Chapter 340 of the Acts in amendment thereof and in addition thereto, and to take by eminent domain or otherwise acquire any fee, easement or other interests in land necessary therefore, for sewerage Second Street from an existing sewer on Waltham Street about 240 feet of 8" AC pipe and on Whitney Avenue about 200 feet of 8" AC pipe and for such installations and land acquisition the sum of \$6,500.00 be appropriated.

Article 17. On motion of John J. Tobin: Voted that the sum of \$750.00 be appropriated to the Board of Public Works for the purpose of fencing the reservoir on Summer Hill.

Article 18. On motion of John J. Tobin: Voted to lay this article on the table.  
(re two-way radio)

Article 19. On motion of John J. Tobin: Voted, unanimously, to authorize the Board of Public Works to change the grade of Driscoll Avenue so as to eliminate an existing drainage problem, and that sum of \$500.00 be appropriated for this purpose.

Article 20. On motion of Raymond J. Sheridan: Voted, unanimously, that the sum of \$10,000.00 be appropriated to the Board of Public Works for the purpose of widening Percival Street.

Article 21. On motion of Raymond J. Sheridan: Voted, unanimously, that the sum of \$56,500.00 be appropriated for the purpose of sewer construction as provided in Report on Sewage Treatment Plant, prepared for the Board of Public Works by Whitman and Howard, Engineers, and to provide funds therefor there shall be raised in the tax levy of the current year the sum of \$2,500.00 and that the treasurer, with the approval of the selectmen, be and hereby is authorized to borrow the sum of \$54,000.00 under authority of Section 7 of Chapter 44 of the General Laws and to issue notes or bonds of the town therefor payable in accordance with the provisions of said Chapter 44 so that the whole loan shall be paid in not more than thirty years from the date of issue of the first note or bond.

Article 22. On motion of Raymond J. Sheridan: Voted, that the Board of Public Works be and hereby is authorized and directed to make application under Federal Water Pollution Control Act, House Bill No. 660 for a Federal Grant in aid in connection with the improvements of the Sewage Disposal Plant.

Article 23. On motion of Raymond J. Sheridan: Voted, that the sum of \$1,000.00 be appropriated to the Board of Public Works for the purpose of locating and setting bounds on Public Ways of the Town.

Article 24. On motion of Raymond J. Sheridan: Voted, unanimously, that the Town establish as Town ways and accept the layouts of South Street, B Street, Old Mill Road and Hird Street, made by the Board of Public Works under the provisions of Chapter 79, 80, 82 and 83 of the General Laws relating the layout of ways and assessment of betterments, filed in the office of the Town Clerk with the plans thereof, and to appropriate the sum of \$4,000.00 for construction and for the payment of any damages resulting from the taking of land and easements for said ways and for recording

fees. Owners of land abutting on said ways and benefitting by said construction shall be assessed half the cost.

Article 25. Acted on before Article 16.

Article 26. The Moderator ruled that no action could be taken on this article.

(re transfer of unexpended balance 1961 water construction account)

Article 27. A motion by John J. Toom under this article was not carried.

(re sewer on Summer Street to Stow line)

Article 28. On motion of John J. Tobin: Voted, that the sum of \$2,500.00 be appropriated to the Board of Public Works for the purpose of installing about 250 feet of 8" water main on Riverbank Road and to install a fire hydrant at the rear of the new Town Building.

Article 29. On motion of Raymond J. Sheridan: Voted, unanimously, that the sum of \$1,846.94, balance of Chapter 718 funds be used by the Board of Public Works to pay for paving laid on Main Street in 1961 in conjunction with Chapter 90 Construction.

Article 30. On motion of Michael Barilone: Voted that the Board of Public Works be authorized to purchase a new backhoe and loader, and that the sum of \$10,000.00 be appropriated for this purpose.

Article 31. On motion of Michael Barilone: Voted that the Board of Public Works be authorized to purchase a new 6 yard sand spreader box and spreader and that the sum of \$2,400.00 be appropriated for this purpose and to authorize the trade in of old box and spreader on this transaction.

It being 11:00 o'clock P.M. the Moderator declared the meeting adjourned until 7:30 o'clock P.M. Monday, March 6, 1962, in accordance with the vote previously passed.

Attest:

ELEANOR JONES,  
Town Clerk.

Counters, at the Annual Meeting and Adjourned Meeting, appointed by the Moderator and sworn by the Town Clerk, were — Margaret J. McCormack, Martha L. Champagne, Helen V. McDonald, Ruthmary Armour, Anne T. White, Sylvia J. Brooks and Helen R. Foley.

## Proceedings of Adjourned Town Meeting

HELD MARCH 6, 1962

In accordance with the vote at the Annual Town Meeting, March 5, 1962, the adjourned meeting was called to order at 7:30 o'clock, P. M. by Moderator, Philip Wilson.

A quorum was declared to be present.

As the Moderator wished to speak on Article 32, the Town Clerk acted as Moderator for this Article.

Article 32. On motion of Robert R. Billups: Voted, 192 in favor to 6 opposed, that the Town transfer from the Stabilization Fund the sum of \$41,000.00 for the purchase of a new aerial ladder truck for the Fire Department, and to authorize the Board of Fire Engineers to sell the existing Peter Pirsch Aerial Ladder Truck. Proceeds from the sale of truck to go into the Stabilization Fund.

Article 33. A motion by Carlo J. Mistretta under this article was not carried.

(re World War II and Korean Emergency Memorial)

A report for the Memorial Committee was read by Wesley Hirons and filed with Town Clerk.

Article 34. On motion of Howard L. King: Voted, unanimously, to authorize the Town Treasurer and Collector, with the approval of the Selectmen, to borrow money from time to time in anticipation of revenue of the financial year beginning January 1, 1962 and to issue a note or notes therefor, payable within one year and to renew any note or notes as may be given for a period of less than one year in accordance with Section 4, Chapter 44 of the General Laws.

Article 35. On motion of Arthur J. Brooks: Voted under authority of Section 108A of Chapter 41 of the General Laws to amend the By-Laws of the Town by deleting the following:

Article 41. A motion by Raymond J. Sheridan under this article was not carried.  
(re installation of Water Mains on Summer Street)

Article 42. On motion of Raymond J. Sheridan: Voted, unanimously, that the sum of \$15,400.00 be appropriated to the Board of Public Works for Chapter 90 Construction on Main Street; the Town's share of \$3,850.00 be raised from the tax levy of the current year, and the State's share of \$7,700.00 and the County's share of \$3,850.00 be borrowed under Chapter 44, Section 6A, of the General Laws.

Article 43. On motion of Raymond J. Sheridan: Voted, unanimously, that the sum of \$4,500.00 be appropriated to the Board of Public Works for Chapter 90 Maintenance. The reimbursement of \$1,500.00 from the State and \$1,500 from the County, be restored upon their receipt to the Excess and Deficiency Fund.

Article 44. On motion of Michael Barilone: Voted that the Board of Public Works be authorized to aerial spray for mosquito control and that the sum of \$2,500.00 be appropriated for this purpose.

Article 45. On motion of Raymond J. Sheridan: Voted that the sum of \$7,500.00 be appropriated to the Board of Public Works for the purpose of paving and surfacing streets.

Article 46. On motion of Michael Barilone: Voted, unanimously, to authorize the Board of Public Works to lease the property of Grace P. Boeske, off Waltham Street, for use as a Public Dump, and that the sum of \$1,800.00 be appropriated for this purpose.

Article 47. On motion of Raymond J. Sheridan: Voted to appropriate the sum of \$5,000.00 for the purpose of paving with C. I. Bituminous Concrete, Walnut Street, from Main Street to Parker Street and Sudbury Street from Main Street to Great Road.

Article 48. On motion of Raymond J. Sheridan: Voted, unanimously, that the sum of \$3,000.00 be appropriated for the purpose of installing 400 feet of 8" A. C. Water Main with fittings and appurtenances on Silver Hill Road from an existing main on Acton Street, one half the cost of said installation to be assessed upon owners of land abutting upon said street and benefitting by the laying of the water pipes; said assessments in accordance with sections 42G, 42H and 42I of Chapter 40 of the General Laws.

Article 49. Withdrawn at request of Thomas J. Duggan.  
(re acceptance of Sections 7A-7D, Chapter 58, of the General Laws.)

Article 50. Withdrawn at request of Thomas J. Duggan.  
(re revaluation program)

Article 51. On motion of Eino E. Nelson: Voted to authorize the Board of Assessors to contract for an expert appraisal of the taxable real estate and personal property in the Town of Maynard at a total sum not to exceed \$22,800.00 with payments for a period not exceeding three years to be raised by taxation.

Article 52. Withdrawn at request of Thomas J. Duggan.  
(re Assessors' Maps)

Article 53. On motion of Albert G. Alexanian: Voted to authorize the Board of Selectmen to sell the excess furniture in the present Town Building after the new Town Municipal Building is completed, furnished and occupied.

Article 54. A motion by Alfred S. Carey, Jr., to appropriate the sum of \$3,000.00 for the purpose of employing a Social Worker in the Maynard Public Welfare Department was defeated — 60 in favor to 78 opposed.

Articles 55, 56 and 57 were acted on March 5, 1962, before Article 6.

At 9:55 o'clock P. M. on motion of R. Frank Punch, it was voted to adjourn.

# Proceedings of Annual Town Election

HELD MARCH 12, 1962

The Annual Town Election was held March 12, 1962 in the Maynard Memorial Gymnasium in accordance with Town Warrant No. 488, with Warden Pauline E. Foley in charge.

The Warden and Clerk checked the Ballot Boxes prior to the opening of the polls, set the registers at zero, locked them and put the keys in the keeping of the Election Officers at the Boxes. Specimen ballots, copies of the Warrant and all required notices were posted.

At 8:00 o'clock A. M. it was voted to waive the reading of the Warrant and the Warden then declared the polls open.

Election Officers present — Warden, Pauline E. Foley, Clerk, Phyllis P. Savikoski, Deputy Warden, James J. Ryan, Deputy Clerk, William G. Weir, Inspectors and Deputy Inspectors Helen V. MacDonald, Myrna E. Palmer, Helen M. Gilleney, Helen M. Leithead, Herbert R. Usher, Ruthmary Armour, Marion Toivonen, Martha L. Champagne, Margaret J. McCormack and James J. Tobin.

4100 Official Ballots, Duplicate Voting Lists, Tally Sheets, Total Sheets and all other election equipment were delivered to the Warden by the Town Clerk.

The Clerk's Report is as follows:

Polls were opened at 8 A. M.

Polls were closed at 8 P. M.

Total number of Official Ballots received from Town Clerk	4100
--	------

Ballot Box Register at opening of Polls —	
Area 1, 0 At close	974
	1 over ring

Ballot Box Register at opening of Polls —	
Area 2, 0 At close	866

Number of Names checked on Voting List, Area 1	972
--	-----

Number of Names checked on Voting List, Area 2	866
--	-----

(A voter in Area 2 deposited his ballot in Area 1 Ballot Box causing the difference between names checked and register numbers on Ballot Boxes.)

Total number of names checked and Ballots cast 1,838

Number of Ballots spoiled. One Blank Ballot.  
Unused Ballots: 2261.

Counting of Ballots began at 8 P. M. Counting of Ballots  
completed at 11:35 P. M.

## Proceedings of Special Town Meeting

HELD MAY 14, 1962

A Special Town Meeting was held in the Maynard Memorial Gymnasium on the above date in accordance with Town Warrant No. 489.

Moderator Philip Wilson called the meeting to order at 7:30 o'clock P. M. and announced that a quorum was present.

On motion of Anthony R. Ciraso it was voted to waive the reading of the Warrant as a whole.

Article 1. A report for the Municipal Building Committee, read by Stanley M. Kulik, was accepted as a report of progress. Report filed with Town Clerk.

Article 2. There were no vacancies in Town Offices to be filled.

Article 3. On motion of Albert J. Hodgess: Voted, 389 in favor to 120 opposed, to amend the vote passed under Article 55 at 1962 Annual Town Meeting by changing the words "G. L. C. 44 S. 7 (3)" to read "Chapter 645 of the Acts of 1948 as amended" and to confirm the vote so amended.

Counters appointed by the Moderator and sworn by the Town Clerk, were Sylvia K. Brooks, Margaret J. McCormack, Martha L. Champagne, Pauline E. Foley, Ruthmary Armour and Lylyli M. Nelson.

Article 4. A motion in favor of this Article by Howard E. Boeske was not carried.  
(re World War II and Korean War Memorial)

On motion of Benjamin J. Gudzinowicz it was voted, prior to action on Article 4, to admit Gold Star Mothers to the Town Meeting.

Article 5. On motion of John J. Tobin: Voted, 295 in favor to 100 opposed, to appropriate the sum of \$23,000.00 for the purpose of installing, by the Board of Public Works, about 2,000 feet of 12" A. C. Water Main with fittings and appurten-

ances on Summer Street, from the existing main to the Stow Line, one half the cost of said installation, computed on the cost of an 8" main, to be assessed upon owners of land abutting upon said street and benefitting by the laying out of the water pipes; said assessments in accordance with sections 42G, 42H, and 42I of Chapter 40 of the General Laws; and to provide funds therefor the treasurer, with the approval of the selectmen, be and hereby is authorized to borrow the sum of \$23,000.00 under authority of Section 8 of Chapter 44 of the General Laws and to issue notes or bonds of the town therefor payable in accordance with said Chapter 44 so that the whole loan shall be paid in not more than fifteen years from the date of issue of the first note or bond.

Article 6. On motion of John J. Tobin: Voted to lay this article on the table.

(re Code of Ethical Practices for Town Officials)

Article 7. On motion of John J. Tobin: Voted, unanimously to authorize the Board of Public Works to install sewer mains subject to assessments or betterments in accordance with Chapter 340 of the Acts of 1916 and all other acts in amendment thereof, and in addition thereto, and to take by eminent domain or otherwise acquire any fee, easement or other interests in land necessary therefore, for sewerage Garfield Avenue from an existing manhole on Crane Avenue, about 400 feet of 8" A. C. pipe to Winthrop Avenue and on Winthrop Avenue about 150 feet of 8" A. C. pipe, with necessary manholes; and to transfer from the E. and D. Funds the sum of \$8400.00 for such installation and land acquisition.

Article 8. On motion of Raymond F. Dumas as amended by Robert R. Billups: Voted that the sum of \$1,200.00 be appropriated, to be added to Item 32 of Article 3 of the 1962 Annual Warrant, for the purpose of purchasing a station wagon-police cruiser to be fully equipped so that it may be utilized as an emergency ambulance, and that \$1,200.00 be raised from revenue.

Article 9. On motion of John J. Tobin: Voted that the sum of \$1,507.20 be appropriated from revenue of 1962 for the purpose of purchasing by the Board of Public Works five sections of portable type bleachers for John A. Crowe Park.

Article 10. On motion of John J. Tobin: Voted that the sum of \$1,076.00 be appropriated from revenue of 1962 to be

added to the sum of \$750.00 appropriated at the Annual Town Meeting and used for replacing the fence at the Reservoir on Summer Hill.

At 9:47, on motion of R. Frank Punch, it was voted to adjourn.

Attest:

ELEANOR JONES,  
Town Clerk.

## QUESTION No. 1

### PROPOSED AMENDMENT TO THE CONSTITUTION

Do you approve of the adoption of an amendment to the constitution summarized below which was approved by the General Court in a joint session of the two branches held May 13, 1959, received 143 votes in the affirmative and 118 in the negative, and in a joint session of the two branches held March 29, 1961, received 144 votes in the affirmative and 121 in the negative?

