REPORT OF THE BOARD OF ASSESSORS

For the Year Ending December 31st, 1919

We regret that each year we are obliged to make the tax rate higher than the previous year to meet the obligations of the town.

For this continuous increase in the burden of taxation the voters who make the appropriations at the town meeting are largely responsible.

Some important changes in laws regulating taxation, go into effect this year, with which it is important that tax payers should be familiar.

To obtain a just and equitable assessment it is necessary for the tax payer to submit, between April 1st and May 15th, a statement under oath of their taxable property.

For the year 1920 and the following three years every poll tax will be for five dollars instead of two dollars as in former years.

Veterans of the Civil War are assessed for the full poll tax, but are entitled to an exemption of their poll tax, by making application therefor to the Assessors.

Soldiers and sailors of the German war are entitled to an exemption from the payment of the poll tax, while in service and for the year in which they receive their discharge.

All poll taxes are collectible on demand any time after April 1st in the year of assessment.

As the law requires the town to pay to the State three dollars for every poll tax assessed, whether collected or not, it is important that every poll tax be collected.

GAVIN TAYLOR,
Water Commissioners.

SUPERINTENDENT'S REPORT

To the Board of Water Commissioners:

Gentlemen—The report of the superintendent and registrar, together with the report of the engineer, for the year ending December

31, 1919, is herewith submitted.

The water in White Pond has been well over the intake pipe all the year.

We have not been able to do much work on the conduit line this year owing to necessary work elsewhere, but the line has been cleared for a distance of 500 feet.

The old brick well at the pumping station has been repaired by rebuilding the inner wall where the brick had been knocked out by the action of the ice and water.

Although the pumping engines have been in service for thirty years they are in very good condition. The pumping record and the condition of the pumping plant will be found in the engineer's report.

MAINS

There have been four leaks repaired in the mains this year. Two were where the packing around the stem of the gate had to be repacked, one where a joint was leaking. The most serious leak occurred at the river crossing on Great Road, here the pipe was pulled apart where it rises from the river to the street. A new connection was made here and the pipe was boxed to prevent freezing.

Following are the extensions made during the year:

| | | |
|-------------------------|--------------------------|-----------|
| Roosevelt Street | 30 feet 6 | inch pipe |
| De Mars Street | 506 feet 6 | inch pipe |
| De Mars Street | 506 feet 6 | inch pipe |
| Arthur Street | 276 feet 4 | inch pipe |
| McKinley Street | 30 feet 4 | inch pipe |
| Marlboro Street | 280 feet 4 | inch pipe |
| Butler Avenue | 72 feet 4 | inch pipe |
| Elmwood Street | 178 feet 4 | inch pipe |
| Uclid Avenue | 80 feet 1 $\frac{1}{4}$ | inch pipe |
| Parmenter Avenue | 40 inch 1 $\frac{1}{4}$ | inch pipe |
| Street of Parker Street | 100 feet 1 $\frac{1}{4}$ | inch pipe |

The hydrant on Forrest Street was moved to conform to the sidewalk.

At the corner of Main and Mill Streets a connection has been made so that the water can be passed through a meter. This will be convenient when it becomes necessary to test the mains for leaks.

SERVICES

Leaks have been repaired in seven services. Thirteen services have been cleared. Eight lead connections have been taken out where services have been discontinued. Fifty-four new services have been put in making the number now in use 1138.

METERS

One hundred sixty-five meters have been changed. Fifty-one meters have been set, making the number now in use 1124.

I have been looking into the matter of a new pumping plant and

expect to be able to recommend a satisfactory plant this year. I wish to thank the Water Commissioners for their support during the year.

Respectfully submitted,
WILLIAM NAYLOR, Superintendent.

ENGINEER'S REPORT

To the Superintendent:

Sir—The machines at the station are in fair condition. Only a few minor repairs were made on them during the year.

The boilers and fixtures are in first class condition. New fusible plugs were put in both boilers. No other repairs were made on the boilers during the year.

Stock on hand January 1, 1920: 60 valve springs, 15 pounds cotton waste, 32 pounds piston rod packing, 25 pounds square flax, 15 pounds sheet packing, $\frac{1}{2}$ gallon metal polish, 5 gallons cylinder oil, 35 gallons engine oil, 50 gallons boiler compound $\frac{1}{2}$ barrel grease, 100 pounds fire clay and 15 tons coal.

FIRE DEPARTMENT REPORT

To the Honorable Board of Selectmen,
Gentlemen:

We herewith submit our annual report of the doings of the Fire Department. We have just closed a very successful year as regards the number of fires and the fire loss. We have responded to the smallest number of bell alarms for many years, namely, ten, four of which were of uncertain origin with very little loss in each case. By a little detective work and the help of the police, the party soon fell into a trap and we have had no trouble since. We have also responded to the largest number of still alarms for a long time, namely twenty-nine. An Insurance Inspector commended us by saying "that we are beginning to get the fires down to where they belong."

There are altogether too many needless fires caused by carelessness and could be avoided by the co-operation of the citizens. It has been the desire of the Engineers for a long time to have monthly inspections of the buildings in the business section to try and stop the useless accumulation of paper and rubbish of inflammable nature in basements and stores, to see the fire extinguishers are in their proper places and cared for, attend fire drills at the schools, etc., but we are pressed to the utmost economy to get by on the money we are allowed to spend for maintenance of the department. The fires should be fought before they occur and we are endeavoring to watch out for these things, but on the salary we receive we cannot give the time that we would like. We earnestly request any one knowing of a fire hazard that you will call it to our attention and if within our power we will try and stop it or have it removed.

The apparatus is in first-class condition except for one horse that should have been at Red Acre Farm three years ago.

The hose is in good condition for another year.

The alarm system is working fine and with the addition of a new motor generator which we are to install next year will be good for a number of years. The system is now completely new wired and in the near future two or three new fire alarm boxes will be needed, but at this writing it is not thought best to state just where they should be placed.

Three of our men who have been in the war service have returned to their places and everything is running smoothly.

The foundation of the building is rotting badly, causing the doors to work unsatisfactory and while we ask the sum of \$5700 for the maintenance of the department for the coming year, there is much more money that should be spent about the premises and we feel that we have sat on the safety valve as long as we should and we earnestly hope that when you read this report you will think of the necessity of caring for the town property, also think of the improvements we could make in the matter of inspections, also, we believe that some of our department should be sent to the Drill School.

Below is the financial report and we would state that we owe several small bills which amount to about \$100 which we were unable to pay out of our allotment but will be cared for next year.

Instructions for Giving Fire Alarms

Alarm should be given from the box nearest the fire. On each box there is a small box with a glass door that holds a key. Break the glass, take the key, unlock the box, pull the hook clear down once and let go. After giving an alarm remain at the box and direct the firemen to the fire.

Never open the box except in case of fire.

Never sound an alarm for a chimney fire or a brush fire, or a fire seen in the distance. Telephone the fire station or the fire engineers.

REPORT OF FINANCE COMMITTEE FOR THE YEAR 1919

The committee held a joint meeting with the Selectmen at which Mr. C. P. Abercrombie, Jr., vice-president and general manager of the C. M. & H. Street Railway, was present and stated the financial condition of the road and asked the town to help them **out** to the extent of one dollar on a thousand of its valuation, as authorized by a general act of the Legislature of 1918, Chapter 288, Sec. 1, which he is asking of the other four towns on the line. Maynard's tax would amount to \$4,547.

After quite a lengthy discussion action was deferred until the next meeting.

February 25.

Met to take action on a Town Warrant calling a meeting March 3, and take action on articles not acted on at former meetings.

Article 6.

For demonstration work in agriculture and home economics—We recommend the appropriation of \$50.

Article 7.

To celebrate the home coming of Maynard's soldiers and sailors—We recommend the appropriation of one thousand dollars (\$1,000) to be placed in the hands of the Selectmen.

