## REPORT OF THE BOARD OF SELECTMEN

To the Citizens of Maynard:

Herewith is presented the Annual Report of your Board of Selectmen for the year ending December 31, 1970.

Before we review some of the major accomplishments of the year 1970, we state with modesty and without fear that we have been the busiest Board of Selectmen in many years.

During the year 1970 the Board of Selectmen was deeply concerned with and actively in an ever-increasing number of controversial administrative and municipal problems, some of which have been successfully concluded, while others must be realistically pursued and resolved in the near future if the Town is to progress.

Elsewhere in this Annual Report, the detailed activities and functions of the various Town Departments and Committees under our jurisdiction are presented.

As for Board actions and decisions relative to 1970 Town matters the Board is pleased to report its activities and accomplishments:

1. Purchased land off Summer Street for proposed Elementary school.
2. Requested Representative Balthazar and our Town Counsel to file necessary legislation for an Act to withdraw from the M.B.T.A.
3. Proclamations were issued for:
  - a. Maynard Knights of Columbus - 50th Anniversary
  - b. Father Louis Bilicky Day
  - c. Richard T. Lawson retirement
4. A meeting of all Boards and Committees were held in May, September and November to discuss Town matters.
5. Held two hearings relative to "Hatch Act".
6. Permission granted to New England Telephone Company to run underground cable from Acton line to Civil Defense Headquarters on Old Marlboro Road.
7. Traffic regulations were amended at various times during the year to relieve the traffic flow, congestion, and dangerous intersection in the Town.
8. As directed by the vote at our Annual Town Meeting the

Board appointed the Historical Commission.

9. Request was made to Boston & Maine Railroad to widen the underpass on Florida Road and repair railroad crossing on Summer Street.

10. The Board would like to thank Mr. James King, his staff and all of the various Town Boards and Committees for their help in the past year.

WILLIS D. DODD  
HOWARD E. BOESKE  
THOMAS A. COCCO

Board of Selectmen

## TOWN CLERK'S REPORT

## ANNUAL TOWN MEETING

John F. Kennedy Gymnasium, High School, Maynard

Held March 2 and 3 1970

Moderator Emile L. Genest declared a quorum present at 7:30 p.m. and convened the Annual Town Meeting.

Mr. Genest waived the reading of the warrant as a whole.

Article 1. Mr. Billups reported for the Finance Committee and stated that the "Cherry Sheet" was in and Maynard's share would amount to approximately \$514,000.00. He also stated that the Finance Committee did not recommend the two Questions which had been placed on the town election warrant.

Article 2. Moderator will make any necessary appointments in the near future.

Article 3. Motion by R. Billups: Voted to accept the Finance Committee recommended amounts as printed in the Warrant, and under item 77 to "accept and expend Federal Funds". A motion made by A. Rogers to take up items 76 and 78 separately was defeated. Mr. Rogers then offered an amendment so that item 76 would read \$1,283,120.20 (salaries) and item 78 would read \$29,547.09 (Outlay). This amendment was defeated. Article as accepted reads as follows:

Selectmen - Salaries	\$	900.00

---	------------

Article 4. Motion by R. Billups: (Amendment by K. Manchester to change Town Clerk's salary figure from \$5,500 to \$6,500 passed). Voted to pay the following salaries or compensation to the various elected Town Officials in accordance with Chapter 41, Section 108, of the General Laws, said salary or compensation to be effective and remain in force until the next Annual Town Meeting unless sooner changed by the vote of the Town.

Moderator	50.00
Town Clerk	6,500.00
Town Treasurer-Collector	10,000.00
Selectmen, 3 members, each	300.00
Board of Assessors, Chairman	900.00
Other Members, each	800.00
Public Works Board 3 members, each	300.00

Board of Health, 3 members, each	50.00
Library Trustees, 3 members, each	25.00
School Committee, 5 members	NONE
Planning Board, 5 members	NONE
Housing Authority, 5 members	NONE

All fees and charges collected by each department must be paid to the treasurer at the end of each month.

The above salaries are effective January 1, 1970 to December 31, 1970. For changes in personnel during the year, salaries will be pro-rated according to the length of service at the above recommended rates.

Article 5. (Finance Committee recommended 6% for all.) Motion by M. Niemi to approve as printed on the warrant with the exception of the following: Town Accountant, Police Chief and Superintendent of Public Works to read: minimum of \$11,250.00; 2nd step - \$11,500.00; 3rd step - \$11,750.00; maximum - \$12,000.00. This was amended by R. Mayes to retain the original figures as printed in the warrant. Amendment defeated. Vote on motion-173 in favor, 218 opposed. D. Glazier made a motion to approve the original article as printed in the warrant with the following amendment: Part time clerk for assessors, treasurer, town accountant, health department and library to receive \$2.66 per hour. Count by standing showed 221 in favor, 215 opposed. The motion with amendment carried.

During discussion on the above amendment A. Rogers offered a "save for reconsideration" on items 76 and 78.

Motion by A. Rogers to reconsider Article 3 was defeated.

Article 6. Motion by M. Niemi: Voted under authority of Section 108A of Chapter 41 of the General Laws to amend the By-laws of the Town by deleting the following:

#### Section XIV "FRINGE BENEFITS"

##### D. Sick Leave

2. All permanent and temporary (full time) employees shall accumulate sick leave at the rate of one day for each month of employment. The maximum sick leave accumulation shall be sixty (60) days. Permanent (part time) employees shall accumulate sick leave on a prorated basis depending on the number of hours scheduled each work week.

3. The Town Accountant shall review the time and leave records of all employees during the past five years to determine the number of days lost by each employee for sick leave. This number shall be deducted from the "credit" of 60 days or less according to length of service. This difference

shall establish "sick leave credit" for each employee on the effective date of this by-law.

and substitute the following:

D. Sick Leave:

2. All permanent and temporary (full time) employees shall accumulate sick leave at the rate of one day for each month of employment. The maximum sick leave accumulation shall be one hundred and twenty (120) days which will be attained after a period of not less than one hundred and twenty (120) months of employment. Permanent (part time) employees shall accumulate sick leave on a prorated basis depending on the number of hours scheduled each work week.

3. The Town Accountant shall review the records of all employees to determine the number of days accumulated by each employee for sick leave. This number shall be sixty (60) days or less according to length of service or sick leave used and shall establish "sick leave balances" for each employee on the effective date of this amendment.

Article 7. Withdrawn by M. Niemi of Personnel Board.

Article 8. Motion by M. Niemi. Defeated. ("Fringe Benefits - Vacations). Finance Committee did not recommend.

Motion by J. Tomyl that no article be taken up after 11:00 p.m. Carried.

Article 9. Withdrawn by Personnel Board. Finance Committee did not recommend.

Article 10. Motion by M. Niemi: Voted under authority of Section 108A of Chapter 41 of the General Laws to amend the By-Laws of the Town of Maynard by deleting the following:

Section XX JOB DESCRIPTION OF PRINCIPAL ASSIGNMENTS.

RECREATION COMMISSION-SWIMMING PROGRAM

Teaching Aides (6) Under general direction of the director and instructors.

Assists in general duties of the swimming program.

Educational requirement-Students enrolled in the program working for their junior and senior life saving badges.

and substitute the following:

Teaching Aides (4) under general direction of the director and instructors, assists in general duties of the swimming program.

Requirements-High School students who have completed the Junior Life Saving Program attaining their certificates in same.

Article 11. Motion by K. Spratt: Voted that the sum of \$14,300.00 be raised from the tax levy of the current year for the purpose of replacing a small water main with an 8" main on Beacon Street and extending it to Summer Street with fittings and appurtenances.

Article 12. Finance Committee does not recommend.  
Motion by M. Niemi: Voted to decrease the hours worked: from 56 hours per week to 48 hours per week (without loss in weekly wages) for the Maynard Fire Department.

Article 13. Motion by R. Billups: Voted to raise by taxation the sum of \$32,250.00 for the purpose of paying increases in wages and salaries to employees and other changes in the salary plan under the jurisdiction of the Personnel Board in accordance with Sections XIV and Section XIX of the Salary Administration Plan.

Article 14. Motion by H. King: Voted to authorize the Town Treasurer-Collector, with the approval of the Selectmen, to borrow money in anticipation of the revenue for the financial years beginning January 1, 1970 and January 1, 1971, in accordance with the provisions of General Laws, Chapter 44, Section 4, and to renew any note or notes as may be given for a period of less than one year, in accordance with the provisions of General Laws, Chapter 44, Section 17.

Vote: Unanimous.

Article 15. Motion by R. Billups: Voted to appropriate and raise by taxation the sum of \$20,000.00 for the Finance Committee Reserve Fund to provide for extraordinary and unforeseen expenditures. Transfer to be made to departments only by vote of the Finance Committee, as provided for by Section 6 of Chapter 40 of the General Laws.

Article 16. Motion by R. Billups: Voted to authorize and direct the Assessors to take up to \$140,000.00 from free cash to reduce the tax levy for the current year.

Vote: Unanimous.

Article 17. Motion by R. Billups: Voted to raise by taxation the sum of \$40,000.00 to the Stabilization Fund as provided in Section 5B of Chapter 40 of the General Laws, as amended.

Article 18. Motion by H. King: Voted unanimously to rescind the authorization to borrow the balance of \$4,600.00 authorized by Article 55 of the 1962 Annual Town Meeting Warrant, and corrected by Article 3 of a Special Town Meeting of May 14, 1962, for the purpose of constructing and equipping a new High School.

Article 19. Motion by W. Bennett: Voted to appropriate the sum of \$10,000.00 for the purpose of celebrating the Town of Maynard One Hundredth Anniversary. All funds received from the sale of

all items shall be paid to the Town Treasurer at the end of each month.

Voted: unanimous.

Article 20. Motion by A. Crowley: Voted unanimously to appropriate the sum of \$25.00 to pay a doctor's bill for a police officer injured in the line of duty in the year 1967.

Article 21. Motion by R. Sheridan: Voted to accept the provisions of General Laws, Chapter 40, Section 8D to establish an Historical Commission in the Town of Maynard for the purposes provided by law, to be composed of five residents of the Town, appointed by the Selectmen for terms of three years each, except that the initial appointment shall be one member for one year, two members for two years each and two members for three years each.

Article 22. Motion by R. Sheridan: Voted unanimously to appropriate the sum of \$5,000.00 for the purpose of publishing a complete history of the Town of Maynard, prior to and in anticipation of Maynard's Centennial Anniversary in April 1971. All funds received from the sale of said book shall be paid to the Town Treasurer at the end of each month.

Article 23. Motion by E. Beebe: Voted that the sum of \$3,370.00 be raised from the tax levy of the current year and appropriated as the Town's member share for use by the Assabet Regional Refuse Disposal Planning Board to retain engineering consultant services for the preparation of a Master Plan of Refuse Disposal for the Region comprising the Towns of Acton, Boxborough, Maynard and Stow with the provision that should the other towns comprising the Region fail to act favorably on the similar article that such funds be returned to the General Fund.

(Finance Committee Recommended.)

Article 24. Motion by T. Whalen: Voted to raise by taxation the sum of \$4,500.00 to be expended under the direction of the School Department for providing cooperative or complementary facilities to the out-patient clinic of the Walden Guidance Association, Inc., established in accordance with the provisions of Chapter 123 of the General Laws, in cooperation with the Department of Mental Health, and for providing payment for services rendered or to be rendered by such clinic.

Article 25. Motion by H. Chapell: (\$5,000 for Conservation Fund) did not carry.

Vote: 169 in favor, 205 opposed.

A motion to reconsider Article 12 did not carry. (Decrease of hours for firemen).

Article 26. Planning Board does not recommend. Finance Committee concurs with Planning Board. Motion by J. Coleman: To amend Section 2 of the Zoning By-Laws the zoning map of the Town of Maynard by changing from Single Residence to General Residence land on the northerly side of Old Marlboro Road and westerly side of Parker Street. Motion by H. Hansen to lay on table. Passed.

At 11:10 p.m. J. Tobin made a motion to adjourn until following night. Carried.

March 3, 1970. At 7:30 p.m. Moderator Genest declared a quorum present and called meeting to order. The microphones were not working properly so Moderator recessed meeting until they were fixed. Meeting reconvened at 7:48 p.m.

Article 27. Motion by W. Dodd: Voted unanimously that the Town of Maynard file legislation in the General Court for the discontinuance of service to the Town of Maynard by the Massachusetts Bay Transportation Authority and the withdrawal of the Town of Maynard from the Massachusetts Bay Transportation Authority.

Vote: 254 in favor, no one opposed.

Article 28. Motion by J. Staples: Voted to accept Chapter 872 of the Acts of 1969, an Act relative to compensation for overtime service by regular police officers of cities and towns and members of the police force of the Metropolitan District Commission.

Vote: unanimous.

Article 29. Motion by A. Crowley: Voted to appropriate the sum of \$7,934.58 for the purpose of paying time and a half for overtime to police officers in accordance with Chapter 872, Acts of 1969.

Article 30. Motion by A. Crowley: (two additional patrolmen) did not carry.

Vote: 115 in favor, 142 opposed.

Articles 31 and 32 were withdrawn by Chief Crowley. (Police school and clothing for new officers.)

Article 33. Motion by T. Cocco: Voted to authorize the Board of Selectmen to enter into an agreement for the acquisition and installation of Parking Meters. Said agreement shall contain a provision to the effect that payments by the Town of Maynard for the acquisition and installation of parking meters shall be made over a period not exceeding five (5) years from fees collected for the use of parking meters and said agreement shall not exceed the sum of \$4,800.00.

Article 34. (Flashing signal light at intersection of Rte. 62 and Rte. 117.) Withdrawn by Board of Selectmen.

Article 35. (Flashing signal light at intersection of Summer and Nason Streets.) Withdrawn by Board of Selectmen.

Article 36. (Purchase of an additional police car.) Withdrawn by Board of Selectmen.

Article 37. Finance Committee recommends. Motion by G. Whalen: Voted unanimously to appropriate the sum of \$14,776.44 for the purpose of employing two (2) additional firefighters to fill vacancies created by a shorter work week voted for the Fire Department.

Article 38. Motion by G. Whalen: (\$9,800.00 Fire Alarm Control Board and new box transmitter etc.)

Motion by R. Gerroir to Table. Carried 134 in favor, 128 opposed.

Article 39. Motion by G. Whalen: Voted to authorize the Fire Chief with the approval of the Board of Selectmen to purchase a new motorized 1250 gallon perminute fire pumping engine together with the necessary original equipment therefor and to appropriate from the Stabilization Fund the sum of \$42,000.00 for this purpose. Further to authorize the Fire Chief with the approval of the Board of Selectmen to trade-in or sell a 1949 International Fire Truck. All money received from said sale of said truck shall be returned to the Stabilization Fund.

Vote: 180 in favor, 84 opposed. 176 needed for 2/3's.

Motion by J. McNamara to reconsider Article 30 did not carry.

Vote: 109 in favor, 131 opposed.

Article 40. Finance Committee does not recommend. Motion by P. Murphy: Voted to authorize the Board of Selectmen, on behalf of the Maynard School Building Committee, to purchase a parcel of land consisting of the following: A 5 acre (more or less) parcel of land situated off Summer Street, Maynard, and shown as "Parcel A" on a plan entitled "Plan of Land in Maynard, Massachusetts, Showing Proposed School Site", Acton Survey and Engineering Inc., and dated February 1970, and shown on said plan to be bounded as follows:

SOUTHERLY by lot C on said plan and lot B on said plan for a distance of one thousand one hundred fifth-one and 60/100 (1,151.60) feet.

EASTERLY by lots 41, 42, and 43 on said plan for a distance of one hundred eighty-four feet (184).

NORTHERLY by land shown on said plan to be owned by Harold A. & David Cahoon for a distance of one thousand one

hundred and eighteen (1,118) feet.

EASTERLY by land of said Cahoons for a distance of two hundred and thirty-six (236) feet.

NORTHERLY by land of said Cahoons for a distance of forty (40) feet.

WESTERLY by lots 47, 48, 49 and 50 on said plan for a distance of four hundred thirty and 35/100 (430.35) feet.

All distances to be considered more or less. And to appropriate the sum of \$15,950.00 for the purchase and legal fees for said land or take any action in relation thereto.

Vote: 227 in favor, 9 opposed. 157 needed.

Motion by L. Armour to reconsider Article 39 defeated.

Article 41. Finance Committee recommends. Motion by P. Murphy: Voted unanimously to authorize the Board of Selectmen, on behalf of the Maynard School Building Committee, to purchase a parcel of land owned by Vincent M. and Doris F. Crotty consisting of 21,755 square feet more or less located on a so called "proposed 50 foot road" as shown on a plan of land entitled Plot Plan of Land in Maynard, Massachusetts, dated February 1969, Acton Survey and Engineering Inc., a copy of which is filed in the Town Clerk's office. Said road being off Summer Street, Maynard, Massachusetts, and said parcel being bounded and described as follows:

NORTHWESTERLY by said 50' road 229 feet.

NORTHEASTERLY by lot C on said plan 95 feet.

SOUTHEASTERLY by owner unknown 229 feet and

SOUTHWESTERLY by Lot of Paul V. and Janet M. Messier as shown on said plan 95 feet.

All distances being considered more or less.

And to appropriate the sum of \$2,600.00 for the purchase and legal fees for said land, or to take any action in relation thereto.

Article 42. Motion by A. Rogers: withdrew article for School Committee.

Article 43. Motion by T. Fitzpatrick: (temporary classroom space) did not carry.

Article 44. Motion by T. Whalen: Voted to appropriate the sum of \$4,200.00 for the purpose of resurfacing the Tennis Courts at Alumni Field.

Article 45. Motion by T. Whalen: Voted to appropriate the sum of \$4,300.00 for the purpose of leveling and re-surfacing the Skating Rink at Alumni Field.

Article 46. Motion by H. King: Voted to accept the following Cemetery Funds, same to be invested at interest to perpetually care for their lots and surroundings at Glenwood Cemetery.

Barnes, Grace (Wm. Barnes Lot) \$200.00

Brooks, Arthur J.	\$100.00	Merriam, Viola	\$ 25.00

		Wirkanen, Anna	100.00

Article 47. Motion by K. Spratt: (lease of work clothes) De-feated.