Yes .....	475
No .....	2,262
Blanks .....	600

## SUMMARY

The proposed amendment imposes no new taxes but gives the General Court the power to pass an income tax at graduated or proportioned rates and is a change in the constitutional limitations now in effect on the power of the General Court to pass tax measures. The proposed amendment would add a new Article to the Constitution of the Commonwealth by which full power and authority is granted to the General Court, in the alternative to the power and authority to tax incomes in the manner provided in Article XLIV of the Amendments to the Constitution, to impose a tax on incomes at rates which are proportioned or graduated according to the amount of income received, irrespective of the source from which it may be derived, and to grant reasonable exemptions, deductions and abatements. It further provides that any property the income of which is taxed under the provisions of the proposed Article may be exempted from the imposition and levying of proportional and reasonable assessments, rates and taxes as at present authorized by the Constitution, and that the Article shall not be construed to limit the power of the General Court to impose and levy reasonable duties and excises.

## QUESTION No. 2

LAW SUBMITTED UPON REFERENDUM  
AFTER PASSAGE

Do you approve of a law summarized below, which was approved by both branches of the General Court by vote not recorded?

Yes .....	395
No .....	2,272
Blanks .....	670

## SUMMARY

This act increases the compensation each member of the General Court shall receive for each regular annual session from fifty-two hundred dollars to sixty-seven hundred dollars and increases the additional compensation the President of the Senate and the Speaker of the House of Representatives shall receive from fifty-two hundred dollars to sixty-seven hundred dollars. The act also increases the additional compensation the floor leaders of the major political parties in

the Senate and House of Representatives, the Chairman of the Senate Committee on Ways and Means and the Chairman and Vice-Chairman of the House Committee on Ways and Means shall receive from twenty-six hundred dollars to thirty-three hundred and fifty dollars, and provides that a member of the General Court chosen to fill a vacancy, or who resigns his seat during a regular annual session, shall receive a per diem compensation at the increased rate of compensation for each regular annual sessions.

## Assessors' Report

To the Citizens of Maynard:

The Annual Report of the Board of Assessors for the year ending December 31, 1962, is submitted herewith:

In accordance with the provisions of the General Laws of Massachusetts, Chapter 59, Section 29, all owners of taxable property shall, each year, on or before March 1st submit to the local Assessors a list with the valuation of their taxable property. Notices are posted and forms may be obtained at the Assessors' office in the Municipal Building.

All male inhabitants who are 65 years of age and over, and who wish to be exempted from payment of a poll tax, must make a request in writing on a form furnished at the office of the Assessors.

All requests for abatement or exemption of taxes must be filed on forms which can be obtained at the Assessors' office. All applications for abatement or exemption of Personal Property Taxes or Real Estate Taxes must be filed on or before October 1st of each year.

On July 2, 1962, the Board of Assessors contracted with the Associated Surveys Company of Passaic, New Jersey to reappraise the town. This work is now in process and the tax rate for 1963 will be reflected in the results of this reappraisal.

## Town Accountant's Report

To the Honorable Board of Selectmen:

Herewith is presented the report of the Accounting Department for the year ending December 31, 1962. The report is made in accordance with the requirements of the State System of Accounting.

In accordance with the provisions of Section 61, Chapter 41, of the General Laws, I hereby certify that I have verified the cash balance of the Town Treasurer as of December 31, 1962. The total cash balance of December 31, 1962 was \$434,467.54.

In accordance with the provisions of Section 23, Chapter 59, General Laws, as amended, the amount of available funds or "free cash" as of December 31, 1962 is \$145,294.15.

The courtesy and co-operation received from the various Town boards, officials and employees is gratefully appreciated.

Respectfully submitted,

JAMES V. KING,  
Town Accountant.

	\$176,267.45	\$176,267.45

## Report of The Board of Registrars of Voters

Board of Selectmen  
Maynard, Massachusetts

Gentlemen:

The Annual Listing of residents of Maynard, twenty years of age and over was taken, under supervision of the Board, starting on January 2, 1962.

The voting list was checked with the listing and corrections were made, also changes of addresses and the names of voters removed from town, deceased or women, married during 1961, were removed from the voting list, and a new voting list was printed for the Town Election in March.

Registration meetings were held prior to the Town Election, the September State Primary and the November State Election.

The total number of registered voters at the Annual March Election was 3,891 and at the November State Election the number was 4,060.

A recount of the ballots cast for Governor at the State Election was held November 30th. Eight counters, two tabulators and four persons to fold and prepare the ballots for counting, completed the recount of 3,337 votes in two and one-half hours.

Respectfully submitted,

EDWARD E. PUFFER, Chairman  
ALBERT J. HODGESS  
ALEXANDER J. BOURKE  
ELEANOR JONES, Clerk  
Board of Registrars of Voters

## Report of Progress of the Special Water Committee

It might be well at this time to look back at the purpose of this committee. Going back to the year 1954; the Planning Board then in office, had a survey of the water system made by a professional engineering firm. This survey revealed that the system was in a badly run down condition. It was recommended at that time, that a five year program of improvements to the distribution system be made, at an estimated cost of \$465,000. An article was placed on the 1955 annual town meeting warrant calling for an appropriation of \$195,000 for the first phase of this program. This appropriation was voted down by the meeting and the moderator was instructed to appoint a special committee to devise ways and means of spreading these improvements over a longer period of time.

This committee has continued to study the problems and establish a priority of recommended improvements, keeping the costs within the limits of the current water revenue.

During the past year a ground water search was conducted in the town of Stow, with the cost being shared equally by the towns of Stow and Maynard. Tests in the most favorable areas failed to indicate any quantity sufficient for the needs of the two towns, so this effort has been dropped.

Presently, the condition of the storage reservoir on Summer Hill has reached a critical stage. This is the only elevated storage in the system. It was built seventy-five years ago. Built of stone set in mortar and embanked with earth. Through the years much of the mortar has loosened and leaks have developed, these leaks are not only wasteful of water and pumping costs but are also extremely dangerous, as they will eventually erode the earth embankment and allow complete failure of the entire structure. The only practical repair of this condition is a complete concrete lining of the bottom and walls.

This committee participated in a joint meeting of the Maynard Public Works Board and the Sudbury Water District Commissioners at which the possibility of the town of Maynard purchasing water from Sudbury were discussed. Although no definite commitments were made, there appears to be a good chance of coming to some agreement that would be of mutual benefit.

Respectfully submitted,

RUOFF A. TOMPKINS  
HENRY T. HANSON  
EMILE A. DUMAS  
RAYMOND J. SHERIDAN

## Report of The Maynard High School Building Committee

To the Board of Selectmen  
Maynard, Massachusetts

The Maynard High School Building Committee herewith presents a report of progress for 1962.

1. Articles providing funds and authority to the committee to construct, originally equip and furnish a new \$1,694,600 high school were approved by the voters at the March, 1962 Regular Town Meeting and a subsequent Special Town Meeting.

2. Detailed working drawings and specifications were prepared and accepted by the Massachusetts School Building Assistance Commission.

3. Bids were obtained for the school construction and landscaping.

4. The contract was awarded to the low bidder, Chick's Construction Company, Inc. of Clinton, Massachusetts. The bid price of \$1,354,391 includes the following subcontractors' bids:

Resilient Flooring	Mari & Sons Flooring Co., Inc.
Roofing and Sheet Metal	Columbia Cornice Co.
Waterproofing, Caulking	Western Waterproofing Co.
Metal and Light Iron	American Architectural Iron Co.
Lathing and Plastering	Francis P. Connor & Sons, Inc.
Aluminum Windows and Trim	Eastern Sash Engineering Corp.
Ceramic Tile	Albre Marble and Tile Co.
Metal Toilet, Shower and Dressing Compartments	Construction Specialties Co., Inc.
Glass and Glazing	Salem Glass Co.
Slates and Tackboards	Boston Blackboard Co.
Acoustical Tile	Acoustical Contractors
Painting	Johnson-Foster Co., Inc.
Heating and Ventilating	Harrington & Pineo, Inc.

Plumbing

Lamarche Plumbing and  
Heating Co.

Electrical

Ostrow Electric Co.

This bid does not include the movable furniture and equipment, building insurance, clerk of the works and architect expenses. At this time the funds voted appear to be adequate.

5. Construction was started in December. The building is expected to be ready for use in the fall of 1964.

#### 6. Personnel Changes

Mrs. Jane Johnson was appointed to the committee to fill the vacancy created by the resignation of Mr. George I. Middlebrooke in 1961.

Mr. Robert R. Billups resigned in December, 1962 to avoid any conflict of interest with his position on the Maynard Finance Committee. The Maynard High School Building Committee wishes to take this opportunity to thank Mr. Billups for the many hours he has put on this project.

Mr. Emery Doane was chosen by the Committee to be the clerk of the works.

7. Regular Committee Meetings will continue to be held during 1963 at 7:30 P.M. at the Green Meadow School on the 1st Wednesday and 3rd Monday of each month. These meetings are open to the public.

Respectfully submitted,

HARRY F. CHAPPELL, Chairman  
For the Committee

December 20, 1962

---

### MEMBERS OF THE MAYNARD HIGH SCHOOL BUILDING COMMITTEE

Harry F. Chapell, Chairman

Albert J. Hodgess, Recording Secretary

Frediano D. Mattioli, Corresponding Secretary

John J. Tobin

\*Resigned in December, 1962

Architect — Perley F. Gilbert Associates, Inc., Lowell, Massachusetts.

## Report of the Historical Committee

To the Honorable Board of Selectmen:

Herewith is submitted for your consideration a report of progress and list of events which have occurred during 1962 since the establishment of the Historical Committee.

The prime function of our committee is to prepare and publish a complete historical account of the Town of Maynard, to be sold prior to the Centennial Anniversary in April, 1971. The book will also serve as a guide to new industry, doctors, residents, etc.

The groups to be considered in the publishing of the History of Maynard are the following:

- Group I — People
- Group II — Physical Development
- Group III — Institutions
- Group IV — Events
- Group V — Government
- Group VI — Art and Photography

The Historical Society has approximately 50 members, of these, about 25 are active members. All members have expressed an interest in one of more of these six groups, and these groups hold informal meetings throughout the year.

Five meetings of the whole Society have been held since the Town's acceptance of this Committee in March of 1962. During the year, meetings are held on the second Sunday of the months of February, May, September, and November at the Municipal Building at 2:30 P. M.

We welcome any interested individual to join with us in preparing a History of Maynard, or in contributing something of historical significance to the Society.

Respectfully submitted,

ALBERT G. ALEXANIAN, JR., Chairman  
MARY E. ALEXANIAN, Co-Chairman  
JANETTE TAYLOR, Secretary  
FRANK C. LITURI, M.D., Chairman  
Ways and Means Committee  
JAMES B. FARRELL, Chairman, Publicity

## Report of the Library Trustees

The Board of Trustees of the Maynard Public Library respectfully submits its report for the year 1962.

On January 5, 1962, Mrs. Edith Carbone resigned as a member of the Board of Trustees in order to be considered as an applicant for the position of librarian. Following her resignation, the Board was reorganized with Mr. R. Frank Punch as Chairman, Mrs. Alice Mullin as Secretary.

During the months of January and February the position of librarian was advertised in the local papers. There were three applications. The three candidates were interviewed and considered and Mrs. Edith Carbone was chosen for the position. Mrs. Alice Lyons continued as assistant librarian and Miss Anne Duggan, who had been helping Mrs. Lyons, was appointed a second assistant librarian.

The Board of Trustees wishes to express publicly its appreciation of the work done by Mrs. Lyons and Miss Duggan during the period when the library was without a head librarian.

During the months of January, February, and March the Board of Trustees worked in conjunction with the Maynard Municipal Building Committee on the plans for the new library. Mr. R. Frank Punch represented the library board at the building committee meetings and Mrs. Alice Mullin was in charge of drawing up a set of specifications for the furnishings of the new building. She was assisted by Mrs. Eleanor Hunter in this work after Mrs. Hunter was elected to the Board in March.

Mrs. Eleanor Hunter, who has a great interest in literature and libraries, was elected to the Board of Trustees on March 12. At the organization meeting of the Board following this election, Mr. R. Frank Punch was again chosen the chairman and Mrs. Alice Mullin the Secretary.

The next few months were spent in preparation for the move to the new library which was accomplished in July, and on July 29, 1962, the new Maynard Public Library was fittingly dedicated. Chairman R. Frank Punch accepted the keys to the library in the name of the Board of Trustees. The following paper was sealed in the cornerstone of the new building.

"On this day, Sunday, July 29, 1962, the new Maynard Public Library is being dedicated. The new building contains 10,000 books and shelving for 12,000 books; there are 40 chairs and 8 tables. There is a special lounge corner

designed by Maynard's own decorator — Doris Miller Sims — who also made the draperies for the windows. There is a beautiful lower floor ready for future expansion.

"Many people have given gifts to our new library. The Woman's Club donated special children's chairs to be used during reading hours. Money given by townspeople toward a memorial for Miss Olive Morgan was used for the purchase of a dictionary stand. Miss Morgan was remembered also by the children of Maynard who contributed money toward a gift for the library which will be purchased in the future. Mr. and Mrs. Albert Alexanian gave the library a sum of money to purchase books for children in memory of their young son, Stephen Brian. The Garden Club of Maynard donated *A Nature Guide Series*, and a book was given by Mr. and Mrs. Walter Carbone.

"The Library Trustees and the staff of the Library have all worked zealously in the planning of this new building, and we all feel a great satisfaction in its completion.

"May the Library grow through the years."

As soon as the new library became a reality, the Board of Trustees began deliberation on the matters of improving the functioning of the library and of giving greater service to the community. A new library schedule of hours was put into effect. The hours that the library is now open are:

Monday	2 — 8:30
Tuesday	2 — 8:30
Wednesday	2 — 8:30
Thursday	2 — 8:30
Friday	2 — 8:30
Saturday	10 — 5:00

One of the greatest deficiencies in our present library is the shortage of reference books. The Board of Trustees, taking advantage of the new State Library Grant, is asking for \$1,925 from state library funds to be used mainly to build up the reference department. The Town will have to appropriate this money at its annual meeting but it will be reimbursed by the state.

The Board has asked for a small appropriation of money in its annual budget to be used for the purchase of worthwhile recordings. These records will be lent to borrowers in the same way that books are lent.

A group of high school volunteer workers has been organized by the Board. These girls help in sorting books and filing cards.

There is still much work to be done. The books have to be reclassified in the Dewey Decimal System. The card catalog

has to be revised and brought up to date. In the spring, a town-wide registration of library users will begin — with a new Gaylord card system. All this work takes time. The Board is happy that a beginning has been made and is looking forward to the constant improvement of the library.

The Board of Trustees wishes to compliment Mrs. Edith Carbone on passing her state examination for the position of librarian, and wants to thank her, Mrs. Alice Lyons, and Miss Anne Duggan for their work and interest in the library.

The Board wishes to express deep appreciation to the individuals and groups that have donated books and furnishings to the Library.

It is the desire of the Board that the Library, which belongs to the people of Maynard — not to the Board of Trustees — not to the Staff of the Library — should satisfy the needs of the true owners. The Board always welcomes suggestions and ideas.

Respectfully submitted,

ALICE L. MULLIN, Secretary  
Board of Trustees  
Maynard Public Library

---

## Annual Report of the Librarian

To the Board of Trustees  
Maynard Public Library

### *Staff*

Edith H. Carbone, Librarian  
Alice M. Lyons, Asst. Librarian  
Annie E. Duggan, Asst. Librarian

On April 16th my appointment as Librarian of the Maynard Public Library became effective, and it has been a busy and rewarding eight months.

