## REPORT OF THE SELECTMEN

To the Citizens of Maynard:

Owing to the advance in wages, also high cost of material in this department, we have not been able to cover as much as we would like the past year.

We hope to have a larger appropriation for highways and sidewalks this year. The citizens of the Town realize our roads are used now more than ever by our neighboring towns since automobile traffic has become so prevalent, causing our roads to wear out much faster.

The following streets have been repaired:

Powder Mill road from the house of Wm. Barlowe to Paper Mill Corner has been torn up and the surface graded and a coat of tar applied, giving a smooth surface.

Main street from Main street R. R. crossing to Main street school house has been renovated. This piece of street receives not only the traffic through our Town, but also the heavy traffic between the mill and the center of the Town and the freight house.

Great road from the house of Wm. Jones to the Stowe line has been renovated and is now in good condition.

Glendale street from Acton street to house of Samuel Cohen has received a heavy coat of cinders, doing away with the water that formerly settled opposite the avenue leading to Eugene Colbert's house.

We have removed the curbing and taken the land at the corner of Main and Nason streets, which makes a great improvement to the square. The following roads, from Acton line to Stowe line via Powder Mill road, Main street and Great road, Waltham street from Sudbury line to Paper Mill Corner, Acton street from Whitney lane to Acton line, Nason street from Summer street to Main street, Summer street from R. R. crossing to Main street have all received a coat of tar and are in good condition, considering the heavy traffic. The following will give the citizens an idea of the expenses of this department:

Shovels, \$8.50 doz., now \$24.00.

Crushed Stone, \$1.10 ton, now \$2.40.

Oil, .07 gal., now .17.

Tar, .06 $\frac{3}{4}$  gal., now .16.

Asphalt, \$14.00 ton, now \$28.00.

Labor, \$10.61 per week 48 hrs., now \$20.00.

Teams, .55  $\frac{5}{9}$  per hour, now .87 $\frac{1}{2}$ .

Mill Street Bridge has been replanked.

Many of the sidewalks have been treated with either crushed stone or cinders.

We were unable to do very much on sidewalks on account of the past severe winter, causing so much to be laid out for snow work and sanding sidewalks.

## PARKER STREET STATE ROAD

For this road the Town appropriated \$1500 in conjunction with the State and County, making a total of \$4500. The Town took the contract from the State for the above sum, a distance of 3000 ft. from the Sudbury line.

Through the efficiency of our Superintendent we have been able to complete 3950 ft., which has been accepted and complimented by the State and County.

This year we hope to receive \$1500 each from the Town, State and County to enable us to carry this good road nearer to center of Town.

The new signs that have been placed in the center of the Town and also at corner of Summer, Acton and Main streets will be a benefit to the traffic.

Respectfully yours,

FRANK S. BINKS,  
HARRY B. MORSE,  
ALBERT J. SMITH,

Selectmen.

### REPORT OF CHIEF OF POLICE

To the Honorable Board of Selectmen:

Gentlemen—As chief of police of the town of Maynard, I have the honor to present you a report of the work of the police department for the year commencing September 30, 1917, and ending September 30, 1918.

I herewith present a table covering the department during that period.

Drunkenness	75
Assault and battery	34
Larceny	13
Non support	5
Breaking and entering	2
Insane	1
Profanity	1
Violating auto law	8
Cruelty to animals	2
Violating liquor law	7
Breaking glass	1
Anti-loafing law	1
Violating term of probation	3
Malicious mischief	1
Attempted arson	1
Injury to shade trees	1
Unnatural act attempted	1
	<hr/>
Total number	157

To the Citizens:

Although the expenses of the police department have been much more than in the past few years, all bills have been met and a balance remains unexpended.

The lockup has been all repainted and put in a sanitary condition.

The police boxes have been repainted, and also to improve the police department we have installed lockers and other various

needs, which are great improvements to the department.

It is a great benefit to the business men where the officers have to ring in their boxes and try all doors each night. The following shows number of doors found unlocked by the respective officers.

Connors	25
Driscoll	75
King	1
Green	11
Swanson	5
Cannell	3
Waterhouse	8
Hickland	4

I wish to thank the citizens of Maynard for the manner in which they have assisted me in my years as chief of police. I wish to thank my Deputy and other members of the police department for the way in which they have performed their duties. I have tried to do my duty and I hope that what I have done will meet with the approbation of all the citizens of the town.

Respectfully yours,

FRANK BINKS,

Chief of Police.

C. A. STOCKBRIDGE,

Auditors.

## ASSESSORS' REPORT

For the Year Ending December 31, 1918

The laws require that the owners of taxable property shall each year between April 1st and May 15th submit to the local Assessors a list of all their taxable property and the valuation of the same.

In the absence of these lists the Assessors are obliged to estimate the value of all taxable property and to tax according to the valuation estimated by them.

After assessment has been made, the Assessors cannot legally change the valuation of property, nor the amount of taxes thereon until the owner has submitted the list required.

Blank list may be obtained from any one of the Assessors.

## REPORT OF THE WATER COMMISSIONERS

To the Selectmen:

We herewith submit the report of the water commissioners and the water sinking fund commissioners for the year ending December 31, 1918.

We are pleased to report that there were sufficient funds in the sinking fund to cover the total indebtedness of the works when the bonds became due January 1, 1919. Much credit is due Town Treasurer Geo. H. Gutteridge, who has had the entire charge of investing the sinking fund for many years.

Although the expenses of maintaining the works for the past few years have been exceptionally high, due to the increased cost of labor and materials, the exceptional cold of the winter of 1917-18 and the large amount expended for construction the past year, we have been able to transfer the required amount, \$8,240.55, to the sinking fund to meet the payment on the bonds.

Now that the works are clear of debt there will be funds available to bring the works into first class condition. Some of the most important work to be done is to clean the pipe from White Pond to the pumping station, repair the wall of the brick receiving well, put in new pumping machines at the pumping station and lay a new supply main from the reservoir to Summer St. All of this work cannot be done at once, but it should be considered and the most important started on this year.

## SUPERINTENDENT'S REPORT

To the Board of Water Commissioners:—

Gentlemen:—

The report of the superintendent and registrar, together with the report of the engineer, for the year ending Dec. 31, 1918, is herewith submitted.

The water in White Pond has been well over the intake all of the year.

It was discovered that a pipe had broken in the conduit line and that sand was running into the pipe, which retarded the flow of water. This was repaired and a drop manhole was put in to catch the sand as it came down the line.

Owing to the severe cold of last winter the mains on Parker St., Glendale St., and Burnside St. froze and burst and a great many service pipes froze and burst, also about 400 meters either burst or were stopped by being frozen.

The pumping record and the condition of the pumping plant will be found in the engineer's report.

### MAINS

The leaks in the mains in most cases were caused by the pipe freezing and bursting. On Parker St. and Great Road the four-inch main burst in ten or twelve places.