Article 8.

We recommend that the town assist the C. M. & H. Electric Road under conditions which it was left with our chairman to incorporate in a motion to be presented to the Town Meeting.

April 22.

Met on call of the Town Moderator to organize for the ensuing year. Joshua Naylor and H. A. Harwood were present as reappointed members and T. F. Parker appointed in place of Alfred E. McCleary, who declined reappointment. The new members reported they had qualified which was accepted.

Organized by electing Wm. H. Gutteridge, chairman; H. A. Harwood, clerk.

June 11.

Met to consider a Town Warrant calling a special Town Meeting June 18.

Article 2.

To see if the town will appropriate a sufficient sum of money to oil the streets.

We recommend that the sum of fourteen hundred dollars (\$1,400) be appropriated for oiling the streets.

October 6.

Met to consider articles in a Town Warrant calling for a Town Meeting for October 7.

Article 5.

We recommend the appropriation of three thousand five hundred dollars (\$3,500) for the purchase of the Annie T. Doherty estate on Glendale Street for school purposes.

Article 6.

We recommend the appropriation of three thousand five hundred dollars (\$3,500) for furnishing more school rooms and teachers required by the increase of scholars.

Article 7.

We recommend the appropriation of two thousand five hundred dollars (\$2,500) required by the Overseers of the Poor to carry them through the year.

January 15, 1920.

After consulting with the officials of the different departments as to their requirements for the ensuing year, we recommend the following appropriations for 1920:

| | |
|---------------------------------------------------------------------|-------------|
| Schools | \$55,000.00 |
| Street Lights | 4,300.00 |

REPORT OF MAYNARD PUBLIC LIBRARY TRUSTEES, 1919

To the Citizens of Maynard:

The Trustees, during the past year, have made one or two changes in the conduct of the library that tends to better service—the old ledger system of charging books was discarded and, in its place, we have installed an up-to-date card system which is giving the best of satisfaction not only to the reading public but to the librarians as well.

The salaries of the librarians have been raised during the year—this was in accordance with the times as wages in all vocations have been increased.

Again, the trustees are facing the question of adequate room for the library and if the town, at some future time, decides to erect a memorial building, it is hoped that space in such a building will be set off for a public library.

At a recent meeting of the trustees they have decided to adopt the following rules:

The library will be open every day from half past one (1.30) until six (6) o'clock and from seven (7) until nine (9) o'clock. Saturday continuously from one thirty until nine.

Children under high school age must use the reading room between the hours of 1.30 and 6. This will leave the reading room open to adult readers from 7 until 9 each day. This rule does not prohibit a child from coming to the library to obtain a book at any time.

It is with regret, that the trustees announce the resignation of our assistant librarian, Miss Nellie May, who, after seven years of faithful service, finds that her duties as principal of the Roosevelt School are all she can attend to. To her position, the trustees have appointed Mrs. Mary Moynihan; the new assistant assumed her place the first of January 1920.

The trustees feel that owing to the extending of the opening hours of the library that an appropriation of nineteen hundred dollars (\$1900) and the dog tax will be sufficient to meet their needs for the coming year.

The statistical and financial reports are as follows:

| | |
|----------------------------------------|--------|
| Number of books in library ending 1918 | 6,595 |
| Number of books bought in 1919 | 123 |

AUDITOR'S REPORT

January 21, 1920

To the Board of Selectmen, Maynard, Mass.:

Gentlemen—We have audited and found correct the books of the treasurer, tax collector, water registrar, selectmen, board of health, overseers of the poor, library trustees, cemetery trustees, fire department and the balance sheet of the school committee.

Respectfully submitted,

OLIVER C. TREES,
C. A. STOCKBRIDGE,
Auditors.

OVERSEERS OF THE POOR

To the Citizens of Maynard:

The annual report of the Overseers of the Poor for the year ending December 31, 1919, is herewith submitted.

Owing to the small number of inmates at the town farm and the ever increasing expense of labor and groceries, etc., the Overseers have decided to board our inmates at some suitable place. The Overseers recommend that the town keep the property, and let it for a time, until the town sees fit to use the property for other purposes. The increasing population and new laws make the expense of this department increase every year. The cash paid for Mothers Aid this year was about five thousand dollars.

The Overseers recommend an appropriation of \$9,000 for the coming year

WILLIAM P. SCULLY, Chairman,
JAMES MULLIN, Secretary,
THOMAS WRIGHT,
Overseers of the Poor of Maynard.

REPORT OF THE SELECTMEN

To the Citizens of Maynard:

In presenting our report for your consideration, we wish to say, that owing to the increased appropriation we have been able to accomplish a great deal of permanent work.

We feel proud to hear on all sides the words of commendation of our streets. We wish to thank the good citizens of our town for this, and trust we may have a still further increase in appropriation for the coming season; as a great many streets still require permanent treatment.

Owing to the great increase in labor and material, less work can be accomplished than in former years. We wish to extend our praise to our Superintendent of Streets, who we feel has expended our money in the very best manner possible to obtain best results.

We wish to submit to your notice the following improvements:

Chandler Street from Walnut Street to junction of Dartmouth Street has been repaired. This street was in very bad condition for lack of proper drainage.

We have laid a twelve inch pipe from the corner of Thompson to Walnut Streets to the house of William Scully, a distance of four hundred feet.

Two catch basins have been built at the corner Chandler and Walnut Streets, five catch basins at junction of Chandler and Dartmouth Street. The above mentioned catch basins have drop inlet curbing, thus insuring the escape of the water. The gutters have been paved, the street graded and oiled. During the heavy rain storms of the summer, we did not have a washout. In former years this street has been a source of great annoyance, as we were unable to make permanent repairs, owing to lack of money. However, this year, due to increase of appropriation, we have been able to do the work in a very thorough manner through the efficiency of our Superintendent.

Walnut Street from Bancroft Street has been graded, using in this work in many places twelve to fifteen inches of material, and we as well as many of the residents on this street feel proud of it.

Summer Street from High School to Tilton Square has been graded and is a great improvement. It is our intention to improve this part still more the coming season. Thompson Street near house of Mr. Lowell has been graded. This street should have further improvement this season.

New signs have been placed on Acton Street also corner of Acton and Nason Street.

The month of February was the most severe for years on highways, as the frost left the ground, causing great ruts by the heavy motor trucks, making travel very difficult. We were obliged to renovate the following streets:

Powder Mill Road, near Mr. Hooper's house, to Paper Mill corner Main Street from Paper Mill corner to square at center. Main Street from Main Street Bridge to Railroad crossing.

Great Road from car barn to Stowe line. The above streets have been treated with tar.

Acton Street from Summer Street to the George Whitney lane. Concord Street from Acton Street to Tilton Square. Summer Street from Railroad crossing to Summer Hill road, Brooks Street from Railroad crossing to Concord Street. Maple Street from Railroad crossing to Concord Street. The above streets have been treated with oil.

Owing to the light construction of these streets, the improvement made upon them, are not of a permanent nature, and no doubt may have to be renovated this year.

Tar Macadam of the penetration type has been used on Nason Street from Summer Street to Acton Street. This street has been in very poor condition for many years, and we feel that the citizens of our town appreciate the great improvement. It is the intention of the board the coming year to continue this type of permanent work on Acton Street to George Whitney lane, which would give us a good road to Acton line. Main Street from Central Square to River Street between the tracks of the C. M. & H. Railway have been treated with tar macadam.

Owing to shortage of appropriation, we were obliged to use cobblestone, yet feel they will answer the purpose.

The improvement in the shopping district is much appreciated by the women and children.

Sudbury Street, Thompson and Walnut Streets will need attention this season.

We have laid five hundred and ninety feet of concrete curbing this year. We feel we should continue this work in the future.