Our first project in the preparation of moving to the new building was an extensive weeding. Then a physical inventory was taken, which showed the following books on hand:

Adult fiction .....	3,927
Adult non-fiction .....	3,012
Reference .....	549
Children's .....	2,769

Moving a collection of over ten thousand books took considerable preliminary planning. Then with the help of high

school students and the staff, the books were moved with great efficiency, so that the library was in readiness for its dedication on July 29th.

Re-cataloging of non-fiction by more recent classification methods is now being done and will involve many hundred books. All new accessions are being catalogued by this newer method. This project will be a lengthy one.

A program is in effect to replace standard works which are worn out or printed in fatiguingly small type. Many new reference books have been purchased and more planned for the coming year.

May I put in a plea for the return of overdue books? Time spent by the library staff on checking overdues and sending out notices could be more happily and profitably spent in other fields of library service. Also, an overdue is denying its accessibility to fellow borrowers.

Books have been given in memory of Mrs. Howard Wilson, Mrs. Isaac Binks, Mrs. Mary Coughlan, Mrs. R. Frank Punch, Miss Ann Pasakarnis, Miss Olive Morgan, Steven B. Alexanian, Salvatore Graceffa, and Teresa Morrill.

Many used books have been donated, and the donors were most cooperative in allowing the librarian to take only those books she felt the library could use. Contributors of books and magazines are as follows:

Mrs. Hilda Aromaa	Mrs. John Dorenbaum
Mrs. Harry Chappell	Mrs. Henry Regan
Miss Mabel MacLellan	Mrs. Philip Havran
Mr. William Ingham	Mr. William Naylor
Mr. Carlos Davis	Mr. and Mrs. Walter Carbone
Mrs. Otis Hunter	Mr. and Mrs. Albert Alexanian
Mrs. Charles Carbary	Mrs. Ronald Jackson
Mrs. Robert Hansen	Mr. Gerald D'Errico
Mrs. Grant Denniston	Mrs. Albert Jeaneret
Mr. Robert Micklay	Mrs. Martha Champagne
Howie Boeske, Jr.	Mr. Philip Murphy
Junior High School	St. Christopher's Guild
Maynard Woman's Club	Maynard Garden Club
H. H. Scott	Library Trustees and Staff
Local Union No. 3536	Maynard Rotary Club
Maynard American Legion	

The Maynard Woman's Club have generously donated twelve kindergarten chairs for the children's area. These are most colorful and useful, their original intent was to supplement the chairs we have when a story telling program is started, but we have already found many uses for them.

The Maynard Rotary Club has donated an atlas stand, a much needed item, and capable of holding all our atlases.

The money given in memory of Miss Olive Morgan by her many friends has been used to purchase a dictionary stand and a Catholic Dictionary.

These gifts are all appropriately marked with metal plaques.

Plans for Regional Library Service are in the final stages of development. This service is provided by the 1960 Act of State Aid to Public Libraries. Among services this program might offer would be:

- (1) Telephone reference service, by which local libraries could refer reference questions by telephone to a regional center for answer.
- (2) Expanded and improved inter-library loan service available from regional centers.
- (3) Training programs for librarians.
- (4) Advisory service by specialists to local libraries.

We extend our thanks to the Concord Public Library and the Boston Public Library for their continued courtesy to our borrowers. Many books have been borrowed through inter-library loan from the State Division of Library Extension.

Each week the special class at Green Meadow School visits the library. Other classes with their teachers from Green Meadow and Coolidge schools have also made class visits. A brief talk is given in regard to the use of the library, and all children who are not library borrowers are registered.

Under the State reading plan, two hundred ninety-eight Reading Certificates and twenty Honor Certificates have been issued during the year.

As Librarian, I have attended several meetings of the Regional Library Planning Committee, the Wachusett Library Association, and took a course at Leominster entitled, "Libraries in the Community." On December 28th, I received word that I had passed the examination for certification as a professional librarian.

#### STATISTICS

Books, July 30, 1962 .....	10,257
Books, added since July 30 .....	417
Discarded .....	119
Lost .....	27
Lost or damaged and paid .....	8
Books, December 30 .....	10,520

Fines .....	\$250.44
Lost or damaged books .....	19.98
Circulation .....	25,757
Largest daily circulation .....	361
Smallest daily circulation .....	25
Daily average .....	91 plus

Circulation shows a gain of 5,888 over the preceding year, a most hopeful indication of things to come.

My sincere thanks to the Trustees, Staff, Custodians, and all who have made the year 1962 such an eventful one.

EDITH H. CARBONE, Librarian

## Report of The By-Laws Committee

To the Citizens of Maynard

Herewith is submitted the annual report of your By-Laws Committee for the year ending December 31, 1962.

In March of this past year the By-Laws, Zoning By-Laws, Salary Administration Plan, Civil Defense By-Law, Traffic Rules and Orders were published.

The first copy of the By-Laws was delivered to the Board of Selectmen and copies were distributed to the various departments and officials.

The By-Law Book is now available at the Town Clerk's Office.

We are sponsoring an article this year at the Annual Town Meeting so that we can prepare and publish the rules and regulations of the Public Works Department and any duly authorized additions or revisions to the By-Laws.

The Committee wishes to thank the various Town Officials and the Departments for their cooperation.

Respectfully submitted,

FRANK C. LITURI, M.D., Chairman  
RAYMOND J. SHERIDAN, Secretary  
MICHAEL T. ZAPARESKI

## Report of The Board of Public Works

To the Citizens of Maynard:

The Annual Report of the Board of Public Works for the year ending December 31, 1962 is herewith submitted.

Better lighting was installed on Main Street from Florida Road to the New Municipal Building. We have requested in our Budget additional money to make changes in street lighting, also to install lights in the New Subdivisions.

The water search which was a joint effort with the Town of Stow by Legislative Agreement produced nothing as far as Maynard was concerned so we decided to discontinue.

We have had meetings with The Town of Sudbury Water District Commissioners to see what could be worked out with them for obtaining water. To date the results are not enlightening.

Higher type of road surfacing was done on Walnut Street, River Street, Parker Street, Great Road, Sudbury Street and Percival Street this past year. Results have been more than favorable.

The State has allotted us \$12,180.26 under the provisions of Chapter 782, Acts of 1962, that will be used in 1963 in connection with our Chapter 90 Maintenance money and Street surfacing Article to resurface with High Type surfacing.

We received a Federal Grant of \$16,950.00 this is to be used in connection with money appropriated to construct an addition to the Sewer Treatment Plant in 1963. This grant was obtained through the efforts of Congressman Philbin.

We have placed an article on The Annual Town Meeting Warrant for the purpose of a study of refuse disposal by incineration.

The board would like to express their appreciation to the Superintendent and Public Works employees for their cooperation.

We also wish to thank the numerous Town Officials and Committees especially the Special Water Committee for their splendid cooperation.

Respectfully submitted,

JOHN J. TOBIN, Chairman  
RAYMOND J. SHERIDAN, Secretary  
MICHAEL BARILONE

---

## IN MEMORIAM

### AKSENTY LUKASHUK

A Faithful Employee of this  
Department since its beginning.

---

# Report of the Superintendent of Public Works

To the Board of Public Works  
Gentlemen:

Herewith is submitted the annual report of the Superintendent of Public Works for the year ending December 31, 1962, which includes Highways, Water and Sewer, Cemetery, Parks, Trees, Insect Pest Control, Parking Areas and the Public Dump.

## Highway Division

### Streets Treated With Oil

Driscoll Avenue	South Street
Espie Avenue	Sudbury Road
Lewis Street	Taylor Road
Old Marlboro Road	Randall Road
Old Mill Road	Winter Street
O'Moore Avenue	Walcott Street

### Streets Resurfaced With Type I Bituminous Mix

Walnut Street	full length
Sudbury Street	full length
Great Road	1600 ft.
River Street	325 ft.
Parker Street	350 ft.
Glendale Street	450 ft.
Main Street	from Florida Road to Riverbank Road

### New Construction With Type I Top

Percival Street	full length
Main Street	from Riverbank Road to Spring Lane
Riverbank Road	from Main street, Northwest 265 ft.

### Sidewalk Repair

100 Cement Concrete Blocks which had been raised by tree roots were removed and replaced by Bituminous Concrete.

Lincoln Street	Arthur Street
Brown Street	Roosevelt Street
Hayes Street	Bancroft Street
Grant Street	Chandler Street

### Storm Drains

11 Leaching Basins constructed	5 Catch Basins rebuilt
11 Catch Basins constructed	350 Catch Basins cleaned
4 Manholes constructed	775 ft. Drainage pipe laid

Many storm drains have tree root growth of such size and amount that some provision should be made for clearing, otherwise the drain must be dug up and relaid.

### Street Signs

21 old signs replaced in Public Streets.  
19 new signs in subdivisions (erected and paid for by developer under Highway Supervision).

Traffic Signs erected on Summer Street at Nason Street, and on Riverbank Road, at the request of Police Department.

### Street Cleaning

The business section was swept regularly from April to December and other streets as needed, in addition to the regular Spring Cleanup. Litter baskets were emptied weekly.

### Snow and Ice

All Streets and Sidewalks were plowed and sanded as required. Snow was removed from the Business Section and around Churches and Funeral Homes for the convenience of the Public. 80 Barrels of sand were placed at hills and other dangerous locations for emergency use and were kept filled during the winter. Persons needing small quantities of sand for icy walks were allowed to secure it from the Highway yard.

A great deal of time was spent as requested by other Town Departments, in one instance so much time was required to move the furniture and equipment from the Old Town Building to the New, that our own Highway work suffered.

## Water and Sewer Division

## Water Pumping Record

	1951 Gals.	1961 Gals.	1962 Gals.
January .....	14,905,200	17,185,000	18,055,000
February .....	11,340,600	16,340,000	16,140,000
March .....	10,372,900	17,430,000	17,910,000
April .....	13,667,700	16,840,000	18,375,000
May .....	14,685,300	17,630,000	19,660,000
June .....	13,339,500	20,010,000	22,574,000
July .....	16,449,100	20,770,000	24,531,000
August .....	15,631,300	22,702,000	24,630,000
September .....	13,931,900	20,920,000	22,210,000
October .....	13,153,500	18,970,000	20,610,000
November .....	13,760,300	17,790,000	18,317,000
December .....	11,576,500	17,875,000	19,396,000
Total .....	162,813,800	224,462,000	242,408,000
Average daily consumption ....	446,092	614,964	664,131
Average daily per person 7,000 population	63.72	87.8	94.89

The amount of water pumped has increased year after year and we must conserve its use and prevent its waste wherever possible. The reservoir on Summer Hill needs to be refaced to prevent leaks which are developing. We have been fortunate this year that our White Pond supply has yielded enough. I hope that the Commissioners will continue their efforts to find more water. Quoting from the report of Thomas Naylor, Water Works Superintendent, for the year ending March 1, 1895, "White Pond has a small watershed, and if the pond is drawn low it will not fill in a dry year, therefore I would recommend that steps be taken to provide an additional supply."

## Water Main Extensions

Great Road	290 ft. of 8" A C pipe
Silver Hill Road	400 ft. of 8" A C pipe
Assabet Street	200 ft. of 8" A C pipe
Riverbank Road	250 ft. of 8" A C pipe
In subdivisions	7136 ft. has been laid by developers.

## Hydrants Installed

By Town	5	In Subdivisions	11
---------	---	-----------------	----

### New Meters Installed

By Town	30	In Subdivisions	53
Meters replaced	115	Main Leak	1
Frozen Meters	2	New Water Services	30
Service Leaks	5	Water Relays	20

Old iron water service pipes are accumulating rust to such an extent that they do not deliver enough water to the dwellings. Requests of relays of copper are increasing so that some extra effort should be made to provide this service.

The new fence erected at the reservoir has protected our water supply from objects being thrown into it, and also makes it a less dangerous place for children.

### Sewer Pumping Record

	Year 1961 Gals.	1962 Gals.
January .....	14,414,000	15,672,800
February .....	12,922,800	11,045,300
March .....	18,729,700	18,972,500
April .....	17,948,700	18,846,300
May .....	16,688,100	16,401,000
June .....	16,003,900	15,495,700
July .....	14,035,900	13,771,900
August .....	14,298,600	15,378,500
September .....	15,713,900	13,228,700
October .....	14,380,300	18,036,600
November .....	14,512,600	14,874,100
December .....	11,946,000	14,090,000
Totals .....	181,594,500	185,813,400

The amount of sewage pumped is increasing so, that the improvements in the disposal plant to be made in 1963 will not come any too soon. The plans have the approval of the State Board of Health as is required. The sewer mains extensions started in 1961 have been completed and add more than one and one-half miles to our system of sewers. So many requests for Sewer House Connections have been, and are being made, that we cannot keep up with them.

New Sewer Services in Subdivisions	74
New Sewer Services by Town	60
Sewer Blocks — House Services	30
Sewer Blocks — Mains	10

We have had considerable trouble with controls in our sewer lift stations and to prevent blocking in the collecting lines a more reliable control should be installed.

At times the flow of sewage into the Powermill Road Sewer Pumping Station has been too great for the existing

pumps. The larger pump to be installed as part of the 1963 program will take care of the increasing load.

### **Cemetery, Parks, Trees, Insect Pest Control and Dump**

Grave Openings	76	Markers Set	26
Foundations	21	Sunken Graves Raised	14

Grass was mowed as required, shrubs and trees trimmed and avenues graded.

### **Town Dump**

The dump was leveled several times during the year and the Chemical Control program, for control of rats and noxious insects, was continued.

### **Trees, Parks and Pest Control**

Public Shade Trees were trimmed, parks were mowed, poison ivy sprayed for eradication and spot spraying was done where needed for insect pests.

Elm tree samples were taken for Dutch Elm disease and 235 diseased trees and 59 dead or dying Elm trees were removed and burned. 69 Public Shade trees were removed and 60 small maple trees were planted as requested.

Aerial spraying was done in three stages to coincide with mosquito hatching dates as determined by the State Department. This year, spraying was done by helicopter and proved more satisfactory than by conventional plane.

This Department is not just a money spending Department. It encompasses a many-sided and complicated business; a part of which is making assessments and charges for services. I am including a financial summary to give an idea of the size, and to show that the net cost is only a part of the Departmental Finances.

Total Appropriations for all purposes .....	\$394,630.14	
Transfers from Finance Committee .....	3,025.00	
Balances from 1961 .....	114,405.85	
	<hr/>	\$512,060.99
Unexpended Balances of Appropriations 12/31/62 .....	49,792.61	
Appropriations held over to 1963 ..	97,842.49	
		\$147,635.10
Total Funds expended in 1962 .....		<hr/> \$364,425.89

Receipts collected or committed ....	165,291.41
Net Cost of Departmental Operation .....	\$199,134.48

In conclusion I wish to express my appreciation; to the Commissioners for their helpful advice and council; to the members of the Department who have been cooperative; to the other Town Officials and Committee Members for their generous cooperation; and to the General Public I wish to say, "Thank you for your many kind words of appreciation for my efforts to provide services within the scope of this Department."

Respectfully submitted,

DONALD A. LENT

Superintendent of Public Works

## Report of Civil Defense Agency

The following is the report of the Civil Defense Agency for the period ending December 31, 1962.

We in Civil Defense have been able, with the co-operation of town officials, to increase our manpower to be able to assist in any town affairs that we are needed for.

In the very near future, we will have intertown radio communications that will enable us to cover all parts of Maynard if the need arises. We are also going to make an attempt to install an all-around signal system for both fire and civil defense purposes.

There is still a need for more volunteer help in the Civil Defense Agency.

We at the Civil Defense Agency wish to thank the Board of Selectmen, the Police Department, and all other town officials for their co-operation during the year 1962.