Following are the extensions for the year:

Winthrop Ave.	204 feet 11¼ inch pipe
Vernon St.	43 feet 1¼ inch pipe
McKinley St.	446 feet 4 inch pipe
Arthur St.	66 feet 4 inch pipe
Forrest St.	75 feet 4 inch pipe
Forrest St.	278 feet 2 inch pipe
Nordberg St.,	370 feet 4 inch pipe
Taft Ave.	260 feet 4 inch pipe
Waltham St.	96 feet 6 inch pipe
First St.	60 feet 2 inch pipe
First St.	161 feet 1½ inch pipe
Cross St.	121 feet 1¼ inch pipe
Riverbank Rd.	401 feet 4 inch pipe
Riverbank Rd.	285 feet 1½ inch pipe
Off of Parker St.	156 feet 2 inch pipe

It was necessary to move the hydrant at the corner of Main and Nason Sts. and the one near the store of Geo. H. Gutteridge. The hydrant on Main St., opposite Pine St., was broken off by an automobile and had to be repaired.

### SERVICES

Leaks have been repaired in twenty-four services. One hundred and twenty services froze and were thawed during the winter. Twenty-seven services have been laid, making the number now in use 1,084.

### METERS

The cold weather of last winter caused an extra large number of meters to freeze and burst. Twelve new meters have been set, making 1,073 meters now in use. Four hundred meters have been repaired this year.

I wish to thank the Water Commissioners for their support during this year.

Respectfully submitted,

WILLIAM NAYLOR,  
Superintendent.

**ENGINEER'S REPORT**

To the Superintendent:

Sir:—

The plant in general is in excellent condition. During the year the entire fire box of No. 1 boiler was relined with new fire brick, the front wall of No. 2 boiler was rebuilt and a new Lamphrey water front was connected to No. 2 boiler. A defective throttle on the small pump and a check valve in like condition on the water feed line to No. 1 boiler were replaced with new valves.

Stock on hand January 1, 1919:—

Twenty-seven pounds of piston rod packing, 22 pounds of square flax packing, 15 pounds sheet packing, 50 valve springs, 12 new and 70 second-hand pump valves, 6 valve plates, 1 gallon metal polish, 20 gallons cylinder oil, 50 gallons engine oil, 25 gallons boiler compound, 60 pounds of grease, 25 pounds cotton waste and 150 tons coal.

**PUMPING RECORD**

	Coal	Gallons	Daily Ave.
January	55,806	10,689,867	344,834

## Instructions for Giving Fire Alarms

Alarm should be given from the box nearest the fire. On each box there is a small box with a glass door that holds a key. Break the glass, take the key, unlock the box, pull the hook clear down once and let go. After giving an alarm remain at the box and direct the firemen to the fire.

Never open the box except in case of fire.

Never sound an alarm for a chimney fire or a brush fire, or a fire seen in the distance. Telephone the fire station or the fire engineers.

## FIRE DEPARTMENT REPORT

---

To the Selectmen of Maynard:

We herewith submit our annual report of the doings of the Fire Department. The total bell alarms for the year were 13. Still alarms were 29. We got through the year with no serious or large fires. We had the first accident for a number of years to a fireman when at the Maynard House barn fire, Albert J. Smith, Captain of the Ladder Co., was obliged to jump from a ladder at the collapse of the building, causing the spraining of both ankles and the breaking of one leg. We regret very much that such an accident could have happened, but are pleased to say that he is able to be at his work after 93 days' lay off.

A majority of our firemen have joined the Massachusetts State Firemen's Relief Association and will be cared for in case of accident.

Our storage battery alarm system seems to be working in fine shape and giving good satisfaction.

The draft last October took one of our permanent men at the house and for some time we have been obliged to work substitutes but we are hoping for an early return to normal conditions. This explains why we have \$314.20 unexpended at the close of the year.

We would recommend the same appropriation for the coming year. There are possibly two or three alarm boxes that we may have to ask for later in the year but are undecided at the present time.

Following is our financial report.

Respectfully submitted,  
GEO. H. GUTTERIDGE,  
WALTER PRIEST,  
LEE DONAHUE,  
Fire Engineers.

## REPORT OF FINANCE COMMITTEE FOR THE YEAR 1918

February 26.

The committee made the following recommendations to a Town Meeting to be held March 4, on articles not considered at the former meeting.

Article 5.

Regarding this article for the suppression of Gypsy and Browntail moths—We recommend it be passed over.

Article 6.

The opening of Brown street to Parmenter Crossing—We recommend that the moderator appoint a committee of five to investigate and report at some future meeting.

Article 7.

For Memorial Day—We recommend the appropriation of one hundred dollars, (\$100.00).

Article 8.

Repair of Dartmouth street—Having already recommended the appropriation of six thousand dollars (\$6,000.00) for highways and bridges, we recommend that the article be passed over.

April 11.

Organized for the ensuing year by electing Wm. H. Gutteridge, chairman; Harvey A. Harwood, clerk.

The Town Moderator reported his interviews with State Officials regarding the Selectmen's authority to accept the resignation of an assessor, which seemed doubtful. We recommend the Selectmen to secure legal advice.

After discussing with the Selectmen regarding the anticipated increase in calls for Soldiers' Relief, the matter was left with them.

Article 1 of the Town Warrant, calling a meeting for May 22, regarding the suppression of Gypsy and Browntail moths—The Selectmen, after interviews with the State Officials, decided they could do satisfactory work with \$1,200.00. We recommended the appropriation of \$1,200.

Article 2.

We recommend the appropriation of fifty dollars in addition to the former amount for Memorial Day.

January 15 and 17, 1919.

We recommend the following appropriations for the ensuing year:

Support of Schools	\$46,000.00
Street Lights	4,100.00

General Government	5,000.00
Police	4,000.00
Tree Warden	200.00
Memorial Day	125.00
Board of Health	1,500.00
Public Park	50.00
Interest on Town Debt	4,700.00
Fire Department	5,000.00
Library, Dog Tax	1,500.00
Overseers of Poor	7,500.00
Soldiers' Relief	100.00
Collector's and Treasurer's Bonds	250.00
Suppression of Moths	1,500.00
Parker Street, State and County to each furnish same amount	1,500.00
Sidewalks	2,000.00
Highways and bridges	9,000.00

## REPORT OF MAYNARD PUBLIC LIBRARY TRUSTEES 1918

To the Voters of Maynard:

The trustees told last year in their annual report, that it was their intention to move the Library from its quarters in Co-operative building, to Naylor's new block, at the corner of Main and Nason Sts. This change was made last July, and at present we are in a much better position to serve the public than ever before.

There were on the shelves many books and public documents of doubtful value, the inevitable accumulation of such books that every Library has to dispose of. The Trustees thought it advisable to consult the State Library Commission in regard to this matter, with the result that Mr. Low, an agent of the commission, was sent out to look the books over. Acting on his advice, we discarded such books and public documents as he deemed not worth moving.

The new rooms are conveniently situated, and are as well equipped as our limited means will allow. We found that the old book-racks and furniture were not adapted to our new quarters, and we were obliged to put in practically everything new. The charging desk was paid for in part from the balance of the Mary Green Fund and we intend to have the desk suitably inscribed as a memorial to her. Owing to the cost of refitting the Library we find it necessary to ask for an appropriation of \$1,500, and the dog tax.

The circulation this year is somewhat smaller than last, as the Library was closed so many days, in consequence of moving and the recent epidemic. Since re-opening, however, the Library is used more than ever, as many as one hundred being in the room at the same time. The War Library Board informs us that donations of good readable books are still needed in the war work, and such books may be given to the Librarian for distribution.

The following are the financial and statistical reports:

## REPORT OF SEALER OF WEIGHTS AND MEASURES

To the Honorable Board of Selectmen:

Gentlemen—I herewith submit my annual report as Sealer of Weights and Measures for the Town of Maynard for the year 1918.