Main Street bridge is in poor condition and should be replanked. This bridge should be replaced with concrete. Considerable work has been done on sidewalks having laid 2033 yards of tar concrete which is much appreciated by the citizens, especially those of West End. There has been much done on cinder and gravel walks. We hope this season to do a great deal more in this line especially in outlying district.

PARKER STREET STATE ROAD

For this road the town appropriated 1500 dollars in conjunction with the state and county making a total of 4500 dollars. The town took the contract from the state for the above sum a distance of 3000 feet from a point where we left off last year. Through the management of our Superintendent, we far exceeded the contract. This road has been accepted and highly praised by the county and state officials.

They have very strongly advised us to ask for another allotment this year.

Respectfully yours,

FRANK S. BINKS,
ALBERT J. SMITH,

Selectmen.

REPORT OF SEALER OF WEIGHTS AND MEASURES

To the Honorable Board of Selectmen:

Sirs: I beg here to submit my annual report and a summary of work performed by me as sealer of weights and measures for the town of Maynard.

Scales over 5,000 lbs., capacity, 5; scales under 5,000 and over 100 lbs. capacity, 63; counter scales, 41; beam scales, 10; spring balances, 28; computing scales, 30 sealed; computing scales condemned, 1; slot weighing, 1; prescription scales, 4; weights (avoir-du-pois) 471; weights (Apothecary's), 85; liquid measures, 47; oil measuring pumps, 17; molasses pumps, 2; yard sticks, 49; measuring machines, 14. Total number adjusted and sealed, 867; condemned, 1.

During the year I made a number of test weighings of the different commodities and found them correct. Also examined a number of licenses of out of town hawkers and peddlers.

I find it somewhat difficult to impress on the minds of some of our local peddlers the necessity of procuring the necessary license to peddle their wares. In one or two cases I was obliged to force them to do so while they were well aware of the fact that they were required by law to have one.

The sealing fees for the year amounted to \$87.27. Of this amount \$51.56 has been paid to the town treasurer, leaving a balance due of \$35.71, which I shall pay to the treasurer as soon as collected.

This department has also received \$60.00 for license fees.

Respectfully submitted,

JOSHUA EDWARDS,
Sealer of Weights and Measures.

BOARD OF HEALTH REPORT

The Board of Health submits the following report:

The townspeople as a whole have been comparatively free from diseases of a contagious nature during the past year.

There have been several tuberculosis cases but in each case they have been transferred to the state sanitarium or isolated as far as possible.

During the early part of the present year there have been six cases of scarlet fever reported but there seems to be no cause for serious alarm as they are all apparently of a mild nature.

The period of incubation of scarlet fever is usually four to six days although it may appear as long as three weeks after exposure.

The first symptoms are headache and vomiting with a high fever which lasts three or four days. The rash does not appear until the second or third day and is mostly on the body. The exposed parts as the face and hands are not affected. There is a sore throat with more or less swelling of the tonsils.

In all cases with any of these symptoms a doctor should be called at once.

The child is not sick as a rule after the first week or ten days but should be isolated for from six to eight weeks or until peeling or desquamation has entirely ceased and the body and extremities are free from scales.

In no case should the child be allowed to return to school until the required time has elapsed and the child is given a clean bill of health by the attending physician.

The people living in a house where a case of scarlet fever exists should keep out of the sick room with the exception of course of the one caring for the person afflicted and she should not leave the house to mingle with others.

Persons taking milk where a contagious disease is present should furnish their own receptacles for the same, as milk is a carrier of disease especially scarlet and typhoid fever and the returned bottles are probably not enough sterilized to kill disease germs.

There seems to be a recurrence of influenza but not as severe as the epidemic of the past year.

The following list of diseases classed as dangerous to the public health, omitting influenza, were reported to this board during the year.

Diphtheria 4 cases, ophthalmia neonatorum 1, pulmonary tuberculosis 6, other than pulmonary 1, cerebral spinal meningitis 1.

The financial report follows:

REPORT OF CHIEF OF POLICE

To the Honorable Board of Selectmen:

Gentlemen—As Chief of Police of the Town of Maynard, I have the honor to present you a report of the work of the police department for the year commencing September 30, 1918, and ending September 30, 1919.

I herewith present a table coving the department during that period:

| | |

| Accessory before and after the fact of murder | 2 |
| Non-support | 1 |
| Illegal sale of liquor | 7 |
| Bastardy | 1 |
| Total number | 142 |

To the Citizens:

Although the expenses of the police department have been much more than in the past few years, all bills have been met and a balance remains unexpended.

The lockup has been all repainted and put in a sanitary condition.

I would suggest the business men be more careful in locking their doors each night, as the following shows the number of doors found unlocked by the respective officers:

| | |
|------------|-----|
| Connors | 15 |
| Driscoll | 72 |
| Garrand | 14 |
| Cannell | 3 |
| Green | 8 |
| Swanson | 6 |
| Waterhouse | 5 |
| Hickland | 4 |
| | 127 |

I wish to thank the citizens of Maynard for the manner in which they have assisted me in my years as Chief of Police. I wish to thank my deputy and other members of the Police Department for the way in which they have performed their duties. I have tried to do my duty

and hope that what I have done will meet the approbation of all the citizens of the town.

TOWN CLERK'S REPORT

For the Year Ending December 31, 1919

From the Town Clerk's Records January 1, 1919 to December 31, 1919

Town Warrant No. 247

Town Meeting February 10, 1919

COMMONWEALTH OF MASSACHUSETTS

MIDDLESEX, SS.

To either of the Constables of the Town of Maynard, in said County, Greeting:

In the name of the Commonwealth of Massachusetts you are hereby directed to notify and warn the legal voters of said Maynard, to assemble in Co-operative Hall in said town, on Monday, the tenth day of February, 1919, at 6 A. M., then and there to act on the following Articles:

ARTICLE 1. To choose a moderator to preside at said meeting.

ART. 2. To choose by the Australian system of balloting the following town officers: one town clerk, one town treasurer, one collector of taxes, each for one year; three selectmen for one year; one overseer of the poor for three years; one member of the board of health for three years; one water commissioner for three years; one member of the school committee for three years; one assessor for three years, and one assessor for one year; one trustee of the public library for three years; one tree warden for one year; two auditors for one year; three constables for one year; one cemetery commissioner for three years; moderator for one year; and all other town officers to be chosen at said meeting. Also to answer by the Australian system of balloting the following question: "Shall licenses for the sale of intoxicating liquors be granted in this town?" For the purpose specified in this article the polls will be open after the reading of the Warrant, and will remain open until four o'clock in the afternoon, when they shall be closed unless the meeting there assembled otherwise determine.

ART. 3. To hear and act on the reports of town officers and committees.

ART. 4. To see if the town will authorize the Treasurer with the approval of the Selectmen to borrow during the municipal year beginning January 1, 1919, in anticipation of the taxes of the said municipal year, such sums of money as may be necessary for the current expenses of the town, giving the notes of the town therefor, payable within one year from the dates thereof.

ART. 5. To see if the town will accept the sum of one hundred dollars (\$100.00) as a fund, the interest of which to perpetually care for the A. E. Garlick lot in Glenwood cemetery. To do or act thereon.

ART. 6. To see if the town will accept the sum of one hundred dollars (\$100.00), as a fund, the interest of which to perpetually care for the Abel G. Haynes lot in Glenwood cemetery. To do or act thereon.

And you are directed to serve this Warrant by posting an attested copy at the Post Office and one at each of ten other public places in said town, seven days at least, before the time of holding said meeting.

Hereof fail not, and make due return of this Warrant with your doings thereon, to the Town Clerk or the Selectmen, at or before the time appointed for holding said meeting.

Given under our hands this twentieth day of January in the year of our Lord, one thousand nine hundred and nineteen.

FRANK S. BINKS,
HARRY B. MORSE,
ALBERT J. SMITH,
Selectmen of Maynard.