Respectfully submitted,

DONALD A. MacGLASHING

Civil Defense Director

## Report of the Insurance Committee

The Insurance Committee consisting of 5 members established by an article in the 1962 Warrant and its members appointed by the Board of Selectmen, is happy to make its first annual report.

The original committee consisted of Paul A. Newsham, Charles Russo, Joseph P. Gird, Clarence Peterson and Patrick J. Donovan. During the year Paul A. Newsham and Charles Russo resigned and Ruoff Tompkins and Edward Duggan were appointed to fill these vacancies.

Patrick J. Donovan was elected chairman for this first year and Joseph P. Gird as Secretary.

This committee had meetings with various insurance men and advisors from outside our town and then with our local resident agents.

A reappraisal of all town property was made, without cost to the town, by experienced appraisers. As a result of this reappraisal and then meeting with our local insurance men, we were able to purchase approximately \$300,000.00 more insurance and within the 1962 appropriation made at town meeting.

Further savings may yet be anticipated because of the placing of a considerable amount of this insurance with Mutual Companies.

We of the Insurance Committee are grateful to our local resident agents for their assistance and advice, and feel that as time goes on this committee will be a greater asset to the town in keeping insurance costs down without sacrificing needed coverage.

Respectfully submitted,

PATRICK J. DONOVAN, Chairman

## Report of The Planning Board

To The Board of Selectmen  
Maynard, Massachusetts  
Gentlemen:

Again, during 1962, as in other years, the Planning Board experienced a very busy year.

We are pleased to report that progress is being made, by the Town, on our recommendation to acquire additional land for municipal uses.

### Building Activity:

The construction of new homes in Maynard continued at a high rate. One subdivision of 48 lots was completely built up. We expect this high rate of building to continue until all building land has been built upon.

### Sub-division Control:

We have at least 150 approved lots within sub-divisions which can be built upon.

One new sub-division of 76 lots, plus a playground area was approved during the year. This particular sub-division has homes already constructed on more than one-half of the lots and the sub-divider intends to build on the remaining lots during the spring of 1963. He has further indicated his intent to submit additional sub-divisions in 1963.

Two other sub-divisions containing a total of 44 lots were submitted for our study and approval was granted on one of the preliminary plans.

Two other builders have also visited with the board and expressed their intent to submit plans for sub-divisions.

### Parking:

Parking within the down town business area continues to be a pressing problem. Certain land adjacent to Memorial Park was designated by the voters of the Town of Maynard and the state legislature to be used for Municipal Parking. It is gratifying to learn that the Chamber of Commerce is now actively engaged in creating a fund of money to be used to defray the cost of grading and paving this area and thereby help alleviate some of our parking problems.

### Recommendations:

1. Acceptance of a building code.
2. Construction of sidewalks along Great Road in the vicinity of the New High School.
3. Acquisition of land off Summer Street for future municipal purposes. Unless land is purchased now there is a

definite possibility of none being available within another year in this area. The Town may find a definite need for land in the future and to wait, will eliminate the right of selection.

In conclusion your Planning Board wishes to take this opportunity to extend publicly its thanks to the other Town Departments who have so generously helped in cooperating with the Board especially the commissioners of the Public Works Department and to Town Counsel Leonard Rae.

Respectfully submitted,

CARLO J. MISTRETTA, Chairman  
WORSLEY FARDY, Clerk  
FRANK W. JOHNSON  
RALPH W. HERRICK, JR.  
KEVIN T. SPRATT

## Report of the Personnel Board

During the year 1962, the Personnel Board met 16 times for the purpose of adjusting personnel matters. The Board also met with interested town departments, boards and committees at their convenience.

L. R. Simpson was elected Chairman and Edward Cuddy appointed the Recorder.

In regard to requests for increases in wages, an increase of 3 cents hourly in the Wages and Salaries of all Town Employees, under the jurisdiction of the Personnel Board, is being recommended for approval at the next annual Town Meeting to become effective March 1, 1963.

This increase reflects a rise in the Cost of Living Index which is anticipated or in effect at the present time.

The Board wishes to thank the Town Employees, and the Department Heads for their cooperation.

As of January 1, 1963, the following are members of the Personnel Board:

Robert Lalli .....	Reappointed, term expires March, 1966
M. John Gunn .....	Reappointed, term expires March, 1967
Larry Simpson .....	term expires March, 1963
Edward Cuddy .....	term expires March, 1964
Arthur Brooks .....	Reappointed, term expires March, 1965

Respectfully submitted,

EDWARD CUDDY, Recorder

## Report of The Zoning Board of Appeals

To The Board of Selectmen:

The following petitions have been considered during the year 1962 under the Protective Zoning By-Law.

Precision Line Inc., 63 Main Street Renewal of special permit to operate a electronics industry in a business district.	Granted

RUSSELL MANCHESTER, Alternate

## The Board of Public Welfare

To the Citizens of Maynard:

The Board of Public Welfare and Bureau of Old Age Assistance submits herewith their annual report:

The Board meets every Tuesday, 7:30 P. M. at the Municipal Building. The Director, Mrs. Barbara P. Hayward attends when necessary. Any change in the time or place of the weekly meetings will be posted, according to law, on the Town House Bulletin Board.

Financial aid and service have been given to those who qualify for such assistance as Old Age, Medical Assistance for the Aged, Aid to Dependent Children, Disability Assistance, and General Relief.

The Welfare Department operates under the rules and regulations of the Massachusetts General Laws and State Regulatory Agencies.

During the past year there has been a marked increase in the caseload of this department. The greatest increase has been in Medical Assistance for the Aged. This increase, and the ever increasing changes in administration and financial procedures from the Federal and State level, has created an impossible work load for the Director and Clerk in the Welfare Office.

Twice, in the last two years, upon advice from the State Director, the board has submitted to the Town Meetings a request for a Social Worker. Twice, the request has been denied.

On November 19, 1962, a letter received by the Welfare Board from the State Director, stated that Federal Grants and State reimbursements would be withheld starting February 1, 1963, unless the investigations and re-investigations required by law were brought up to date. Once this money is withheld it is forfeited. The Board of Selectmen were informed of the letter and granted a request to the Board of Public Welfare for a transfer of funds from the OAA U. S. Relief to OAA Administration. The Board of Public Welfare thereupon, employed a temporary social worker until the March Town Meeting, at which time the need for a social worker will again be presented.

We, The Board, sincerely hope this request will be granted in order to insure the good and proper protection of the taxpayers, money and the statutory rights of the people in need.

We extend our thanks to our Director, Mrs. Barbara P. Hayward and our Clerk, Mrs. Sophia Minko for their coopera-

tion throughout the year, and to all other Town Boards and Departments for their assistance.

#### Case Summary

Categories of Assistance	Cases 1/1/62	Cases Added	Cases Closed	Cases 12/31/62
Old Age Assistance	83	16	21	78
Medical Assistance for the Aged	25	50	28	47
Aid to Dependent Children	13	16	9	20
Disability Assistance	9	3	1	11
General Relief	7	28	23	12

The financial report will be found in the report of the Town Accountant and the Town Treasurer.

Sincerely,

ALFRED S. CAREY, Chairman  
ALAN F. PALMER, Clerk  
JUNE V. PEKKALA

## Report of the Board of Health

To the Citizens of Maynard:

The Board of Health hereby submits its report for the fiscal year ending December 31, 1962.

The Board organized in March with the election of John J. Johnston as chairman and Irving H. Manning as secretary. Dr. John Hraba was welcomed as the new member.

The following appointments were made:

Board of Health Nurse .....	Mary A. Ward, R.N.
Assistant Nurse .....	Martha D. Champagne, R.N.
Inspector of Plumbing .....	William A. Osbeck
Milk Inspector .....	Robert W. Rimbach
Inspector of Slaughtering .....	Lauri W. Manning
Burier of Animals .....	Aksenty L. Kashuk
Agent of the Board .....	Joseph J. Falco

Mrs. Ann Maglione was appointed to replace Martha Champagne as Assistant Nurse upon retirement of Mrs. Champagne on September 1, 1962. The Board wishes to publicly thank Mrs. Champagne for her many years of service to the sick people of Maynard.

### NURSES' REPORT FOR THE YEAR 1962

Patients visited .....	320
Morbidity calls .....	2,088
Old Age Assistance calls .....	396
Free Nursing Visits .....	356
Total calls .....	2,840

### SMALLPOX CLINIC

A smallpox clinic was held at the Health office on July 24, 1962. This clinic is held free of charge annually for all residents who require vaccination.

### POLIO CLINIC

During the Summer months of 1962, the Maynard Board of Health held as extensive a Sabin Oral Polio Vaccine Clinic as any town or city in Massachusetts. All children from pre-school age through senior high school were first given the vaccine, followed by public clinics for all ages. A charge of twenty-five cents was made for all adults to cover the cost of the vaccine. In all, twelve clinics were held and approxi-

mately 4500 people received both Sabin Vaccines, Types I and III. The Board would like to commend the public-spirited people of Maynard who, by their efforts, made the program a success. Clinics for the administration of Type II Sabin Oral Vaccine will be held on a town-wide basis early in 1963.

### FOOD INSPECTION

Inspection of all food handling establishments was continued for the fourth year. The Board decided to enlarge on this important service to the community, and has planned a twelve months' inspection for the year 1963. The Board feels that they, then, will have as complete an inspection program as possible. Mr. Robert Rimbach, our present Milk Inspector will, also, be our Food Inspector for 1963.

### RABIES DOG CLINIC

The annual Dog Clinic was held in Maynard, and approximately four hundred dogs were inoculated. It is the desire of the Board to add a charge to the license fee to cover the cost of inoculation in the near future.

### COMPLAINTS

The Board handled numerous complaints, mostly of a minor nature, and with the assistance of Agent Falco feel that they were satisfactorily taken care of.

Respectfully submitted,

JOHN J. JOHNSTON, Chairman  
IRVING H. MANNING, Secretary  
JOHN HRABA, M.D.

Board of Health

## Report of Chief of Police

To the Honorable Board of Selectmen:

I herewith submit my Annual Report as Chief of Police for the year ending December 31, 1962.

All complaints received during the year by the Department were properly investigated and disposed of by the Department.

The traffic and parking meter lines were painted as required by law.

Through the cooperation received from the School Officials, the Clergy and other social agencies in the Town, the problem of juvenile delinquency has been held under control.

### ARREST REPORT OF 1962

Assault .....	5
Assault, Indecent .....	1
Rape, Assault to and Attempt .....	2
Breaking and Entering, Larceny .....	6
Breaking Glass .....	3

Tramps, Vagabonds, Vagrant .....	1
Total .....	286

In conclusion, I wish to express my appreciation and thanks to the Police Department, Town Counsel, Board of Selectmen and especially to the Auxiliary Police for their assistance to the Police Department during the year.

Respectfully submitted,

MICHAEL ZAPARESKI

Chief of Police

## Report of The Board of Fire Engineers

To the Honorable Board of Selectmen:

The year 1962 has produced a record number of "runs," 278 to be exact. They have entailed everything from major fires to unnecessary calls, as will appear from the listing attached hereto.

Several conclusions are to be drawn from our activities, we believe.

(1) The public is becoming more conscious of our life saving apparatus, to wit, the resuscitator.

We had 24 calls for it this year and it was successfully used in 20 cases. We are proud of our men and their efficient use of these machines. We are also pleased that this work can now be furthered by the new resuscitator in the Police Cruiser. We hope people in need of this equipment will continue to call very early in such cases, as immediate response is vital.

(2) Generally, people are also becoming more fire conscious.

From our observations of inspections of mercantile establishments, we find that the proprietors are making every effort to keep their stores free of combustibles. This is also true of the industrial plants with a few outstanding exceptions. These same exceptions are the same as in previous years. Court action is threatened and cleaning is usually accomplished, but soon the places revert to the same bad conditions.

(3) The danger of flammable fluids is becoming better recognized.

Our inspections have revealed a greater respect for the danger of flammable fluids and a greater effort is being made to find less dangerous substitutes. This problem is extremely serious in our industrial compound, because so much of this material seems to be essential to the plastic industry and the area is so congested. We inspect these properties frequently to insure our knowledge of ever-changing conditions and familiarity with the problems with which we would be confronted in the event of a fire. Incidentally, our inspections also police the area.

(4) The question of extension of fire alarm boxes is still before us.

We had 25 box alarms this past year, of which only 7 were sounded from the street. Of the 7 from the street, 4 were completely false and of the remaining 3, one was needless,

involving burning wires. In the case of the remaining 2, telephone calls were received simultaneously with the sounding of the alarm.

The conclusion would seem to be that extension of the system was unnecessary. However, it is the national experience that fire alarm systems are necessary and the existence and extension of them is one factor in the establishment of our fire insurance rates.

We are, therefore, going to continue to maintain our system in good working order and from time to time will extend it to locations where we believe better coverage is necessary.

(5) The Dump continues to be a serious problem.

Residents in the neighboring Town of Sudbury are definitely bothered by our Dump. Smoke and dump materials continue to be carried by the dump fires and otherwise onto their property. While their houses were built after the dump was established, the open burning of any fire is a serious matter and its escape, as it did on several occasions this past year, does expose the Town to liability.

We are the recipients of some very irate and caustic calls from the neighbors around the dump. Unfortunately, it is a matter of burning this material there or exposing the whole center of the Town to a more serious fire hazard.

We are most happy to find that an investigation relative to an incinerator is being conducted by the Board of Public Works and we hope that it will be successful, thus eliminating this perennial problem.

(6) New laws enacted.

We call to the attention of all citizens the new laws outlawing space heaters which are not connected to a proper flue. National experience has shown this type of heater to be the major cause for fires and asphyxiations.

These space heaters are *outlawed*. If found during an inspection or other call they will be ordered removed. This will probably cause the occupant discomfort and inconvenience, but it seems that the only way in which some people can be protected is to remove hazardous equipment from them. The citizens of Maynard should be making every possible effort to remove these dangerous heaters now.

It is wise, therefore, for anyone using such a space heater to immediately remove it and provide other means of heating his property. For a clearer understanding of the issue we print herewith the law as passed by the Legislature.

*Section 25A.* No person shall sell, offer for sale or install a second hand space heater, or a second hand portable stove

which uses kerosene, range oil or number one fuel oil for fuel. No person shall install or use in any building which is used in whole or in part for human habitation an unvented space heater which uses gas or oil as a fuel. Whoever violates any provision of this section shall be punished by a fine of not more than one hundred dollars.

*Section 25B.* On and after July first, nineteen hundred and sixty-five no person shall use or allow to be used a space heater in any building which is used in whole or in part for human habitation. As used in this section, "space heater" includes portable space heater, parlor heater, cabinet heater, room heater and any similar heater having a barometric fed fuel control and its fuel supply tank located less than forty-two inches from the center of the burner and means the type of heating appliance adapted for burning kerosene, range oil or number one fuel oil and used principally for the heating of the space in and adjacent to that in which such appliance is located. Whoever violates any provision of this section shall be punished by a fine of not more than one hundred dollars.

Another matter should be called to the attention of the citizens. Any decoration of a public hall or place of assembly for dances or parties must be done only with the written permission of the Fire Department. Such person or group should secure a written permit for the purpose. There are numerous prohibitions which will be called to the attention of the applicant. This law is the direct result of the "Cocoanut Grove Disaster" and people should obey this law to avoid another tragedy.

Our new aerial ladder was put out to bid and only one bid received. The contract was awarded to Peter Pirsch & Sons. It is expected that the equipment will be delivered in the late spring or early summer of 1963. We might point out that after 24 years of service the existing ladder truck cost us a large amount of money this year because of breakdowns. The parts were repaired and the truck is in as good working condition as can be expected from 24 years of service.