On my various inspections of the stores I found the scales in very good shape and only in a few instances requiring slight adjustments.

Owing to existing conditions on account of the war it was required of the sealers in different cities and towns throughout the country to act as Food Price Reporters and also to inspect the bakeries and see that they were using the required amounts of flour substitutes and make report on the same and see that the bread weighed the amount required by law.

In regard to the food prices it was required that reports be sent to Washington and the State House, Boston, each week, of the prices of the various foods in order that the government and State Food Administration might know of any instances where excessive prices were being charged. As I compared the price list sent me each week from the Food Administration as a guide on prices that were permissible, I consider the people of Maynard fortunate, as the prices of our local merchants compared favorably with those on the list.

Following is a summary of work performed:

### Tested, Adjusted and Sealed

Platform scales over 5,000 lbs., 3; under 5,000 lbs., 22; computing scales, 36; slot weighing scales, 2; all other scales, 32; weights, 177; liquid measures, 33; linear measures, 29; measuring pumps, 13.

Test weighing, coal in transit	4
Reweighing in stores of miscellaneous articles	130
Reweighing of bread	210

Respectfully submitted,

JOSHUA EDWARDS,  
Sealer of Weights and Measures.

## REPORT OF BOARD OF HEALTH

During the fall and winter months the majority of our townspeople have been afflicted with influenza in a more or less severe form, among which there have been a number of deaths either from influenza or its unusually fatal complication, pneumonia.

We, as members of the Board of Health, wish to thank those who have so cheerfully given their services to help stamp out the plague and to relieve suffering among the many poor people with large families who have been so unfortunate as to

be sick at this time. They have been of great aid to the doctors in this community in rendering valuable assistance.

There are several things we would recommend in such cases: Fresh air from an open window; the abolishing of the cuspidor or spittoon, so common in many of the houses (a paste-board box or cotton cloth should be used and then burned). We recommend that those who have not been afflicted with this disease refrain from associating with those so afflicted, if possible. As a rule, a person should remain in bed at least two days after the temperature returns to normal.

## TOWN CLERK'S REPORT

For the Year 1918

From the Town Clerk's Records, Jan. 1, 1918, to Dec. 31, 1918

**Town Warrant No. 241**

**Town Meeting Jan. 14, 1918**

Commonwealth of Massachusetts, Middlesex, ss.

To either of the Constables of the Town of Maynard, in said County, Greeting:

In the name of the Commonwealth of Massachusetts you are hereby directed to notify and warn the legal voters of said Maynard, to assemble in Co-operative Hall in said town, on Monday, the Fourteenth Day of January, 1918 next, at 7.30 P. M., then and there to act on the following Articles:

Article 1. To hear and act upon the reports of Town Officers and Committees.

Article 2. To see if the Town will authorize the Treasurer, with the approval of the Selectmen, to borrow, during municipal year beginning January 1, 1918, in anticipation of the taxes of said municipal year, such sums of money as may be necessary for the current expenses of the town, giving the notes of the town therefor, payable within one year from the dates thereof.

And you are directed to serve this warrant by posting an attested copy at the Post Office and one at each of fifteen other public places in said town, five days at least, before the time of holding said meeting.

Hereof fail not, and make due return of this Warrant with your doings thereon, to the Town Clerk or the Selectmen, at or before the time appointed for holding said meeting.

Given under our hands this seventh day of January in the year of our Lord, one thousand nine hundred and eighteen.

FRANK S. BINKS,  
HARRY B. MORSE,  
ALBERT J. SMITH,  
Selectmen of Maynard.

Middlesex, ss.

Maynard, Jan. 8, 1918.

I have served the within named warrant by posting an attested copy of the same at the Post Office and one at fifteen other public places in said Town, seven days before the time of holding said meeting, as within directed.

### **Proceedings of Town Meeting Held February 11, 1918**

Pursuant to Town Warrant No. 242 the voters of Maynard cast their ballots on the above date for Town Officers and acted upon the reports of the several officers and boards for the year 1917.

The warrant calling the meeting was read at 6.45 by the Town Clerk and at 6.50 Moderator K. H. Damren declared the polls open.

The election officers, tellers and ballot clerks appointed by the selectmen assembled previous to the reading of the warrant and performed all necessary requirements of the law relative to posting instruction cards and specimen ballots within the polling place.

Thomas Smith, George T. Siswick, Albert E. Axford, ballot clerks, and Michael J. Nee, Isaac H. Binks, Peter J. Waldron, Charles E. Dyson, tellers. Frank L. McCormack, assistant teller and tabulator, were sworn by the Town Clerk.

The ballot box was examined by the election officers and the register set at 0000, the keys were placed in the keeping of Constable Nicholas J. Driscoll, and he was sworn by the Town

Clerk.

Ballots prepared by the Town Clerk were delivered to the ballot clerks, together with duplicate check lists of male and female voters and a receipt taken therefor. Said receipt is on file in Town Clerk's office.

It was voted that the election of minor officers and action under Article 2 be postponed until two o'clock P. M.

The Moderator and Town Clerk deeming it advisable so to do, ballots were taken from the ballot box at various times during the day and counting continued in open meeting from 7.30 throughout the day.

At two o'clock the following were elected by acclamation:

#### FENCE VIEWERS

Benjamin C. Brown, sworn                      James Mullin, sworn  
William Naylor, sworn

#### FIELD DRIVERS

Article 2. Voted to accept the reports of the several boards of Town Officers as printed in the "Annual Reports of the Several Boards of Town Officers of the Town of Maynard, Massachusetts, for the Year Ending Dec. 31, 1917."

At 4 o'clock P. M. it was voted to keep the polls open twenty minutes and the polls closed at 4.20 o'clock P. M.

The number of ballots cast was 913, one of which was a special ballot for school committee only.

The register on the ballot box indicated 916, which was three more than the actual number cast, the indicator having registered three times on one ballot.

Each check list showed 912 names checked on the male list of voters and one name checked on the list of female voters.

The ballots were counted in open meeting by the use of the counting board and the result was announced at 4.40 o'clock P. M. as follows:

**Town Warrant No. 246**

**State Election Nov. 5, 1918**

Commonwealth of Massachusetts Middlesex, ss.

To either of the Constables of the Town of Maynard, in said County, Greeting:

In the name of the Commonwealth of Massachusetts you are hereby directed to notify and warn the legal voters of said Maynard, to assemble in Co-operative Hall in said town, on Tuesday, November Fifth, 1918, at 6 A. M., then and there to bring in their votes to the Selectmen for:

Governor, Lieutenant-Governor, Secretary, Treasurer and Receiver General, Auditor, Attorney General, U. S. Senators in Congress, Congressman for Fifth Congressional District, Councillor for Sixth Councillor District, Senator for Fifth Senatorial District, One Representative in General Court, for Tenth Representative District, County Commissioner for Middlesex County, Register of Probate and Insolvency for Middlesex County. And all other State, District and County Officers.

Acceptance of the following Articles of Amendment submitted by the Constitutional Convention.

**ARTICLE OF AMENDMENT NO. 1**

The establishment of the popular initiative and referendum and the legislative initiative of specific amendments of the Constitution.