Article 48. Withdrawn by Board of Public Works. (Work clothes)

Article 49. Motion by K. Spratt: Voted unanimously to raise the sum of \$440.80 from the tax levy of the current year to pay a Chapter 90 Construction bill of 1966.

Article 50. Motion by J. Tomyl: Voted that the sum of \$12,438.40 be raised from the tax levy of the current year and used to provide two additional employees for the Public Works Department.

Vote by hand count passed.

Article 51. Motion by J. Tomyl: Voted to authorize the present Highway Garage Building Committee, as formed on March 4, 1968 at the Town Meeting, to formulate plans for constructing and originally equipping a new Highway Garage; and to further vote to raise from the tax levy of the current year the sum of three thousand (\$3,000) dollars for the purpose of procuring preliminary plans, test borings and related necessary expenses to be incurred in carrying out this purpose, and that this Committee be given the authority to contract therefor. Progress and recommendations of this committee shall be reported to the Town at further Town Meetings.

Article 52. Motion by J. Tomyl: Voted that the sum of \$1,700.00 be raised from the tax levy of the current year and added to the sum of \$5,700.00 appropriated for the same purpose in 1969 and not used, said sums to be used to purchase a truck of 25,500 Gross Vehicle Weight, and that the Board of Public Works be authorized to trade in a 1957 truck on the transaction.

Article 53. Motion by J. Tobin: Voted that the Board of Public Works be authorized to purchase a new 1970 3/4 Ton pickup truck, and to trade in one 1960 pickup truck, and that the sum of \$2,750.00 be raised from the tax levy of the current year for this purpose.

Article 54. Motion by K. Spratt: Voted that the Board of Public Works be authorized to purchase a new 5 ton 1970 truck chassis-hoist and body and that the sum of \$12,000.00 be raised from the tax levy of the current year for this purpose, and that said Board be authorized to trade in one 1961 dump truck.

Article 55. Withdrawn by Board of Public Works. (Shore Avenue as a Town Way.)

Article 56. Motion by J. Tobin: Voted that the sum of \$10,000.00 be raised from the tax levy of the current year for the purpose of replacing a small water main with an 8" main with fittings and appurtenances on Maple Court about 800 feet.

Article 57. Finance Committee recommends. Motion by J. Tomyl: Voted unanimously to authorize the Board of Public Works to use the sum of \$6,090.13 provided by Chapter 768, Section 4, Acts of 1969, for paving Town Streets as approved by the State Department of Public Works.

Article 58. Motion by M. Barilone: Voted unanimously to authorize the Board of Public Works to lease the property now used off Waltham Street, to continue the present Sanitary Land-fill operation and to raise from the tax levy of the current year the sum of \$6,000.00 for this purpose.

Article 59. Motion by J. Tomyl: Voted that the sum of \$17,000.00 be raised as follows: \$4,250.00 from the tax levy of the current year and \$12,750.00 by borrowing under Chapter 44, Section 6A of the General Laws for Chapter 90 Construction on Summer and Concord Streets, as approved by the State Department of Public Works; the State reimbursement of \$8,500.00 and the County reimbursement of \$4,250.00 be restored, upon their receipt to the Town Treasury.

Vote 187 in favor, 8 opposed. 130 needed.

Article 60. Motion by K. Spratt: Voted unanimously to raise the sum of \$6,000.00 from the tax levy of the current year for maintenance of Chapter 90 roads as approved by the State Department of Public Works, reimbursement of \$2,000.00 by the State, and \$2,000.00 by the County to be restored, upon their receipt, to the Town Treasury.

Article 61. Motion by J. Tomyl: Voted that the sum of \$3,500.00 be raised from the tax levy of the current year and used for the construction of a bituminous concrete sidewalk on Great Road, from Parker Street to Old Mill Road.

Article 62. Finance Committee recommends. Motion by J. Tomyl: Voted to raise from the tax levy of the current year the sum of \$10,000.00 for the purpose of constructing about 1000 ft. of storm drain on Summer Hill Road with necessary Catch Basins and Manholes; and to authorize the Board of Public Works to

secure any easement necessary therefor.

Vote 176 in favor, one opposed.

Article 63. Motion by K. Spratt: Voted that the sum of \$7,500.00 be raised from the tax levy of the current year to be used for paving and surfacing of Town Ways.

Article 64. Motion by J. Tomyl: Voted that the Board of Public Works be authorized to install sewer mains subject to assessments of betterments in accordance with Chapter 340 of the Acts of 1916 and all other Acts in amendment thereof and in addition thereto on Riverview Avenue about 150 feet westerly from an existing manhole, and to raise for such installation the sum of \$5,000.00 from the tax levy of the current year for this purpose.

Article 65. Motion by K. Spratt: Voted to authorize the Board of Public Works to install sewer mains subject to assessment of betterments in accordance with Chapter 340 of the Acts of 1916 and other acts in amendment thereof and in addition thereto on Great Road about 400 feet easterly toward Parker Street from an existing manhole; and that the sum of \$10,000.00 be raised from the tax levy of the current year for this purpose.

Article 66. Motion by M. Barilone: Voted that the sum of \$15,600.00 be taken from Water Surplus funds for the purpose of replacing a small water main with an 8" main on Burns Court, and extending it to Harrison Street with fittings and appurtenances about 1200 feet.

Article 67. Motion by J. Tomyl: Voted that the sum of \$4,800.00 be taken from the Water Surplus funds and the sum of \$400.00 be raised from the tax levy of the current year to be used for the purpose of replacing a small water main with an 8" main with fittings and appurtenances on Fowler Street about 400 feet.

Article 68. Motion by K. Spratt: Voted to authorize the Board of Public Works to purchase a new Booster Pump for the Winter Street station to replace the present obsolete Booster Pump and that the sum of \$4,000.00 be raised from the tax levy of the current year for this purpose.

Article 69. Motion by J. Tomyl: Voted that the sum of \$2,000.00 be raised from the tax levy of the current year for the purpose of installing about 150 feet of 8" A.C. Water Main with fittings and appurtenances on Riverview Avenue from an existing water main, one half the cost of said installation to be assessed upon owners of land abutting upon said street and benefitting by the laying out of the water pipes; said assessments in accordance with sections 42G, 42H and 42I of Chapter 40 of the General Laws.

At 10:55 p.m. John Tobin made the motion to adjourn.

Respectfully submitted,

INGRID A. MARTIN  
Town Clerk

Counters for the two evenings were Christine Molloy, Nettie Watson, Ruthmary Armour, Judith Hill, and assisted on the first evening by Ellen Shaw.

### SPECIAL TOWN MEETING

October 22, 1970

Maynard High School Gymnasium

The Special Town Meeting was called to order at 7:30 p.m. by Moderator Emile L. Genest who declared a quorum present.

Visitors and members of the architect's firm were allowed to enter.

The invocation was given by Rev. Gary Heikkila of the Mission Evangelical Congregational Church.

Article 1. There were no reports from Town Officers or Committees.

Article 2. Motion by Gramolini to appropriate \$2,300,225.60 for a new elementary school was defeated.

Vote: 246 in favor, 252 opposed, with 332 needed to carry.

A two-hour discussion and explanation period preceded the vote. A motion by H. Boeske for a ballot vote was defeated.

Article 3. Withdrawn by J. Gramolini.

Article 4. Motion by E. Troisi: Voted to authorize the Maynard School Committee to purchase equipment, materials and services for the purpose of implementing a hot-lunch program in the elementary and junior high schools.

This expenditure is to be made together with federal funds available to the Maynard School Committee from the Bureau of Nutrition Education and School Food Services of the National School Lunch Program, under Public Law 89-642 of the Child Nutrition Act of 1966; and to further authorize the appropriation and transfer of \$21,338.93 now available in the Public Law 874 Funds Account for such purpose.

Article 5. Motion by T. Fitzpatrick: Voted to transfer \$1,350 from the School Outlay Account to the School Maintenance Account, the said amount to be used for the rental of computer equipment services.

A motion by L. Mullin to reconsider Article 2 did not carry.

Article 6. Motion by J. Dineen: Voted to transfer from Excess and Deficiency Account the sum of \$6,000.00 for Veterans Benefits.

Article 7. Withdrawn by J. Gramolini.

At 10:10 p.m. the Town Meeting adjourned.

Respectfully submitted,

INGRID A. MARTIN  
Town Clerk

## QUESTION NO. 1 - Proposed Amendment to the Constitution

Do you approve of the adoption of an amendment to the constitution summarized below, which was approved by the General Court in a joint session of the two branches held July 15, 1968, received 155 votes in the affirmative and 98 in the negative, and in a joint session of the two branches held May 14, 1969, received 147 votes in the affirmative and 119 in the negative?

## SUMMARY

The proposed amendment to the Constitution authorizes the Legislature to classify real property according to uses, and authorizes the assessment, rating and taxation of real property at different rates in the different classes so established, but proportionately in the same class. The amendment further authorizes the granting of reasonable exemptions and abatements.

## QUESTION NO. 2 - Proposed Amendment to the Constitution

Do you approve of the adoption of an amendment to the constitution summarized below, which was approved by the General Court in a joint session of the two branches held October 9,

1967, received 237 votes in the affirmative and 0 in the negative, and in a joint session of the two branches held May 14, 1969, received 262 votes in the affirmative and 4 in the negative?

#### SUMMARY

The proposed amendment to the Constitution abolishes the requirement that in order to vote in a state election a person must have resided within the Commonwealth one year. If amended, the Constitution would require only that a voter have resided six months in the town or district in which he claims a right to vote.

#### QUESTION NO. 3 - Proposed Amendment to the Constitution

Do you approve of the adoption of an amendment to the constitution summarized below, which was approved by the General Court in a joint session of the two branches held October 9, 1967, received 142 votes in the affirmative and 102 in the negative, and in a joint session of the two branches held May 14, 1969, received 222 votes in the affirmative and 49 in the negative?

#### SUMMARY

The proposed amendment to the Constitution reduces the minimum age for voting in a state election from twenty-one to nineteen.

YES	1704
NO	1121
BLANKS	622

#### QUESTION NO. 4 - Proposed Amendment to the Constitution

Do you approve of the adoption of an amendment to the constitution summarized below, which was approved by the General Court in a joint session of the two branches held July 15, 1968, received 181 votes in the affirmative and 66 in the negative, and in a joint session of the two branches held May 15, 1969, received 208 votes in the affirmative and 54 in the negative?

#### SUMMARY

The proposed amendment to the Constitution amends the existing constitutional provisions which direct the division of the Commonwealth into 240 representative districts and 40 senatorial districts. It provides for a census of the inhabitants of each city and town in the Commonwealth in the year 1971 and in every tenth year thereafter. The census in 1971 is to be the basis for determining the representative and senatorial districts for the ten-year period beginning January 1, 1975. Each subsequent census shall be the basis for determining the districts for each ten-year period beginning the fourth January

following each census, so that the census in 1981 will determine the districts as of January, 1985, etc.

The amendment provides that the house of representatives shall consist of two hundred and forty members and the senate of forty members. In its first regular session following each census, the Legislature shall divide the Commonwealth into two hundred and forty representative districts of contiguous territory and forty senatorial districts also of contiguous territory. Each representative district shall contain, as nearly as may be, an equal number of inhabitants according to the census. Each senatorial district shall also contain as nearly as may be an equal number of inhabitants according to the census. A representative district shall not unite two or more counties, towns, or cities, or parts thereof, or a city and a town, or parts thereof, in one district unless the same is unavoidable. Further, no town of less than six thousand inhabitants shall be divided in forming representative districts. It is also provided that the County of Dukes County and Nantucket County shall each be a representative district, notwithstanding the foregoing. The senatorial districts, each of which shall elect one Senator, shall be formed without uniting two counties or parts of two or more counties, unless the same is unavoidable.

Each representative shall be an inhabitant of the district for which he is chosen at least one year immediately preceding his election, and each senator shall be an inhabitant of the district for which he is chosen at the time of his election and shall have been an inhabitant of the Commonwealth for at least five years immediately preceding his election. Any representative or senator who ceases to be an inhabitant of the Commonwealth shall cease to represent his district.

The amendment also provides that the Legislature (1) may by law limit the time within which judicial procedures may be instituted calling in question any such division and (2) shall prescribe by law the manner of calling and conducting elections for the choice of representatives and of ascertaining their election.

Finally, the amendment annuls the existing constitutional provisions with respect to apportionment of representative and senatorial districts, although those provisions will remain in effect until January 1, 1975.

## LIST OF JURORS

1970 - 1971

Name & Address	Age	Occupation
Donald A. Andersen 5 Maple Court	25	Equipment Operator
Raymond G. Arthur 22 Durant Avenue	31	Field Serv. Engineer
Donald H. Brayden 55 Concord Street	47	Clerk
Mattie H. Brennan 9 Sudbury Street	38	Molder
Richard A. Burati 6 Woodridge Road	31	Job Analyst
James Carpenter 11 Mill Street	52	Construction
Dorothy Collura 6 Concord Street	32	Housewife
Nicholas P. Costanzo 11 Grant Street	44	Utilityman
Robert Domings 89 Powdermill Road	39	Roofer
William A. Duarte 160 Summer Street	44	Process Engineer
Lawrence G. Duquette 6 Guyer Road	32	Chemist
Eileen Forsyth 1 Warren Street	46	Hairdresser
Michael J. Fromm 24 Railroad Street	28	Surface Grinder
Louis Gaviglia 20 Hayes Street	24	Supervisor
Margaret O. Hadden 174 Main Street	47	Nurses Aide
James T. Hanson 8 Ethelyn Circle	33	Engineer

Barbara Hatch 257 Great Road	45	Solder
Timothy F. Hickey 14 Euclid Avenue	53	General Helper
Richard G. Hurd 12 Loring Avenue	45	Security Guard
Stanley B. Jakusik 14 Butler Avenue	48	Laborer
Francis H. Johnston 87 Summer Street	48	Sandwich Maker
Douglas R. Kalloch 174-1/2 Main Street	25	Machinist
Peter A. Kauppi 9 Percival Street	26	Siding
David J. Laasanen 14 Riverside Park	31	Cement Finisher
Patrick Lalli 1 Rockland Avenue	56	Equipment Cleaner
George E. Lappas 8 George Road	34	Engineer
Arne V. Luoma 30 Powdermill Road	47	Investments
Edward T. Manning 10 Maybury Road	26	Letter Carrier
Bonnie Marsh 26 Roosevelt Street	32	Molder
Ronald J. Masulla 18 Hillside Street	24	Group Leader
Evelyn E. Morong 18 North Street	43	Service Advisor
Evelyn J. McFarland 6 Main Street	34	Housewife
David C. Nelson 83 Acton Street	32	Parts Manager
Lawrence Pacy 1D Harriman Court	51	Painter

	57	
James Peddle 81 Powdermill Road	34	Chemical Worker
Eugene E. Phaneuf 214 Summer Street	45	Mechanic
Frank A. Primiano 1 Second Street	58	Chemical Worker
Joseph N. Robillard, Jr. 58 Summerhill Road	32	Carpenter
Reino J. Salo 23 Assabet Street	56	Self-employed Gardener
Benny M. Sofka 14 Elm Court	54	Clerk
Impi M. Sotrines 44 Fairfield Street	59	Machine Operator
Francis X. Sousa 12 Tremont Street	48	Federal Worker
Patricia K. Steele 13 Shore Avenue	27	Secretary
Gladys M. Swett 71 Powdermill Road	47	Housewife
Marion A. Terrasi 40 Glendale Street	56	Housewife
William H. Tobin, Jr. 25 Thompson Street	42	Bowling Alley Manager
Alice C. Trombley 12 Concord Street	43	Clerk
Leslie J. Vieri 19 Parker Street	58	Laundry Worker
John A. Warner, Sr. 29 McKinley Street	26	Tool & Dye Maker
James A. Westcott 176 Summer Street	41	Fork Lift Operator
Myrtle A. Whitney 34 Concord Street	50	Wirer
John P. Wojtkiewicz 3 Pleasant Street	57	Eng. Facilities Co-ord.

## REPORT OF THE FIRE CHIEF

To The Honorable Board of Selectmen:

I hereby submit the report of the Fire Department for the year 1970.

The activities of the Fire Department increased in 1970. The number of alarms responded to, by this department, was 606. This was due in part to the increase in building fires and resuscitator calls. The major cause of all building fires, was again, the failure of persons to observe good Fire Prevention practices.

In 1970 all mercantile establishments, schools, places of assembly were inspected periodically. In the course of these inspections any unsafe conditions or practices were brought to the attention of the person in charge. When conditions warrant a return inspection, it is carried out by the Fire Prevention Officer or the Chief of the Department. In the majority of cases, persons concerned have been very cooperative in following fire department recommendations for remedying unsafe practices.

Our program of "in service inspections" is helpful in two ways. The meaning of "Fire Prevention" is brought to the attention of the public, and the officers and firefighters of the department are able to familiarize themselves with the buildings and types of occupancies in the Town of Maynard.

During Fire Prevention Week the men of the department visited all of the elementary schools. A film was presented entitled "Holding Hands".

The following members of the department are continuing their education by enrolling in Fire Science Courses at Massachusetts Bay Community College. Captain Leonard McKenna, Firefighters Robert Della Russo, Robert Bernard, Theodore Clancy and Ronald Cassidy are enrolled in or have completed their studies in Fire Protection. Captains Richard Higgins and Anthony Arcieri, Firefighters Theodore Clancy and Ronald Cassidy have either completed their studies or are now studying Municipal Fire Administration. Firefighters Paul Cobleigh, Robert Della Russo and Robert Bernard completed a six-week firefighting training course at the Massachusetts Fire Training Academy. The willingness of the members of the department to participate in these educational programs assures us of the type of personnel to meet the needs of a modern fire department.

The Massachusetts Department of Public Health, Division of Environmental Health, have issued regulations for the control of air pollution. Those of special interest to the

## Report of the Fire Chief, continued

Fire Department are open burning and domestic, commercial and industrial incinerators. Briefly the regulations state that after July 1, 1971, there will be no open burning and on or after July 1, 1971, all existing and future incinerators must be of a design and standard operating procedure approved in writing by the Massachusetts Department of Public Health, Division of Environmental Health. Any additional information concerning open burning and incinerators may be obtained by calling 897-2345.

This year the department is again requesting that a new fire alarm control panel and box transmitter be purchased to replace the old system. The old panel and box transmitter have reached the age that there is a constant need to repair and replace parts which due to obsolescence are hard to find.