MIDDLESEX, SS.

Maynard, February 1, 1919.

I have served the within named warrant by posting an attested copy of the same at the Post Office and one at each of ten other public places in said town seven days before the time of holding said meeting as within directed.

JOHN CONNORS,
Constable of Maynard.

A TRUE COPY. ATTEST:
FRANK E. SANDERSON,
Town Clerk.

Proceedings of Town Meeting held February 10, 1919

Pursuant to Town Warrant No. 247 the voters of Maynard cast their ballots on the above date for town officers and acted upon the articles contained in the warrant as follows:

The warrant was read at 6 o'clock A. M. by the Town Clerk, previous to which the cards of instruction and specimen ballots were posted as required by law.

The Selectmen having appointed Ballot Clerks and Tellers, the same were sworn by the Town Clerk as follows:

Ballot Clerks: Thomas Smith, Albert Batley, and John F. White.

Tellers: Joshua Edwards, Peter J. Waldron, Herbert Usher, Lee S. Downey, and Thomas J. King.

The Town Clerk delivered to the Ballot Clerks 1200 general ballots, 150 special ballots for School Committee only, and duplicate check lists of male and female voters, taking receipt therefor.

ARTICLE 1. Patrick J. Sullivan was elected Moderator.

The Moderator and Town Clerk inspected the ballot box, set the register at 0000 and placed the same in charge of Constable Nicholas J. Driscoll, who held the keys to the box throughout the

day, being sworn to this duty.

The Moderator declared the polls open at 6.05 o'clock A. M.

At 7.25 o'clock the first lot of ballots were taken from the ballot box and counting continued from that time throughout the day.

It was voted to elect minor officers and act upon the articles numbered 3, 4, 5 and 6 at two o'clock P. M.

The following officers were elected by acclamation.

ART. 3. Voted to accept the reports of the several Boards of Town Officers as printed in the "Annual Reports of the Several Boards of Town Officers of the Town of Maynard for the year ending December 31, 1918."

ART. 4. Voted unanimously, That the Treasurer be and hereby is authorized, with the approval of the majority of the Selectmen, to borrow during the municipal year beginning January 1, 1919, in anticipation of the collection of taxes, such sums of money as may be necessary for the current expenses of the town, but not to exceed in the aggregate \$50,000.00 giving the notes of the town therefor, payable within one year after the date thereof. All debts incurred under the authority of this vote shall be paid from the taxes of the present municipal year.

ART. 5. Voted to accept from A. E. Garlick the sum of one hundred dollars (\$100) as a fund, the interest to be used for the perpetual care of his lot and surroundings in Glenwood cemetery.

ART. 6. Voted to accept from Abel G. Haynes the sum of one hundred dollars (\$100) as a fund, the interest to be used in perpetually caring for his lot and surroundings in Glenwood cemetery.

ART. 2. At four o'clock P. M. the polls were closed.

The number of ballots cast was five hundred and seventy-four (574).

No special ballots for school committee were cast. The ballot box register indicated five hundred and seventy-five (575), which was one more than the number of ballots cast.

Each check list of male voters showed 574 names checked as having voted.

The ballots were counted in open meeting and the result announced by the Town Clerk at 4.30 o'clock P. M. was as follows:

The town clerk requests information of any omissions or errors in the lists of births, deaths or marriages.

This office is prepared to furnish blanks for the proper return of births, and would call particular attention to the provisions of Chapter 280 of the Acts of 1912, requiring physicians and midwives to make a preliminary return of all births at which they were in charge, within forty-eight hours of the birth.

The act further provides that a more complete return of each birth shall be made within fifteen days of the birth and that the physician or midwife shall also keep a record of the same. Physicians and midwives will please observe that they are entitled to the customary fee only for births properly reported under this act and that the town clerk cannot certify bills unless the returns have been filed at this office within the time allowed by law.

The strict observance of the law with respect to filing returns of births, deaths and marriages is important.

The town Clerk is obliged to report to the Secretary of the Commonwealth every delayed return filed, regardless of the cause thereof.

FRANK E. SANDERSON,
Town Clerk.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Committee, Maynard, Massachusetts:

Gentlemen—I have the honor to present herewith my fifth annual report as your superintendent of schools.

At the time of making my last report we were facing the results of the influenza epidemic and wondering as to the possibility of regaining the lost ground. In the main, the work in the first six grades was well covered by the end of the year. In the Junior High school there can be little doubt that this result was not accomplished. The lack of interest in her work shown by one teacher, which culminated in her abandonment of her position without notice when notified that she would not be re-engaged, and her example on younger teachers, had a serious effect. Two changes in the force in the last half year made it difficult to regain all lost ground, and at the end of the year it was necessary to take these things into account in making up our promotion lists.

TEACHERS

The appointment of Mr. Falvey to the position left vacant in the High School by the resignation of Miss Pattison in April proved especially happy. It was very difficult to find a modern language teacher at that time of the year, and the appointment of an ex-soldier, inexperienced in teaching, was an experiment to be made with caution. The results more than justified expectations. Mr. Falvey not only proved his ability as a teacher, but his gentlemanly and reserved bearing and whole-hearted support of authority were an object lesson to all. It was with deep regret that we recognized our financial inability to retain Mr. Falvey and his success in his new position is no surprise to those who had the pleasure of working with him last spring. The other teachers of the High School worked unflaggingly to complete the full year's work and there is no reason to doubt their success.

As a people we have become so used to discuss the hardships of the war period and to admire our facility in overcoming them that the discovery that the year 1919 was to be one of still greater difficulty came not as a sudden shock but as a gradually developing and increasing bewilderment and puzzle. Instead of the armistice settling all troubles, financial and others, it seemed to stir up a flood of new ones. Employers of labor everywhere found discontent and a changed attitude, and this was reflected by teachers, perhaps, as strongly as by any other class of employees.

The reason was not far to seek. Teachers, never well paid, had seen their small salaries decrease in value as living expenses mounted. The laboring classes had seen their incomes mount until as a whole they were prosperous beyond their most sanguine dreams. Teachers, whose profession demands not only respectable apparel but expenditures for books, further study and travel in order to maintain efficiency, saw themselves obliged to surrender these things one by one and finally to lower their standards of living to a point where the boys and girls who had left the primary grades but a short time before or the

foreigner with no special equipment of education or skill could look down upon them from their superior financial heights.

In a town such as Maynard these conditions were especially acute. The mill workers felt the benefit of rising pay schedules at frequent intervals. The town income, almost fixed, forbade any great increase of salaries to town employees. Although the School Committee increased salaries six times in three years the total advance could not possibly be made large enough to balance the higher cost of living. In filling vacancies the law of supply and demand came into effect. Frequently a new teacher could not be secured at the former salary yet the appropriation would not permit of raising all salaries to equal the new rate required. Given a choice between closing some rooms entirely or paying the salaries demanded, which the applicants could easily get elsewhere, there could be but one decision. Some of the older teachers felt aggrieved, and to these the situation was explained with the advice to wait until such time as readjustment could be made. Most accepted the situation, hoping that the future would bring better things; but a few were disinclined to do so and voiced their discontent so publicly and so frequently that the inevitable results of lowered efficiency were easily discernible. When the time for re-elections came these teachers were not re-engaged, and with the resignations of others who secured higher salaries elsewhere, there was an unusually large number of vacancies to be filled for the new year.

During the summer the nation-wide scarcity of teachers was very apparent. Combined with this the uncertainty whether the bill designed to give assistance from the State toward the payment of salaries would be allowed to stand, made the task of filling positions very difficult. A minimum salary was decided upon, with increases for experience and efficiency, and agreement made that if the State money was forthcoming the teachers would benefit. Where for any reason a higher salary than the minimum for that grade of training or experience was promised to any teacher, she was told that if increases were given later these would be so adjusted as to make all salaries the same for equal attainments. All acceptances of position were made with the distinct understanding that the salaries were satisfactory as arranged.