**ARTICLE OF AMENDMENT NO. 2**

The conservation, development and utilization of the agricultural, mineral, forest, water and other natural resources of the commonwealth are public uses, and the general court shall have the power to provide for the taking, upon payment of just compensation therefor, of lands and easements or interests therein, including water and mineral rights, for the purpose of securing and promoting the proper conservation, development, utilization and control thereof and to enact legislation necessary or expedient therefor.

**ARTICLE OF AMENDMENT NO. 3**

Advertising on public ways, in public places and on private property within public view may be regulated and restricted by law.

**ARTICLE OF AMENDMENT NO. 4**

The preservation and maintenance of ancient landmarks and other property of historical or antiquarian interest is a public use, and the commonwealth and the cities or towns therein may, upon the payment of just compensation, take

such property or any interest therein under such regulations as the general court may prescribe.

#### ARTICLE OF AMENDMENT NO. 5

The general court, by concurrent vote of the two houses, may take a recess or recesses amounting to not more than thirty days; but no such recess shall extend beyond the sixtieth day from the date of their first assembling.

#### ARTICLE OF AMENDMENT NO. 6

To authorize the General Court to prescribe, subject to certain restrictions, the manner of the appointment and removal of military and naval officers to be commissioned by the Governor.

#### ARTICLE OF AMENDMENT NO. 7

To define the powers and duties of the General Court relative to the military and naval forces, and of the Governor as Commander-in-Chief thereof.

#### ARTICLE OF AMENDMENT NO. 8

To provide for the succession, in cases of vacancies in the offices of Governor and Lieutenant Governor, by the secretary, attorney-general, treasurer and receiver general, and auditor, in the order named.

#### ARTICLE OF AMENDMENT NO. 9

To authorize the Governor to return to the General Court with a recommendation for amendment bills and resolves which have been laid before him.

#### ARTICLE OF AMENDMENT NO. 10

Article IV of the articles of amendment of the constitution of the commonwealth is hereby amended by adding thereto the following words:—Women shall be eligible to appointment as notaries public. Change of name shall render the commission void, but shall not prevent reappointment under the new name.

#### ARTICLE OF AMENDMENT NO. 11

(Relative to the Retirement of Judicial Officers)

Article I of Chapter III of Part the Second of the constitution is hereby amended by the addition of the following words:—and provided also that the governor, with the consent of the council, may after due notice and hearing retire them because of advanced age or mental or physical disability. Such retirement shall be subject to any provisions made by law as to pensions or allowances payable to such officers upon their voluntary retirement.

#### ARTICLE OF AMENDMENT NO. 12

Every charter, franchise or act of incorporation shall forever remain subject to revocation and amendment.

#### ARTICLE OF AMENDMENT NO. 13

The general court shall have power to limit buildings according to their use or construction to specified districts of cities and towns.

## ARTICLE OF AMENDMENT NO. 14

The general court shall have authority to provide for compulsory voting at elections, but the right of secret voting shall be preserved.

## ARTICLE OF AMENDMENT NO. 15

To limit the power of the General Court to lend the credit of the Commonwealth and to contract loans.

## ARTICLE OF AMENDMENT NO. 16

To provide for a state budget and the veto by the Governor of items or parts of items in appropriation bills.

## ARTICLE OF AMENDMENT NO. 17

To provide for biennial elections of state officers, councilors and members of the General Court.

## ARTICLE OF AMENDMENT NO. 18

No person elected to the general court shall during the term for which he was elected be appointed to any office created or the emoluments whereof are increased during such term, nor receive additional salary or compensation for service upon any recess committee or commission except a committee appointed to examine a general revision of the statutes of the Commonwealth when submitted to the general court for adoption.

## ARTICLE OF AMENDMENT NO. 19

On or before January first, nineteen hundred twenty-one, the executive and administrative work of the Commonwealth shall be organized in not more than twenty departments, in one of which every executive and administrative office, board and commission, except those officers serving directly under the governor or the council, shall be placed. Such departments shall be under such supervision and regulation as the general court may from time to time prescribe by law.

And you are directed to serve this Warrant by posting an attested copy at the Post Office and one at each of ten other public places in said town, seven days at least, before the time of holding said meeting.

Hereof fail not, and make due return of this Warrant with your doings thereon, to the Town Clerk or the Selectmen, at or before the time appointed for holding said meeting.

Given under our hands this nineteenth day of October in the year of our Lord, one thousand nine hundred and eighteen.

FRANK S. BINKS,  
ALBERT J. SMITH,  
HARRY B. MORSE,  
Selectmen of Maynard.

Middlesex, ss.

Maynard, Oct. 23, 1918.

I have served the within named warrant by posting an attested copy of the same at the Post Office and one at ten other public places in said town seven days before the time of

holding said meeting as within directed.

JOHN CONNORS,  
Constable of Maynard.

### Proceedings of State Election Held November 5, 1918.

Pursuant to Town Warrant No. 246 the voters of Maynard cast their votes on the above date for State, County and District Officers and upon the Proposed Amendments to the Constitution submitted by the Constitutional Convention.

The Town Clerk posted cards of instruction and specimen ballots as required by law and at six o'clock A. M. read the warrant. Patrick J. Sullivan, appointed presiding officer by the Selectmen, declared the Polls open, after being sworn by the Town Clerk.

The ballot clerks and tellers were sworn by the Town Clerk as follows

Ballot Clerks: Frank C. Sheridan, John W. Flood, Emmanuel Taylor. Tellers: William P. Scully, Albert E. Axford, George E. White, Albert Batley and John C. King.

The box of ballots provided by the Secretary of the Commonwealth was delivered to the ballot clerks, together with duplicate check lists, and a receipt taken therefor. Said receipt was filed in Town Clerk's office.

Constable Nicholas J. Driscoll was placed in charge of the ballot box and held the keys of the same, after the box had been examined by the election officers.

It being deemed advisable so to do, ballots were taken from the box at intervals throughout the day and counting continued after seven o'clock A. M.

The polls were closed at 4.15 o'clock P. M.

The ballot box indicator read eight hundred and one (801) which was thirty-seven more than the actual number cast, the indicator registering twice on one ballot in several instances.

The total number of ballots cast was seven hundred and sixty-four (764). The ballot clerks reported seven hundred and sixty-four (764) names checked on each voting list.

Two counting boards were used and the result of the balloting was as follows:

The town clerk requests information of any omissions or errors in the lists of births, deaths or marriages.

This office is prepared to furnish blanks for the proper return of births, and would call particular attention to the provisions of Chapter 280 of the Acts of 1912, requiring physicians and midwives to make a preliminary return of all births at which they were in charge, within forty-eight hours of the birth.

The act further provides that a more complete return of each birth shall be made within fifteen days of the birth and that the physician or midwife shall also keep a record of the same. Physicians and midwives will please observe that they are entitled to the customary fee only for births properly reported under this act and that the town clerk cannot certify bills unless the returns have been filed at this office within the time allowed by law.

**The strict observance of the law with respect to filing returns of births, deaths and marriages is important.**

The Town Clerk is obliged to report to the Secretary of the Commonwealth every delayed return filed, regardless of the cause thereof.

FRANK E. SANDERSON,

Town Clerk.

## TOWN WARRANT

Commonwealth of Massachusetts.

Middlesex, ss.

To either of the Constables of the Town of Maynard, in said County. Greeting:

In the name of the Commonwealth of Massachusetts you are hereby directed to notify and warn the legal voters of said Maynard to assemble in Co-operative Hall in said town, on Monday, the 10th day of February, 1919, at 6 A. M., then and there to act on the following articles:

Article 1. To choose a moderator to preside at said meeting.