Some discussion of the new State Code of Ethics should be had here relative to its effect on your Department. If it does, in fact, go into effect in May 1963, the Maynard Fire Department could be without call men, substitutes and engineers. The effect of the Act is so broad as to include most of these persons within its scope. This warning to the public, we believe is important because the ordinary citizen and apparently the Legislature believes that most employees are not effected.

We wish to express our thanks to the many citizens and Departments who have assisted us during the year and we hope this cooperation will continue for the mutual benefit of the Town and all concerned.

Respectfully submitted,

PHILIP A. WILSON

MARTIN GRUBER

HENRY MARIANI

Board of Fire Engineers

## Report of The Finance Committee

To the Citizens of the Town of Maynard:

The Finance Committee held twenty-six meetings during the year 1962.

Town Moderator Philip Wilson re-appointed Mr. Robert R. Billups to the Finance Committee, and appointed Mr. Paul T. Foley and Mr. Emile L. Genest.

Transfers in the amount of \$14,470.84 have been made from the Reserve Fund.

Sub-committees have been working on budget set-up improvements, long range fiscal planning, welfare, and salaries.

Respectfully submitted,

## Report of Maynard School Committee

To the Citizens of Maynard:

We are pleased to submit herewith, the report of the School Committee for the year ending December 31, 1962.

During the year, the School Committee has met on the average of twice a month to act upon all matters pertaining to the Maynard Public Schools.

The education of children and youth is dependent on the character, ability and dedication of their teachers more than on any other single factor in the school system.

During the past year, there have been many changes in the school personnel, as indicated by the following, and we have lost many excellent members:

### BY RETIREMENT

#### Art Supervisor

Anne P. Pasakarnis

### BY RESIGNATION

#### Senior High School

Elizabeth Flaherty  
Dorothy Graham  
Dorothy Kitchen

#### Junior High School

Margaret Campbell  
William J. Formosi  
John Oddy  
Joseph Mastromarino

#### Roosevelt School

Beverly Graffam  
Joan T. Spencer  
Rose Monteirol  
Elizabeth Thompson

#### Green Meadow School

Mary C. Hibbard  
Margaret Heffron  
Ruth Murphy  
Corinne Nichols

### APPOINTMENTS

#### Art Teacher

Senior and Junior High Schools  
Maura Harris

#### Senior High School

Lois Beckwith  
Barbara M. Cashin  
Stephen R. George  
David A. McGuire

#### Junior High School

Robert M. Coan  
Anne M. Haugen  
Louis Varrichione, Jr.  
James Azier

#### Roosevelt School

Joan Vodoklys  
Kathleen C. Mulderry  
Elizabeth A. Towle  
Norma J. Minicucci  
Eileen R. Atwater

#### Green Meadow School

Thomas B. Concannon, Jr.  
Jane M. Bambrick  
Lucy E. Lennon  
Corinne Nichols  
Rita Gross

**Custodian**  
**Junior High School**  
 Clement P. Theriault

**Attendance Officer**  
 Albert Crowley

**Custodians**  
 Joseph Curci  
 Vincent Scacciotti

**Attendance Officer**  
 Guy Perillo

### BY DEATH

**Custodian**  
**Green Meadow School**  
 Harold V. Sheridan

## NEW POSITIONS

### Senior High School

James Hennessy .....English  
 Paul McGillicuddy .....Mathematics

### Junior High School

Constantine L. Mourginis .....Guidance Counselor  
 Peter A. Delmonico, Jr. ....Science  
 Judith U. Dewar .....Social Studies  
 Suzanne L. Robinson .....French

### Roosevelt School

Robert H. Stebbins .....Grade Six  
 Margaret R. Mahoney .....Grade Two

### Coolidge School

Maureen Frain .....Grade Five

### Green Meadow School

Joanna R. Napolitano .....Grade Two

### Physical Education — Girls

Jennie Magni .....Grades One - Six

## REPAIR AND MAINTENANCE

The School Committee has continued its program of repair and replacements in 1962. The following listing indicates some of the major projects carried out to maintain the school buildings and their educational equipment:

### Senior High School

Painted Principal's Office and Outer Room  
 Painted Rooms 16, 22, 23A, Guidance and Health Rooms  
 Replaced six manual and three electric typewriters

Replaced one calculator and one duplicator  
 Additional lighting added to Music Room  
 Re-surfaced desks in Rooms 23A, 23B, 25 and 26

### **Junior High School**

Constructed locker bins for student book storage needs  
 because of double sessions  
 New bubbler installed in lower corridor  
 Installed curtains in all front rooms of building  
 Replaced 16mm film projector

### **Roosevelt School**

Painted Rooms 2, 6, 7 and 10  
 Painted woodwork in Rooms 1, 8, 12, 13 and 14  
 Painted boys' and girls' inner basements  
 Installed new window shades in Rooms 5 and 12  
 New boiler and No. 5 oil burner installed to replace old coal  
 stoker system  
 Re-surfaced student desks in Rooms 4, 7 and 13  
 Added seventy sets of student furniture in classrooms

### **Coolidge School**

Replaced duplicator and record player  
 Painted Room 8 and upper and lower corridor  
 Replaced outside back door and threshold  
 Replaced twenty sets of classroom student furniture

### **Green Meadow School**

Sand-blasted and repainted ceiling of bus canopy  
 Replaced record player

Usual maintenance services for business machines, clocks,  
 heater controls, oil burner service, audio-visual equipment  
 repairs, etc.

## **OUTLAY**

### **Senior High School**

Purchased a clock and two tables for Guidance Office  
 Business Department purchases for class use included two  
 four drawer files, two tape recorder type dictaphones,  
 one record player, one ten-key adding machine  
 Industrial Arts Department purchases for class use included  
 one 16" Powermatic Surface Planer and one Sawmaster  
 Power Hack Saw

Purchased one Tachist-o-Flasher and film strip supply from Science Research Associates for enrichment of the Foreign Language Curriculum

### **Roosevelt School**

Purchased one Auto Harp and one Tape Recorder

### **Coolidge School**

Purchased one portable T.V. and stand for Channel 2 Educational Television viewing

### **Green Meadow School**

Purchased six portable platforms to be used for group work in the All-Purpose Room

Installed darkening drapes in the All-Purpose Room for projection use

Improved the playground area by constructing a basketball court, a baseball diamond and a volley ball court on school land adjacent to the building

### **School Committee Office**

Purchased an office counter, three files, shelving, chairs, desks and a table necessary to furnish the School Department Office in the new Municipal Building

### **Alumni Field**

Replaced Field House Roof

Repaired boards and repainted Hockey Rink

Re-lined four Tennis Courts

Replaced seventy seats and footboards on football bleachers

## **SALARY LEGISLATION**

On November 2, 1961, your Committee adopted a new Salary Schedule for teachers to become effective September, 1962. At that time, the State Law required a minimum salary of \$4,000 for teachers with a Bachelor's Degree. The new Maynard Schedule provided a minimum of \$4,400 in order to compete successfully with surrounding communities for good teachers and also in anticipation of an increase in the minimum which was practically assured at the time of our salary considerations.

While the new schedule was provided for in the 1962 budget, the State Legislature passed a new State Law, "Chapter 594" establishing a \$4,500 minimum salary for teachers, effective January 1, 1963. This new law necessitated a further revision of our Teachers' Salary Schedule in order to meet its provisions as our new schedule minimum was one

hundred dollars less than the new state minimum. On November 1, 1962, the School Committee voted to raise each step on the existing Salary Schedule one hundred dollars, effective January 1, 1963, in order to meet the requirements of the new state legislation.

The net result of these changes has increased the Maynard Salary Budget somewhat but has still relegated us again to an unfavorable comparative position with neighboring communities. If we are to compete with them successfully for teachers, we must again provide salaries large enough to attract our share of the good ones as they become available.

### LOOKING AHEAD

As we look ahead at our public schools, we do so with mixed feelings. On the one hand, we are extremely pleased that the citizens of Maynard have realized that an efficient school system requires adequate housing to provide facilities that will permit the offering of a broad program of education by those who are responsible for the training of our youth. Realizing this, the citizens have voted for a new high school which is now under construction. On the other hand, we are disappointed that it will not be quite ready in time to meet the needs of our constantly expanding school enrollment.

If all goes according to plan and no difficulties are encountered, the new high school will be ready for the fall of 1964. However, the fall of 1963 will usher in one of the most difficult school years that Maynard has yet experienced for housing its pupils.

All available classroom space is now being utilized and we are presently involved in serious overcrowding. Next fall, this same situation will exist, but it will be compounded by the need for at least three additional elementary classrooms. It will be necessary to locate available space and improvise temporary classrooms.

The junior high school is already operating on a double-session basis, and facilities are being taxed to the utmost there. The high school is now using some of the junior high facilities. The real problem facing us will be at the elementary school level, where even office space has already been converted to classroom use.

We realize that when the new high school is ready, some of the overcrowding will be relieved at the junior high and elementary levels. Unfortunately, this relief will not be available this fall when it will be needed most.

Our next school year will be a very trying one for both pupils and teachers. It will be a year when there will be a

great need for understanding and cooperation on the part of the citizens of Maynard. We, the School Committee, will do all in our power to maintain and improve the educational standards which we have established over the years. We ask that you, in turn, bear with us until the problem of the shortage of classroom space is resolved.

In closing, we wish to commend our Superintendent of Schools, Principals, School Personnel and the Parents who were responsible for a very successful and rewarding school year. We also wish to extend our appreciation to all Town Boards, Committees and Organizations who have contributed in many ways to the efficient operation of our educational system.

Respectfully submitted,

WILLIAM H. LARSON  
ALBERT P. ROGERS  
EDMUND W. BEEBE  
School Committee

## Report of Superintendent of Schools

To the School Committee and Citizens of Maynard:

I herewith submit the Annual Report of the Maynard School System for the year 1962.

The task of providing the best possible education to every child in Maynard is a challenge worthy of the attention and positive action of every citizen in the community.

It has been pointed out many times that the lack of school facilities, because of increasing housing developments and because of the increasing birth rate of the community, would have to be faced. The shortage of classroom space is now with us as expected. All classrooms in our present buildings are in use. The Junior High is now on double sessions and will have to be programmed this way until the new High School is ready in September of 1964.

It is evident from the enrollment figures included in this report that we will be hard pressed to find temporary space for an additional first grade and two additional third grades needed to continue the progressive housing of the pupils we already have in our classes. The availability of the Junior High building in 1964 will eventually help to solve this problem but until that time we must expect to function on a partially curtailed program for some of our children. This curtailment will be dictated by the facilities that can be made available next September.

While many towns and cities are facing these same problems, it is of little satisfaction to make comparisons of shortcomings.

## PRESENT ENROLLMENT

	Grades												Total	
	Sp.	1	2	3	4	5	6	7	8	9	10	11		12
Senior High									106	135	94	58	393	
Junior High								121	115				236	
Roosevelt		32	28	36	35	33	27							
		32	28	36	34	30	30						441	
		32	28											
Coolidge		34	28	22	20	31	26							
				21	19								201	
Green Meadow	13	30	26	32	40	35	37							
		30	25										268	
Totals	13	190	163	147	148	129	120	121	115	106	135	94	58	1539

## ADDITIONAL PERSONNEL

Beginning in September, increasing enrollments will necessitate the appointment of two additional teachers at the High School and two definitely, with a possibility of three, at the elementary level. Two new third grades will be needed to care for the present second grades and a new first grade must be expected if the present increasing registrations continue.

The need for a Remedial Reading Teacher for pupils at the Junior High and ninth grade levels is evident and it is planned to provide a specialist for work in this area beginning next September.

## EDUCATIONAL TRENDS

The services expected from the educational system of the community have continued to be augmented by the demands of the times. More pupils are in school and more are continuing to remain in school over longer periods of time. The curricula are becoming more diverse to meet the needs of the children and more teaching specialists have been added to the faculty to provide for individual differences among the children. Facilities have been and are now being expanded further. Teachers' salaries are increasing as the cost of living increases but are still below those of communities of equal size and ability to pay.

The use of audio-visual aids in teaching and the development of new teaching machines and techniques have had a profound effect on the school programs. All in all, it has been a difficult and ever increasing challenge to provide these new media and services for our schools and still keep within a reasonable budget.

While we can point with pride to the relative per pupil cost in the Maynard Schools and to the success of our graduates, we must accept the fact that the cost of education in Maynard will continue to rise as enrollments and educational services increase. Much of the increase in the 1963 budget can be attributed to the impact of salaries of eleven additional teachers who were added to the staff in September of 1962 to handle the increasing grade enrollments and the double session program of the Junior High School and to the necessity for providing at least five more teachers in September of 1963.

The new law raising the minimum salary of teachers from \$4,000 to \$4,500 effective, January 1, 1963, also had an impact on the annual school budget, but more important than raising salaries, it created a situation whereby Maynard's Salary Schedule will again be at the State Minimum while most of our neighboring communities will be at a somewhat higher level.

## EDUCATION HIGHLIGHTS

Through the dedication of teachers and parents, the Maynard Schools have continued to offer the children outstanding educational experiences.

Our teachers have been taking great varieties of refresher and modern education courses at many colleges. Our text books and teaching equipment are constantly being up-dated. Our physical plant has been well maintained and in good repair. The value of our new High School facility will soon be realized. While our graduates are now successful in entering schools and colleges of their choice, the new High School will give them facilities for learning far beyond the present possibilities.

The parents and citizens of Maynard are to be commended for their recognition of the need and their willingness to provide this school for the children of Maynard.

## EDUCATIONAL PROGRAM

The composition and aims of a total program of education are topics of earnest discussion among educators. The educational program, recognizing individual differences, must provide a diversity of instruction on various levels to meet the needs and abilities of individual students. Educators are concerned with developing for young people not only all the critical-evaluative skills, but also a moral-ethical frame of reference and a regard for human values.

In Maynard we continually strive to give our educational program greater height, breadth, and depth. This annual report contains summaries and reports of principals, supervisors, and special teachers concerning the many varied areas of our total school program.

## HEALTH AND ATTENDANCE

The objectives of the School Health Service are:

To work with individual children in the schools to stimulate in every child a desire to safeguard his own health through intelligent application of scientific knowledge.

To understand the emotional child and encourage the handicapped child.

To act as liaison between school and home and other community agencies.

To assist the school physician and teachers in matters pertaining to health.

The following measures for continuing and improving the health of the children were carried on during the year:

The annual "Pre-School" Round-up was held in May when twenty-five children were given physical examinations by the school physician.

Immunizations were carried out as usual. Consequently all children are fairly well immunized against diphtheria and tetanus. In May ninety-seven percent of the students were given Type I Sabin vaccine for the prevention of poliomyelitis. In June the same children were given Type III Sabin vaccine. In 1963 the children will be given Type II Sabin vaccine to complete the series.

We have been very fortunate not to have any serious outbreaks of contagious diseases. The parents have cooperated very well with suspicious cases that have been sent home.

Pupils in the fourth, seventh and tenth grades were given physical examinations by the school physician. The purpose of these examinations is to discover defects as soon as possible so that the child may obtain the fullest benefit of his educational opportunities. All students participating in competitive sports and cheerleaders were given physical examinations.

The Massachusetts Vision Test was given to all students by the School Nurse. Seventy children failed and were referred to eye specialists. Sixty-seven defects were corrected with glasses. All students had their hearing tested. Twenty-three children failed the test and were seen by ear specialists. Such cooperation on the part of the parents is to be highly commended.

During Dental Health Week, Mrs. Agnes Kelleher, Dental Hygienist from the Massachusetts Department of Dental Health, spoke to the students in the elementary grades on dental hygiene and proper diet.

At the request of the Board of Health, a survey was made in the elementary grades to determine the need of a dental clinic. At the present time this project is pending.