The need for a fire detection system, in high rise buildings and multiple family dwelling units, connected to the municipal fire alarm system and under the direct control of the fire department also warrants the need for this piece of equipment.

We are continuing our program of preventive maintenance on all apparatus and equipment. Hydrant testing and hose testing are also included in this program.

The bids for the new pumper, authorized at the Town Meeting last year, were received and the contract awarded to Peter Pirsch Company. Delivery of this new pumper is expected late in 1971.

The gift of a M-S-A Mini-X Foamaker and Eductor by Mr. William Baron of Maynard is greatly appreciated by the Fire Department. This type of equipment is needed to successfully extinguish flammable liquid spill fires.

In closing I wish to thank all Town Departments and Town Officials for their able assistance and cooperation during this past year.

GEORGE F. WHALEN  
Fire Chief  
Maynard Fire Department

## REPORT OF THE CHIEF OF POLICE

I hereby submit my annual report as Chief of Police for the year ending December 31, 1970.

The Maynard Police Department has been working to update its communications system without cost to the town. Two new portable radios have been added with the aid of Federal Funds. We have also added a new breath testing device without cost to the town. Maynard was one of nine towns in the state to receive one upon application. We have also added another radar set by applying for Federal Funds appropriated by the government for this purpose. The money appropriated previously by the town for the purchase of a breath testing device will be returned to the town. Total value of the equipment mentioned above is \$4,000.

The police department is on patrol twenty-four hours a day, seven days a week. The constant use of equipment for long periods of time plus the exposure to all types of weather means that it is used in other than normal conditions at various times.

There will be more applications for the replacement of the fifteen year old radio base station and a cruiser radio.

REPORT OF THE  
MAYNARD HISTORICAL COMMISSION

To the Honorable Board of Selectmen:

We herewith submit the Annual Report of the Maynard Historical Commission for the year ending December 31, 1970.

The Maynard Historical Commission was established by vote of the Maynard Town Meeting of March 2, 1970, as provided for by the provisions of the General Laws, Chapter 40, Section 8d, and consists of five commissioners appointed by the Board of Selectmen.

The commission has as its purposes the preservation, promotion, and development of the historical assets of the Town of Maynard. It shall conduct researches for places of historic value and shall seek to co-ordinate the activities of unofficial bodies organized for similar purposes, and may advertise, prepare print and distribute books, maps, charts, plans, and pamphlets which it deems necessary for its work. For the purpose of protecting and preserving such places, it may make recommendations to the Board of Selectmen as it deems necessary, and subject to the approval of the Board of Selectmen, to the Massachusetts Historical Commission, that any such place be certified as an historic landmark.

It is fitting and proper that the Maynard Historical Commission should come into being in the midst of the time we are celebrating the 100th Anniversary of the Incorporation of Maynard as a town. The interest and enthusiasm aroused in the history and historical assets of Maynard by the Maynard Historical Committee, the Maynard Centennial Committee, and the Maynard Historical Society should be perpetuated. This the Maynard Historical Commission can do with the help of all the people of Maynard as it attempts to carry out its purposes under the law.

Respectfully submitted,

RALPH L. SHERIDAN,  
Chairman  
JOSEPH E. BOOTHROYD,  
Secretary  
BIRGER R. KOSKI  
ELIZABETH M. SCHNAIR  
WINNEFRED G. HEARON

REPORT OF THE  
MAYNARD HISTORICAL COMMITTEE

To the Honorable Board of Selectmen:

The Maynard Historical Committee has had another very active year, and can report now fulfillment of the obligation assumed following town meeting on March 5, 1962. At that time the committee was appointed "to compile and publish a complete history of the Town of Maynard, Massachusetts, prior to Maynard's Centennial Anniversary, due in April 1971".

The committee members realized this was an immense challenge; but faced up to it, and now look upon the eight years of research and writing as a privilege enjoyed by them.

This penultimate report is made with the knowledge and the satisfaction that the objective has been achieved, and that the text is in the hands of the printer. The complete book will be available to the general public on February 1, 1971. The committee is most happy to dedicate the book to the citizens of the town of Maynard, and hope it will be read and enjoyed by all.

The Historical Society (an out-growth of the Committee) is taking an active part in the Centennial Celebration and plans are being formed to serve as host on Sunday, April 11, 1971, to the Historical Societies of the surrounding towns. It is open to the public.

Monthly meetings are held at the Town Building from September through May, on the fourth Wednesday at 8:00 p.m. These are open meetings. The Society invites the citizens to become members.

Articles, books and pictures of historical value have been accepted and are acceptable for display at the Society's room in the Town Building. Hundreds of pictures grace the walls of the room, with artifacts on display in glass cases. So, do not dispose of articles of Maynard's history before contacting the Society. The Society is the proper repository for everything that bears on our history.

Respectfully submitted,

RALPH L. SHERIDAN  
BIRGER R. KOSKI

BEVERLEY G. ALLAN

MAYNARD HISTORICAL  
COMMITTEE

## REPORT OF THE MAYNARD CENTENNIAL COMMITTEE

To the Honorable Board of Selectmen:

The following is a progress report of the Maynard Centennial Committee for the year 1970.

Early in the year, February 14, a St. Valentine's Dance was held by the Main Charter Belles with the Centennial Jazz Band "Boiler Room Boys" playing. This was the first affair held for the Centennial. The Cameo Belles and the Country Club Belles were also organized during the year. The Brothers of the Brush and the Posse came into being also. Numerous affairs were held by these groups, including attending celebrations in other communities.

The Revenue Division had silver and bronze medals struck after a contest for the design of the medal, Gerard G. D'Errico being the winner. He will receive silver medal number 2, to be presented at the exercises celebrating the one-hundredth birthday of Maynard, April 19, 1971.

A Parade Committee has been very active in organizing the parade, with Phil W. Bohunicky and Bill C. Parenteau, chairman and assistant chairman respectively.

An Ethnic Cookbook Committee, sponsored for us by the Maynard Women's Club, chaired by Mrs. Shirley Barilone, will be available after the turn of the year sometime.

The following committees have also been organized: Youth Day, Ball, International Day, Six Mile Road Race sponsored for us by the Finnish Knights of Kaleva, Gilbert and Sullivan Operetta to be directed by the directors of the 1929 presentation of same, Grace and Victor Salloway.

A fireworks contract has been signed.

William C. Parenteau was commissioned by the Centennial Committee to author an official "Centennial Concert March". This will have its premiere April 19th.

The Maynard Dramatic Club will put on a play for us in early Spring.

Respectfully submitted,

WILLIAM C. BENNETT,  
Chairman  
BIRGER R. KOSKI,  
Assistant Chairman  
VIRGINIA M. MURPHY,  
Secretary

RALPH L. SHERIDAN,  
Treasurer  
ELIZABETH M. SCHNAIR,  
Historian  
JOSEPH E. BOOTHROYD,  
Alternate

## REPORT OF THE SEALER OF WEIGHTS AND MEASURES

To the Honorable Board of Selectmen:

The annual report of the Sealer of Weights and Measures is submitted herewith.

The following number of scales, weights, metering and measuring devices were checked, adjusted and sealed: Charges for the sealings were collected and turned in to the Town Collector.

11 Scales, 100-5,000 lbs.	\$ 55.00
35 Scales, 10-100 lbs.	70.00
11 Scales, under 10 lbs.	11.00
9 Vehicle Tanks	45.00
55 Gas Pumps	110.00
9 Grease Pumps	18.00
4 Yard Sticks	.40
1 Measurer, rope cordage	1.00
	<u>310.40</u>

I wish to commend the merchants of Maynard for their cooperation and compliance with good merchandising practices.

Respectfully submitted,

CLEMENT B. MURRAY  
Sealer of Weights and  
Measures

## REPORT OF THE BUILDING INSPECTOR

To the Honorable Board of Selectmen:

May I herein submit a report of the activities of the Building Inspection Department for the year 1970.

A total of 99 permits were issued in the following categories:

- 17 Single Residence
- 2 Multi Residence
- 4 Business Buildings
- 61 Residential Remodeling and Additions
- 2 Business Remodeling
- 2 Industrial Remodeling
- 9 Swimming Pools
- 2 Buildings Demolished

May I express my thanks to the various Town Boards and Departments for their continued co-operation.

Respectfully submitted,

FORREST W. NELSON  
Inspector of Building

## REPORT OF THE INSPECTOR OF WIRES

To the Honorable Board of Selectmen:

Herewith is presented the report of the Wire Department for the year ending December 31, 1970.

There were one hundred forty-three (143) permits issued during this period:

15	New Homes
2	Apartment Buildings
3	Swimming Pools
5	Factory Maintenance Work
40	100 Amp Services
<u>78</u>	Electrical Repairs, Miscellaneous
Total	143

The Wire Department wishes to thank the Board of Selectmen, the Fire Department and the Boston Edison Company for their help and co-operation throughout the year.

Respectfully submitted,

BENJAMIN A. BIGUSIAK  
Inspector

VICTOR A. CARUSO  
Assistant Inspector

## REPORT OF THE GAS INSPECTOR

(for partial year)

To the Honorable Board of Selectmen:

For Gas Inspections since 8/3/70	147 regular permits
	11 camper permits

Inspections were made on all installations. The work done was most satisfactory.

Respectfully submitted,

JOHN W. PAANANEN  
Gas Inspector

## REPORT OF THE BOARD OF ASSESSORS

To the Citizens of Maynard:

The Annual Report of the Board of Assessors for the year ending December 31, 1970 is submitted herewith:

In accordance with the provisions of the General Laws of Massachusetts, Chapter 59, Section 29, all owners of taxable property, shall each year, on or before March 1st, submit to the local Assessors a list with the valuation of their taxable property. Notices are posted and forms may be obtained at the Assessors' Office in the Municipal Building.

All requests for abatement or exemption of taxes must be filed on forms which can be obtained at the Assessors' Office. All applications for abatement or exemption of Personal Property Taxes or Real Estate Taxes must be filed on or before October 1st of each year, except for certain Veterans, Widows and Elderly Persons who must file on or before December 15th of each year.

## TOWN ACCOUNTANT'S REPORT

To the Honorable Board of Selectmen:

Herewith is presented the report of the Accounting Department for the year ending December 31, 1970. The report is made in accordance with the requirements of the State System of Accounting.

In accordance with the provisions of Section 61, Chapter 41, of the General Laws, I hereby certify that I have verified the cash balance of the Town Treasurer as of December 31, 1970.

The cash balance on December 31, 1970 was \$570,692.74.

In accordance with the provisions of Section 23, Chapter 59, of the General Laws, as amended, the amount available funds or "free cash", as of December 31, 1970 is \$282,445.00.

The courtesy and cooperation received from the various Town Boards, officials and employees is gratefully appreciated.

Respectfully submitted,

JAMES V. KING  
Town Accountant

## REPORT OF THE BOARD OF RETIREMENT

To the Members of the Maynard Contributory Retirement System:

The Maynard Board of Retirement submits herewith the annual report of the Retirement System.

Eleven (11) new members have been added during the year 1970, one (1) member retired, and one (1) member transferred to another system.

A statement has been mailed to each member giving his or her credit as of December 31, 1970.

JOHN H. MacDONALD  
P. LEONARD WALDRON  
JAMES V. KING

Maynard Retirement Board

DETAILED RECEIPTS AND EXPENDITURES  
FOR THE YEAR ENDING DECEMBER 31, 1970

Receipts

Town Appropriation	\$ 49,500.00	
Member Deposits	35,208.38	
Interest on Investments	15,980.73	
Cash on Hand January 1, 1970	<u>12,604.74</u>	\$113,293.85

Expenditures

Pensions	\$ 66,827.26	
Investments	25,420.00	
Dues	45.00	
Safe Deposit Box Rent	7.00	
Deposits Withdrawn	2,595.64	
Accrued Interest on Investments	313.33	
Cash on Hand December 31, 1970	<u>18,085.62</u>	\$113,293.85

## Report of the Board of Retirement continued

## Balance Sheet, December 31, 1970

Cash	\$ 18,085.62	
Savings Banks	18,500.00

Accrued Interest	3,514.47	
Annuity Saving Fund		\$256,567.60
Annuity Reserve Fund		55,510.00
Pension Fund		46,753.13
Expense Fund		319.35
Military Credit		<u>3,272.25</u>
	<u>\$362,422.33</u>	<u>\$362,422.33</u>

## REPORT OF THE BOARD OF REGISTRARS OF VOTERS

To the Honorable Board of Selectmen:

The Annual Street Listing was begun on January 2 and completed at the end of the month. Dog owners were also checked. For the first time the List of Residents was compiled by a computer and printed alphabetically, also listed residents by streets.

Special sessions for the registration of voters were held prior to the Annual Town Meeting, The Town Election, also before the State Primary and State Election. A total of 141 new voters were added to the voting list. Also six partial ballot applicants. The count at the close of registration on October 3 showed 2,129 Independent voters, 1,682 Democratic voters, and 724 Republicans, for a total of 4,535 registered voters.

The elections and town meetings were held at the Maynard High School Gymnasium this year.

Respectfully submitted,

FREDERICK S. JOHNSON,

Chairman

CLARK HOOPER

MADALINE K. LUKASHUK

INGRID A. MARTIN, Clerk

Board of Registrars of Voters

ASSABET VALLEY REGIONAL VOCATIONAL DISTRICT  
SCHOOL COMMITTEE REPORT

During 1970 this school committee has progressed rapidly toward the ultimate construction of a 1500 pupil vocational technical high school for the youth of this district.

The architectural firm of Alderman and MacNeish completed the working drawings as of November 1, 1970. These drawings have been submitted to the School Building Assistance Bureau and have been approved. These plans have also been made available to general contractors for their perusal and eventual bidding.

The building plans have been carefully prepared by the architect under the constant supervision of the School Committee and the Superintendent-Director Mr. Albert Mlawsky. In order to insure relevancy within the educational scheme of the building, a force of over sixty local craftsmen, businessmen, mechanics, and engineers has acted as consultants to insure that the educational plans would duplicate future business and industrial conditions. We feel that the culmination of the efforts of the architect, superintendent, school committee, and craft committee is reflected in the plans for this efficient structure of today with adequate provisions for occupational needs of tomorrow. Your committee has provided the necessary facilities for vocational education and has taken care to eliminate any so-called "frills". Construction costs will be in a range that the region can afford.

Discussion and debate over the needs and costs of the vocational school have arisen during 1970. We hope that the questions and answers that were presented during the past year have helped to enlighten taxpayers and community leaders.

To summarize some of the main areas of discussion we would like to detail the thinking behind this committee's many decisions. To begin with, not one of the communities in the district could financially afford to offer as comprehensive and diverse a vocational program as the region presently needs. The regional school will have twenty separate shops plus academic rooms. We anticipate offering many individualized vocational programs within these shops.

The committee firmly believes that students desiring a vocational education deserve and need to have a separate facility for educational, social and athletic efforts. Our philosophy is that if a student desires a vocational education he should not be relegated to a second class educational status either socially or academically.

Most communities in the region are attempting to broaden

their tax base by trying to secure new industries. We feel that industries will find the regional vocational technical school a definite asset when they decide where to locate. The school will offer to industry a young work force with adequate training which can move directly into a productive position upon graduation. Prospective industries will recognize that this region has a realistic educational outlook and offers more than one educational option for young people.

This school will be an economic asset to the region and will create a definite improvement in the educational opportunities of each community. At least 20% of the high school aged students in the district will have the opportunity to secure a very relevant education that is presently unavailable.

The committee feels that the cost of this school is minimal when one considers the benefits that both the student and the community will realize. Careful calculations show that by regionalizing, the district can provide educational spaces, or seats, at less cost to the taxpayer than any individual community could provide in its own high school. Once the space is established, the annual cost of educating a regional vocational student becomes less expensive to the community than educating that student in the local high school.

The reader must recognize that regional vocational school districts are subsidized much more than are the local schools. To cite some examples; the gross per pupil cost of the nine operating vocational schools ranges between \$1200 to \$1800 per year. However, federal and state aid reduce the per pupil cost drastically. Chapter 791 provides 50% of the net maintenance costs of a vocational school. The federal government subsidizes the district by paying a part of the salaries of the shop teachers, related subject teachers, and the superintendent. The state reimburses the district for 100% of the usual school transportation costs. Construction costs will be reimbursed by approximately 70% as compared to 45% for local schools.

With all of the above mentioned reimbursements, it should be obvious to the reader that the estimated cost of this school will be reduced if we can finance it in such a way as to take full advantage of reimbursements and eliminate the excessive interest charges usually associated with long term borrowing. With this in mind, the district committee originally proposed a five year financing plan. A regional meeting was held with the selectmen, finance committee members, city councillors, and the Mayor of Marlboro, in October of 1970. During this meeting, the regional school committee presented four methods of financing to these officials. After an analysis of the response, the school committee decided that a ten year plan for financing was the most equitable to all concerned. This particular plan will save the district taxpayers over 3.7 million dollars in interest alone.

In conclusion, this committee knows that the proposed regional vocational school will not only alleviate some of the overcrowding that presently exists in many of the local communities, but it will also serve the educational needs of one fifth of our high school population. These are opportunities that can not be denied to the residents of this region.

Respectfully submitted,

HERBERT L. COBB, Chairman (Southboro)  
PAUL F. HESTER, Vice Chairman (Hudson)  
REINELDE M. POOLE, Secretary (Marlboro)  
DEAN A. GOODWIN (Berlin)  
ROBERT E. KINGSBURY (Maynard)  
CHARLES F. THOMAS (Northboro)  
RUTH L. HARPIN (Westboro)

## REPORT OF THE MAYNARD SCHOOL BUILDING COMMITTEE

The Maynard School Building Committee herewith submits its annual report for the year 1970.

During the year the committee held 37 regular meetings, many special meetings and several joint meetings with other town committees and boards.

The March 1970 town meeting authorized the purchase of five acres plus a right of way to Reo Road at the rear of town owned land off Summer Street, to increase the school site to approximately 14 acres.

Having received an appropriation of \$100,000.00 for planning costs at the November 1969 Special Town Meeting, the committee formulated plans and specifications for a school on the Summer Street site. The plans were completed in September and were advertised for bids. Bids were received at the library of the High School on October 15, 1970.