Article 2. To choose by the Australian system of balloting the following town officers: One town clerk, one town treasurer, one collector of taxes, each for one year; one overseer of the poor for three years; one member of the board of health for three years; one water commissioner for three years; one member of the school committee for three years; one assessor for three years, and one assessor for one year; one trustee of the public Library for three years; one tree warden for one year; two auditors for one year; three constables for one year; one cemetery commissioner for three years; moderator for one year; and all other town officers to be chosen at said meeting. Also to answer by the Australian system of balloting the following question: "Shall licenses for the sale of intoxicating liquors be granted in this town?" For the purpose specified in this article the polls will be open after the reading of the Warrant, and will remain open until four o'clock in the afternoon, when they shall be closed unless the meeting there assembled otherwise determine.

Article 3. To hear and act on the reports of town officers and committees.

Article 4. To see if the town will authorize the Treasurer, with the approval of the Selectmen, to borrow during the municipal year beginning January 1, 1919, in anticipation of the taxes of the said municipal year, such sums of money as may be necessary for the current expenses of the town, giving the

notes of the town therefor, payable within one year from the date thereof.

Article 5. To see if the town will accept the sum of one hundred dollars (\$100.00) as a fund, the interest of which to perpetually care for the A. E. Garlick lot in Glenwood Cemetery. To do or act thereon.

Article 6. To see if the town will accept the sum of one hundred dollars (\$100.00) as a fund, the interest of which to perpetually care for the Abel G. Haynes lot in Glenwood Cemetery. To do or act thereon.

And you are directed to serve this warrant by posting an attested copy at the Post Office and one at each of ten other public places in said town, seven days at least, before the time of holding said meeting.

Hereof fail not, and make due return of this warrant with your doings thereon, to the Town Clerk or the Selectmen, at or before the time appointed for holding said meeting.

Given under our hands this twentieth day of January in the year of our Lord, one thousand nine hundred and nineteen.

FRANK S. BINKS,  
HARRY B. MORSE,  
ALBERT J. SMITH,  
Selectmen of Maynard.

## REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Committee, Maynard, Massachusetts.

Gentlemen:—

I herewith submit for your consideration my fourth annual report as your Superintendent of Schools.

### THE EPIDEMIC

In addition to the losses of ordinary years through sickness, change of teachers, etc., we have to report, in common with towns throughout the country, the serious interference caused by the influenza epidemic, which compelled the closing of the schools for five weeks of the fall term. This has offset somewhat the advantages we had hoped to gain in the lower grades by having all schools on full time, as a result of the occupancy of the new Nason Street school; but with the plans adopted for making up part of the time lost and the more intensive work made possible by the spirit shown by teachers and pupils, as well as carefully considered plans for the work, it is very probable that, if we can avoid further interruptions, there will be little real loss of efficiency for the year.

By combining the last three terms, which ordinarily are of eight weeks each for the high school and all but the last of the same length for the grades, with two vacations of a week each, into two terms, one of twelve weeks and the other of thirteen weeks, the grades will make up three weeks and the high school one week. By having sessions on Wednesday afternoons from January 8 to June 6, the high school will make up another two weeks. Grades 7 and 8 will have Wednesday afternoon sessions only through the winter term, thus gaining one week. By this plan grades 1 to 6 will have thirty-six weeks, grades 7 and 8 thirty-seven weeks, and the high school thirty-eight weeks of actual time by the end of the year. The State Board of Education has agreed to accept this amount as a year's work for the high school, in place of the forty weeks required by law in ordinary times.

### DEPARTMENTAL WORK

Last year we made a partial trial of departmental work in grades 7 and 8. This was extended last fall, until now, instead of having five teachers, each trying to cover all subjects with one section, we have the same number of teachers, each teaching one subject to five sections, and three of these also taking one or more additional subjects in order to cover the whole course of study. Mrs. Hatch has Language; Miss Galvin, Arithmetic; Miss Fox, Geography and Reading; Miss Hassett, History and Writing; and Miss Sullivan, Music, Drawing, Physiology and Spelling. There are two divisions of the

eighth grade and three of the seventh, according to scholarship. A minimum of work, sufficient for promotion at the close of the year, is set for the lowest divisions, and additional work, known as "honor" work, depending upon the willingness of the pupils, will be allowed in the highest divisions. For example, section A of grade 8 will be taught a little conversational French, such Latin as will be of help in learning the derivation of words and the principles of grammatical structure, elementary algebra and constructional geometry, and a little work in civics. The work in this division will be expanded in all ways which will increase the knowledge and interest of the children without detracting from their mastery of the essentials and the same will be done in grade seven, if conditions allow. Provision is made for the promotion or demotion of pupils from one section to another, according to the quality of the work done. In this way, except for practical arts and manual training, we have substantially a Junior High School, in so far as relates to these grades. If the experiment succeeds, we can, without any undue change, have the complete working of the Junior High School; if it fails, we can go back to former conditions without any loss or fundamental change.

Each teacher has charge of the children for an hour each day, the pupils changing from one room to another. The hour is spent according to the needs of the occasion, but in general one half is given to supervised study and the other to teaching and recitation.

One advantage of the plan is the better preparation which the teacher can make for her own work and the planning ahead for that of the pupils. The moving about gives the children a change, and is done without disturbance, classes changing in an average of about two minutes. It is possible to make a saving in equipment and at the same time to make this more varied; since often one set of material is needed instead of the five which would have been required under the old system. Any disadvantage which might have been caused by having some subject come at a time in the day when the children might not be in a fit mental state to do their best work has been overcome by a system of rotation, by which the time at which each class recites is changed an hour each week, the lesson which came at the last hour one week coming on the first hour the next week, and so on. While it is early to forecast results, the interest and approval shown by pupils and teachers would seem fairly indicative of success.

## BUILDINGS AND GROUNDS

Such repairs as the funds available permitted have been made. The lower floor and basement at the Bancroft School were painted and varnished during the summer, and the upper floor during the Christmas vacation. Metal weather strips have been put on the windows on the north and west sides of

this building and on three sides of the upper floor at Summer street, and these will not only add to the comfort of the pupils but aid in saving fuel. A concrete walk was laid from the front door to the sidewalk at Bancroft street. Concrete should be laid around the basement of this building, and a set of steps put in to enable the children to reach the playground easily. In icy weather now the children slide down and crawl back. New shades are needed throughout at the Bancroft street building, those now in use having been installed at the completion of the building, nearly a dozen years ago. Painting the basement at Main street would complete the renovation of these buildings and leave them in fine shape. The grounds at the Summer and Nason street schools should be graded and seeded, and the lawn in front of the Bancroft street school seeded. I believe some money is still available from the building funds to take care of part of the work at the two new buildings, but do not know if this is sufficient for all of it.

If these things are attended to this year, all buildings will be in a condition which should make unnecessary any but minor repairs for several years.

## WAR WORK

The winning of the war was undoubtedly hastened by the aid of the school children of the country and we have no reason to be ashamed of the part taken by the schools of Maynard. In addition to knitting and other work, an accurate account of which could not be kept, the cash contributions were large.