The High School reopened last fall with only the Principal and the head of the Commercial Department left of the last year's faculty. The Junior High had but one who had been in service all the preceding year; the Roosevelt had four left out of the fifteen required; Main Street had three, just one-half; while Bancroft came off with but one vacancy. Out of 43 teachers and supervisors only 15 had been in service for a whole year, and since the opening of the year we have lost two of these.

The saving element in the whole situation is that the whole country has been aroused to the situation and to the necessity of immediate action. Massachusetts, while not the first, was not slow to take decisive steps and a law providing for the establishment of the Massachusetts General School Fund was passed last summer. The oper-

ation of this law was suspended for three months, owing to the revocation in the State Constitution for a referendum on all laws, and it was not until October 15 that it was settled that it was to be allowed to stand upon the statute books. This is the most important school law passed in Massachusetts in many years, and its effects will be vital. It provides for setting aside \$4,000,000 from the receipts of the State Income Tax to reimburse cities and towns in part for teachers' salaries, and its chief provisions, as they affect Maynard, are given below.

EDUCATIONAL LEGISLATION ENACTED IN 1919

Section 3. For each person employed for full-time service for the entire school year as teacher, supervisor, principal, assistant superintendent, or superintendent of schools, the city or town shall be reimbursed as follows:

(1) Two hundred dollars for every person who has received as salary not less than eight hundred and fifty dollars and who is a graduate of an approved normal school or college and has had at least *two years'* teaching experience or who possesses preparation and teaching experience accepted in lieu thereof.

(2) One hundred and fifty dollars for every such person, not included in the foregoing classification, who has received as salary not less than *seven hundred and fifty dollars* and (a) who has satisfactorily completed *one year of professional training* in an approved normal school or teachers' training school, and has had at least *three years of teaching experience* or (b) is a *graduate* of an approved normal school or college, and has had at least *one year* of teaching experience; or (c) who possesses preparation and teaching experience accepted in lieu of either of the foregoing requirements in this paragraph.

(3) *One hundred dollars* for every such person, not included in either paragraphs (1) or (2), *who has received as salary not less than six hundred and fifty dollars.*

Section 4. For each teacher, supervisor, principal, assistant superintendent, or superintendent of schools, employed for less than full-time service for the school year, the city or town shall be reimbursed such a fractional part of the corresponding reimbursement for full-time service provided for in section three of this act as that service bore to full-time service: provided, however, that the person for whom the reimbursement is claimed shall have met the corresponding requirements of certification, if any, specified in section three, and shall have received as salary an amount not less than that fraction of the corresponding salary for full-time service specified in section three. No town in a superintendency union shall, under the provisions of this act, receive reimbursement for the part-time employment of a superintendent of schools if the town is entitled to reimbursement for such employment in accordance with laws relating to superintendency unions.

Section 5. Every city or town in which the valuation of its real and personal property, including omitted assessments, for the city or town fiscal year next preceding the date of distribution, when divided by the net average membership of its public day schools, as defined in

section six of this act, for the year ending on the thirtieth day of June next preceding the date of distribution, yields a quotient less than forty-five hundred dollars, shall receive supplementary reimbursements determined as follows:

For each person for whom the city or town received reimbursement for full-time service, in accordance with section three, the supplementary reimbursement shall be as follows:

- (1) Three hundred dollars if said valuation per pupil is less than two thousand dollars.
- (2) Two hundred and fifty dollars if said valuation per pupil is less than twenty-five hundred dollars but not less than two thousand dollars.
- (3) Two hundred dollars if said valuation per pupil is less than three thousand dollars but not less than twenty-five hundred dollars.
- (4) One hundred and fifty dollars if said valuation per pupil is less than thirty-five hundred dollars but not less than three thousand dollars.
- (5) One hundred dollars if said valuation per pupil is less than four thousand dollars but not less than thirty-five hundred dollars.
- (6) Fifty dollars if said valuation per pupil is less than forty-five hundred dollars but not less than four thousand dollars.

For each person for whom the city or town received reimbursement for part-time service, in accordance with section four, the supplementary reimbursement shall be such a fractional part of the corresponding supplementary reimbursement provided for full-time service as that service bore to full-time service.

On the basis of salaries as paid last year we received from the Fund \$6,685 on November 15. The teachers were given increase averaging, with the small advance given the old teachers in September, about two hundred dollars. Salaries were made retroactive to September 1, and the balances due were added to the last pay roll before Christmas, so that each teacher received about seventy-five dollars extra at that time. While these increases will take more money than that received from the State, we shall, on the basis of the new salary schedule, receive next year from the Fund about \$9,700, so that this will provide for the balance paid out between now and the end of the school year and admit of further increases for the coming year. After next year the annual receipts will be about \$12,000.

SALARY SCHEDULES

The present salary schedule is as follows:

Grades I to VI, \$850 to \$950, with a promised maximum of \$1000 for next year; Junior High, \$900 to \$950, the future maximum undetermined; Senior High, minimum \$1000, no maximum decided upon; Commercial Department \$1650; Principal of High School, \$1,800. Principals of primary schools receive \$100 to \$150 in addition to their salaries as teachers.

The minimum salaries may well, perhaps, be left as they are for

the present, but the maximum should be raised. One hundred or one hundred fifty dollars difference in the salary of a beginner and that of one who has taught successfully for several years can hardly be said to be an accurate measure of values. Each teacher who remains with us next year should receive an increase of at least fifty dollars, and in time the minimum should be raised to one thousand dollars and the maximum should be at least twenty-five per cent higher.

Nor can these salaries be considered high or excessively burdensome to the town. In the first place, the state will pay \$250 of the salary of each teacher, making the net cost of our present minimum to the town \$600 and of the maximum in the grades this year \$700; while the high school teachers cost the town but \$750 each. In 1915 our lowest salary was \$500 and our highest in the grades was \$600. In the High School they were \$600 and \$650.

A recent government report puts the increase in living costs due to the war at 82.2%. According to this, a salary of \$500 in 1914 or 1915 would be equivalent to one of \$910 now, while one of \$650 then would need to be raised to \$1,185. To make the salaries of equivalent purchasing power to those of the fall of 1915, the Commercial teacher should be paid \$2,350, the Principal of the High School \$2,750, and the Superintendent \$3,375, without reckoning any increases for length of service or increased efficiency. The salary list at present totals about \$45,000 per year, of which sum the State will pay about \$11,000. It will readily be seen, therefore, that the town cannot reckon upon the receipts from the General Fund to decrease very much its own appropriation for schools, nor is it the intent of the law that this should be the case. It may be possible to supply certain items of school work not hitherto attainable because former increases in salaries have taken all funds available; but except for this, the receipts of the Fund should go for salaries.

In addition to the payments on the salaries of day school teachers, the State now pays one-half of the salaries for evening schools. This income should be used to increase the efficiency of the school. One important suggestion made by the State Supervisor of Americanization is that a teacher should be employed on full time to work in the homes and connect this work up with the evening classes. It might be possible to combine with Hudson in this work, if there is not enough for the full time of a teacher in Maynard; and with the amount paid by the State it ought to be possible to get this work done, including the traveling expenses of the teacher, for about \$250 as Maynard's share. It can not be denied that the evening school classes do not fulfill the whole of the town's duty to its foreign born residents.

In connection with other Americanization plans it is certainly time that some consideration should be given to the idea of having a school and home nurse. A large part of the effectiveness of the schools is lost, either by sickness of the children or their detention at home in case of sickness in the family. Usually such loss of time could be entirely prevented by the employment of a nurse at public expense.