At the October 1970 Special Town Meeting, the School Building Committee sponsored three articles:

1. To appropriate 2.4 million to construct and equip a school on Summer Street.
2. To purchase a utility easement to Reo Road.
3. To authorize the School Building Committee to negotiate and supervise construction.

The first article was defeated, the other two articles were withdrawn.

During November and December the committee met jointly with the Maynard School Committee to formulate an amended proposal for the March 1971 Town Meeting.

Respectfully submitted,

Maynard School Building Committee

Robert Sullivan, Acting Chairman  
Walter Dolan, Acting Recording  
Secretary

Mrs. Frank Sale, Corresponding  
Secretary

Mrs. Helen Hatch, Treasurer  
Worsley Fardy

Richard Flaherty

Donald Gunn

Robert McCabe

Walter Justice, Ex-Officio

Albert Lerer, Ex-Officio

## REPORT OF THE LIBRARY TRUSTEES

The Board of Trustees of the Maynard Public Library herewith submits its annual report for the year.

At the annual town election in March, Mr. George Lemire was re-elected to a three-year term as a library trustee. Mr. Joseph Boothroyd was newly elected to fill the remaining year of the term left vacant by the decease of Mr. R. Frank Punch. At the reorganizational meeting in March, Mr. Lemire was voted Chairman of the Board, Mrs. Doris Fardy voted to remain as Secretary of the Board, and Mr. Boothroyd thus became Third Member.

This has been a year in which the Board of Trustees has met with Head Librarian Mrs. Edith Carbone very frequently, putting in unusually long hours for the purpose of providing more and better services for our constituents. Effort is being made to bring into conformity the many more services offered in the modern library.

Along with the changes in world relationships, so have the patterns for school and library development evolved to meet the demands of the changing scene. As a sound basis for consideration of our library growth the trustees and library staff are always on the alert to recognize and evaluate today's trends so as to fit our library of tomorrow to the changing needs brought about by social evolution. Since the library is the community's information center, the trustees and library staff attempt to incorporate new developments in information media into its program.

Evidence of local change can be found in startling figures stated in the report of the Library Trustees in 1962 which quoted from the paper sealed into the cornerstone of the (then, new) Maynard Municipal Building: "On this day, Sunday, July 29, 1962, the new Maynard Public Library is being dedicated. The new building contains 10,000 books and shelving for 12,000 books..."

At present there are over 17,000 books in the Maynard Public Library and drastic need for more shelving!

Concentrated time and effort have been spent in long study with Library Consultant Jack W. Bryant to provide further expansion of the library, thereby completing full utilization of both the existing first floor and lower floor levels for library purposes. For the purpose of the library's future needs, the consultant assumed a projected town population of over 11,000 persons by 1980 and recommended a total open-shelf book capacity of 35,000 volumes and a total seating capacity of 60 chairs (table seating) for optimum public use. (Presently, 40 chair seating is available.)

## Report of the Library Trustees continued

Weekly meetings of the Board are being used for further study into library expansion planning.

A Community Affairs Workshop is successfully in operation which gives students of Maynard High School working with Mr. Golec, Social Science Teacher, an opportunity to work part-time in the library for periods of 9 weeks. Two or three students are in the project at a time.

As part of the West Metropolitan Sub Regional District and in conjunction with Wellesley Free Library, Maynard exchanges free borrowing privileges.

The Story Hour is a basic part of the library program, now being directed by Mrs. David O'Brien. Children are most enthusiastic about this special feature each week.

As a student and community benefit Olivetti copier, coin-operated machine has been installed. On trial, it has been loaned on a no-charge, no-contract basis. If it is well received by the public (thus far, it has been a success) permanent plans will be made for it to remain.

Policy regarding the closing of the library for town and special meetings, Christmas, etc., has been made, as follows:

Regular Town Meeting - On the first night of a regular Town Meeting it was unanimously voted that the Maynard Public Library should close at 7:00 P.M. (thereby allowing library employees opportunity to attend).

Town Meeting Continuation Dates and Special Town Meetings - Library will remain open, operating on a skeleton crew from 7:00 - 8:30 P.M. Head Librarian will arrange schedule to give all librarians a fair chance.

Christmas Party for Town Building Employees - Library will close at 7:00 P.M.

Inclement Weather - Unanimous vote of Trustees to leave closing to the discretion of Head Librarian, Edith Carbone, who in turn, would notify Chairman of the Board and other Trustees of her decision.

Individual and organizational donations and contributions have been most generous. Especially thoughtful is the gift of a flag which will be donated by the Veterans of Foreign Wars in the immediate future.

Volunteer services have been rewarding. Young people who are giving of their time and assistance are Cheryl Egan, Adrian Santangelo, Sally Boothroyd and Helen Merrill.

## Report of the Library Trustees continued

Dedicated librarians, Mrs. Olive Alatalo and Mrs. Shirley Parks completed a course in Reference Materials and Information Services at Burlington Campus, Northeastern.

After the first of the year a program for fourth grade children will be given. Instruction in proper use of the library will be given under the direction of Mrs. Alatalo.

With the increasing complexities of national and international life along with the great expansion in methods of communication, libraries have been forced into a crucial place in today's life. They are the information contact points for their communities. Those responsible for the library's development -- the staff, the trustees, and the community itself -- face many decisions in the process of fostering growth suited to the specific needs of the community.

Since the library makes available to all who wish to learn, it is of prime importance to the community. Each day brings changes in methods of communication that open the doors to wider fields of knowledge. In meeting the tremendous responsibility for the library's development, the trustees have an unlimited opportunity for public service and are making every effort to meet such an obligation.

To our dedicated Librarian, to her diligent staff, to the generous volunteer workers and to the many thoughtful, kind benefactors who have donated money and books, we express our heartiest thanks and appreciation. Through the continuing interest and cooperation of library friends, Maynard townspeople can feel justly proud that they are supporting one of the greatest agencies for education and posterity.

GEORGE J. LEMIRE, Chairman  
DORIS G. FARDY, Secretary  
JOSEPH E. BOOTHROYD

## ANNUAL REPORT OF THE LIBRARIAN

It seems such a short time since we were compiling statistics and evaluating the year 1969. Yet, another year has passed, and here we are again, compiling statistics and evaluating services of 1970. Circulation for homereading increased by 13% in 1970 over 1969.

Use of reference service shows a constant increase. The copying machine has proved a boon to many people wishing a page or pages copied from reference books which cannot be loaned, also personal papers.

The Eastern Regional Library System Bookmobile stops in Maynard once a month, which enables us to have a wider variety of titles in adults and childrens books. We have a good collection of large print books for the use of those with tired eyes.

Story Hours for pre-schoolers are held every Wednesday morning for ten months. Reading clubs for two age groups were held during the summer months.

Maynard Campfire Girls and Bluebirds made many interesting Christmas decorations for us and the Girl Scouts kept us supplied with name tags each month for the Story Hour children.

During the summer months we again enjoyed flowers from the garden of Mr. Milton Whitney.

The following have donated new books or magazines:

Mr. and Mrs. Olavi Alatalo	Mrs. Victor Tomyl
Mr. and Mrs. Albert Alexanian	Mrs. Dorothy Marsden
Mr. and Mrs. Walter Carbone	Mrs. John Dorenbaum
Mr. and Mrs. Donald MacGlashing	Mrs. Hazel Morrison
Mr. and Mrs. Clarence Peterson	Mrs. Frank Amante
Mr. and Mrs. Garret Pillivant	Mrs. Gilda C. Mullins
Misses Margaret and Mildred Duggan	Mr. Barry Jaffe
Mrs. Sidney Cohen	Mr. Howard E. Boeske, Jr.
Mr. Burton Gruber	Steam Bath Crew
Mrs. Alric French	M.H.S. Class of 1930
Mrs. George Bradley	Digital Equipment Corp.
Mr. and Mrs. Matthew Fouratt	Friends of Nicholas Barilone, Jr.
Mrs. Orville Tucker	N.E. Dairy and Food Council
Lutheran Church	Christian Science Church
Veterans of Foreign Wars	American Legion

Books have been given in memory of Mr. Howard L. King, Jr., Mr. Albert Hodgess, Mr. Nicholas Barilone, Jr., Mr. Joseph Zwadski, Mr. Sidney Cohen, Steven B. Alexanian, Mr. Gabriel Perillo, Mr. Paul Kivikoski, Sr., Mr. Edward Cuddy, Mr. D.

## Report of the Librarian continued

Mack Moore, Mrs. Mary Katherine Sawler, Mrs. Kathryn White, Mrs. Margaret Crowe, Miss Salme Jokela, Mrs. Fernande Smith and Mrs. Mary Tobin.

REPORT OF  
THE PUBLIC WORKS COMMISSIONERS

To the Citizens of Maynard:

Herewith is presented the Report of the Board of Public Works for the year ending December 31, 1970.

The resurfacing program carried on with Bond issue money from the State came to a halt in 1969 but was resumed again during the year 1970. We resurfaced Prospect Street, Railroad Street and Lincoln Street. We hope to continue with this program during the Summer of 1971.

Water consumption is going higher and higher and White Pond is at a dangerous low level. With all the rain we have had this past Fall the Pond has not once seen an increase in the water level.

We have hired the services of a water leak finding expert and up to this time he has located several leaks throughout the system. It is both his and our contention that by far the greatest loss is through our badly leaking reservoir.

We cannot empty the reservoir to make the necessary repairs, because in the event of a fire of any consequence we would have severe pressure drops and no reserve supply of water. The only remedy for this is the erection of a new steel storage tank adjacent to the present reservoir. Even if the present reservoir was not leaking it isn't big enough for our ever increasing need.

The Water Resources Commission has approved our final plans for additions and improvements to the sewer plant and as soon as the money is released construction will begin.

The rerouting of the sewers in the Concord, Summer and Brooks Street area is a must. Approximately 90% of our sewage now flows down Powder Mill Road, and this line is sorely overloaded. With the infiltration during rainy spells, the Elks Home, Powder Mill Restaurant and many homes have serious sewage backups. The small pump at the Powder Mill Station needs to be replaced with a larger pump.

The Sanitary Landfill area is filling up more quickly than anticipated because of the no burning edict. In the near future either an incinerator or a contract to have our rubbish hauled out of Town will be a must. Both will be expensive.

The Tree Department is kept more than busy removing Dutch Elm ridden trees, trimming branches and spraying poison ivy. This year we have seen a big increase in the loss of our

## Report of the Public Works Commissioners continued

Maple trees. As there are only two men in the Tree Department, they cannot possibly cope with the amount of work that is to be done. We still have a Tree Planting Program and hope to continue it for many years to come.

At the request of the Finance Committee, the Board of Public Works agreed to withdraw several Articles from the Warrant for the Annual Town Meeting until the financial crisis eases somewhat.

We had planned to continue with the drainage system on the Great Road side of Summer Hill Road at a cost of \$15,000.00 but will put it off until a later date.

1. We have withdrawn an Article for improvements to the Old Marlboro Road lift station, and a new sewer main on Hayes Street and Douglas Avenue at a cost of \$150,000.00.
2. A drainage study of the Summer Street - Randall Road - Mayfield Street Area \$4,500.00.
3. A new water main from Waltham Street to Mayberry Road at a cost of \$14,000.00.
4. A water main from Old Mill Road through an easement on the H. H. Scott property to Powder Mill Road \$190,000.00.
5. Replacement of small water mains on Harrison Street and Butler Avenue \$44,800.00.

Many lesser Articles have also been withdrawn. The Public Works Commissioners with the blessings of the Finance Committee have also agreed to raise the water rates from \$0.35 per 100 cubic feet, to \$0.45 per 100 cubic feet, with no declining rate. Also under serious consideration is a sewer usage charge. These changes are to help pay for water and sewer construction, rather than to add them to our property tax.

We have on the Warrant several costly Articles that are a must. These include a new 3,000,000 gallon water storage tank which we sorely need, replacement of the 10" cast iron water main on Summer Street, which is constantly breaking, and rerouting of the sewer in the Summer Street, Concord Street areas.

These items are musts and cannot be put off. On the rerouting of the sewer mains there could be some Federal and State aid.

Respectfully submitted,

MICHAEL BARILONE, Chairman  
JOHN J. TOBIN, Secretary  
JOHN F. TOMYL

REPORT OF THE  
SUPERINTENDENT OF PUBLIC WORKS

To the Commissioners of Public Works:

It is with deep regret that I should start my report by mentioning the tragic death of Joseph Zawadski, accidentally killed while performing his duties with the Highway Department. Joe was a fine young man and an able worker. He is sorely missed by all of us.

Herewith is submitted the Annual Report of the Superintendent of Public Works for the year ending December 31, 1970, which includes Highway, Water, Sewer, Cemetery, Parks, Trees, Insect Pest Control, Parking Areas and Sanitary Landfill.

HIGHWAY DIVISION

Streets treated with Asphalt Oil:

"B" Street	Little Road	Riverbank Road
North Street	Assabet Street	Beacon Street
Old Marlboro Road	Grant Street	Euclid Avenue
Turner Road	Third Street	Forest Street
Maybury Road	Second Street	Old Mill Road-
Summer Hill Road	Mill Street to Brook	Great Rd. end

Streets resurfaced with Type I Bituminous Mix:

Lincoln Street	Prospect Street	Railroad Street
----------------	-----------------	-----------------

11 catch basins raised - 11 sewer manhole covers raised

Acton Street - 14 structures raised	11 manhole covers raised
Haynes Street - 6 structures raised	1 manhole cover raised
Brown Street - 3 structures raised	7 manhole covers raised

Culverts:

Culvert and pipe replaced on Euclid Avenue  
Pipe and runoff erected on Waltham Street

Header Stakes - placed at usual locations

Traffic, Street Signs and Parking Meters:

New meters placed on Nason Street  
11 meters erected on Main Street  
15 meters damaged and replaced opp. Buscemi's Market on  
Main Street

25 new traffic signs	20 replaced.
----------------------	--------------

Report of the Superintendent of Public Works continued

## CHAPTER 90 MAINTENANCE

23 catch basins raised - 19 sewer manhole covers raised on Acton, Haynes and Brown Streets for resurfacing. 1-1/2" bituminous from Police Station to Brown Street.

### SIDEWALKS

Type I applied to sidewalks adjacent to Methodist Church, at Walnut Street and Nason Street.

### SNOW REMOVAL

Streets sanded where needed. Snow picked up in the down town areas and narrow streets. Churches and funeral parlors cleared of snow as needed. Sidewalks plowed and sanded. 90 barrels placed throughout town on hills and dangerous intersections.

### STREET SWEEPING & WALKS

Swept down town 3 times weekly. All streets swept and other sweeping done for oiling or when dusty conditions arose. Walks were also swept.

### RUBBISH

Rubbish was picked up weekly at municipal buildings and schools.

### MAINTENANCE

Grass was cut along shoulders of road and debris picked up along main roads as needed.

### DRAINS & BROOKS

450 catch basins cleaned. Basin locations painted for winter. Brooks cleaned out where needed.

### CEMETERY DIVISION

Grave Openings	68
Foundations	10
Liners Installed	26
Markers Set	28 plus 5 G.I.
Sunken Graves Filled	10

With the burning ban now in effect leaves have become a major problem, therefore the purchase of an industrial vacuum cleaner would be the most sensible solution.

As usual vandals broke into the Cemetery Building and made off with a few small hand tools, such as rakes, shovels, paint brushes, etc.

## Report of the Superintendent of Public Works continued

A cement block catch basin was installed in the old Cemetery to take care of a badly eroded sidebank. The two fieldstone piers to the gate in the Cemetery have been completely rebuilt. The building in the Cemetery has now been painted and presents a fine appearance.

The grass and shrubs were mowed and cut on a regular schedule throughout the summer months. All roads have been graded and holes filled with gravel.

## DUMP - SANITARY LANDFILL

The life of our Sanitary Landfill area is being shortened even more quickly than we previously anticipated.

Now that the State has banned all burning, brush and leaves are piling up at an unbelievable rate. One State Department says that all Dutch Elm must be burned and another department says absolutely no burning.

The day is not very far away when we will have to go into Regional incineration. I say Regional because to go it alone would be a much bigger expense than the Town could bear.

## TREE DIVISION

## TREES, PARKS AND INSECT PEST CONTROL

John A. Crowe Park was regularly mowed and the baseball diamond was kept in good condition.

## Report of the Superintendent of Public Works continued

Public shade trees were trimmed. Elm tree samples were taken for Dutch Elm disease, and diseased trees and dead or dying Elm trees were removed.

We have seen a big increase in our loss of Maple trees.

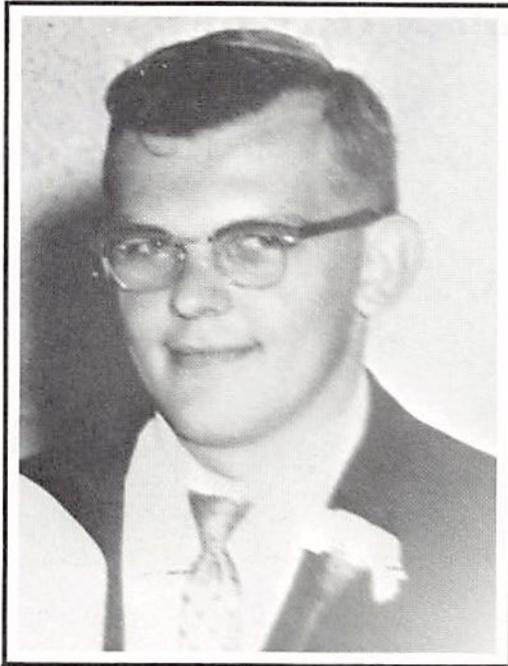

Poison ivy was sprayed for eradication and spot spraying was done where needed for insect pests.

Memorial Park was mowed regularly. There is still much vandalism in this area with damage done to the Honor Rolls and trees.

In conclusion I wish to thank the Commissioners, Public Works Employees and all others for their cooperation and help.

Respectfully submitted,

KEVIN T. SPRATT  
Superintendent

JOSEPH J. ZAWADZKI  
May 30, 1942 - February 2, 1970

## REPORT OF THE HIGHWAY GARAGE COMMITTEE

The need of a new Highway Garage is of vital importance to the Town of Maynard. Not only is the present structure dilapidated and inadequate, it is also a risky place for both the men and the equipment.

Being much too small the vehicles are angled in and interlocked, making it an impossibility to get them out in the event of a fire.