As an indication of the spirit shown may be related the response to the appeal for funds in the United War Work Campaign. One feature of this drive was the attempt to induce as many children as possible between the ages of ten and twenty to promise to earn and give a stated sum, to be payable in instalments between December and March. The committee in charge of this district estimated that the quota for Maynard would be one hundred Victory Boys and as many Victory Girls, and it was expected that many of these would be children no longer in school but at work. Of the school children alone, 216 boys and 217 girls signed the pledge cards, with a total of \$995.50. The ten boys and eleven girls outside of school who also signed the cards brought the total amount of pledges up to \$1,080. There were pledges of five dollars each from 62 boys and 72 girls, while the number of pledges for less than that amount were 164 and 156 respectively. One-half of these pledges were paid by December 2, and approximately three-fourths have been paid at the time of this writing.

In response to the appeal of the government for material for making carbon for gas masks, the children collected three bushels of peach pits, and about two and one-half bushels of other pits, nuts and shells. For a year when not a quart of peaches raised in Massachusetts was for sale in our markets,

and nuts were not plentiful, this is a remarkable showing. The children also salvaged a large amount of tin foil and other articles.

Whatever has been asked of the children has been done, from the planting of war gardens immediately after the declaration of war to the taking of the extra holiday called for by the Governor to celebrate the signing of the armistice, after the glorious jubilation of the day before. The part still remaining for them to do is light in comparison with that already done; but if other demands upon them should be necessary before peace is actually signed, the schools are ready for mobilization at a moment's notice.

The following tabulation of cash contributions by the school children is as nearly exact as it has been possible to make it from our records. Except for Liberty Bonds, each item is for the year 1918 only.

Liberty Bonds	\$18,100.00
War Savings Stamps	2,865.00
Red Cross Contributions	131.35
Overseas Fund	129.46
Victory Boys and Girls	995.50

## TEACHERS

In addition to an unusually large loss from our teaching force during the summer, owing to the shifting about everywhere due to war work, we have had to fill two positions since the re-opening of school. Miss Colman, one of the second grade teachers at Bancroft street, was obliged to resign because of family reasons; and Miss Andrews, who was teaching one of the sixth grade rooms at Nason street, gave up her work on account of ill health. In seeking new teachers we were made aware at once of the application of the law of supply and demand, but were successful in filling all vacancies. With the cessation of the war the lack of teachers everywhere will no longer be felt so severely.

Besides the difficulty of retaining or securing teachers we have had to face in Maynard a situation which has always been acute but now is almost unendurable, and that is the boarding problem. We were obliged a year ago to hire a house, secure a housekeeper from out of town, and move her goods for her. During the five weeks of the epidemic, the loss of revenue caused her to be discouraged and leave; with the result that for the third time in a little over a year a large number of teachers returned to their work to find no place where they could secure food. Some were taken care of in private families, merely as an accommodation, and the others are shifting for themselves in one way or another.

The time is very near, in fact it is here now, when Maynard must provide accommodations for the teachers. In addition to their very moderate salaries, as compared with what might be

earned in other occupations, teachers should not be subjected to the uncertainty of the board problem and the humiliation of accepting as a favor or accommodation what should be merely a business proposition. It has happened that good teachers have refused to come here when they understood the situation, although satisfied with the salary and other conditions. With the money invested in our excellent buildings and the adequate provision made for other needs, the town cannot longer afford to neglect this problem. Apparently the only way is to build a house and provide a housekeeper. There will arise, of course, new problems in connection with such an enterprise, but they cannot be so serious as those which now confront us.

### TEXTBOOKS AND SUPPLIES

The schools are well supplied with books, except that we shall need some more supplementary readers in order to follow out the State Courses of Study in Geography and Reading. As books wear out they must be replaced, as putting a torn and dilapidated book into the hands of a child is the poorest sort of economy. The war has brought an insistent demand for teaching along certain definite lines, and this will require some new investment in books, especially in patriotic readers. The total expenditure will not be very large, but it can hardly be expected that our book bill will be greatly reduced from year to year.

Agents of supply houses assure us that there is little reason to expect any reduction in prices before next fall, and not much then. Supplies are a fairly constant need, and we have kept stocked with from a half year to a year's supply of the most important items. The work of the schools has never been allowed to slacken for lack of these things, and the reserve supply should be kept up. We shall need to anticipate at least as great an outlay for supplies for the coming as for the past year.

### CONCLUSION

It is rather early to predict whether the handicap of the epidemic can be sufficiently overcome to enable us to do a full year's work by the end of the school year, but I believe there will not be a serious loss of efficiency. Pupils and teachers are attacking the work with a spirit which shows their determination to do their best and to express their appreciation of the excellent equipment which the town has so generously furnished them. With seating accommodations for all pupils for full time, we expect to make this year a better one, in spite of handicaps, than any in the past.

Very respectfully,

WM. H. MILLINGTON,

Superintendent of Schools.

Maynard, Mass., Jan. 15, 1919.

# REPORT OF THE HIGH SCHOOL PRINCIPAL

1918-1919

Supt. William H. Millington,  
Maynard, Mass.

Dear Sir:—

With pleasure I submit to you my third annual report on the High School.

When school opened in September the Great War was at its height. Some of our senior boys were expecting to be enrolled by our national government in the late winter and early spring. We found four new lady assistants and a new commercial secretary. This apparent handicap soon disappeared as the new teachers entered upon their work with energy and interest. The epidemic of influenza in September and October caused a five weeks' vacation that gave the school a bad setback just when things were beginning so well. Much of the lost ground will be gained by June with the new calendar, omitting the late winter recess and the Wednesday afternoon holiday.

## ENROLLMENT

The total enrollment for the fall term was as follows:—

	Girls	Boys	Totals
Seniors	18	12	30
Juniors	10	7	17
Sophomores	11	18	29
Freshmen	40	24	64
	—	—	—
	79	61	140

Withdrawals from school have been few; three girls, one of whom moved out of town. We regret the loss of one of our senior girls, Florence Mallinson, who died during the influenza epidemic in October. Miss Mallinson was always a faithful student, careful and accurate in her work and regular in attendance.

Our school today has 136 pupils as against 118 last year. With the war ended and the demand for labor less insistent, we should gain in membership from now on.

## CHOICE OF COURSES

	Academic	Commercial	Totals
Seniors	16	14	30
Juniors	7	10	17
Sophomores	18	11	29
Freshmen	19	43	64
	—	—	—
	60	80	140

It is important that first year pupils select their subjects

with care. English and Commercial Arithmetic are required. For his other two units, the pupil has his choice of Latin, Spanish, Ancient or English History (alternate years), General Science, Community Civics and Typewriting. Of these, General Science, Spanish, and Typewriting were generally selected last June. Spanish is too difficult for a pupil who does not want to study Latin. Failures in Spanish are more numerous than in Latin. Community Civics, a live up to date study, valuable to all prospective citizens, should be required of all first year pupils who do not elect History.

### ATTENDANCE

Our attendance record for the last year showed an improvement over the year before, 96.32 instead of 94.93. With the prevalent epidemics this year many days of schooling will be lost to our pupils, most of whom have tried for a good record of attendance. Half the school had perfect records for the fall term. At graduation eleven pupils received certificates of perfect attendance.

### PUPILS IN SUBJECTS

The pupils in the various subjects during the past three years are shown below. English and Commercial Arithmetic are required subjects.