Two hundred and fourteen home visits were made during the year by the School Nurse. Fourteen specific cases of truancy were investigated. Conferences were held with the parents of these children concerning the complaints and necessary action was taken.

## PHYSICAL EDUCATION

### Elementary

In the Maynard Elementary Schools, Physical Education Classes are conducted outdoors during the Spring and Fall,

weather permitting. Facilities for indoor physical education at the Coolidge and Roosevelt Schools are limited but we have carried out a varied program with the space available. At the Green Meadow School full use is made of the All-Purpose Room during inclement weather and the winter months. The program this far has included a unit on football and tumbling for the boys; ball games, cheerleading and tumbling for the girls. Also integrated in the program has been a series of physical fitness tests.

### Secondary

Physical Education Classes include skills related to team sports and to organized athletic contests of an intramural nature. The activities are progressive in nature and are of varying degrees of intensity in their requirements.

The Physical Education Program for Girls has these goals:

- Healthful living — the development of the body as an efficient tool for self-expression and communication
- Worthwhile use of leisure time
- Democratic group participation

Their activities include a testing program, warm-up exercise each period, a six-week unit in volleyball, two weeks of organized games and relays, and an eight-week unit in basketball.

In the Secondary Physical Education Classes for Boys, the major objective is physical fitness.

The following are activity areas:

- Calisthenics — five to eight minutes per period
- Rope Climbing — single and double
- Stall Bar Exercises
- Medicine Ball
- Relays
- Low organized games
- Volleyball
- Trampoline
- Gymnastic apparatus and basketball

In the past the Physical Education Program has been basically the same for the Junior High School pupils as that of the Senior High, but because of the double sessions, the Physical Education Program has become more of a recreational period with instruction.

At the present time these students have Physical Education only once a week. Their program includes:

- Stunts and tumbling
- Volleyball
- Ropes

### Trampoline Low organized games

In order to equalize grading at this level, it is the practice of the Physical Education Department to grade students through practical skill tests and written examinations.

New equipment acquired and in use by the Physical Education Department includes trampoline, side horse, springboard, weights, badminton equipment, and jump ropes for elementary use.

## GUIDANCE

### Senior High School

"In democracy our progress is the sum of progress of the individuals — that they individually achieve to the full capacity of their abilities and character. Their varied personalities and abilities must be brought fully to bloom; they must not be mentally regimented to a single mold or the qualities of many will be stifled; the door of opportunity must be opened to each of them."

President Hoover's words are as true today as they were in 1930, for the chief distinguishing feature of our schools is the increased interest in the human rather than in the academic aspects of education.

The Guidance Program at the Maynard High School attempts on the part of teachers, principal and counselor to estimate the potential of each individual student in the school and to interpret to him and his parents the opportunities available to him and to assist in providing him with educational experiences which will assure his best development.

What is guidance, and why are guidance services necessary? Many people ask this question and a few still scoff at the idea, saying "When I was in school, we didn't have guidance — and I got by!" What these people need most to understand is that "getting by" is no longer enough. A student who merely "gets by" will face great difficulty in fitting into the complex, competitive world that awaits him. Today, technology and automation have lifted guidance out of the merely "desirable" category, and made it an urgent, basic need for social and economic survival. This is a new and exciting age with special opportunities for the educated, and corresponding risks for those whose education is inadequate. Without guidance, these risks could become more serious in the years to come, at a cost to the individual involved, and to our society, we cannot even estimate.

Guidance, then, is concerned with the general as well as the specific prerequisites. The general, in that students

are helped to select courses that add up to the best background attainable, given the individual's capacity. The specific, in that the individual's own interests are related to appropriate occupational choices, so that the decisions he, and only he, will have to make are based on accurate information. The counselor must understand the educational enterprise, the world of careers and professions, and — most important of all — the individual student. In the final analysis, the work of guidance is done only to the extent that the student is enabled to see himself, to understand his talents, his strengths, his interests, and to make use of his individual potential. The student is, in a very real sense, the center around which guidance services are oriented.

During the school year professional assistance is available to every high school student. Some of the areas in which assistance is provided are counseling, testing, vocational and occupational information, job placement and follow-up studies of graduates.

Throughout the year representatives from business, industry, and technical and professional schools visit the high school and discuss occupational and educational opportunities.

Seventy-three students graduated in the class of 1962. Of this number, sixteen have gone on to four-year colleges, five are attending Junior or two-year colleges, four girls and one boy are attending hairdressing schools, five girls are pursuing secretarial training, six boys are going to technical schools, six boys have entered the armed services, twenty-seven are employed, two are unemployed and the status of one graduate is unknown.

Parents are invited to visit the guidance office any day or evening and should telephone in advance for an appointment.

### **Junior High School**

Guidance is but one segment of the total educational program. This year Maynard has moved ahead in the field of education with the creation of a Guidance Department at Emerson Junior High School. The task of the Junior High Guidance Counselor is to develop, organize, and establish a guidance program, one of which we can be proud.

It is the Guidance Counselor's primary responsibility to assist the individual student in recognizing, thinking through, and solving his educational, vocational, and person-social problems. A counselor assists students in the solution of their problems as a major part of his professional assignment. His counseling duties are devoted to work with individuals, largely within the school day.

The purpose of the Guidance Department at Emerson Junior High School is as follows:

To assist the students in making decisions regarding future plans.

To assist the student in adjusting to new school surroundings.

To help the students locate and use occupational and educational information.

To assist students in selecting proper high school programs taking into consideration their ability, interests and school records.

To guide students in developing good study habits.

To help those students who need assistance in improving their behavior.

To help those students who have problems.

The Guidance Department will organize its program around the following areas:

1. Engage in professional counseling with individuals and groups of pupils who have problems of any nature which inhibit their ability to learn. Counseling has been called the heart of every guidance program. This year every student in grade eight will have at least two individual counseling sessions, and students of grade seven will have at least one. Some pupils will be seen more often depending on the problem at hand. Upon completion of the individual counseling sessions, the Guidance Counselor will have had a minimum of three hundred fifty-two individual counseling sessions by the end of the school year. Group counseling and guidance will take place later on in the school year — after rapport has been established with the students through individual counseling.
2. Provide information services to pupils designed to meet their needs for educational, vocational and personal-social information. This is an area whereby it requires several years to have an outstanding occupational information library.
3. Assist in providing testing services designed to help each pupil appraise his capabilities, achievement, interests and aptitudes. This year three major standardized tests will be administered. The California Arithmetic Test will be administered to Grade Eight during January. The Otis Quick-Scoring Test of Mental Ability and the Stanford Achievement Test will be administered to all students in the Junior High School in February and March.

4. Assist in the placement and grouping of pupils in order to provide a learning situation of maximum benefit to each. In March we begin program planning for Grade Eight concerning the selection of courses at Maynard High School. Mr. Roland Darling of Northeastern University, who is associated with the Occupational Information Service, will visit Emerson Junior High School in March and present a program dealing with various occupations in this area. This program will be of importance as it will make available to students information about various occupations and professions.
5. Conduct an in-service training program for teachers and administrators designed to help them become acquainted with the individual needs.
6. Devise a new cumulative record, which can be utilized from Grade One through Grade Twelve.
7. Devise a personal data form to assist the Guidance Counselor in knowing more about the individual student.

### ELEMENTARY EDUCATION

The principals and teachers of the Maynard Elementary Schools are guided by the general educational objectives adopted for the school system. The formulations are found in our Handbook for Maynard Teachers, our approved courses of study both Local and State, in the official bulletins issued from the Superintendent's Office, and by School Board Regulations.

In order to render the best service to each child, the measure of success should be the degree of total development of every pupil enrolled in our schools. The following professional objectives are our aim towards this goal:

To have a sound educational philosophy and to apply it in teaching.

To direct the children skillfully as they develop in their learning situations.

To assimilate new findings and readjust our teaching methods in keeping with the times.

To have an understanding of children's nature and development and to use this understanding effectively in teaching.

As the teacher bears a major share of the responsibility for the effectiveness of the school program, we feel our staff of teachers for the present school year are well equipped academically and professionally to share the task of molding the minds, the character and the spirit of our youthful citizens.

Since September, the principals of our elementary schools have been serving in the capacity of supervising principals. Thus, they are able to render more efficient service in conducting their administrative duties and in the supervision and guidance of the teachers and pupils they serve.

Each year our elementary school enrollment is steadily increasing. This past year it was necessary to appoint additional second grade teachers at the Green Meadow and Roosevelt Schools and a fourth grade teacher at the Coolidge School. This has helped greatly to relieve the overcrowded situations in these particular grades. We still have some rooms which have large enrollments, but the teachers in these grades have been most cooperative and conscientious in providing opportunity for individual differences — help for the slow pupil and challenge for the gifted child.

In January a physical education instructor for the girls at the elementary level was added to the staff. This addition complements this area at a time when the federal government is placing such emphasis on the physical development of the child. Classes are conducted outdoors when the weather is seasonable, but the limitation of space at the Coolidge and Roosevelt Schools somewhat restricts the program.

Curriculum improvement is constantly under study. During the year a revision was made in the social studies program. The Curriculum Coordinator and all the teachers of the intermediate grades participated in making this revision. Meetings were held and representatives of several publishing companies submitted samples of their texts for study. After careful examination and discussion of these texts, it was agreed that the series published by Silver Burdett Company would better serve our local requirements and was thereby adopted and put into use with the opening of school in September. At the present time a revision of the Language Arts program is under consideration.

The evaluation of our curriculum is an on-going process. This year the Metropolitan Achievement Tests were administered to all children at the elementary level as these tests provide us with a basis of comparison with national standards. The results of these tests are gratifying and show that our needs are being adequately met. Further individual testing had been done by our guidance department as a means of better meeting individual differences among children and providing them with an educational program adapted to their individual needs. The report card revision was made after careful consideration and study by a representative group of teachers. The new report card gives an evaluation of the

social development of the child as well as academic progress in keeping with current educational trends.

In accordance with modern practices, classroom instruction is supplemented with many enrichment activities in the school and beyond its boundaries. The regularly televised lessons in phonics, science, music, literature and French are enthusiastically received by the children in their respective grades. In addition to the televised French program, Miss Robinson, a member of the Junior High School Faculty, gives additional instruction in this area to the pupils in grades four, five and six. New portable science tables and microscopes have been placed in each building to further develop scientific concepts. At the Coolidge School a Science Fair was held which gave the pupils an opportunity to exhibit and demonstrate their scientific knowledge. Pupils in the Roosevelt and Green Meadow Schools are participating in the Arrow Book Club Program. This activity enables a child to select and purchase books on his own, and at a level geared to his interests and ability and to start a personal library. Thus, an individualized reading program is being developed. Additional instructional media being utilized by teachers and pupils are the new tape recorders and filmstrip projectors.

To extend learning activities beyond the classroom, many field trips were taken during the year. Locally some classes made trips to the public library and fire station, and for the study of the natural sciences to nearby woodlands. Other school trips were made to various museums and historical places in Concord and Boston.

In the total development of the child, consideration must be given to social expression. Opportunities for social experiences are provided through parties held at various holidays — Hallowe'en, Christmas and Valentine's Day. Children also participated in the Emerson Hospital Harvest Collection, the Junior Red Cross, and the Band Parents' Candy Sale.

Parent-Teacher Conferences were held twice during the year. These conferences help to create a closer relationship between the home and the school for the welfare of the pupil. The acceptance of the conferences is evidenced by the high percentage of parents that conferred with the teachers at the appointed times.

Periodic fire drills and Civil Defense drills provide for the safety of our children in school. These supplement the safety discussions and practices observed in the classroom and schools. A representative from the State Police gave a safety talk and showed films on safety to the children in all the grades. The School Milk Program continues to be beneficial nutritionally to the children who participate.

The Future Teachers Club of America was again active at the elementary level. Students from our local high school interested in teaching as a profession, observed teachers in action in the grades. The experience gained through observation and assistance in the regular classroom is a guiding factor in their plans to make teaching a career.

It is gratifying to note the number of teachers who during the past year availed themselves of an opportunity to advance professionally. Many travelled to nearby colleges and universities to take advanced courses in education. Others are presently attending the workshop in Elementary Curriculum now being held in Maynard under the direction of instructors from Northeastern University. Thus our teaching staff are able to keep abreast of and put into practice the modern advances in techniques and methods made in the educational field.

### REMEDIAL READING

Reading is the heart of the elementary school program. For pupils to attack their subjects with confidence and competency, the mastery of reading skills is essential. Since these skills are extremely complex, they cannot be acquired by all children with the same degree of ease. For this reason some children with good learning capacity fail to master the reading skills in the regular classroom situations.

The purpose of the Remedial Reading Program is two-fold. The program is designed to help children, who have unusual problems, to overcome their reading difficulties through specialized teaching and to correct faulty reading habits and attitudes. In conjunction with the improvement of reading and perhaps of more lasting value, the program strives to promote a feeling of security and a sense of achievement within the child himself.

The initial step in the Remedial Reading Program is to select the children who have good ability but who do not fulfill their potential in a classroom situation because of difficulty with reading. The criteria for the selection is based upon teachers' observations and referrals, cumulative records, and performances on standardized tests. Those children whose reading ability could be improved and who have the greatest retardation are selected for remedial instruction. In order for a child with a learning difficulty to progress comfortably and consistently, it is necessary for him to work at a level where achievement and success can be experienced. To determine the proper placement of each individual, informal reading tests were administered and each child was then placed in a learning situation where his specific difficulty could be improved. The children meet twice weekly in small

groups varying in number from two to seven. Teaching periods are from thirty to forty-five minutes in length, depending upon the age level of the children and the disabilities to be corrected. Instruction consists of training in fundamental word attack and comprehension skills. This is accomplished through the use of basic readers, study books, individualized reading materials, games and devices. With these special materials and constant supervision and guidance given through remedial instruction, provision is made for individual differences and each child has an opportunity to improve accordingly.

The Remedial Reading Program for the past year was evaluated on the reading results of the Metropolitan Achievement Tests. Test results showed that many children receiving remedial instruction for the year ending in June had advanced sufficiently to enable them to achieve at grade level. Others, because of greater disability, are again receiving remedial instruction.

One of the most significant factors to insure success in reading and to progress in reading skills is the proper placement of children in groups for instructional purposes. This year the Botel Reading Placement and Phonics Mastery tests were used. These tests are very new in the educational field and have been developed through many years of work and research. Another SRA Reading Laboratory — an individualized reading program which provides materials whereby each child can progress at his own rate — is being used in the program at the present time.

Progress in reading as well as in any other skill is greatly improved with practice. For this reason it is beneficial for all children but especially for those with reading problems to do independent reading. Parents are urged to encourage and foster the reading habit in the home by providing books and children's magazines. Our new and extremely attractive Public Library should be an incentive to children to make use of the wealth of reading materials available to them. Giving help and encouragement are important factors in building desirable reading habits in the home as well as in the school.

The Remedial Reading Program has been conducted in the Maynard Elementary Schools for the past few years. It is apparent that the need of the program is justified and it is evident that the services of another remedial teacher will be needed when space is available, in order to accommodate increasing enrollments.

### SPECIAL EDUCATION

The philosophy of the special class is to promote and reinforce the most difficult of all tasks — getting along with

people. Its objective is to create a happy atmosphere where children will develop and respond academically while feeling a sense of belonging with the group.

In view of the differences in ages as well as abilities in this area, a flexible program is of foremost concern and a wide variety of materials must be utilized.

The location of the Green Meadow School has enabled the class to view nature first hand. The various forms of bird life and the changes brought about by the four seasons have given the children an awareness of the environment about them.