Many times during the winter months, the temperatures inside the building hover around the freezing mark, making very bad conditions for the mechanics.

The Highway Garage Committee met eight times during the year 1970 and interviewed three different architects. The Committee decided unanimously to hire Irving Salsberg & Associates of Brookline, Mass., to prepare preliminary plans. Kevin Spratt, Superintendent of Public Works and Mr. Denis Doyle of the architectural firm studied both the Winter Street station and the present Highway Garage sites and reported to the Committee.

The Building Committee decided that the best location would be at the present location.

Respectfully submitted,

JOHN PIANTEDOSI,  
Recording Secretary

## REPORT OF THE PERSONNEL BOARD

The Personnel Board convened twenty (20) official times during the year of 1970. By "official" times is meant that a legal quorum was present to transact such business that may legally come before the board. Numerous meetings of a research and fact finding nature, in behalf of the board, were conducted by members of the board during the year.

On September 3, 1970 Mr. Joseph Falco submitted his resignation to the board for personal reasons and it was accepted with regret. Mr. Falco, an officer on the police force of the town, was the Town employees' representative on the Personnel Board--his services will be sorely missed.

Mr. George Lehto of the Department of Public Works was duly elected by the Town employees and accepted by the Personnel Board to fill the position left vacant upon the resignation of Mr. Falco.

This year the Personnel Board has striven to re-evaluate each job description and the individuals employed under its jurisdiction as specified in the By-Laws of the Town. It now feels it has achieved a major portion of its goal and the way has been paved to carry the plan through to fruition in the coming year.

This year, as in years past, citizens of the Town have been contacted and asked to serve on the Personnel Board, but most all have been reluctant to accept nomination or appointment. One vacancy, to complete an unexpired term, does still exist and every effort is being made to fill the position to insure that both the best interest of the employees of the Town and the citizens of the Town are upheld.

The Personnel Board wishes, at this time, to express their sincere appreciation to the Honorable Board of Selectmen for their co-operation with, and interest in, the profound and complex problems that have presented themselves to the Personnel Board in the past year. This rapport between these two boards has been long sought and is now much appreciated. The Personnel Board firmly believes such a relationship will do much to promote harmony and an efficiency in Town government which will result in an improved economic complexion for the Town.

Respectfully submitted,

MELDON E. NIEMI, Chairman  
DONALD G. HENRICH, Secretary  
GEORGE M. LEHTO,  
Employees' Representative  
JAMES F. STAPLES

REPORT OF THE  
INSURANCE COMMITTEE

In 1970 the Town Insurance Committee met eleven times to solve Maynard's insurance problems.

Due to wage increases, Workmen's Compensation and Liability policies have increased.

During 1970 the committee made inspections of all town buildings.

Mr. Al Hodges, Agent of Record, met with us several times during the year.

Cooperation of James King, Al Hodges, and various town boards was greatly appreciated.

R. TOMPKINS, Chairman  
RAY DIONNE  
J. E. DUGGAN  
WESLEY HIRONS  
JOHN PIANTEDOSI

## REPORT OF THE BOARD OF APPEALS

Pauline Wade -- to operate antique business at 93 Acton Street	granted
Mr. Richard Littick -- to build addition at 83 Brook Street	granted
Costa Realty Trust -- to build a house on Lot A on Parker Street	denied
Mrs. Rose Davis -- for a building permit on lots 22-23 at Walker Street	granted
Alba Lattuca -- permit for part-time real estate business at 55 Powder Mill Road	denied
Uno Heitanen -- for part-time real estate business at 19 Concord Street	denied
Russell Lattuca -- for an addition to house on Bates Avenue	granted
Celia LaValley -- for a variance on lot size on O'Moore Avenue	granted
Marie-Luise Figge to operate a handcraft gift shop at 243 Main Street	granted
Wayne Allen -- for addition to home at 10 Colbert Avenue	granted
John & Elvie Starr -- to conduct a ceramic studio at 2 Riverview Avenue	granted
Matti Tervo -- for part-time radio and television repair at 100 Acton Street	granted
Carlo Vacca -- for an addition to home at 51 Butler Avenue	granted
Patrick Flood -- for an addition at 23A Lincoln Street	denied
Paul Green -- to use existing garage for laboratory at 253 Great Road	granted
Wilfred DeRosa -- for a porch at 40 Great Road	granted
Mobil Oil Corporation -- for access and appurtenant uses at Great Road and Main Street intersection	granted
Alba Lattuca -- for apartment house at 188 Dartmouth Street	granted

## Report of the Board of Appeals continued

Joseph Vincent -- to conduct lawn mower repair at 47 Brown Street	granted
Alphonse Micciche -- for an addition to home at 22 Maple Street	granted
Hermina DiGeronimo -- for renewal at 120 Waltham Street	granted
Mrs. Hans Wattu -- for beauty shop at 5 Hird Street	granted
Channell Builders -- to remove loam at Great Road	denied
Richard White -- to lift restriction at 4 Ban- croft Street	granted
Anna Martin -- for a variance on sides of house	granted
Josephine Dodge -- for apartment complex approval at Waltham Street	granted
Overbrook Realty -- for final inspection and approval on Waltham Street	granted
American Legion -- for addition to home on Summer Street	pending

## REPORT OF THE BOARD OF HEALTH

To the Citizens of Maynard:

The Board of Health herewith submits its report for the fiscal year ending December 31, 1970.

At the first meeting on March 10, 1970, the Board organized as follows: Mr. John Johnston as Chairman, Mr. Irving H. Manning as Secretary, and Mr. Henry F. Regan as the third member. It was voted to hold meetings on the second and fourth Tuesdays of the month as in previous years.

The following appointments were made:

Public Health Nurse	Stella M. Nowick, R.N.
Assistant Public Health Nurse	Mary White, R.N.
Clerk	Doris McGarry
Agent	Joseph Falco
Milk & Food Inspector	Robert W. Rimbach, R.S.
Disposer of Animals	Walter Sokolowski
Inspector of Plumbing	Warren E. Bemis

During the year the following licenses and permits were issued:

25	Food Service Permits
35	Store Milk Licenses
10	Vehicle Milk Licenses
11	Retail Food Permits
2	Ice Cream Licenses
2	Mobile Food Permits

## RUBELLA CLINICS

We were informed by the State Department of Public Health that Rubella (German Measles) vaccine was available for Boards of Health to hold public clinics for children aged 5 & 6. We immediately took advantage of this and on February 21 innoculated 80 children. Later on in the year we applied for vaccine for all pre-school children and on October 31 we held another clinic at which 145 children were vaccinated. Both of these clinics were under the direction of Dr. John Rowse, assisted by Mrs. Stella Nowick, R.N., and Mrs. Mary White, R.N. Volunteers from the Maynard Women's Club who helped with the registration were: Mrs. Shirley Parks, Mrs. Priscilla Wonburg, Mrs. Marilyn Fedele, Mrs. Mary Forster, Mrs. Shirley Barilone, Mrs. Irene Newman, Mrs. Elizabeth Hicks, Mrs. Alice Larkin, Mrs. Edith Carbone, and Mrs. Ruth Manning.

### RABIES CLINIC

For many years this Board has encouraged rabies inoculations by holding an annual Rabies Clinic. However, it is now a State law that all dog owners have their dogs vaccinated every two years. This year the Clinic was held at the Town Garage on Saturday, May 30, under the direction of Dr. Vance Carlson. Three hundred and ten dogs were vaccinated.

### PLUMBING PERMITS

As of August 1, 1970, all plumbing permits are issued by the clerk in the Board of Health office between the hours of 1 and 5 P.M. The Board appointed Mr. John Paananen as Assistant Plumbing Inspector and this was approved by the Director of Civil Service.

### ST. BRIDGET'S SCHOOL

The health program at St. Bridget's School is progressing under the direction of the Public Health Nurses. In March the pupils in Grade 1 were given tine tests for tuberculosis. In October, diphtheria tetanus booster shots were given to Grade 5. During October and November all students were given hearing and vision tests. Failures were reported to the parents and followed up by the Nurse. Rubella (German Measles) vaccine was given to Grades 1, 5 and 6 in November. Physicals are being given to Grade 4.

At this time we would like to express our appreciation to all Town Officials and Boards for their cooperation.

Respectfully submitted,

JOHN J. JOHNSTON, Chairman  
IRVING H. MANNING, Secretary  
HENRY F. REGAN

### EMERSON HOSPITAL HOME CARE SERVICES ANNUAL REPORT - MAYNARD 1970

The Emerson Hospital Home Care Program is available to all residents of Maynard. The goal of the Home Care Program is prevention of disease and promotion of health administered under the three broad categories of: Communicable Disease Control, Maternal and Child Health Care and Adult Health Guidance.

This service promotes an organized plan of follow-up care for hospital patients and for those outside the hospital who need skilled nursing care, physical therapy and medical social work services as prescribed by their physician.

The public health nurse is concerned with people as patients and family members, and with how they adapt to their environment. When the public health nurse visits a family she is able to include the entire family as part of health supervision. The initial visit of the nurse to the home usually involves an assessment of the health status of all family members. On succeeding visits the discussion is centered on the illness, the care being received, and the changes involved in planning the pattern of care. The age group of members such as the children may present a spectrum of health measures which could be introduced in the form of anticipatory guidance.

Many of the visits the public health nurse makes are involved in the care of the elderly. The problems of increasing disability due to the aging process include physical, mental and emotional changes. Authorities believe the aged should live in their own homes and maintain independence as long as possible. The public health nurse has the opportunity to promote a safe and comfortable environment, to provide physical care, and evaluate the other needs of this age group. These needs and anxieties may include such areas as support and encouragement at the loss of a partner, assistance and reassurance in arranging economic matters and use of leisure time.

The Home Care Coordinator working in the hospital has continued as a positive force in providing organized home care for the patient. There has been a slow, steady increase in the number of referrals. Case conferences have been initiated with the Coordinator, the Hospital Nurse and the Public Health Nurse caring for the patient.

The Concord Family Service Association and the Emerson Hospital Home Care Program have continued their plans in initiating a Homemaker Home Health Aide Program. The Homemaker Home Health Aide will give personal care and provide related housekeeping services for the patient in the home. The first training class of aides will begin in early 1971.

The above services are available to all residents of Maynard and are supported by town taxes under the Board of Health, third party payees such as Medicare, Medicaid, private insurance programs and individual fees. Due to continued restrictions in Medicare and Medicaid some patients are no longer eligible for financial coverage under these programs.

The Home Care Program attempts to provide a pattern of care that is accessible and acceptable to meet an established need in the community. Home Care may not be the solution to all problems for all patients, but for selected patients it may shorten hospital stay, prevent frequent readmission to the hospital or forego the need for nursing home care. For further information regarding the Emerson Home Care Program please call 369-1400 Ext. 344 or the Maynard Board of Health 897-2957.

## REPORT OF THE SANITARIAN

I again have the honor to submit the annual report of the sanitarian. Routine inspections were made of all food and milk establishments, with bacterial swabs being taken at those establishments serving food or drink. Milk samples were taken at random and examined for conformance of State Standards. Complaints received in regard to quality of product were investigated with appropriate action being taken where necessary.

Many requests are received during the year on various subjects. I endeavor to include in my annual report information pertaining to that subject which I have had the most requests. This year there has been many questions asked regarding the consumption of raw shellfish.

Raw oysters, clams and mussels produced or handled under unsanitary conditions may cause typhoid fever and other intestinal diseases. They become infected from the water in which they are grown or during the process of handling, shucking, packing or shipping. The menace of contaminated shellfish is increasing with the increased pollution of coastal waters, particularly of the bays and estuaries in which the oyster beds are located. As the oyster requires only a moderately saline water, the oyster-producing areas are necessarily near the mouths of rivers.

A healthy oyster under optimum conditions pumps as much as 4 liters of water an hour. From the water it extracts its food and from the water possibly typhoid, dysentery and other pathogenic organisms may also be accumulated, either in its alimentary canal or in the shell liquor. If polluted oysters are placed in clean water, the passage of water through them cleans them.

The most important factor in the production of safe shellfish is the control of sanitary conditions in the growing and bedding areas. All shellfish offered for sale in this state must be obtained from certified shippers and approved beds. Each container of shucked shellfish and shell stock must contain a tag indicating name - address of the shipper, the state of origin, certificate number of the shipper and the date of shucking or dredging. The law requires that the tags must be kept on file for a period of 60 days so that the item can be traced in the event of an outbreak of food poisoning.

While consumption of raw shellfish is far more dangerous from the standpoint of disease, cooking does not always make contaminated shellfish safe. Oyster stews, for example, are sometimes made by bringing milk to a boil, pouring in the cold oysters and serving immediately. This is not effective in killing disease organisms. The most satisfactory method is to boil the oysters in their own juice separately, heat the milk separately and then combine.

I am constantly checking the origin of shellfish sold within the town along with the conditions in which it is handled at the retail outlet. My recommendation to the general public would be to purchase shellfish only from a reliable dealer who will certify that his product was obtained from approved sources. Any information regarding the selling of shellfish from non-approved shippers should be given to myself or the State Health Department.

Respectfully submitted,

ROBERT W. RIMBACH, R.S.  
Sanitarian

REPORT OF THE DISPOSER OF ANIMALS

Town of Maynard  
Board of Health  
Maynard, Massachusetts

Gentlemen:

I hereby submit my report as Disposer of Animals for the Town of Maynard for the year 1970.

This year, 1970, I disposed of 34 dogs and 18 cats in the Maynard Sanitary Landfill Area.

Respectfully submitted,

WALTER SOKOLOWSKI  
Disposer of Animals

REPORT OF THE  
INSPECTOR OF PLUMBING

To the Board of Health:

133 plumbing permits were issued during the year of 1970.

Inspections have been made as called for on roughing and finish of all completed work.

On the whole the workman have been most co-operative.

I would like to thank Mrs. McGarry for keeping the records and issuing the permits. I also want to thank the Board for their co-operation.

Respectfully submitted,

WARREN E. BEMIS  
Plumbing Inspector

MOSQUITO CONTROL IN MAYNARD IN 1970

The East Middlesex Mosquito Control Project completed its second full year program in Maynard in 1970. There was little change from the schedule of the preceeding year. A slight decrease in fogging was balanced by an increase in helicopter spraying against adult mosquitoes. There was also an increase in drainage work. The office received 12 mosquito complaints in 1970 as compared to 18 in 1969.

The program commenced in January when many swamp areas were dusted by hand with Methoxychlor to prevent the Spring Brood of mosquito larvae. In April and May the swamps not previously dusted were sprayed with Abate by hand or by helicopter if mosquito larvae were present. Throughout the remainder of the season Abate was the principal larvicide. Catchbasins were sprayed twice with Baytex by the motorcycle spray units.

When adult mosquitoes were abundant the Project fogged at night with trucks applying 1% Dibrom in fuel oil. Other areas were sprayed by helicopter in early morning applying Malathion ultra-low-volume aerosol at 3 oz. per acre. Insecticides and application methods are those which have been approved by both State and Federal regulatory authorities.

Drainage work was begun at the brook crossing Rockland Rd.

## Mosquito Control Report continued

## FINANCIAL STATEMENT

Balance on December 31, 1969		\$2,591.21
Appropriation for 1970 received in August		5,300.00
Expenditures in 1970:		
Labor	1,087.43	
Adm. & Office	699.92	
Insurance	312.68	
Utilities	79.73	
Rent & Taxes	188.28	
Equipment & Field Oper.	391.50	
Insecticides	510.17	
Aircraft Services	452.50	
Other Services	17.51	
Vehicle Replacement	63.75	
Sub total	3,083.47	
Credits	73.87	
TOTAL	3,729.60	
Balance on December 31, 1970		\$4,161.61

The East Middlesex Mosquito Control Commission has requested an appropriation of \$5,500.00 to finance the program from April 1, 1971 to March 31, 1972. The increase is to cover wage raises granted last May.

Respectfully,

R. L. ARMSTRONG  
Superintendent

MENTAL HEALTH ASSOCIATION  
OF CENTRAL MIDDLESEX

Among the services made available to the residents of Maynard through the co-operation of the Board of Health are those of the Concord Area Comprehensive Mental Health Center which is supported, in part, by a modest contribution from our town budget. Adults, teenagers and children who are experiencing difficulty in functioning in their day-to-day lives because of emotional problems have a variety of types of professional help offered to them through the Center and its component agencies. Outpatient care through individual, family and group therapy, as well as a nursery school for emotionally disturbed children and a day care center for adults and teenagers are available through the Walden Guidance Association, as is consultation service to the schools. For those who are experiencing a life crisis of such dimension that short-term care in a therapeutic environment is required, in-patient services are available through the psychiatric unit of Emerson Hospital.

Educational and supporting functions are carried out through the efforts of the Mental Health Association of Central Middlesex which offers: speakers on Mental Health to local groups; seminars for clergy, teachers, and lay people; volunteer opportunities for those who would like to help; and a variety of other programs which emphasize the outreach of the Center into the communities.

During the past year, more than twenty-five Maynard families sought help from the Center, of whom some went directly while others were referred by the schools, clergy, physicians, or others. It is anticipated that, as community awareness of the Center and its services increases, the number of families getting help will increase significantly.

THE REV. DAVID WEISSBARD

## REPORT OF THE PLANNING BOARD

To the Board of Selectmen:

The year 1970 has been a busy one for the Planning Board.

BUILDING ACTIVITY

The total number of Private Dwellings completed has fallen off in Maynard as it has throughout the state. One apartment building has been completed.

SUBDIVISION CONTROL

One new subdivision has been submitted in the past year. This was off Summer Street in the Summer Hill Area, called Middlesex Overlook.

MAYNARD SCHOOL BUILDING COMMITTEE

The Planning Board met with some members of the School Building Committee to discuss their project off Summer Street.

HEARINGS

Hearings were held on updating the Rules and Regulations, and to update our Zoning By-Laws and to add to them some new protection for the townspeople. There were hearings on High Rise apartments, Garden Type Apartments and Industrial Planning, also on rezoning land off Route #27 from single residence to general residence and off of Acton Street.

RECOMMENDATIONS

The Planning Board has recommended some changes in the Zoning By-Laws, and to add new Zoning laws to the Town's present laws to tighten controls and protect the people of Maynard.

These changes will appear on the Warrant for the Annual Town Meeting.