	1918	1917	1916
English	140	124	155
Typewriting	80	73	80
Com. Arith.	64	48	61
Gen. Science	43	34	26
French	40	28	49
Algebra	26	11	
Latin	25	22	39
Bookkeeping	23	30	25
Stenography	23	30	25
Am. History	20		7
Spanish	20	16	58
Biology	19	10	28
Eng. History	19		17
Chem.	13		10
Geom.	7	14	
Com. Civ.	3	15	13
German	3	12	10
Ancient Hist.		26	
Med. & Mod. Hist		12	
Physics		9	
Mech. Draw.	45	48	91
Free Hand Draw.	42	29	47

### SCHOLARSHIP

Our school today is on a definite scholarship basis. Every pupil knows just where he stands. Failures last June were few

as compared with the previous year. Our freshmen know when they enter that they must work to pass in high school. The older pupils who are looking towards college or normal school understand that they must attain 80 to be certified. As our recent graduates now in college have made good records, we hope this year to obtain the certificate privilege for a three-year instead of a one-year period. The most noticeable result of a quasi senior-junior high school, such as we now have, is that the gap long existing between the eighth grade and the high school has been practically closed. The freshmen of last year's and this year's classes have taken hold of their new work with little or no hesitation.

### SCHOOL LIBRARY

We are glad to report that a beginning has been made of a central library in the former office of the superintendent. With the large stack from the town library we have ample room for the new books of reference recently acquired and further yearly additions. Many valuable reference books in English and History, lost in the Nason St. fire, have not been replaced. We have the National Geographic Magazine, The American City and various publications from the national government and the colleges on file. We hope to see a good library of reference in our building in a few years.

### SPECIAL SUBJECTS

Miss Rideout's classes did good work in drawing last year. Pupils above the first year who are going to college or normal school will make no mistake if they take drawing four years. The advanced mechanical drawing class is a trifle handicapped, since there are three classes in one.

Mr. George H. Woods continues to lead our high school chorus on Thursday afternoons. The value of chorus singing in securing morale among our soldiers has been successfully shown in our training camps. A surprisingly large number of our pupils do not sing.

### WAR TIME ACTIVITIES

The pupils have quickly and generously responded to the various calls for money for Red Cross, Liberty Bonds, War Savings Stamps and United War Work. The school orchestra gave their services several times last year. Much valuable clerical work for the Liberty Bond Clubs and the Overseas Committee has been done by pupils of the Commercial Department under the direction of Mr. Kennedy.

### ATHLETICS

Our baseball season was brief last spring, owing to the fact that our former competitors had no teams. The need of physical training is clearly seen today as never before as a consequence of the Great War. With our afternoons occupied daily

until 3.45, we shall have little time for organized school baseball next spring.

### GRADUATION OF 1918

The graduation exercises of the class of 1918 were held in Colonial Hall, Wednesday evening, July 3, at 8 o'clock.

#### Program

"Marche aux Flambeaux"	Scotson-Clark

Mildred Pauline Hendrickson	Mary Madeline Sperberg
Bessie Blanche Kierstead	Lillian Elsie Townsend
William Vincent Maley	Edward Michael Wardzala
Albert Joseph Mullin	Veda Lucy Whitney
Walter Joseph Mullin	Elizabeth Ellen Wilson
Francis Leonard O'Brien	Mary Lucella Wood

The class of 1918 made an excellent record for itself. Anna Coughlin, Lillian Townsend and Mary Wood entered Fitchburg Normal School, Madeline Flagg is at Boston University, Albert Mullin is at B. U. Law School and Walter Mullin is at Tufts College. James Eaton, who took a post-graduate course, entered M. A. C., where he joined the Students Army Training Corps. He has now enrolled at Tufts College. Five Remington Gold Medals were won by pupils of the Commercial Department, a fine record. The graduates secured good positions.

#### GIFTS TO THE SCHOOL

The class of 1918 at graduation presented to the school two pictures, Alma Tadema's, "A Reading from Homer," and "The Roman Coliseum."

"1918"

The past year will always be memorable for the great part taken in the World War by our country. Our pupils have seen what it is to be patriotic. Education has meant more to them in 1918 than ever before. History has been more vital, Science more practical, French more necessary, Commercial Subjects more valuable. The work of the school has been interesting and profitable to the pupils.

The Commercial Department under Mr. Kennedy's efficient direction continues to turn out pupils well fitted for business positions, as the records of the graduates show.

The whole country is awake to the fact that we need a National system of education, a reorganization of education to meet the new needs of our country. Meantime we can hold fast to the essentials of high school education as we have them developed today in Maynard, feeling sure that what we have is a generous provision for the needs of our boys and girls.

In conclusion permit me to express to you and your committee my thanks for renewed evidences of your confidence in the present administration of the High School.

Respectfully submitted,

HORACE F. BATES,

Principal of the High School.

## REPORT OF COMMERCIAL DEPARTMENT

Maynard, Mass., February 1, 1919.

To the Superintendent of Schools:

Since the organization of the Commercial Department in September, 1912, it has been my congenial duty to submit a statement of the progress made in building up and operating this course in business subjects. At this time, I present the seventh annual report of the Commercial Department, Maynard High School. There has been no year since the beginning in which so many circumstances have arisen to excite our enthusiasm and stimulate courage as in the past twelve months. There are many things to cause us to feel this way, but that which affords the most satisfaction is the remarkable enrolment of this year. With the schools in nearly every community reporting a greatly decreased membership and the exorbitant prices paid for labor, we naturally expected out attendance would be cut to a very great extent. While a loss in membership was looked for throughout the entire school, we felt that the Commercial Department would suffer mostly in this respect because the prosperous times would have a stronger appeal to the students in this department. A period of extreme prosperity or depression would affect our attendance sooner than that of the Academic division and in a more serious way; for the average student taking commercial work looks forward to the time when he can become a wage earner, and as a rule, comes from a home that requires him to assume his own responsibilities as early as possible. Notwithstanding this, however, we opened the school year not only holding our own in the matter of attendance, but with a slight increase, having eighty students taking the Commercial Course against seventy-three the previous year, and sixty in the Academic division against fifty-two last year.

It is very gratifying to have the attendance increase from year to year, but there is something which I consider even more complimentary, on the part of the citizens, to the work of this department and this is the fact that we get "repeat orders." These, to a business man, are considered his highest testimonial. Our "repeat orders" are students now taking the course whose brothers, sisters, and other relatives in previous years also took commercial work. This is true in some cases where three and four children from the same family have come up from the grades year after year, and selected the Commercial Course. This enthusiasm is aroused and maintained, I believe, chiefly through the quality of work required and the results secured. "Accuracy First" is the motto that we adopted early in the organization and both students and faculty have not lost sight of it at any time.

## CIVIL SERVICE POSITIONS

In the early Spring an examination was held by the Board of Civil Service Examiners to fill positions of stenographers and typists in government work. Five young people who have attended the Commercial Department took and successfully passed this test and all have been appointed to positions. The salary paid in this line of work is at the rate of \$1,100 per year for the first three months and \$100 a month thereafter. This is an exceptionally good price, due to war conditions, but there always has been and probably always will be an unfilled demand for male stenographers and accountants in government work. Positions are usually available for those who are willing to go to various parts of this or foreign countries and these young people look forward to retaining their places with the government. Other students, who did not care to go so far away or into this activity, have been employed in business houses in Boston and vicinity with such concerns as the American Tobacco Co.; N. E. Hollis & Co., wholesale provisions; the office of the Supervisor of Administration, State House, Boston; Commercial Credit Co., Worcester; Smalley, Kivlan & Onthank, Boston; The Middlesex Mutual Fire Insurance Co., Concord, etc.