To promote competition all the children engage in competitive games. This helps them to develop a "stick-to-itiveness" which is necessary in every day life.

Of particular mention is the interest which the group has taken in their weekly trip to the new library to borrow books. The librarians noted that over half of the children also visit the library regularly during their own time. The success of the library program is due mainly to the interest and friendly manner that the librarians have taken with the children.

The special class is not a separate part of the school curriculum. Whenever possible the group or individuals within the group can and do become part of the total school program.

## AUDIO-VISUAL EDUCATION

The aims of the Audio-Visual program are to supplement and enrich the regular classroom instruction, to facilitate the task of the teacher, to motivate the pupil to take increased interest in his work, and to make available to the pupil experiences which it would otherwise be impossible for him to have in the classroom. By means of audio-visual aids and devices, it is impossible to recreate historical events, to transport the pupil to the far reaches of the earth and of space, and to bring into the classroom experts and specialists from every field of endeavor.

The Audio-Visual program at the elementary school level is based primarily on the use of filmstrips, and on our participation in the "21-Inch Classroom."

A major change was made in our filmstrip program this year by centralizing all of our filmstrips into one library, from which they are distributed periodically for use in each of the three elementary schools. Additional filmstrips have been procured, bringing the total number to one hundred thirty-

six. All of these films have been catalogued to provide greater ease in requisition by the teachers, and in distribution by the director. This arrangement seems to be working quite well, insofar as there has been a significant increase in the use of filmstrips since this change was inaugurated.

Each of the elementary schools has its own filmstrip projector and projection screen. This year, a filmstrip pre-viewer was provided for each of the schools. The pre-viewer is an invaluable aid to the teacher, in that it enables her to examine the film in detail, and to prepare significant points to be developed, before the film is actually viewed by her class. The pre-viewer may also be used to great advantage for individual viewing by exceptional pupils.

The televised lessons on the "21-Inch Classroom" on Channel 2 are becoming increasingly valuable as an enrichment of the elementary school curriculum. The programs available at present are: Phonics — grade one; Literature — grade three; Music — grade two; French — grades four, five and six; Science — grades one, two, three, five and six. Next year, a science program will be provided for grade four. At present, the fourth graders are viewing the third grade science programs.

This year, a tape recorder was provided for each of the elementary schools. There are many ways in which these may be used to improve instruction. They are excellent tools for teaching such things as dramatics, music, the science of sounds, etc. It is far easier for a teacher to correct a pupil's oral mistakes when she can actually record them and let the pupil hear himself as others hear him.

A stereo-microscope which provides a means of enriching the science program at the upper grade level is now available for use. With it, the pupils can now study the world of nature first hand. There is nothing more appealing to a youngster than to be able to actually see the things which his teacher has been discussing in the classroom, and about which he has been reading in his textbook. He will now be able to probe into the microscopic world which exists all about him. A whole new world of wonderful new experiences will be his as he studies the intricate structures of such commonplace things as bread mold, leaves, insects, feathers, fabrics, and any number of easily obtainable specimens.

During the past year the Audio-Visual department was enlarged with the addition of two new portable language laboratories for the Foreign Language Department of the Junior and Senior High Schools. In addition, the High School has started a record library. Many of our subject areas are using filmstrips to help build background material. The

department is working on a system to use the Film Library of the State Department of Education during the school year 1963-64.

## ART EDUCATION

### Elementary

In the Elementary Art Program for the year 1962 we encouraged creativity by exploring new media. We have explored various uses of leatherette, felt, aluminum foil plates, plastic spools, egg cartons and colored chalk. We have experimented with melted crayon and various painting techniques such as brush, sponge and stick painting. Experimentation teaches the children not to fear the results of trying something new.

A recent innovation this year was the introduction of block printing in making Christmas Cards. Using only the basic necessities, the children using their own weight for pressure and stepping on the block between newspaper, pressed out clearly defined lines. The value of this lesson was twofold as children also developed such terminology as brayer, block and printing press.

A very successful lesson done in the fifth and sixth grades was one on geometric shapes. The purpose of this lesson was to develop in children an appreciation of art as a living part of life. The children were asked to bring in or to construct in three-dimensional form four basic geometric shapes found in architecture or everyday homes.

This fall, to foster a feeling of unity among the elementary schools, a Book Cover Contest was held. Prizes were awarded to the pupils who had the best and most original designs.

### Secondary

Art is no longer the old idea of a picture painted on a canvas, but rather a free and adequate means of one's self expression. A beautiful home, an interesting show window, an attractive book cover, a new modern school building, expressive pottery, jewelry or glassware are just a few examples of how art reflects and expresses the idea and life of the times. Art is everywhere and therefore must meet the needs of the child, the community and the state as well.

The objectives in the Secondary Art Program are:

To cultivate the child's self expression and creative imagination.

To develop the child's reason, skill and taste.

To satisfy creative needs of the individual.

To give pupils a multitude of art activities.

To encourage the child to use art experiences in as many areas as possible.

Stress has been placed in the areas of DESIGN AND FREEHAND DRAWING. As many varied media as possible and available have been introduced throughout the year in the art classes. The lessons have been presented in problem form.

DESIGN AND LETTERING — area in which meaningless art is made purposeful.

Constructive — designing of book covers, posters and pennants.

Decorative — stained glass windows (paint and paper), collages, cork designs.

Imaginative — fantastic birds, approach to abstract art through discarded and unusual materials

COLOR — added touch in art

Uses

Types

Combinations

Color was stressed mostly through rendering of nature drawings. After careful construction and observation of color charts, pupils chose a color scheme of warm, cool, or primary colors to produce an autumn landscape.

REPRESENTATIVE DRAWING — (pencil only)

Anatomy of hands and feet

Figure drawing

GEOMETRIC DRAWING — study of and drawing of cones, squares, etc.

Arrangement into still life study

Drawing of shapes in detailed perspective

Enlargement with india ink

## MUSIC EDUCATION

### Elementary

The prime objective of musical education for children is to cultivate their musical sensibilities so as to make them love and understand the best in music. Additional aims are to promote a sense of beauty and rhythm in the song and to develop the ability to hear sounds in their relationships to each other.

Elementary vocal music in the Maynard Schools is taught using conventional methods. Instruction is given so that there is definite enjoyment on the part of the majority of children in producing true, beautiful tones, together with growing ability to sing in tune with good voice quality and the promotion of pleasure, dexterity, and grace in physical response to musical rhythm. Rhythmic ability development must begin early in the musical education of the child. The rhythm orchestra is the media used in the primary grades to introduce children to musical instruments and to create an enthusiasm for and an interest in the study of a musical instrument when the child enters the intermediate grades.

A May Festival and a Christmas operetta were given at the Green Meadow School. The success of these programs was the result of the enthusiastic participation of the pupils and the excellent cooperation from parents and teachers.

During the year opportunities are provided for all pupils to be appreciative listeners and satisfactory participants in a variety of musical activities. This is accomplished by using record players, autoharps and flutophones.

Four students from the State College at Lowell experienced practice teaching in elementary music during the past year.

### **Secondary School Music and Instrumental Program**

To understand, appreciate, and develop a love for music has always been the basic objectives of the Maynard Secondary School Music Program. Opportunity is provided for any student to participate in choral singing and qualified students are engaged in the Band and Orchestral Music Program.

The study of music does far more for a child than the primary joy of participating in a musical activity. It develops the qualities of patience and perseverance, trains the memory and exercises mental and physical deftness and agility, demands accuracy, alertness, self-discipline, and the ability to cooperate with others, and, finally it requires obedience to a superior.

Children who learn to play an instrument or learn to sing have established a foundation for the life-long enjoyment of the immortal music of the masters.

Students in the Maynard Music Organizations are given many opportunities to demonstrate their talents before the public. One of the special events of the year is the Exchange Band Concert which provides important social and musical experiences for the students. The 1962 Kennebunk, Maine Exchange Band Concert was an overwhelming success and plans are underway for a similar program in 1963 with the

Cranston, Rhode Island High School Band. The Fall and Spring performances given by the Junior and Senior bands and the Glee Clubs of the Junior and Senior High School were most commendable. The enthusiasm and interest displayed by the young people in the preparation, rehearsals, and performances were most gratifying.

The genuine support of the Maynard Parents Instrumental Music Club has been an important factor towards the continued success of the school instrumental music program.

### INDUSTRIAL ARTS

The Junior and Senior High School Industrial Arts Programs for grades seven and eight, and nine through twelve aim to develop basic skills and knowledges of our industrial society through research and the construction of useful projects for home, work or recreation.

The students are required to make suitable "working drawings" of the articles to be constructed. They learn through the making of the drawings the essentials of good design, proportion, construction principles, and also develop drafting skills. As the students advance in the various areas toward the upper grade levels, a greater depth of knowledge, a broader scope of the field of work, and more finely developed drawings are required.

Basic Texts used by the students are:

**Woodworking with Machines** — Douglas

**Woodworking Technology** — Hammond, Donnelly, Harrod, Rayner

**How to Run a Lathe** — South Bend Lathe Company

**Elementary Blue Print Reading** — Delmar Publications

A surface planer and a power hacksaw were added during the year. The planer enables the pupils to quickly reduce to any desired thickness the lumber used in the construction of their projects. The power hacksaw permits the use of heavier and harder metal stock to be cut quickly and more accurately than by hand.

Various methods of working with "Plexiglass" were begun during the year, thus offering the pupils the opportunity to explore another industrial activity and material.

### HOME ECONOMICS

This year, Home Economics classes were offered to both the seventh and eighth grades of the Junior High School as well as all grades of the High School. Curriculum develop-

ment work has been continued throughout the year in preparation for the new high school.

The Home Economics courses have as their focal point homemaking as a management career. The students are taught to plan for home, considering aesthetic values, common sense and good judgment.

The following are other objectives of the Home Economics courses:

- To meet the nutritional needs of the family through proper selection, preservation, preparation and use of food.
- To select, construct, and care for clothing and to consider its psychological and social importance.
- To better family relationships, including management of self.
- To study child development and care.
- To consider health and safety in the application of nutrition, home safety habits, and first aid and care of minor illnesses.
- To develop skill and knowledge in the use of tools and other resources, and to develop the ability to use these resources at full capacity.
- To plan for financial goals and to develop ability in managing and living within incomes.

## ADULT EVENING EDUCATION

The Adult Evening Education program was expanded considerably this year with the addition of new courses. The program, which began in mid-October, now includes classes in Physical Education for both men and women, Typing, Sewing, and Beginners' English.

The women's Physical Education group is primarily concerned with the performance of basic physical exercises under trained supervision, and participation in group-type athletic activities. Classes for the men's group consist of group-type activities, and the development and maintenance of physical fitness. Both Physical Education classes are conducted in the Memorial Gymnasium on separate evenings.

Sewing classes are held in the Household Arts Classroom in the Junior High School. Students in this group are instructed in the use of sewing machines and patterns, and in the selection of material. Each participant is expected to complete one or two major projects during the course.

Typing for beginners is taught in the Commercial Department at the High School. Here, students are trained in the basic rudiments of using the typewriter, and in the use of proper form for personal typing.

Classes in basic English for foreign-born adults are conducted at the Junior High School. The classes are divided into two groups, beginners and advanced. Instruction for the beginners' group is devoted to the acquisition of a basic, working vocabulary and the mastery of English sound patterns, while the advanced group is working on the use of proper grammatical form, interpretive reading, and the mastery of idiomatic expressions.

All of the adult classes meet weekly for two hours over a fifteen week period.

### CONCLUSION

Education can only be attained by welding together all vital forces — administrators, teachers and parents. School administration is concerned with the coordination of a variety of activities and services into an effective educational program as well as to work with other social and educational agencies to promote the welfare of the youth and the community.

The teachers' responsibility is a grave and vital one. It is the objective of the teacher to guide the attitudes of the children into constructive and effective channels for the development of good citizenship. They must recognize and accept the multitudinous differences in the children they serve.

The most influential force in the education of a pupil is the parent. Ultimately it is the parent who has the major responsibility in the overall development of the child. He must assist him so that he will react favorably to his environment; he must help him to develop strength of character so that he will not buckle under stress.

Only through the cooperative efforts of all forces can we provide a program that will enable each child to develop his skills, attitudes and appreciations, so that he may become a worthwhile and constructive citizen in our American Democracy.

We, in Maynard, are proud of our educational accomplishment for the past year and realize that with the continued combined efforts of administrators, teachers and parents we will reach even greater heights in the future.

May I take this opportunity to thank all those who have contributed to our success — the School Committee, School Personnel, Town Officials, Civic Organizations, and Parents.

Respectfully submitted,

ALBERT LERER

Superintendent of Schools

## Report of Curriculum Coordinator

December 28, 1962  
To Albert Lerer  
Superintendent of Schools  
Maynard, Massachusetts

I herewith submit my second annual report as Curriculum Coordinator of the elementary schools of Maynard.

The study of our Social Studies program, which began last year, has led to the adoption of a new approach in the teaching of geography and history in the elementary schools.

Beginning in September of this year, the pupils of grades 4, 5, and 6 have been taught geography and history by means of the "fused" method which combines the two areas into one interrelated subject. Historical events are thus taught in terms of the geographical factors which in many cases have been instrumental in determining the course of history.

The adoption of this "fused" method of presentation, as well as the many changes which have taken place throughout the world during the past two or three years, has necessitated our providing the pupils of these grades with new text materials. In times such as these, with new nations emerging almost overnight, social studies textbooks become outdated quite rapidly.

Two separate surveys have been conducted to determine the needs of each classroom in terms of wall maps and terrestrial globes. These surveys were conducted by the field representatives of two of the largest map manufacturers in the nation. The aims of the surveys were to determine which of our maps and globes are now obsolete, which would be used more profitably at some other grade level than at that where they are presently being used, and to provide us with a long-range plan to provide sufficient and adequate materials to insure that our pupils will have the tools they need to properly learn the various phases of social studies.

The findings of these surveys are being taken under advisement, and carefully studied so that we will be properly guided in our future planning along these lines.

Arrangements have been made for Maynard's participation in the revision of the Stanford Achievement Test. This nationally-standardized achievement test is being revised for the first time in eleven years. All of the pupils in grades one through eight will be tested with this device in March.

The results of the tests we administer here in Maynard will be used with other results from all over the country in formulating new national norms. These norms will then be used to measure the scholastic achievement of Maynard's pupils in relation to that of other pupils throughout the nation.

In conjunction with this testing program, intelligence tests will be administered to all elementary pupils in February. Results of these tests will be very helpful to the teachers for purposes of pupil grouping.

Four science demonstration tables, completely equipped with apparatus for conducting experiments, have been provided for use at the upper-grade level. This has been done in keeping with the federal government's request that science instruction be up-graded at the elementary school level. With this equipment now available, the teachers will be able to actually demonstrate various scientific phenomena. The pupils, too, will have an opportunity to experiment and prove to themselves the scientific principles, rather than merely accept them on someone else's say so. In learning-by-doing, in this manner, it is expected that education will become more meaningful, and that the concepts learned will be retained longer.

The Conversational French program in the elementary schools has been enriched by providing the teachers with additional help. The new seventh grade French teacher has been scheduled to visit the fourth, fifth and sixth grade classes regularly to guide and advise the teachers in planning "follow-up" lessons after the televised lessons. Teachers have welcomed this extra help, and the children eagerly look forward to the pleasant, periodic visits of "Mademoiselle."

A literature program has been incorporated into the elementary curriculum. This was accomplished by placing a number of "literary readers" in each classroom from grades one through six. These books consist of classic selections taken from folklore, mythology, and children's literature. By exposing the children to literature of this type, we hope to provide them with a literary background which will instill in them an appreciation of fine literature, and a desire to continue and expand the reading habits which are being developed in the grades.