SUMMARY

The Board met with Thomas Associates and with Subregion Intertown Liaison Committee to study new ways of getting information that might benefit the town in some way. The Board has continued its policy of working closely with other Town Boards as it has in the past.

## Report of the Planning Board continued

We would like to express our thanks to the Board of Selectmen, the Board of Public Works, the Building Inspector, the Fire Chief, the Police Chief, and the Finance Committee, as well as the Townspeople who have attended our hearings, and in some instances our meetings for their interest and cooperation in the past year.

Respectfully submitted,

JAMES F. COLEMAN, Chairman  
THOMAS V. SCHULER, Secretary  
JAMES T. HANSON  
HELEN E. HATCH  
ROBERT W. LARKIN

## REPORT OF THE CIVIL DEFENSE AGENCY

The following is a report of the Civil Defense Agency for the period ending December 31, 1970.

The Maynard Civil Defense Agency has continued to be active in spite of diminishing war time disaster, however, there is always danger from natural disaster. We have continued to keep up to date with all phases of Civil protection.

There is a continuing need of more help in Civil Defense and we would welcome all who wish to be of assistance to the Town of Maynard in Civil Defense.

We would like to express our thanks to the Selectmen, the Police Department and Fire Department and all Town of Maynard officials for their fine co-operation during the year of 1970.

DONALD A. MacGLASHING  
Director  
Civil Defense Agency

## REPORT OF THE CONSERVATION COMMISSION

To the Honorable Board of Selectmen:

In accordance with Chapter I, Section 5, of the By-Laws of the Town of Maynard, Mass., the Maynard Conservation Commission hereby submits its annual report for 1970:

The Maynard Conservation Commission held regular meetings throughout 1970. While no major project was accomplished, the Commission displayed extreme concern for the preservation of conservation principles. Its members experienced self-direction and ideas as a result of Conservation publications and the attendance at various area council meetings sponsored by local and state groups.

Areas of concern and action were as follows:

1. Encouraging the elimination of outdoor burning and practices of indiscriminate dumping toward aiding the elimination of air, land and water pollution.
2. Encouraging the protection of flood plain areas and recharge land where drinking water supplies are presently located.
3. The planting of conifer seedlings on town owned land off Reo Road and Amory Avenue as a means of re-forestation and an eye toward developing these properties for recreational use.
4. Questioning all noticeable irregularities along the banks of the Assabet River as an aid toward protecting our portion of this natural resource and its flood plain areas.
5. Enlisting our talents and the talents of others toward the development of an up-dated land use Master Plan for the Town of Maynard.
6. Communicating with other town-appointed committees, encouraging concern for sound judgements and practices which would aid Maynard's development socially, economically and physically.

The members of this commission would like to extend their services to organizations wishing a speaker on principles and activities relating to the conservation of our natural resources.

Respectfully submitted,

HARRY CHAPPELL, Chairman  
WALTER CARBONE  
FRANK HILL  
GORDON JOHNSON  
ELLEN SHAW

Maynard Conservation  
Commission

## REPORT OF THE RECREATION COMMISSION

This report is submitted December 31, 1970 for the Annual Town Meeting.

MAYNARD RECREATION SWIMMING PROGRAM  
July 6 thru July 31, 1970

Participants:

Classes	Total	Passed
Beginners	64	49
Advanced Beginners	48	44
Intermediates	23	16
Swimmers	16	12
Junior Life Savers	15	9
Senior Life Savers	<u>7</u>	<u>6</u>
	175	136

Program Summary:

We experienced another successful year in the swimming program. Once the children were settled on the correct busses all ran very well. The weather seemed to be pretty much on our side and the children attended classes regularly and seemed quite eager to learn.

The swimming staff did a fine job. We are grateful to three youngsters who volunteered their services to be Water Safety Aids.

The Recreation Commission wish to extend our greatest appreciation to Stephanie Gramolini, the Swimming Program Director, for the many thoughtful deeds while performing her duties as Program Director. I am sure the people of Maynard will be proud to have such a person as Stephanie, experienced, dedicated to a good cause, for the safety of our children.

ANTHONY A. RIOUX  
Acting Chairman  
The Recreation Commission

PROGRAM SUMMARY FOR  
THE SUMMER RECREATION PROGRAM  
July 6 thru August 1970

This being our third year of Summer Recreation for the children of Maynard, again may we say it's been a very good turn out. The children seem to respond more, and the interest seems to grow more each year.

## Report of the Recreation Commission continued

This year we again repeated the field trip to Whalom Park which we now have incorporated into our program.

We have also had a great success with movie day. This year the St. Bridget's Hall was donated to us free of charge by the Fathers, who were so grateful too. The Roosevelt, Coolidge and Green Meadow Schools were used for our programs. We want to give our special thanks to the custodians of these schools for their wonderful cooperation they gave us and to the children.

In closing we especially want to thank all the people who were involved in making this program a success. Without their help and cooperation this program would not have been a success. Thank you all. A special thanks and again a job well done.

As you all know when we obtained the services of a director for the summer program we had to find a man not only to supervise all personnel, or just to set up schedules, but to go way beyond that and that is to give the Town of Maynard something to be proud of, a summer program for the children, which I'm sure you will all agree with the Commission, we did not make a mistake when we picked for our Director Mr. Joe Kulevich. We certainly hope he will be with us a long time. Thank you, Joe.

ANTHONY A. RIOUX  
Acting Chairman  
The Recreation Commission

## REPORT OF THE FINANCE COMMITTEE

The Finance Committee held 36 meetings during 1970. In addition to the regularly scheduled meetings, members of the Committee were assigned to meet periodically with other Boards and Departments to establish long range expenditures.

Paul Foley, Robert Gilligan and Richard Grigas were re-appointed by Emile Genest, Town Moderator. The Committee voted Mark Waldron to serve as Chairman and Mrs. Eleanor Hunter to serve as recording secretary. The Finance Committee then filled a vacancy by electing Mrs. Maureen Chambers.

Jerry Clifford resigned in April, and the Committee elected Eino Nelson to fill the vacancy. Mrs. Chambers resigned in August and the Committee elected Richard Roggeveen to her chair. On November 4, 1970, Mrs. Eleanor Hunter resigned and the Committee elected Mrs. Alice Pillivant to fill the vacancy and further elected her as recording secretary.

During 1970, transfers from the Reserve Fund totaled \$19,705.53. The tabulation is shown on the following page.

Respectfully submitted,

MARK WALDRON, Chairman,  
1972

ROBERT BILLUPS, 1971

PAUL FOLEY, 1973

ROBERT GILLIGAN, 1973

RICHARD GRIGAS, 1973

WALTER JUSTICE, 1972

EINO NELSON, 1972

MRS. ALICE PILLIVANT, 1971

RICHARD ROGGEVEEN, 1971

# SCHOOL REPORT

This cover for the Annual Report of the School Committee for the year 1970 was designed by Eileen Smart, a student in the Art Class at Maynard High School.

The following students in the Art Classes at Maynard High School also submitted very fine drawings and are to be commended for their efforts:

Cathy Corcoran)  
Pamela Herrick)  
Pamela Creedon  
Robin Hansen  
Richard Leach  
Lise LeBlanc  
Linda Peterson

ANNUAL REPORT  
of the  
SCHOOL COMMITTEE

TOWN OF MAYNARD  
Massachusetts

# On Military Leave from May 1967 - June 1970

## REPORT OF THE MAYNARD SCHOOL COMMITTEE

To the Citizens of Maynard:

We herewith submit the annual report of the School Committee for the year ending December 31, 1970.

During the past year, the School Committee has held regular weekly meetings on Thursday evenings and extra meetings whenever necessary for such purposes as budget preparation, discussions with the Finance Committee, joint meetings with the School Building Committee and with the Board of Selectmen, negotiations with the Maynard Teachers' Association and other pertinent school matters.

Due to resignations, retirements, the creation of new positions and the filling of vacancies, the Committee reports the following personnel changes:

## PERSONNEL CHANGES

1970 - 1971 School Year

Leaves of Absence

Maynard High School  
Kenneth Troisi - Military

Retirements

Director of Physical Education  
Richard T. Lawson

## REPAIRS, REPLACEMENTS AND MAINTENANCE

Necessary repairs and replacements have been made as usual this year. Below is a list of the major projects that were completed in order to maintain the building facilities and educational equipment in good condition.

## MAYNARD HIGH SCHOOL

Replaced three duplicators, sixteen typewriters, one calculator and four adding machines.

Replaced snow blower, washing machine, and floor machine (buffer).

Repaired boiler door.

Installed new oil thermostat.

Repaired boiler door refractory.

Repaired band room sliding doors.

Repaired folding curtains in cafeteria.

Repaired drainage spillways.

Repaired dish washer in cafeteria.

Repaired folding doors in gym.

Repaired roof drains.

## ALUMNI FIELD

Repaired flag pole.

Replaced thirty-seven bleacher planks and two guard rails.

Scraped and painted bleachers.

Replaced and painted announcing platform.

Replaced two tennis nets.

Replaced drinking fountain at tennis courts.

Extended track straight-a-way.

Hot topped skating rink.

## Repairs, Replacements and Maintenance continued

## EMERSON JUNIOR HIGH SCHOOL

Replaced two bulletin boards, two four-drawer files, one office table, three teachers' desks, three desk chairs, one book case, one trampoline bed.

New light receptacles in three rooms.

New wall receptacle, basement.

Repaired Junior High roof.

Painted one stairway and one classroom.

Repaired steps to boiler room.

Replaced window shades, Rooms 13, 15, teachers' dining room and two stairwells.

## MEMORIAL GYMNASIUM

Repaired roof.

Repaired folding door.

Re-covered gym mats.

Renewed flashing and sealed roof edges of gym.

Replaced two boiler chamber walls.

Painted Womens' Physical Education Office.

## FOWLER SCHOOL

Repaired Fire Alarm System.

Installed water cooler on second floor.

Replaced two sink cabinets in Home Economics Room.

## COOLIDGE SCHOOL

Replaced two light fixtures.

Repaired Fire Alarm System.

Major repairs to two chimneys.

Replaced seven window shades.

## Repairs, Replacements and Maintenance continued

Repaired fence.

Painted basketball backboards and posts.

Repaired broken windows and fire escape.

Improved playground lighting with additional flood lights.

Replaced movie projector and record player.

## GREEN MEADOW

Wire glass substituted in double door sections into classroom corridor, also to All Purpose Room corridor (State Inspector's directive)

Repaired heating system to All Purpose Room.

Replaced 4' fluorescent lights under canopy.

Repaired under floor leaks in heating pipes.

Repaired expansion tank leaks & circulating pumps.

## ROOSEVELT SCHOOL

Painted three classrooms.

Replaced shades in two rooms.

Replaced two steel water tubes in boiler.

Repaired classroom ceiling.

Repaired broken windows and screens.

Repaired boiler door refractory.

Replaced one table, three chairs and one teacher's desk.

In addition to the usual minor repairs and replacements throughout the school system, repair services for business machines, clocks, heater controls, oil burners and audio-visual equipment were also contracted.

## SCHOOL FACILITIES NEEDED - NOW!

The Maynard Public Schools are in desperate need of additional classroom space. This need has been expressed for the past five years by the School Committee in its Annual Reports to the citizens of Maynard as well as in other forms of public expression. The Committee commissioned the Center for Field Studies of the Harvard Graduate School of Education to conduct a survey of facility needs, initiated the establishment of a School Needs Committee, and submitted its needs and proposals for their resolution to the Elementary School Building Committee. The Committee has attempted to bring to the attention of the citizenry the urgency of the situation without causing a state of panic or alarm in order that timely action might be taken to relieve the overcrowding that it saw existing and which it could see worsening in the foreseeable future.

The response to these attempts of the School Committee has not thus far been sufficient to resolve the difficulties which are already upon us. The Committee is dismayed by the lack of support which has been shown by a majority of the voting citizens of the community in the attempt to provide adequate school facilities for the children of Maynard. School building proposals have been voted down at two separate Town Meetings. At the Annual Town Meeting last March the citizens voted not only to cut the School Budget requested by the School Committee but also voted against an article to provide temporary classroom space on an interim basis.

The School Committee finds it difficult to reconcile the wishes of the people on the one hand, who in ever increasing numbers are demanding more and improved school services for their children, and the action of the same people on the other hand who refuse to vote for adequate funding to make these services possible.

The time for discussion is past. Now is the time for positive action. Both the elementary and the junior high schools of Maynard are operating beyond their capacity in terms of classroom space and required pupil services. We are faced with the need to establish kindergarten classes in the immediate future. The State Board of Education has made it mandatory that classes be established for emotionally disturbed and perceptually handicapped students. This mandate exists at present. A recent act of the Legislature requires the establishment of a hot lunch program in every school in the Commonwealth. The simple fact is that we do not have the school space required to implement these programs, let alone alleviate our present overcrowding.

The School Committee therefore urges in the strongest way it can that all voting citizens of Maynard support it if it is

to fulfill its obligations and provide a school program that is better than mediocre for the children of Maynard.

#### CONCLUSION

In closing, the School Committee wishes to express its appreciation for the dedicated efforts of the Superintendent, the Administrative Assistant to the Superintendent, the principals, teachers, secretarial staff, cafeteria workers and custodians in faithfully carrying out their assigned tasks and responsibilities. The School Committee also wishes to thank all Town Boards and Committees for the interest they have shown in the schools of Maynard.

Respectfully submitted,

EDWARD J. TROISI,  
Chairman  
THOMAS F. FITZPATRICK,  
Secretary  
RICHARD J. FLAHERTY  
GEORGE S. MEAD

## REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Committee and Citizens of Maynard:

I herewith submit the Annual Report of the Maynard Public Schools for the year 1970.

The responsibility of providing the best possible education to all Maynard children on completely equitable terms and of keeping their education responsive to traditions and to change is the foremost task of each worthy citizen of the town. The schools today are asked to do many things beyond the basic academic preparation of the normal school attending child. The all-encompassing field of public education is becoming more far-reaching and complex year by year. As enrollments continue to increase and diversified interests have to be served, the effort of your schools to meet the challenge is a tremendous one.

One of the unavoidable drawbacks to our expanding efforts is the cost to all taxpayers. Responsible, well-informed citizens will know that an expanding education program must reflect increase in cost of supplies, equipment, new facilities and maintenance. The increase in professional and non-professional salaries alone has resulted in a considerable increase in the budget over the past three years. Most all communities throughout the Commonwealth are faced with the same problem of increasing costs of education with its monumental impact on the property owner. Other means of financing must be found through resources more available to the State government than the community itself. Above all, we should attempt, by every means possible, to maintain the high quality of education presently existing and needed by our children if they are to successfully answer the challenges of life which they must face.

## ENROLLMENT TRENDS

Maynard is continuing to show an increasing enrollment in its schools. The total enrollment as of October 1, 1970 was approximately twenty-one hundred pupils registered in grades one through twelve. This represents an increase of one hundred twelve pupils over the previous year and compounds the problem of overcrowding in our present classroom facilities. The evident need for space at both the Elementary and Junior High School levels is very pronounced. These enrollment increases plus the mandating of kindergartens and other Special Class provisions by the State Department as of September 1973 make it imperative that we find additional space as soon as possible in which to operate our public schools efficiently.

## COLLECTIVE BARGAINING NEGOTIATIONS

According to the provisions of Chapter 763 of the General Laws, the School Committee is presently negotiating with the

## Report of the Superintendent of Schools continued

Teachers and Administrators as required. Matters pertaining to salaries and other conditions of employment and responsibility are the areas under discussion.

It is hoped that concrete agreements can be reached prior to the Annual Town Meeting so that provision can be made to implement the areas upon which agreement has been reached.

### SCHOOL LUNCH PROGRAM

This year, the General Court of Massachusetts enacted legislation (Chapter 871), mandating all public schools on "one session day" to make lunches available by September 1972; and all schools by September 1973. Since all the public schools in Maynard are operating on a one-session day, the implications of this statute are quite clear to us. By September of 1972, the School Committee must have a school lunch program operating in each of the public schools of Maynard.

To implement this requirement, we have entered into an agreement with the Concord Public Schools whereby a new concept of feeding school children will be established. The agreement provides for the preparation of pre-packaged school lunches by Concord in a newly converted central kitchen which is staffed and equipped to mass-produce these lunches in full compliance with the regulations of the Bureau of Nutrition Education and School Food Services of the State Department of Education. The lunches will then be transported to Maynard by refrigerated truck and stored in refrigerators in each of the schools being served by the program. Shortly prior to the actual serving of the lunches to the pupils, the lunches will be heated in convection ovens, which will be located in each school.

Maynard High School will continue to operate its own lunch program with its own staff and self-contained kitchen. The new cooperative lunch program with Concord (the first such program in the State) will provide lunches for the pupils of the Junior High School and all the elementary schools of Maynard.

It is expected that by the time this report is read, the program will already be in operation.

### EDUCATIONAL PROGRAM

The following excerpts, summaries and reports will accent the details of day to day educational programs in the schools of Maynard.

The reports of the Adult Education Director and the High and Junior High School Principals are again included in their entirety so that a better understanding of their programs and objectives may be presented for your information.

## HEALTH AND ATTENDANCE

The objectives of the School Nurse are essentially the same at all levels: a healthy, achieving, active student body.

The tetanus-diphtheria booster is given to students in grades five and ten as recommended by the State Department of Health.

The Tine test for tuberculosis screening is given to pupils in grades one and nine as required. There were no positive reactions in the school system.

The mumps vaccine was offered to the students in grades seven, eight and nine who neither had had the disease nor the vaccine.

The pupils in the first three primary grades were offered the rubella vaccine for German Measles.

Physical exams are given to students in grades four, seven and eleven. High School students who participate in athletic activities on an interscholastic basis also have physical exams.

Annually, all students are given a vision and audiometric test. If a student fails either test, the parents are notified in writing by the School Nurse. The physician's findings are recorded on the permanent health record and the orders are coordinated and carried out in the school program.

First aid is administered in accident cases with the parent being immediately notified. It is the responsibility of the parents to take their own child to the doctor or hospital if necessary.

The Salvation Army requested the names of students who might benefit from a summer camping experience at their summer camp in Sharon, Massachusetts. Six students were recommended and all attended the camp.

The School Nurse makes visits to the homes of pupils when deemed necessary.

In this present school year, it is hoped that we can immunize the entire elementary student body against rubella, providing the vaccine is available.