## THRIFT STAMP CONTEST

An item appeared in one of the Boston papers last Spring making considerable comment on the fact that a school in Providence was giving thrift stamps as prizes in their industrial work. At the time, thrift stamps had already been offered as prizes for more than three months previous to the students of our Freshman typewriting class receiving the largest number of credits each week, and this practice is still continued. The plan is a good one and accomplishes three worthy purposes. It is a patriotic system of saving; it creates a spirit of competition which is a decided advantage in the Freshman class; and last but not least, it teaches the habit of thrift, something the children of today may well have brought to their attention.

## GOLD MEDAL AWARDS

The Remington Typewriter Company offers to any student in any school, both in this country and abroad, a gold medal and efficiency certificate to those who pass the test of speed and accuracy. The requirements to be met for this prize are that the contestant must write at the rate of fifty-five words per minute, net, for ten consecutive minutes with not more than five errors, working on unfamiliar matter. The following students of the class of 1918 were successful in passing this test with these credits: Ruth Clark, sixty-two words per minute, net; Ethel Parmenter, sixty-one words per minute, net; Mary Sperberg, fifty-nine words per minute, net; Sophie Siemieniak, fifty-seven words per minute, net. These four medals and the one to Edward Wardzala with a record of sixty-six words per min-

ute, net, which was recorded in my last year's report, make five gold medals for the class of 1918, and a total of seven coming to this town. The class of 1919 is now hard at work to better this record, and, judging from the present prospects, it is more than likely they will accomplish that purpose. The work we have done in this way has favorably established the reputation of the Commercial Department with the Employment Division of the Remington Company, and we have been called upon by them to furnish students to fill positions where work of quality is required.

### A COURSE FOR SPECIAL STUDENTS

There is another matter I wish to bring up at this time to which I have given considerable thought in the past, and that is a post-graduate division. Nearly every year there are several students, who, having taken other lines of work in high school, find on graduating they are unable, or do not care, to go on to some higher institution of education. They often accept employment in some inferior capacity because of this seeming disappointment, and it is in an endeavor to assist such as these that the installation of this post-graduate work is proposed. In this way, such students on graduating from high school would be enabled to take up work in the Commercial Department business subjects, as a stepping stone to a college or industrial training. When this special work is completed, it will leave in the hands of the student the equipment for filling a good business position in the city and thus make available, after business hours, the many advantages offered in evening work toward a college or industrial education. It will put them in a position to meet their own expenses during their college or other future training. This special work should also be offered to any citizens of Maynard, of any age, whether they have attended this school or not, provided of course they have had an elementary preparation. The work may be arranged so as to afford a very thorough course and the student may go on in an individual way as rapidly as his ability will permit. The time required for the completion of the work will depend entirely on his efforts, as is the case in private commercial schools.

The present year has been a trying one because of the many interruptions we have had in our work. The schools were closed five weeks on account of the influenza epidemic after having only three weeks in school since the summer vacation. Then in the course of a few days, we had a two days' celebration when the armistice was signed, which, although a very welcome event, made another break in the start we tried to obtain. The Thanksgiving and later the Christmas vacations came along in a few weeks more, and after Christmas we were much hampered by the large numbers who were absent with colds and other winter affections. Delays like these are detrimental to any line of school work and particularly so to our commercial work, which has for the past three years been done exclusively, with the ex-

ception of typewriting, in the Junior and Senior years. We are all working very hard to make good these losses and too much cannot be said in praise of the zealous spirit shown by the students in this respect. A large amount of outside work is being done, that is outside of school hours, but which requires them to be at school both before and after sessions. This work is entirely voluntary on their part. I am very confident that before the end of this school year, the difficulties caused by absence will have been overcome and I look forward to the class of 1919 going into the business world and sustaining the excellent record made by our former graduates in positions of trust and responsibility.

I do not like the formal closing to a report which usually comes by way of extending thanks for consideration received, simply because it's too formal; but I honestly cannot conclude my statement of events without expressing for myself and student associates our very sincere appreciation of the many courtesies we have received and the hearty co-operative spirit shown us by the Board of Education and others interested in our work.

Respectfully submitted,

GEORGE A. KENNEDY,

Head of Commercial Department.

## REPORT OF SUPERVISOR OF DRAWING

Mr. William H. Millington,  
Superintendent of Schools,  
Maynard, Massachusetts.

It gives me great pleasure to submit the report for the work in drawing for 1918.

In the grades the work throughout the winter term was object drawing. In the primary classes the children learned the meaning of "level," "vertical" and "slant" by means of simplified drawings of things in which they are interested, such as automobiles, trolley cars and boats. The upper grade pupils were taught to see proportions, to draw objects with foreshortened circular surfaces, and also the correct representation of rectangular forms in various positions. The work of the spring term consisted of design and nature drawing. The seventh and eighth grade children were interested in making War Savings Stamp posters for a government contest. In all the grades the children took pleasure in making Valentines and Easter cards. In the autumn little nature work was done because of the unscheduled vacation but there has been work in design, color and cardboard construction. The smaller children acquired a "vocabulary" of objects such as houses, birds, geese and turkeys. At Christmas a variety of boxes, baskets and cards were made.

In the High School mechanical drawing classes the Freshmen covered a satisfactory amount of work from the textbooks, comprising lettering, use of instruments, the making and reading of working drawings. The new class is making good progress in spite of lost time. In the advanced classes the pupils reviewed working drawings, studied geometric problems and simple machine drawings from textbook and blue prints.

The classes in freehand drawing made War Savings Stamp and other patriotic posters in preparation for which they studied lettering and figure drawing. Color theory and perspective were also in the course. The advanced class studied the elements of interior decoration and planned the furnishings for a room. The present classes have had lettering, work in color theory, pose drawing and design.

I wish to thank the teachers in the grades for their hearty co-operation in all of the drawing work during the past year.

Respectfully submitted,

GERALDINE M. RIDEOUT,

Supervisor of Drawing.

January 14, 1919.

## REPORT OF SUPERVISOR OF MUSIC

To Mr. W. H. Millington,  
Superintendent of Schools.

Allow me to submit the following report on music in the public schools of Maynard for the year 1918.

### MUSIC

In all the schools the pupils realize that music is an essential part of the curriculum and are studying it as regularly and faithfully as they are any of the other branches. Furthermore, we are convinced that they enjoy the work.

Throughout the country there is a popular wave in favor of community singing. We believe that this general singing will be much stimulated by the good work in music now being done in the schools.

### MUSIC READING

While the results in music reading are good, yet we feel that the breaking up of the school work caused by influenza has created unfavorable conditions, not only in music but in all studies. However, we are very much encouraged over the progress the pupils are making in this phase of the subject.

### HIGH SCHOOL CHORUS

Our report would not be complete without mention of the good work being done by the high school chorus. It promises to be as good as any we have had in the past, or better.

### MUSIC APPRECIATION

The study of music appreciation is a portion of every lesson given in music and is continuing successfully as heretofore. Tone quality, musical interpretation, part singing, and individual work are features of the music in various parts of the school system.

In closing I desire in this report to extend thanks to the superintendent and to the teachers for their encouragement and co-operation in my work.

Respectfully submitted,

GEORGE H. WOODS,

Supervisor of Music.