Another difficulty in filling vacancies is the lack of suitable boarding facilities. This has been referred to in former reports, but the

situation became so bad by the end of the second week of school last fall that it looked as though we should have to shut down indefinitely. By assistance in reopening the defunct restaurant the difficulty was tided over for the time being, but the solution is not entirely satisfactory. The town has lost several good teachers during recent years, solely on this account, and we are in constant danger of a serious difficulty at any time if permanent arrangements for satisfactory boarding places are not made.

BUILDINGS AND EQUIPMENT

The buildings have been put into good shape, so that little remains to be done in this respect beyond ordinary repairs.

The grounds about the buildings should be attended to. This has already been done at the Roosevelt school, and the effect will be noticeable in the spring. A comparatively small amount is needed to put the grounds into such shape as to correspond with the buildings. The removal of the house from the recently acquired Doherty property will give us the sorely needed additional space for the playground at the Roosevelt school.

When the Roosevelt building was finished, it seemed as though sufficient room had been provided for several years. It became necessary, however, to open three new rooms last fall, thus using every available space in the Roosevelt and Summer Street buildings. As these rooms had to be furnished and equipped, it has meant a considerable increase in our general expenditures as well as in the salary list. Besides this, considerable shifting of children from one building to another has been necessary in order to provide for all. It has been necessary to send to the Roosevelt school from the Bancroft Street district a fourth, fifth and sixth grade as well as many children from all the grades at Main Street. With the increase in house building in the Main Street school section, it is evident that an addition to the building is needed at once.

EQUIPMENT

The success of the experiment in departmental work in grades 7 and 8 has been so marked that there can be no question as to making this a permanent feature of our school work. With the introduction of sewing in the high school we have practically a Junior High School, except for manual training and cooking, and I hope these may be arranged for in the near future.

A Pathscope moving picture machine was bought for the senior and junior high schools last January and has proved extremely efficient. It is used chiefly in geography, history and literature, about once every two weeks, and occasionally in the evening school. Sometimes a class has hired films in order to use the machine as one feature of an evening's social. By arrangement with Stoiw, that town pays the cost of film service for the use of the machine, which the Superintendent transports, so that, aside from the original cost of the ma-

chine, there is no expense to us except the slight one for current. There can be no question that its use is of high value.

HOME ECONOMICS

A department of our work which has not hitherto received the recognition which its importance deserves is that of Home Economics, under the supervision of Miss Louise E. Fay, agent of the Middlesex County Farm Bureau. A teacher has taken the leadership of the club each year, without pay, and considerable interest has been shown by the children. An article is to be inserted in the town warrant, calling for a small appropriation for the support of the work of the Farm Bureau, a portion of which should be applied to the work of the clubs for boys and girls. The report of the agent of the Bureau follows:

I am very glad to submit the following report of club work in the towns of your school district. It is obvious that more work has been done with girls than with boys and the reason is that it has been possible to get volunteer local leadership in Home Economics from teachers which has made it possible to have large enrollments. If we could have a small sum available for the employment of a man to supervise garden, pig and poultry clubs I am certain from experience in other towns that it would be easy to develop just as much interest among the boys.

MAYNARD *Home Economics*—34 members. Total number of garments made, 22. Total number of loaves of bread, 720. Alice Murphy was awarded a two day trip to the Massachusetts Agricultural College for high-quality work in the bread club. The bread club won as state banner for 100% finish. The sewing club won a county banner. *Canning*, 5 members. Put up 327 quarts. Because no local leadership could be obtained the club met with the Stow club during the summer. *Pig*, 1 member. This boy raised a 200-pound pig. *Garden*, 2 members. They made a profit of \$11 and \$17, respectively.

OUTSIDE ACTIVITIES

Aside from the deep changes in school work brought about by the World War and which will always be felt, the disturbances to the schools caused by this great event are about at a minimum. The children rallied to the contribution to the Red Cross and the sale of Christmas seals for the tuberculosis campaign was practically turned over to them. There are occasional requests made for assistance, some of them very worthy ones, but I would recommend that these be scrutinized very carefully and that the children should be very rarely called upon to raise money for such things. They bore their part in the war bravely, but children should not be given the idea that money is the only measure of their importance to the community or of their aid to others. If any cause is in need of financial assistance it should in general be furnished by adults.

CONCLUSION

In general, the new teachers have taken hold of the work very creditably. Some of them have not had a great deal of experience, but their devotion to work is rapidly overcoming this lack. Higher salaries will bring with them that increased ease of mind and self respect without which no one, least of all the brain worker, can do efficient work. This is already apparent and the teachers, old and new, are to be congratulated upon their present attitude toward their work. With strikes of all kinds, including those of teachers and pupils, everywhere about us, it is greatly to the credit of the town that the strike which came just before Thanksgiving, the first real one in the history of the town, caused so little disturbance in the community or the schools, aside from that caused by the loss of income, and that its effects are so rapidly disappearing.

The evil effects of the war and its after results, both physical and mental, are rapidly disappearing, and perhaps it may be said that this improvement is more evident in schools than in other forms of activity, since the public schools are immediately and seriously affected by any disturbance of the common welfare. Among the good results, which will be permanent, are the increased attention given to the lessons on patriotism and the strengthening of the public interest and support. It has been said that the war caused the discovery of the public schools by the general public, and the interest aroused by the discovery that the schools were more efficient than had been thought and that those in charge of them were worthy of greater reward cannot fail to re-act upon the schools and encourage those who are entrusted with the great task of seeing that they do their part in making the world a better place to live in. They may have failed in this respect before the war but it can safely be said that if any such defect now exists it is not a general one nor is it due to any lack of good intentions on the part of the teachers.

For the general and hearty co-operation given me by the Committee and the present corps of teachers I wish to express in conclusion my most sincere thanks.

Very respectfully,

WM. H. MILLINGTON,
Superintendent of Schools.

Maynard, Mass., January 5, 1920.

REPORT OF THE PRINCIPAL OF THE HIGH SCHOOL 1919—1920

Supt. William H. Millington,
Maynard, Mass.

Dear Sir—As principal of the high school I take pleasure in submitting to you my fourth annual report.

There are many encouraging features to be noted in our schools during the past year. The loss of work due to the closing of school for five weeks during the influenza epidemic in the fall was made up to a considerable extent. The enrollment for the school year showed improvement and the loss of pupils for 1918-19 was small, consisting of six girls. It was quite remarkable that not a boy left school. Then, too, the graduating class, seventeen girls and twelve boys, was the largest in the history of the school. Ten of the graduates are now at higher institutions. The entering class of sixty-four made a good record for the year in scholarship and registered fifty-eight pupils as they began their second year last September. This year's freshman class, though strong in number (69) is not making as good a record as the class of last year. I expect they will meet our requirements before the winter term is over. The school has greatly enjoyed the bi-weekly Pathoscope films under the management of our superintendent.

Our school opened in September with the largest enrollment in the history of the school and with four new teachers.

ENROLLMENT

The total enrollment for the fall term was as follows:

| | Girls | Boys | Totals |
|---------------|-------|------|--------|
| Post Graduate | 1 | — | 1 |
| Seniors | 9 | 7 | 16 |
| Juniors | 8 | 17 | 25 |
| Sophomores | 37 | 21 | 58 |
| Freshmen | 42 | 27 | 69 |
| | — | — | — |
| | 97 | 72 | 169 |

Up to date nine pupils have left school, six boys and three girls. With the usual entering class our enrollment for 1920-21 should approximate two hundred.

CHOICE OF COURSES

| | Academic | Commercial | Total |
|---------------|----------|------------|-------|
| Post Graduate | 1 | — | 1 |
| Seniors | 6 | 10 | 16 |
| Juniors | 13 | 12 | 25 |
| Sophomores | 16 | 42 | 58 |
| Freshmen | 18 | 51 | 69 |
| | — | — | — |
| | 54 | 115 | 169 |

Registration Cards are filled out in June, thus giving a fairly complete organization of the school on the opening day in September. Pupils who desire to attend higher institutions are given the opportunity to fill out cards for a four-year course with the help of the principal.