Conferences and in-service meetings are being held on various subjects within the realm of school concerns, and are proving to be very enlightening and valuable.

The Attendance Officer reported that there were eleven cases of truancy and one case of school offending reported to him.

These cases were investigated and necessary action taken.

## PHYSICAL EDUCATION

High School

The Physical Education Program at the high school level has been expanded over the past year to include activities such as soccer, wrestling, and an extensive weight training program for those who elect it. The Intramural Program has also been expanded to include volleyball and softball.

Major emphasis during the winter months is placed on gymnastics for both boys and girls. Gymnastic events include for boys: Tumbling, Parallel Bars, Flying Rings, Still Rings, Vaulting and Trampoline. For girls: Balance Beam, Uneven Parallel Bars, Traveling Rings, Tumbling, Vaulting, and Trampoline. The highlight of the gymnastic unit is the Annual Gym Show.

A diversified interscholastic athletic program is offered boys and girls at Maynard High School. All teams compete in the Midland League. The program consists of:

Fall Sports

Football -- 3 teams	Varsity, J.V., Freshmen	105 Boys
Field Hockey -- 2 teams	Varsity, J.V.	30 Girls
Cross Country -- 1 team	Varsity	15 Boys

Winter Sports

Boys' Basketball -- 3 teams	Varsity, J.V., Freshmen	45 Boys
Girls' Basketball -- 2 teams	Varsity, J.V.	30 Girls

Spring Sports

Baseball -- 2 teams	Varsity, J.V.	36 Boys
Track -- 2 teams	Varsity, J.V.	60 Boys
Golf -- 1 team	Varsity	12 Boys
Tennis -- 1 team	Varsity	10 Boys
Girls' Softball -- 1 team	Varsity	20 Girls

Attempts are now being made to expand our winter program to further meet the needs of our students at Maynard High School.

Junior High School

The junior high school program places emphasis on developing a degree of physical fitness in the students that will enable them to perform their daily activities efficiently. The basic skills necessary for team sports such as basketball, volleyball, hockey, soccer, softball and baseball are taught. Weight-training and

calisthenics meet specific needs of the boys, while the girls are developing gracefulness and poise through a unit on movement through music. A major portion of the program is centered on gymnastics and the development of skills on the various pieces of apparatus. Especially popular with the students is work on the trampoline. Opportunities for sportsmanship and leadership occur in the daily program and are emphasized in intramural activities and the Physical Education Promoters Club. Through an active intramural program in girls' and boys' basketball, boys' and girls' volleyball and co-ed bowling, the program is re-emphasized and the objectives of maximum participation and activity realized. Students are tested in the President's Council Physical Fitness Program and awards given to those who perform well. The annual Gymnastics Show in March highlights various aspects of the program.

### Elementary

This year the Physical Education Program at the elementary level was extended to include grades one and two. The program is divided into two phases, indoor and outdoor. The outdoor program is centered largely on team games such as football, baseball, softball, soccer, kickball and basketball.

During the winter months the program will be indoors, where students engage in many different phases of physical education activities such as individual and team games, quiet and active games, folk dancing, square dancing, rhythmic activities, basic tumbling techniques, and beginning gymnastics.

All students are tested in the President's Council of Physical Fitness Program and awards are given to those who pass the standards established by the President's Council.

## GUIDANCE

### High School

The function of the guidance program is to assist students in developing intellectual, social, and vocational competencies and to utilize these traits to their utmost potential. In order to accomplish these aims, it is our purpose to help the individual student to identify and understand his abilities, aptitudes, interests and attitudes.

Emphasis is placed in the area of individual counseling, dissemination of educational and vocational information, college placement, vocational placement, testing, and program scheduling.

A variety of tests are used to measure intelligence, aptitude, interests and ability. Tests administered in grades seven through twelve during the year include the Otis Test of Mental Ability, the Stanford-Binet Test of Intelligence, and the Wechsler Tests of Intelligence. Tests also available on a voluntary basis were: The

Preliminary Scholastic Aptitude Test, the National Merit Scholarship Qualifying Test, the National Educational Development Test, and the Kuder Interest Inventory.

The college viewdeck selector has been used more extensively than ever in searching out schools with specific major studies.

The guidance library has been updated by means of new reference books, along with the latest college and vocational school catalogs and bulletins.

In addition to the materials in the library, we are presently using a teletypewriter computer terminal. This is being used to assist students in acquiring the latest information about vocational-technical schools, colleges, occupational information, scholarships, and financial aid programs.

The first regional career-admissions night was held in October at the high school. There were more than forty admissions representatives from agencies, colleges, trade-vocational schools, nursing schools and the armed services on hand to disseminate information to students and parents. Although the program was a success, it is our hope that more parents will take advantage of this program as it is a cooperative venture to be utilized by both parents and students.

Approximately fifty per cent of the graduating class of 1970 has gone on to further their education at institutions of higher learning. Ten per cent of the class has entered the armed forces. The remaining members of the class have entered the business and industrial complexes of our community.

The implementation of the quality point evaluative system, which is used to determine a student's class rank, has been initiated this year and has been very successful.

### Junior High School

The guidance program in the Junior High School is a many sided program including such major areas as counseling, educational and vocational information, orientation procedures, and testing. The purpose of this program is to implement the socio-educational objectives of the Junior High.

The core of the guidance program is counseling. It is in the counseling situation that the student becomes more aware of his interests, his difficulties and his goals. This awareness aids the student in attaining these socio-educational goals.

In the orientation phase of the guidance program, the counselor visits the sixth grade classes to discuss the programs offered at the Junior High. Later in the Spring the sixth grade classes visit the Junior High to become acquainted with the faculty and with the physical aspects of the school. The coun-

selor also visits the eighth grade classes to explain the courses offered at the High School. Later the counselor meets with each eighth grade student to discuss the program which best suits the student's interests and goals.

Educational and vocational information is disseminated to the students to make them aware of the many opportunities available to them and to aid them in choosing the courses they need to attain their educational and vocational goals.

### ELEMENTARY EDUCATION

Research indicates that attitudes on the part of educators directly affect students. A child's concept of himself as a learner is very dependent on the attitudes that his teacher displays. There is strong evidence that his achievement is affected by the way his learning attempts are regarded. Therefore, the child looks for clues that he is on the right track -- that he is understood, accepted, respected and trusted. Our aim this year is to place stress on attitudinal behavior:

1. To encourage questioning, exploring and exchanging of views.
2. To utilize individual interests and talents.
3. To use the experiences, skills, and purposes of children to set goals.

Never before in the history of our country has the need for well informed citizens been so great. One only has to pick up a newspaper and read of the many divisions facing our country to realize that. The schools must play a major part in developing knowledgeable citizens. The foundation must be laid early in the child's life. It is at school and at home that the virtues and values of good citizenship are developed.

Education is everybody's business. It is only when the whole community works together at common goals that we can achieve the maximum benefit of an educational program. Parents and educators must continue to appraise pupils, trying to answer these questions: What do I really know of this child? What are his abilities? Destiny? What will be his accomplishments for man and society? How can we as parents and educators help lead him to a happier and more constructive life? We must solve all these problems and prepare pupils for full lives and their place in society. The community must provide all the resources available to prepare them for living. It must prepare them for democracy if our way of life is to survive.

In the early phases of elementary education more time is spent in the areas of reading and arithmetic than in any other subjects. We are fortunate in having up-to-date textbooks and supplies to implement our program. In the past five years all

books in all subjects have been re-evaluated. Last year a committee was set up to re-evaluate the Language series and the selection of an up-to-date series, also a supplementary series in Science and Social Studies. Next year we should plan to start the process all over again, so that our text books can be re-evaluated every five years.

In an attempt to keep pace with the changes referred to above, the teachers have attended and participated in meetings and workshops dealing with such fields as Reading, Mathematics, Science, Social Studies and Language.

The work of the classroom teacher in certain areas is supplemented by other members of the School Department personnel. The children of all grades now receive one hour of formal Physical Education and one-half hour each of Art and Music. The children of Maynard are indeed fortunate in being able to have available a full-time teacher in Speech and Hearing, and two full-time teachers in classes for the Perceptually Handicapped. We have up-dated our class for the Educables and have expanded the program both in and out of the classroom.

During the past few years, one has seen a tremendous growth and consolidation of our Instructional and Audio-Visual aid center. More and more of our staff are taking advantage of the useful teaching aids that are available.

The physical well-being of the students is checked and recorded by our school nurses, who visit the buildings daily. In addition to seeing students who return from prolonged illnesses, checking student absences, and visiting with children who request their services, the nurses administer vision and hearing tests to all students. Booster and Immunization Shots were administered under their direction to those students requiring them and having written approval. Whenever it is felt necessary, the nurses refer problems to the homes so that proper evaluation can be made by family physicians.

During the year mental ability, achievement, and reading readiness tests were administered. These teaching tools are used in helping us understand the strengths and weaknesses of the pupils and program.

This year we observed the fiftieth annual observance of American Education Week, with the theme "Shape Schools for the 70's". Open House was held the week of October twenty-fifth. We were happy to welcome many parents during this week and were very fortunate in having an almost perfect attendance of our parents for our Parent-Teacher conferences. The schools are aware of the keen interest of our parents and stand eager to help them help us in educating their children.

Trips provide immediate experience and are the most concrete of all teaching techniques. Bus excursions were made to

the Children's Museum, the Museum of Science, the Worcester Museum, Bunker Hill, The Freedom Trail, Rockport Museum, The London Wax Museum, Anderson Museum, Stoneham Zoo, the Town Library, Police Station, Fire Station and to several other worthwhile places. The children were given the opportunity to view stimulating exhibits and listen to lecture demonstrations. These tours encompassed both the natural and physical sciences, and some emphasized participation by our pupils.

This year various programs were presented to the parents. They included, among others, a Christmas program, Christmas concert, Memorial Day program, Spring Concert, and Flag Day Program.

All elementary schools went on a single session at the start of the 1970-1971 school year. The children brought their lunches to school from home. The single session school day enabled us to eliminate noon-time bussing of pupils, to lengthen the school day and to allow the children to be dismissed earlier in the afternoon. Plans are now being formulated to implement a hot-lunch program at all elementary schools as soon as the necessary arrangements can be made.

## SPECIAL SERVICES

### Remedial Reading

The principal objective of the Remedial Program in the Maynard Schools continues to be the identification and remediation of children who are not attaining their full reading potential in the regular classroom, and are not able to use reading skills efficiently as tools for learning.

In order not to overlook any pupil who might profit from intensive small group remedial instruction, all possible sources of identification are consulted. The major source of referrals, especially in the elementary grades, is the classroom teachers who have had daily opportunity to witness learning difficulties among their pupils. A further source of identification of possible candidates for remedial instruction has been the achievement tests administered the previous spring. Parents occasionally request remedial help for their children and pupils themselves may request it. All such requests are welcomed and given full consideration. Pertinent records and initial daily adjustment of recent transfers into the system are also considered.

Cumulative records of all pupils thus identified are carefully studied for evidence of capacity for improvement, for special problems requiring cooperative planning with other special teachers, and sometimes for evidence that a child really performs at an acceptable level, but tests poorly. Also identified and scheduled for remediation occasionally, are pupils who scored close to grade level, but have the intellectual capacity to achieve at a much higher level. Where necessary, individual

intelligence tests are administered to determine basic capacity, and to identify special learning difficulties.

The remedial teacher then makes an individual analysis using informal reading and word recognition inventories, and written diagnostic tests. Using all available data, instructional groups are formed at the level at which each student is capable of working successfully and according to his individual needs and difficulties.

All of these students receive instruction twice a week for varying lengths of time. Systematic instruction is provided in phonics, word analysis and comprehension skills. Attention is given to auditory and visual discrimination, particularly to the children in the primary grades where those skills seem less well developed. During the instructional periods a wide variety of materials is employed. Many types of activities are utilized during a reading period. Much planning by the remedial teacher is involved, as lessons vary from period to period, and from school to school. She endeavors to make each session one in which the child meets success and enjoyment, utilizing any successful method or material.

Small groups vary in size and may include pupils from several grade levels. A few students work with more than one group. Students classified as "non-readers" receive some individual tutoring. Two Spanish speaking students are being given help in reading, writing and speaking English as a second language.

Continuous diagnosis throughout the year, with resultant upgrading of material level helps maintain student interest and motivates them to further effort. The success of this special reading instruction is the extent to which the students apply the skills learned, to their work in the classroom and to their everyday experiences. Of far greater significance is the attitudes which can be instilled in the child.

The problems of the students whose retardation results from a perceptual deficit presents the greatest challenge for the remedial teacher. Group meetings within the expanded remedial department are being held this fall for the purpose of coordinating the most promising techniques and materials for a cooperative program of remediation for each pupil with a learning disability.

There are, at the present time, thirty second grade children receiving remedial help, and sixteen more who were not selected for various reasons, in the elementary schools. While it is a well known fact that the earlier help is given to a child with a reading disability, the sooner correction can be made, it seems that this number of children would warrant the consideration of a transition class. Some of these children are not ready for the second grade. The placement of these children, and those who

are repeating the first grade in transition classes, would be beneficial to them and provide for their educational needs in a more progressive and profitable way.

The present space facilities in the Maynard Elementary Schools for the operation of any of our special services is extremely limited. During the current school year, it has been impossible to allot any special time for individual testing. The testing has to be scheduled during the remedial reading instructional periods because all available space is serving dual and triple programs. This not only limits the necessary individual testing that should be done, but also interrupts the sequential instruction necessary for the success of the program.

### Perceptually Handicapped

A learning disability is suspected when there is a significant variance in a child's actual achievement and his intellectual ability, home and school educational experiences and emotional adjustment.

Each child referred to this program is first tested in order to diagnose possible learning disabilities. If the child is accepted into the program, he is then placed in an individual or small group tutorial situation aimed at developing his strengths and correcting his weaknesses. Many of these children have more than one problem and so are working with more than one specialist. We have found that it is helpful to coordinate our efforts by having the specialists meet twice a month to discuss and plan individual programs.

A very important phase of our program is to assist teachers working with the child by making them aware of his problems and suggesting ways in which to help him gain the most from the learning situation and other school activities. We also are making an attempt to meet with the parents of those involved in the program. Our purpose is to help them understand the child's learning problems as well as to suggest activities which can be done at home. At the present time, there are sixty children being helped by means of this program. The amount of training prescribed for each child is determined by the severity of the existing disabilities. Through this training, coupled with the help and support of teachers and parents, it is hoped that these children will be better able to learn in the regular classroom and through regular classroom techniques.

It is impossible for two teachers to work individually or in small groups with all the children who have learning disabilities in grades one through twelve, and so a compensatory program is being tried at the high school level. Students who are having difficulty learning because they cannot read the high school material are having their programs adjusted. Our objective is to tailor the student's programs to fit their specific needs so that they can ab-

sorb the high school material and take a more active part in the class room.

### Speech and Hearing

One of the things that makes man a superior being is his ability to communicate his ideas and therefore hand down oral learning from generation to generation. The old saying that "children should be seen and not heard" is truly a cliché. Every child has a right to speak and be listened to, but some youngsters need the help of a speech therapist to enhance that right. The aims and objectives of our speech program are to help all children establish an adequate speech pattern. Bugs Bunny's stuttering and "Baby Talk" may get a laugh in the movies, but in real life a deficient speech pattern is no joke! When oral communication fails because a child is misunderstood -- or even laughed at -- his entire outlook on life may be changed.

Location, diagnosis, and classification of those with speech problems is an ongoing process. The requests for diagnosis usually come from the classroom teacher, but the reading teachers, school nurses, dentists, orthodontists, medical doctors and parents are free to make such requests. Each youngster is given a speech examination, results are given to the classroom teacher, parents are notified, and if there is a correctable speech problem the youngster will be placed in a speech group. The groups have from three to six members and meet at least twice a week for twenty-five to thirty minute sessions. We have children with hearing loss; cleft palate; delayed speech patterns; articulation substitutions, omissions, and distortions; language barrier; stutterers; and tongue thrusters or any combination of these problems.

The total case load in June was eighty-six. As of this date, the therapy case load is ninety-one and some of these are in their second year of therapy because teaching them to produce sounds correctly is quite easy, but getting them to replace the old speech habit with the new correct one takes much longer.

One of the biggest problems in the special services for Maynard's public schools is that of space! Scheduling has become a real nightmare because some facilities must be shared by the physical education teachers, remedial reading teacher, teachers of children with specific learning disabilities and the speech therapist. What is less than adequate for one type of activity may be almost impossible for others.

This year our Educable Groups are receiving speech improvement in their classes and some are also in small group or individual therapy. Another helpful addition is the bi-monthly meeting among the special remedial teachers on the staff in order to better coordinate our efforts to help the youngsters we work with. As the speech program advances and kindergarten is

established in Maynard we will be able to concentrate on the serious problems at all age levels and the general articulation disorders in the first and second grades. Early correction of any speech problem will enable a child to proceed more equitably through his educational experiences.

#### AUDIO VISUAL PROGRAM

We began the 1970-1971 school year with a completely revised and up-dated catalog of materials and equipment available for classroom use by our teachers. These catalogs were issued to faculty and administrators throughout the system. They contained a complete listing of the types of equipment and materials available as well as the many services which the Audio Visual Program offers. Some of these services include the distribution and retrieval of materials by the Director, orientation programs on use of equipment, equipment maintenance services, special film programs, etc.

Working directly with teachers and principals, the Director supervises all purchases of Audio Visual equipment and materials. This insures our getting the best possible prices on equipment and enables us to avoid unnecessary duplication of materials. We have also maintained our centralized storage areas at Emerson Junior High School and at the Maynard High School Library where teachers are encouraged to visit and preview materials. The centralized storage areas make distribution and sharing of materials among all our schools more feasible. Our inventory of available materials and equipment has continued its steady growth and we have moved into several of the newer types of educational media.

As always, our goal in the Audio Visual Department is to provide teachers with the best in educational media designed to supplement their teaching and to make the learning experience as meaningful and complete as possible for our youngsters. To this end, the Director attends conventions frequently which are aimed at keeping educators abreast of the newest trends in the field of Audio Visual equipment and services.