Plans are now under way for a detailed study of our English program. A meeting, with representatives from the high school, the junior high school, and the elementary schools, has taken place, to determine whether our present program has any shortcomings, and if so, what steps may be taken to remedy them. Since a proper foundation in English is so vital to success in all other areas of the curriculum, we

are interested in assuring that continuity and articulation exist at every grade level from one to twelve. A certain amount of overlap in instruction from grade to grade is both necessary and desirable, but we must be certain that no gaps exist anywhere along the line.

Examination copies of the latest English texts from all of the major publishers of educational materials are being studied to see whether any innovations have been made in methods of instruction, which we might incorporate into our program.

A study-group will soon be formed to study all phases of the English program at the elementary school level, and to make recommendations for a course of action to be followed in up-grading our program to provide the best for our children.

Some of the radically new approaches to the teaching of reading are being closely followed. A number of communities in this general area are experimenting with pilot programs, using some of these methods and materials. If we can determine with certainty that these methods are superior to those used here in Maynard, and that our children would gain from them, we will make every effort to incorporate them into our own program of instruction.

Respectfully submitted,

GEORGE J. LEMIRE  
Curriculum Coordinator

## Report of Emerson Junior High School Principal

Mr. Albert Lerer  
Superintendent of Schools  
Maynard, Massachusetts

Dear Mr. Lerer:

I herewith submit my eighteenth annual report of the Emerson Junior High School for the year 1962.

When school opened in September, eight new teachers had joined our staff: four replacements and four new teachers needed because of double sessions.

### Grade Eight

Louis Varrichione — Science  
Robert Coan — Social Studies  
Anne Haugen — Music

### Grade Seven

Suzanne Robinson — French  
Peter Delmonico — Science  
James Azier — English  
Judith Dewar — Social Studies  
Constantine Mourginis — Guidance Counselor

We are on double sessions, the eighth grade pupils attending schools from 7:30 A. M. to 12:00 Noon; the seventh grade from 12:15 P. M. to 4:45 P. M.

We have a six period day with a 25 to 1 pupil-teacher ratio.

The classes are small enough to permit individual help and encouragement to each child and a greater degree of participation by the child than is possible with large classes.

Pupils are grouped homogeneously, according to ability, based upon achievement tests, past scholastic records, marks, faculty recommendations and results of mental maturity tests. This type of grouping is reported in 87% of all junior high schools in the state.

The accelerated group has an enriched program but still covers the basic text. The middle groups move at a normal rate. The lower group proceeds more slowly and uses reviews and remedial methods.

In the past, changes took place at the end of the grading period — three times a year. This allowed students to advance to a faster group when it was indicated that they

were performing at the top of their group and showed signs of being able to master the work of the next higher group. The same procedure was used to remove students to a lower group if they were not performing satisfactorily. Fewer changes took place as the school year progressed. Students had to make up work when advanced to a higher group.

Most educators have become aware that for ultimate success, grouping must be flexible and different procedures and materials must be used for each group.

Ability grouping requires more work on the part of teachers because more plans have to be made. The teachers believe that this program is a success and should be continued.

Heterogeneous grouping is used in homerooms and I sincerely hope we will be able to extend it to the following subjects: Industrial Arts, Home Economics, Art, Music, Physical Education and Conversational French. This, I would suggest when we are not on double sessions.

### Aims and Objectives of Our School

To help overcome the common problems of young adolescents in their formative years.

To lead pupils to discover and explore their special interests and use these interests to raise the level of achievement in all subject areas.

To stimulate the pupils in extra-curricular activities so they can take part in an ever-widening range of social, cultural, civic and recreational interests.

To provide guidance services to help pupils make wise educational and vocational choices, and promote their mental, emotional and social adjustment.

### Curriculum

Since today's pupils are advanced socially and intellectually, we must have a dynamic curriculum. An effort is being made constantly to keep our school abreast of the latest advancements in educational methods and tools. In accordance with this policy, the Emerson Junior High School has ordered and received the following books for the general enrichment of the curriculum. These texts are more adaptable to the junior high school age group.

**Modern Mathematics** — Books I and II, by M. Roszkoph, R. Morton, J. Hooten and H. Sitoner

**Science I, Observation and Experiment**, by Davis, Burnett and Gross

After careful scrutiny, we are beginning to revise our curriculum. Mr. Peter Delmonico is writing a curriculum guide for seventh grade Science — Mr. James Azier for seventh grade English and Mr. Leo McSweeney for eighth grade Mathematics.

Work is being done on a Junior High Handbook to be presented to the Superintendent of Schools in the near future, for his approval. All members of the faculty and the Student Council will be asked to help. This handbook will aid the junior high school pupils in becoming oriented to a new school environment.

This year, the seventh grade pupils are studying French three days a week with Miss Suzanne Robinson. French is the most popular of the foreign languages taught in junior high schools.

The seventh grade pupils are attending classes in Home Economics and Industrial Arts for the first time since 1955.

Released Time Classes are held each Wednesday from 11:15 A. M. to 12:00 Noon. The pupils remaining form one group using a current event paper called "The Junior Review." Lessons are planned by the teacher in charge for that period.

Valuable instructional materials are available, such as audio-visual materials and equipment. These materials include maps, filmstrips, films, television, graphs, charts, records and tape recorders.

The students on the projection staff gain a great deal of personal satisfaction and rich experience. The boys have an opportunity for a training which may help them in selecting a vocation.

Our school library provides materials the students need for reference work. Pupils will find up-to-the-minute information for their social studies and science classes in the classroom libraries.

### Extracurricular Activities

Highly organized and competitive activities do more to develop leadership than do more casual groups. We have developed a program of group activities: musical and dramatic, assembly and homeroom programs, clubs, school newspaper, student council and athletics.

Since assemblies are part of the educational program, we try to make our assembly programming interesting to students. Our most popular types are: musical, plays based on holidays, movies, homeroom programs, club reports, awards and career programs. Pupil participation in the life of the

school is surely one of the ways to teach boys and girls to become good citizens.

Field trips of various types offer inestimable educational values to supplement classroom learning. Eighth grade pupils visited the Boston Museum of Science. Seventh grade pupils toured the Peabody Museum at Harvard College. The members of the Glee Club participated in the Christmas and Spring Concerts. They also attended a Pops Concert at Symphony Hall. Any field trip will result in good material for panel discussion upon return to the classroom. Enthusiasm runs high and interesting ideas are developed from such outings. The outstanding feature of these trips is the fact that the child who does not shine in the classroom may come to life in a museum full of exciting objects.

Educationally the junior high school period is one of orientation and introduction to all subjects. It is an exploratory period. In athletics particularly, there should be at this time an introduction to a number of sports. Practically every boy and girl should take part in after school athletic activities. We could have intramural competition basketball and baseball. At no period in the school program is interest in sports so strong and so easy to promote as at the junior high school level. Eighth grade girls should have a basketball team.

### Guidance

The guidance programs for the junior high schools have become firmly established. We have our first guidance counselor, Mr. Constantine Mourginis, who is providing an extremely worthwhile service to the teachers, the principal, and pupils. Guidance counselors concentrate in the areas of course selection, testing, test evaluation, and individual counseling. Decisions made during these years sometimes direct students to future programs and, in some cases, careers in later life.

### Awards

Pupils need an opportunity to excel in something, whether it be athletics, drama, scholastic activities or some other part of the school program. We provide that opportunity.

Adolescents are less mature, more emotional, and more than a little sensitive. The matter of awards is an important one. Obtaining at least one certificate at some time during his two years at junior high is within the ability of every child in the school. Awards during the year were presented for:

Report Cards—All A's	— Gold Honor Pins
Report Cards—All A's and B's	— Certificates
Outstanding in Science, Mathematics, Eng- lish and Social Studies	— Letter M and a Certificate
Band and Orchestra Members (Grade Eight)	— Music Emblems
Original Melody Winners	— Gold Music Pins
Reports of five certified books	— State Certificates
Football Players	— Chenille letter and Certificate
Basketball Players	— Chenille letter and Certificate
Baseball Players	— Chenille letter and Certificate
Cheerleaders	— Felt Emblems
Perfect Attendance for Year	— Certificates

### Reporting

Twice each year in the Maynard schools, parents come to the school to discuss the problems and progress of their children. The teacher explains the activities and achievements and the difficulties of the pupils. The parents provide information necessary for the teacher's understanding of each child. Together they work out plans for furthering education for the student. Formerly, the teachers recorded a letter grade for each subject. Parents glanced over the records, signed their names, and returned it to the school. A child's progress cannot always be expressed merely through a letter grade. Teachers couldn't utilize the parents' valuable help in overcoming student problems.

In 1960 conferences were initiated in order to give the parents the fullest possible report and to aid the teacher in understanding the child. These conferences have won the acclaim of teachers and parents; parents feel they learn more about their children; teachers feel their understanding of pupils is increased.

### Civil Defense

In the event of an attack without sufficient warning, the children will be kept in school with all the protection that can be mustered. They will assemble in the Band Room. Mr. McSweeney is in charge of eighth grade pupils and Mr. Delmonico, seventh grade. In the event of an attack with a fifteen or twenty minute warning, all school children will be sent home. We are in the process of preparing lists of

pupils, assigned to each teacher, who will escort the pupils to a designated spot.

### **Safety**

Our Safety Education Program is a vital part of education.

Fire drills are held regularly.

Defense drills have been held. We have a designated shelter area, teachers have assigned responsibilities.

Instructions on what to do in an emergency and first-aid treatments are given in the science periods.

Safety practice for pedestrians and bicyclists and highway safety has been offered to all students. Each year a representative of the Registry of Motor Vehicles shows a film and speaks on safety.

### **Faculty Meetings**

Meetings are held periodically to share ideas about: curriculum, management, assemblies, safety, conferences, clubs, building routine and professional magazines.

### **Plans for the Future**

1. Curriculum Guides in All Subjects
2. Complete Pupils' Handbook
3. Develop a new Report Card

I wish to express my appreciation to the faculty and to you for a most successful year.

Respectfully submitted,

FLORENCE WILDER

Principal

## Report of High School Principal

Mr. Albert Lerer  
Superintendent of Schools  
Maynard, Massachusetts

Dear Mr. Lerer:

I herewith submit the Annual Report for the Maynard High School for the year 1962, my eighth Annual Report.

One of the most important aspects of a secondary school is its atmosphere. An atmosphere of intellectual curiosity, of the pursuit of excellence, of consistent and tireless work should permeate the school. An atmosphere such as this is most beneficial in helping each child to fulfill his potential. A staff which is cognizant of the importance of such an environment has enabled us to make significant strides in our education at Maynard High School.

A sound educational program in a comprehensive high school must provide a strong fundamental educational base for all and some specialized or even individualized education. In order to maintain and constantly improve the program at Maynard High School we are making a realistic reassessment of our educational needs by reorganization of curricula and by continual activation of the revised plans. The English department under the guidance of its chairman has considered the following areas of its curriculum during 1962: its literature program, composition, reading for slow learners, field trips, note taking, a speech program, a reading program, term papers, library, and teaching tools. Specific improvements of our English program have been effected and recommendations for future development have been made. Representatives also attended a meeting at which the English program for grades one through twelve was discussed. A meeting with representatives from grades seven and eight was also held to help define and delimit the sequential and incremental aspects of the total English program.

The Science department, in its meetings, has attempted to establish greater correlation among its courses and smoother articulation between grades. Some aspects of P. S. S. C. Physics have been presented and the General Science course for an accelerated college preparatory group is being taught as an introduction to Chemistry and Physics. In mathematics, some modern mathematics topics have been introduced. More conversational French is being emphasized in advanced courses. Comprehensive changes must be made in preparation

for the 1964-65 school year since French students entering at that time will have studied the language in the lower grades. Social studies course outlines are in progress. This year some forty United States History pupils visited the United Nations in New York. At the Latin meetings consideration was given to the structural — lingual approach, testing, and the place of the language laboratory in the Latin curriculum. In addition to work on course outlines, the teachers of the business department visited five nearby high schools and two business establishments so that they might keep abreast of the newest developments in business machines and techniques thereby enabling them to better provide for business students.

New units of instruction have been added to the Home Economics curriculum. An Industrial Arts library is now well established and revisions in the high school curriculum will depend on changes which can be effected on the Junior High School level.

The art curriculum has been augmented to include work in cork design, newspaper collage, anatomy, charcoal, geometric still life, and semi-abstract water color. The major music activities continue to center around the band, orchestra, brass choir, glee clubs and dance band. The use of new equipment such as the trampoline, badminton equipment, side horse, spring board, and beet board has enabled us to further enrich the physical education program.

Preparations are being made for a school library. We have worked on the problems of stocking the library adequately for independent study and of building a broad selection of materials. In order to encourage wider reading, suggested lists have been compiled and given to all students. Thus, we continue to strive for excellence and to better provide for every student.

Presently a committee is working on the evaluation progress report which is to be submitted to the New England Association of Colleges and Secondary Schools in the spring.

Colleges being attended by Maynard High School graduates include the following: American University, Arizona State University, Babson Institute of Business Administration, Bentley College of Accounting and Finance, Boston College, Boston Conservatory of Music, Boston University, Cardinal O'Connell Seminary, College of Our Lady of the Elms, Cornell University, Eastern Nazarene College, Emerson College, Framingham State College, Harvard College, Jackson College, Lowell Technological Institute, Massachusetts College of Pharmacy, McGill University, Michigan State University, Milligan College, Northeastern University, Norwich Univer-

sity, Regis College, Saint Michael's College, Simmons College, Stonehill College, Suffolk University, Tufts University, University of Cincinnati, University of Massachusetts, University of New Hampshire, Virginia Military Institute, Wesleyan University, West Virginia Wesleyan College, Worcester Polytechnic Institute, and Yale University.

Other schools which have former Maynard High School students in attendance include: Berkshire Community College, Boston University College of Basic Studies, Burbank Hospital School of Nursing, Burdette College, Butera School of Art, California Junior College, Cardinal Cushing College, Chamberlayne Junior College, Chandler School for Women, Colby Junior College, East Coast Aero Technical School, Fisher Junior College, Framingham Union Hospital School of Nursing, Frank Commerford School, Kenneth Hair Design Institute, Massachusetts Radio School, New York School of Photography, Nichols College of Business Administration, Vermont College, Ward Schools, Wentworth Institute, Worcester Junior College.

The follow-up survey of the Class of 1962 indicates that 50.6% are now receiving post-secondary school education, that 21.9% of the class are enrolled in four-year colleges, and that 37.0% are now gainfully employed. Six have entered the armed services. A large majority of our graduates continue to adjust satisfactorily to their post-high school endeavors.

A gradually changing emphasis has been noted in recent years. Whereas some 42% of the students selected college preparatory work in high school nine years ago, this figure is now approximately 58% for the Class of 1966.

Adequate space continues to prove a handicap. The last small class will graduate in June, 1963. The incoming class will have approximately fifty-five more pupils than the class which will leave in June. This will bring the Maynard High School enrollment to approximately 450.

Due to the Junior High School's double sessions, two rooms have been made available for High School use in the Junior High School building. Despite the inconvenience of different bell schedules in the two buildings, this situation has worked very well. Additional classrooms will be required in September.

I would like to express my appreciation to the many parents of high school pupils and to other citizens of Maynard who have shown an interest in the High School during the past year whether as individuals or as groups working with the staff to help further our educational objectives. The sincere interest of many local businessmen and civic and fraternal organizations has been gratifying.

Finally I wish to emphasize that without the diligence and cooperation of a fine staff our accomplishments would have been impossible. May I also thank you for your cooperation and support during the past year.

Respectfully submitted,

FREDIANO D. MATTIOLI  
Principal