ATTENDANCE

In spite of the epidemic our attendance record for the year was 96.19 and eighteen pupils received perfect attendance certificates. A comparison of enrollment and attendance statistics for the five years of the World Conflict may be of interest.

Table of Attendance Records for the period 1914-1919:

| | 1914 | 1915 | 1916 | 1917 | 1918 | Fall of 1919 |
|-------------------|--------|-------|--------|--------|--------|--------------|
| | 1915 | 1916 | 1917 | 1918 | 1919 | 1919 |
| Enrollment | 148 | 158 | 166 | 122 | 141 | 169 |
| Average Members | 133.43 | 146.2 | 149.49 | 114.20 | 132.49 | 162.28 |
| Days Absent | 1069 | 1146 | 1364 | 787.5 | 953 | 272 |
| Days Abs. pupil | 8 | 7.8 | 9.1 | 6.9 | 7.2 | 1.7 |
| Per Cent of Att. | 95.75 | 95.8 | 94.93 | 96.32 | 96.19 | 97.13 |
| Tardy Marks | 385 | 294 | 266 | 176 | 111 | 58 |
| Tardy Marks Pupil | 2.1 | 2 | 1.8 | 1.5 | .8 | .36 |

A marked improvement is noticed in the attendance and punctuality records for the past two and two-fifths years.

PUPILS IN SUBJECTS

The following lists compare the pupils in subjects for 1919 and 1916. English and Commercial Arithmetic are required subjects.

| | 1919 (Sept.) | 1916 (Nov.) |
|---------------------|--------------|-------------|
| English | 168 | 155 |
| Typewriting | 115 | 80 |
| Com. Arith. | 69 | 61 |
| Gen. Science | 55 | 26 |
| Biology | 49 | 28 |
| French | 36 | 49 |
| Latin | 31 | 39 |
| Spanish | 27 | 58 |
| Algebra | 24 | — |
| Bookkeeping | 22 | 25 |
| Stenography | 22 | 25 |
| Ancient History | 20 | — |
| Physics | 15 | — |
| Geometry | 12 | — |
| Mid. and Mod. Hist. | 11 | — |
| Community Civics | 11 | 13 |
| Advanced Alg. | 5 | 4 |
| Mech. Drawing | 45 | 91 |
| Free Hand Drawing | 24 | 47 |
| Sewing | 34 | — |
| Singing | 117 | 155 |

The largest increases are shown in Typewriting, General Science

and Biology.

SCHOOL LIBRARY

The school library is slowly growing. We have listed at present forty-three volumes, besides many special reference books kept for use in the various rooms. By systematic yearly additions to the library, it may be made exceedingly valuable to our pupils. We need at present a new encyclopedia, reference books in Science and selected standard classics in English and American Literature. We have added Popular Science Monthly to our magazine list. Gifts of magazines from patrons of the school would be appreciated.

TEACHERS

The shortage of trained teachers in the country is alarming to all educators. Perhaps the greatest handicap to overcome in the administration of our school is the annual loss of our assistant teachers. When they have learned how to do effective work, they go elsewhere. It is difficult to maintain a consistent and high standard of conduct and scholarship under such circumstances. Our new teachers are working with commendable spirit and industry. As our Science has had a large growth it will be necessary next year to have a teacher for Science only. We then should have a teacher to take Commercial Arithmetic (2 sections), Community Civics, Algebra and a section of English, and an English teacher who would take Senior English, Junior English (2 sections) and Sophomore English (2 sections).

THE COMMERCIAL COURSE

The work of the Commercial Department continues this year under Mr. Kennedy's capable direction. The winning of two Remington Gold Medals last spring by Miss Genevieve Cleary and Miss Pearl Lerer is worthy of honorable mention. About three-fourths of the incoming pupils for the past two years have elected typewriting. This year with about 113 pupils the equipment of the department is used at nearly its full capacity. With some fifty new pupils next fall there will be far more pupils than the seating capacity of the commercial room. To relieve this probable congestion and to add a content subject to the Commercial Course for freshmen, I recommend the dropping of Typewriting as a first year subject.

I would then make Community Civics a full course and require it for all Freshmen not taking history.

SPECIAL SUBJECTS

Miss Catherine Hubbard, who has taken Miss Rideout's work, has organized a Free Hand Drawing class for girls and two Mechanical Drawing classes, one for first year boys and one for the boys of the three upper classes. She has also started a Sewing Class for first and second year girls.

The weekly chorus singing continues under the able leadership of George H. Woods. The chorus is limited this year to the seating capacity of the commercial room and is therefore practically elective.

GIFTS TO THE SCHOOL

The class of 1919 at graduation gave the school two pictures, "The Capital at Washington" and "Sir Galahad." The class of 1918 gave the balance of their class fund, \$47, to be expended by the principal for the benefit of the school. With a portion of this money I have purchased for the Biology Class, Howard's "The Insect Book" and with the remainder I intend to procure a suitable cabinet for Science specimens, a number of which have already been assembled by Miss Eva F. Dodge, our new Science teacher. The M. H. S. A. A. has given a framed picture of the spring ball team to the school.

ATHLETICS

Interest in sports has been high during the past year. The base ball nine made a fine showing under the leadership of Capt. Thomas Marsden, who, finishing his fourth year as a member of the team, batted for 648. The record of the team is as follows:—April 23, M. H. S. 14, Clinton H. S. 1; May 3, M. H. S. 12, La Salle Academy 2; May 8, M. H. S. 9, Lexington H. S. 3; May 10 M. H. S. 18, Weston H. S. 0; May 14 Lexington H. S. 12, M. H. S. 11 (10 innings); May 17 M. H. S. 17, Sacred Heart Academy 1; May 24, M. H. S. 17, Chelmsford H. S. 0; May 31, M. H. S. 12, Marlboro H. S. 0; June 4, Concord H. S. 8, M. H. S. 4; June 11, M. H. S. 11, Natick H. S. 1; June 14, M. H. S. 1, Clinton H. S. 0, and June 21, M. H. S. 5; Natick H. S. 4. The team won 9, lost 2. This fall the boys had an informal season of baseball, followed by football. This winter they are playing a little basket ball and ice hockey.

GRADUATION OF 1919

The graduation exercises of the class of 1919 were held at Colonial Hall, Wednesday evening, June 29, at 8 o'clock.

THE GRADUATES

The following graduates have entered higher institutions, Louis Blatt and Arthur Kaattari, Tufts College; Jacob Laurila and Harland Powers, B. U. School of Business Administration; Walter Courtney, Springfield Y. M. C. A. College; Caroline Herbert, Judith Nordberg and Florence Wilder, Fitchburg Normal School; Patrice Higgins and Marion Wilson, Bryant and Stratton's Business College. All the graduates of the Commercial Course have secured positions in Boston and Maynard.

CONCLUSION

In concluding this report I venture to predict a bright future for Maynard High School. Our numbers are rapidly growing, our needs as to increased salaries and extra equipment are being met in a generous manner by our school committee and tax payers and our graduates are justifying the money expended on their education.

I wish to thank the Superintendent and Committee for their careful attention to the needs of the high school and for their continued support of the present administration.

Respectfully submitted,
 HORACE F. BATES,
 Principal of the High School.

REPORT OF COMMERCIAL DEPARTMENT

Maynard, Mass., Feb. 1,

Maynard, Mass., Feb. 1, 1920.

To the Superintendent of Schools:

This is an unusual report. During the past seven years I have sent in an annual report of the Commercial Department of the Maynard High School. In these records I have gone thoroughly into detail; first, to outline our work, then to explain methods and show the results. Without doubt, the public is very familiar with our plan and practices and after a period of nearly eight years are well acquainted with what we have accomplished through the success of our graduates.