The Audio Visual Program also provides opportunity for boys from all grade levels to learn the operation and maintenance of Audio Visual equipment. This year the program has been extended into the Junior High and Elementary Schools. Periodically, youngsters are brought to the High School where they are trained in the operation of all types of Audio Visual equipment by the Director and members of the High School club. The boys in the High School Audio Visual Club assist in all Audio Visual programs, and have worked in the community with programs in various churches, and at the Town Meetings.

## LIBRARY PROGRAM

At the elementary level, the library program has continued a rather limited growth in the form of small, self-contained classroom libraries. Plans have been continued and some significant progress made in moving toward the eventual establishment of libraries in each of our elementary schools. Book collections have continued to grow and teachers have been giving simple library instruction to students.

There is presently no full-time librarian at Emerson Junior High School. Working with the High School Librarian in cataloging books, preparing shelves, and supervising the check-out of books, several of the Junior High teachers have combined efforts to make the facilities of the Emerson Junior High available to the students. The program seems to be working fairly well to date. Plans for the future of the Junior High Library include the hiring of a full time librarian and opening the facility on a full time basis. The entire book collection at Emerson Junior High has been made available to teachers for classroom use and several teachers have been using the library for research classes and projects.

At Maynard High School, the Library program has been moving ahead in leaps and bounds. Although space has become somewhat of a problem, the book collection has been increased by several hundred volumes over the past year. The High School Librarian works directly with teachers and students in the selection of all library materials. In this way the needs of the High School curriculum are best served and the library is always able to offer youngsters the best and most suitable items in both fiction and non fiction books.

In an earlier Town Report we mentioned that our goal was to establish the Maynard High School Library as a Media Center, offering teachers and students the best in all types of educational media, both print and non-print. I am happy to report at this time that we have moved significantly closer to this goal. Study Carrels, electronically equipped for the playing of tapes, records, and visual materials, have been added to the library. All our Audio Visual materials have been made available to students as well as to teachers, and students have also been encouraged to use the Audio Visual equipment both for school and home study projects. Our cassette tape recorders and viewing equipment are in constant use.

Throughout the past year, our magazine and vertical file collections have been greatly expanded. Daily newspapers are also provided for student and teacher use. In this way, we feel that we are offering materials for all reading tastes, levels and interests. Well over two hundred books are constantly in circulation. Teachers have been making use of the library regularly with classes for term projects and reports. They are assisted

by the Librarian who offers Library Instruction and research services.

Our plans for the future include a continued emphasis on integrating print and non-print materials into a complete, workable Media Center for our students and teachers.

## FINE AND APPLIED ARTS

### Art

At the elementary level, the art program allows for increasing the child's art understanding and performance by experimentation with a variety of materials. It provides the opportunity for him to express his thoughts and visually convey his ideas by experimentation, involving selection, arrangement and evaluation.

Some of the media used are tempera paint, pastels, water color, crayon and construction paper. Children also experiment with and apply uses to "found" or "junk" objects and work on craft projects such as weaving, block printing, papier mache, some forms of sculpture, etc. They are encouraged to work independently, resourcefully and imaginatively.

Emphasis is placed on development, considering the child's project as a gauge of that development. An elementary art class is a developmental activity whose final product is secondary to the quality of the experience the child undergoes in the process.

Junior High School art, is geared to exposing the students to the various facets of today's art. The students are encouraged to use as many different types of media as possible. This enables them to both experiment on their own with new materials and to do the assigned class work. Individual expression is of primary importance here.

Junior High Students have participated in several contests and campaigns. This past year they submitted projects for the Community Chest Campaign, the Maynard Centennial Medal Contest, and the Elks Club Poster Contest. One of the students received honorable mention for the state of Massachusetts in the Elks Club Contest.

At the high school level, art is programmed to fill the various needs of the individuals concerned. The curriculum is flexible enough to offer a sequence of learning and development of skills for the student interested in continuing his art education beyond high school, also an introduction to the many facets of the art experience for the student whose interest in art is for cultural enjoyment and additional activities for those who prefer craft projects.

The art major classes, years I through IV, meet five times a week and offer five credits. A student may elect art each year providing he exhibits the necessary interest and ability. The classes that are for the craft-oriented student meet twice a week and offer two credits.

Innovations in the art program include a text book for the art majors. It is designed to give the students a broader base in art history, an understanding of contemporary art and to stimulate originality. Also, in addition to the two and three-dimensional projects offered in the past, we are exploring multi-media effects involving coordinated color and sound through the use of 16mm film and tape recorders.

New equipment has been added; an electric potter's wheel to augment the kick-wheel and two craft benches equipped with durable laminated tops and vises.

The art department has been active in community service by cooperating with the Community Chest Drive in a school-wide exhibit for its campaign. Many students submitted designs for the 1970 Town and School Report covers.

In June of 1970, we held our annual art show, in the high school gymnasium. Every student in the art program was represented in the display which featured paintings, drawings, ceramics, fabric designs, jewelry and sculptures.

Plans for the future are centered around the development of a course in art history and appreciation to be offered to students in the college program.

### Music

The common objective of music teaching at all levels of instruction are:

- (1) to foster growth in the understanding of music.
- (2) to develop a sense of discrimination in all the various aspects of music.

Music organizations in the entire Maynard School System are designed to absorb the interests of students who value music. The outcomes developed from these school music experiences are:

- (1) skill in listening to music.
  - a. to become familiar with sounds of instruments and types of human voices.
  - b. to be able to recognize patterns of melody and rhythm

- c. to develop ability to listen attentively and to follow with understanding the unfolding of a musical work.
  - d. to develop ability to appreciate good standards of musical performance.
- (2) skill in singing.
- a. to be able to carry a part in group singing.
  - b. to sing with expression.
- (3) skill in performing on a musical instrument.
- a. to be able to interpret musical notation.
  - b. to play with expression.

Every student who has the interest and capacity to play an instrument or to sing in a musical organization has the opportunity to develop the following intellectual and technical values:

- (1) Intellectual Development:
- a. good study-practice habits.
  - b. systematization of tasks.
  - c. persistence in carrying out of tasks.
  - d. ability to work independently.
  - e. capacity to apply what has been learned to new tasks of a similar type.
  - f. pride in workmanship, in technical accuracy, and in musicianship.
  - g. comprehension of the choral and instrumental score.
  - h. recognition of the styles of composers and periods.
- (2) Technical Development:
- a. control of tone.
  - b. control of intonation.
  - c. shaping of phrases through control of attack, intensity and release.

- d. control of dynamics.
- e. recognizing and projecting the structural and expressive intentions of the composer.

The broad purpose of the music program in the Maynard Public Schools is the development of a worthy appreciation of music.

## PRACTICAL ARTS

### Industrial Arts

Industrial education has been in a constant state of change in the United States since its early inception in the secondary schools. The contemporary state is no different. The sixties have produced more modifications with wider implications than have any of the preceding decades. New frontiers began to emerge as a result of the "Sputnik" influence. Technological developments, automation, and other economic factors focused attention on providing students with a wider range of experiences, programs to meet "life needs", and activities directed at an understanding of society. Besides the new programs with "innovative methods", plans and ideas for meeting the modern needs of the students are the traditional programs with their content concerned with automotive, crafts, drafting, electricity, graphic arts, metalworking, and woodworking.

In the Industrial Arts Program at Maynard High School, educational emphasis is based upon the needs related to the use of industrial goods as well as services required for maintenance in the home and community. Opportunity for industrial orientation and for skill development is offered in the curriculum. Within the past two years electricity and senior electronics have been introduced, thereby broadening the curriculum with better preparation for today's highly technical industries.

In Electricity I and II, pupils study various aspects of electricity as a logical sequence to the structure course (house or form construction). Series and parallel circuits are studied and constructed, using various components with 6, 12, 18, or 120 volt sources. The lower voltages are used in most of the experiments and practical work since the theory is similar to that of the higher volt range (with greater safety ensured). Students become knowledgeable about the use of electricity as man's servant and helper. Students learn why and how certain standards of safety are maintained.

Research and Design (Technical Drawing III) is a senior level course for students electing technical drawing for either the third or fourth year. This content covers researching and designing architectural models, civic improvement and/or structural testing. Individual and small group specialization

is possible. Students are provided the opportunity to apply skills and knowledge acquired from the total high school curriculum.

Furniture construction is being made both meaningful and useful. With the construction of individual pieces of furniture, appreciation for time and labor involvement is demonstrated to the students.

Co-ordinated effort between groups (juniors and sophomores) is also being realized. Working together on a house construction project, one group is involved in constructing while another specializes in the electrical wiring.

Power Mechanics II is an advanced course for seniors, providing the students with an opportunity to acquire skills and knowledge about automobile service, maintenance and repair. It is the logical sequence to Power Mechanics I in which small engines were studied. Topics included in both theory and practice are compression, exhaust system, electrical system, valves, brakes, tuning and job occupation. Actual work is performed by students on their own vehicles.

With such an automotive program providing career background, the door is open to the rapidly expanding automotive industry. Unlimited opportunity is afforded to students with different educational backgrounds. It is designed to provide the necessary backgrounds in automotive fundamentals for those who desire to go on to specialized training. Students are better qualified to locate jobs in selling, design, and production as well as in other areas where a knowledge of automotive fundamentals is essential.

The Industrial Arts program in the Junior High School (grades seven and eight) provides pupils with two periods of activity each week. The program includes hand woodworking and metal work (grade seven) and basic drawing, woodturning and plastic forming (grade eight).

All courses are established so that students receive 60% practical application and 40% theory (includes attitude and attendance). Such a plan plays a major role in preparing the students to acquire, as well as to hold a job.

### Home Economics

Home Economics on the secondary level is designed to help students understand what homemaking means and why the study of this subject is so important to them. While our children live in homes with their families every day, they are not aware of all the phases of home living necessary for happy family life. Although the greater part of class time is devoted to the fields of sewing and cooking, other phases of study are introduced and emphasized. It is essential that the girls are exposed to as many phases of Home Economics as possible. Among these studies

are: 1.) Good grooming -- which stresses proper diet, rest, cleanliness and exercise, as well as clothing selection and care. 2.) The proper methods of laundering new fabrics as well as the various types of normal household washables. 3.) Child care and development of young children which enables the girls to understand the growth and development of those they may care for either at home or as a baby-sitter in other homes. 4.) An introduction to interior decorating including the various types of furniture, upholstery and drapery materials, different woods and the most attractive arrangement and color selection of items for the home.

The aim in the field of clothing is to instruct girls in the proper use and care of the sewing machines and to keep them updated on the use of the new types of sewing machines, to teach them the basic methods of sewing pattern selection, and to stress the proper choice of patterns and fabrics suitable to the individual.

The fundamentals of food preparation are stressed in the food area and the girls are also introduced to the many varied uses of prepared foods. Efficiency in preparing foods, good housekeeping, and proper storage of foods are also stressed. They are further taught to plan and prepare well balanced and attractive meals, the awareness of calories, and the marketing of foods.

#### CONCLUSION

It is our belief that every child should have as much education and as broad an education as his capacity will permit. We are attempting to contribute in every way possible to develop the reservoirs of creative power needed to meet and deal with the challenges arising on the forefront of cultural change. Innovations, new approaches and new emphasis in our programs are constantly at work in our schools to meet the needs of each individual pupil.

Although our building facilities are presently limited, our educational system will continue to operate in the most efficient and productive manner as is humanly possible.

In closing, may I express my appreciation to all who have so selflessly contributed to the implementing of our crucial goals? As we move with the times and pressures, the past year stands as a guide to an even more rewarding educational future. May I especially thank the School Committee, the school personnel, the Town Officials and all civic groups for their support and cooperation in helping to make this past school year a very forward moving and successful one?

Respectfully submitted,  
 ALBERT LERER  
 Superintendent of Schools

## REPORT OF THE DIRECTOR OF ADULT EDUCATION

Mr. Albert Lerer  
Superintendent of Schools  
Maynard, Massachusetts

Dear Mr. Lerer:

I herewith submit my first annual report as Director of Adult Evening Education for the Maynard Public Schools.

Now in its tenth year of operation, the Maynard Adult Evening Education Program has continued a rapid and successful growth. This year, one major change has been instituted based on past experience with the program. Instead of the usual two ten week semesters, we have shifted to a single fifteen week semester which runs from November through March. There are close to two hundred participants in a wide variety of courses which include Sewing, Oil Painting, Physical Education, Typing, First Aid, Auto Care, and Investments.

As in the past, the goal of the Maynard Adult Education Program is to provide opportunities for the adults of Maynard to pursue their cultural interests, to develop homemaking and crafts skills, to take refresher courses to become more proficient in their occupations, and to make rewarding use of leisure time. To this end, we intend to continue offering any course the public desires as indicated by the number of interested people wishing to form a suitable course, and providing that a capable instructor is obtainable. I shall continue to make myself available at any time to the townspeople of Maynard who may wish to offer suggestions for future course offerings, and for suggestions regarding the operation of our Program. We fully realize the role of the Public School System in Maynard in providing these learning opportunities to the adults of Maynard.

The Maynard Adult Evening Education Program continues to utilize the classrooms and facilities of Maynard High School. The Program is in operation three nights a week: Monday, Tuesday, and Thursday evenings, from 7:00 to 9:00 P.M. All of the High School's Audio-Visual facilities and Library services are available to the Adult Education participants.

I am sincerely happy to conclude this report by stating that our courses are in full swing and that we are meeting with tremendous success. We hope that in the Fall, our program realizes even greater interest and enrollment so that we may offer still more courses to our Adult citizens.

I wish to thank you and the School Committee for all your cooperation and support in my first year. I would also like to thank the Adult Education faculty and all our course participants

for their cooperation and understanding during our period of change and re-alignment.

Respectfully submitted,

JOSEPH P. MAGNO, Director  
Adult Evening Education

REPORT OF THE  
JUNIOR HIGH SCHOOL PRINCIPAL

Mr. Albert Lerer  
Superintendent of Schools  
Maynard, Massachusetts

Dear Mr. Lerer:

I am pleased to submit my first annual report for Emerson Junior High School.

Although I have been at my post for just over three months, the dedication of our teachers and the vitality of the student body very soon became evident. The rapport among students, teachers, and administration is quite noticeable, and it is important that we continue to strive for the highest level of cooperation.

During the past year the Junior and Senior High School Social Studies program was departmentalized in order to achieve greater articulation in the Social Studies curriculum. Emerson Junior High social studies classes are now meeting five times per week. The eighth grade social studies curriculum has been modified to an in-depth study of American History to 1865, and new materials dealing with minority studies have been introduced.

In the area of Language Arts the many facets of communication are developed. A strong emphasis is placed on the study of grammar, punctuation, capitalization, vocabulary, and composition. Literature, library skills, and student oral performance is also stressed.

The Mathematics and Science Departments are meeting students on a five times per week basis and both departments have incorporated laboratory activities in their curricula in order to develop student interest and enhance student learning.

French is being taught at the seventh and eighth grade levels, with each class meeting four times per week. The Audio-Lingual Method of instruction is used which places greater emphasis on French grammar as a basis for high school French.

There are many co-curricula offerings that the majority of students become involved in both during the daily activity period

and after school. A few of them are Student Council, PEP Club, dramatics, library aides, audio-visual aides, newspaper, Science Club, and Chess Club. Assemblies and field trips continue to be an integral part of the student experience.

The response of the "Back to School Night" and Parent-Teacher Conferences in the fall was excellent. This demonstration of interest by busy parents was heartening to our teachers.

Today, more than ever before, it is important that the home and school work closely together. I encourage parents to visit Emerson whenever they can. They will always be welcomed.

I recommend the following as necessary for the advancement of the educational program at Emerson Junior High School:

1. Development of a building program which will alleviate crowded conditions felt at Emerson Junior High and throughout the system.
2. A structured reading program in which all junior high students participate. Initially, only students who are not taking French would take part.
3. A broadened health program to include more emphasis in the areas of drugs, family living, tobacco, alcohol, and general health.
4. Curricula development in science so as to include environmental studies.

In closing, parents are asked to continue to demonstrate interest in Emerson Junior High. Their support is appreciated and needed.

Respectfully submitted,

RICHARD J. MOORE

REPORT OF THE  
HIGH SCHOOL PRINCIPAL

Mr. Albert Lerer  
Superintendent of Schools  
Maynard, Massachusetts

Dear Mr. Lerer:

The 1970 Annual Report for Maynard High School is hereby submitted:

Several topics which merit consideration in this report include coordination of the various departments, initiating independent study classes, the use of computers in the mathematics and science curricula and preparing for the re-evaluation of the high school scheduled for next fall.

During the past two years, department chairmen have been appointed in Business, English, Mathematics, Science and Social Studies. A chairman for the Industrial Arts department was named several years ago. With these appointments, much has been and will continue to be accomplished in curricula planning and in overall departmental planning.

A concerted effort toward correlation between mathematics and science was the major aim of a 1970 summer curriculum project during which personnel from both departments collaborated. One major outcome of the summer project is that certain specific mathematical concepts will be introduced and covered as course content in various mathematics courses at such times as they will provide a more adequate foundation for those science courses requiring these particular mathematical skills.

Independent study classes in social studies and in English for juniors and seniors have been established. The major goal is to permit students to exercise self-discipline with respect to doing independent study and research by releasing the students from the formal confines of a classroom atmosphere on a regularly scheduled basis. Students and teachers affected are enthusiastic.

The Social Studies curriculum has been completely revised. Traditional courses such as Civics, Problems in American Democracy and Ancient History have been replaced by subjects of current social concern and student interest. These courses include Economic and Legal Institutions, World Affairs, Twentieth Century World, Law and Enforcement, Minority Studies and Community Affairs. Seniors in Community Affairs spend approximately four hours per week in the various town offices. As a result, the students gain a practical insight into actual town government. The program is a unique experience for town officials and students alike.

Through the cooperation of Liberty Council, a computer was made available to the school this past fall and was used extensively in the mathematics department. Arrangements have also been made with Digital Equipment Corporation for the use of a computer until June. Its use will be primarily in conjunction with the mathematics and science programs. Our sincere appreciation to Liberty Council and to Digital Equipment Corporation for helping to provide current technological equipment for Maynard students.

Next October the high school will be re-evaluated by a Visiting Committee representing the Commission on Public Secondary Schools of the New England Association of Colleges and Secondary Schools. The faculty is thus engaged in completing the writing of curriculum guides for each subject being taught and is also undertaking a self-evaluation of the entire school program.

Respectfully submitted,

KENNETH G. ABBOTT  
Principal