Now here is where this report is unusual. It is not a history of the past or a prediction as to the future; just a few plain statements of things as they are now.

STANDING ROOM ONLY

When school opened in September, we naturally expected the usual increase in attendance; but what did we get? Never before had we witnessed anything like it. A jump in the enrollment for commercial subjects from eighty students last year to one hundred and seventeen on the opening day and not another seat to be had. In other words we had gone to the limit of our capacity.

This is not all. Whoever heard of practically the entire freshman class returning for the sophomore year? If we get 50% of the freshmen to return it is considered a good enrollment and this usually means about twelve or fifteen students, but this year we have a sophomore class of forty-one, about three times its regular size. Isn't it encouraging; doesn't it show as before stated; we don't need to explain our plan or predict results. Our citizens have caught the idea; the success of our graduates proves the results and these results have been recognized by our people. The total enrollment of the high school was one hundred and sixty-nine, and of these one hundred and seventeen selected commercial subjects.

All the graduates of 1919 were placed in representative business houses in Boston. Of this class, Miss Genevieve I. Cleary and Miss Pearl Lerer won the gold medal for speed and accuracy on the writing machine.

The work this year is progressing very satisfactorily and without the many interruptions of last year owing to illness, etc.

During the past three years we have keenly felt the necessity of the Dictaphone, if our graduates are to compete for positions on the same basis as those of the large city schools. There are good prospects of our having one soon, and I wish at this time to acknowledge publicly the kindness of the School Committee in their consideration of this and other matters pertaining to our needs. The Dictaphone would complete our equipment and cause our sphere of usefulness to be greatly increased.

I wish to also thank all who have in any way assisted us in bringing the Commercial Department up to its present size and high degree of efficiency.

Respectfully submitted,

GEORGE A. KENNEDY, Head of Commercial Dept.

REPORT OF SUPERVISOR OF DRAWING

Mr. William H. Millington,
Superintendent of Schools,
Maynard, Massachusetts.

It gives me great pleasure to submit the report for the work in drawing since September 1919.

In the grades the work throughout the Fall was nature drawing—flowers, leaves, berries and fruit (both in color and in pencil outlines.) The pupils in the upper grades were given practice in using watercolors and in matching colors. They did most of their nature work with the brush (color and silhouette.) These pupils were also given practice in lettering and making designs for covers. Children in the lower grades were given practice in freehand cutting, coloring and arrangement of fruit. These children were also taught the meaning of "vertical," "level" and "slant" and were interested in acquiring a "vocabulary" of common objects. In all the grades the children were interested in the making of Halloween decorations and in special work for Thanksgiving and Christmas.

In sewing the High School girls made various knitted and crocheted articles, numerous Christmas gifts, embroidered scarfs, pillows, and centerpieces. Each girl also made a "sampler," showing different kinds of stitches.

In the High School mechanical drawing classes the Freshmen have covered a satisfactory amount of work, having learned the proper use of boards, T squares, and triangles, practice in lettering, perspective drawings of simple objects, the making of working drawings, and exercises in drawing geometrical figures. In the advanced classes the pupils reviewed lettering, and made working drawings from textbook. Each pupil also made an original working drawing.

The pupils in the Freehand drawing class took up nature drawing (pencil and watercolor work), lettering, color scales, and design in the making of Thanksgiving cards and Christmas booklets.

I wish to thank all the teachers for their hearty co-operation in the drawing work.

Respectfully submitted,

KATHRYN M. HUBBARD,
Supervisor of Drawing.

REPORT OF SUPERVISOR OF MUSIC

To Mr. W. H. Millington, Superintendent,
Maynard, Massachusetts.

Allow me to submit the following report on music in the public schools of Maynard for the year 1919.

There are many features in the music work which give cause for satisfaction and are a source of encouragement in the general progress. The first essential in all music education is that the pupils shall enjoy the music period and there is every indication that this condition exists in the schools of Maynard. One reason for the apparent enjoyment of the pupils is that they have the power to sing, not only to sing with good voice and musical interpretation, but they also have surmounted some of the difficulties so that they are able to read with a readiness which although not the ideal still is working to that end.

The early grades devote much of their time to the training of the voice and to the acquiring of a musical spirit in the singing of rote songs; also in mastering the early principles of the music language. The part singing in the fourth grade has been a cause for commendation from people who have heard it and is a credit to the teachers who are so faithfully carrying on this work.

As a matter of fact, the splendid work of the teachers should have public acknowledgment. There have been numerous changes, and yet in spite of them the work has proceeded uniformly and with results which we could not have anticipated. There seems to be splendid co-operation in carrying on the music work, and this contributes greatly to the effectiveness of this branch of study.

In any subject there must always be certain features which are problematical and we have these problems to contend with in the Maynard Schools. On the other hand, with the right co-operation between the pupils and the teachers the problems can be solved. One of these problems that confronts us is the work in the high school. The pupils have the ability and all they need is the purpose. With this combination the work in the high school could be a worthy continuation of the singing which is being done in the grades.

In the music work I have endeavored not only to emphasize the actual participation of the pupils in singing, but also to train them in those elements of music which contribute toward the appreciation of music. The students when they leave the schools go out as citizens and contribute to the community musical life; therefore we are emphasizing the musical interpretation, the general mass singing, and other elements which form the foundation for keen appreciation.

I am grateful to the teachers as well as to the superintendent for the excellent support which they have given and are continuing to give the music work in the schools.

Sincerely yours,

GEO. H. WOODS,
Supervisor of Music.

TOWN WARRANT
COMMONWEALTH OF MASSACHUSETTS

MIDDLESEX, SS.

To either of the Constables of the Town of Maynard, in said County, Greeting:

In the name of the Commonwealth of Massachusetts, you are hereby directed to notify and warn the legal voters of said Maynard, to assemble in Co-operative Hall, in said town, on Monday, the ninth day of February, 1920, at 6.45 a. m., then and there to act on the following articles:

Article 1. To choose by the Australian system of balloting the following town officers: One town clerk, one town treasurer, one collector of taxes, each for one year, one overseer of the poor for three years; one member of the board of health for three years; three selectmen for one year; one water commissioner for three years; one member of the school committee for three years; one assessor for three years; one trustee of the Public Library for three years; one tree warden for one year; two auditors for one year; three constables for one year; one cemetery commissioner for three years; moderator for one year and all other town officers to be chosen at said meeting, also to answer by the Australian system of balloting the following question: "Shall licenses for the sale of intoxicating liquors be granted in this town?" For the purpose specified in this article the polls will be open after the reading of the Warrant, and will remain open until four o'clock in the afternoon, when they shall be closed unless the meeting there assembled otherwise determine.

Article 2. To hear and act on the reports of town officers and committees.

Article 3. To see if the Town will authorize the Treasurer, with the approval of the Selectmen, to borrow during the municipal year beginning January 1, 1920, in anticipation of the taxes of the said municipal year, such sums of money as may be necessary for the current expenses of the town, giving the notes of the town therefor, payable within one year from the date thereof.

Article 4. To see if the Town will accept the sum of one hundred dollars (\$100) to be known as the Grace Weaving Fund, the income to be used for the perpetual care of her lot in Glenwood Cemetery. To do or act thereon.

Article 5. To see if the Town will instruct the Finance Committee to readjust the salaries of the Town Officers. To do or act thereon.

And you are directed to serve this Warrant by posting an attested copy at the Post Office and one at each of ten other public places in said town, seven days at least, before the time of holding said meeting.

Hereof fail not, and make due return of this Warrant with your doings thereon, to the Town Clerk or the Selectmen, at or before the time appointed for holding said meeting.

Given under our hands this seventeenth day of January in the year of our Lord, one thousand nine hundred and twenty.

FRANK S. BINKS,

ALBERT J. SMITH,

Selectmen of Maynard
