 \*\* Elected to fill vacancy

## Report of the Board of Selectmen

To the Citizens of Maynard:—

The Board of Selectmen respectfully submit for your consideration the Annual Reports of the Town Officers and Committees for the year 1956.

During the past year new industries have continued to locate in Maynard. Our Zoning By-Laws were amended during the year to allow another industry to locate off Powdermill Road. These varied industries now consist of paper products manufacture, plastics, electronic parts and chemicals.

These industries have added a serious traffic problem. To aid us with this problem, we secured the aid of the Massachusetts Department of Public Works to make a traffic survey of Maynard.

The recommendations as outlined in the State report are now being carried out with the assistance of the Maynard Industries. Maynard Industries have already erected three off-street parking lots.

During the year the new Maynard Memorial Gymnasium and the Green Meadow Elementary School were dedicated giving Maynard its long overdue gymnasium and elementary school for our children.

The Committee that was appointed to sell the Fire Station on Nason Street held numerous meets during the year. The sale price as established by this Committee was \$20,000.00. After advertising for bids and posting said building, the highest bid received was for \$16,000.00, which the Committee rejected. The Committee's present plans for this site is to try to have the Government erect a post office on this land. Another plan submitted to this Committee was to tear down the building and convert the land into a parking area with parking meters.

A new oil burner was installed in the Town Building, replacing the boiler that was condemned by the Insurance Boiler Inspector. The new boiler is the type that may be used in a new municipal building, if and when a new building may be erected.

The tax rate in Maynard is deceptively high, however, the valuation is very low making the tax bill for a piece of realty located in Maynard as low if not lower, as the tax bill for a similar piece of property located in adjacent communities or towns in Maynard's class. Our per capita tax is much lower than some of our neighboring towns.

We wish to thank all boards and committees for their cooperation and assistance during the past year.

Respectfully submitted,

JOHN MITZCAVITCH, Chairman  
JOHN SOKOLOWSKI, Secretary  
JOSEPH P. DINEEN

Selectmen.

## Report of Civil Defense Agency

January 2, 1957

The following is the report of the Civil Defense Agency for the period ending December 31, 1956.

Your Civil Defense has grown stronger and has more members at present than it has had in the past two years. We are continually meeting and learning so we may better serve you and the Town of Maynard.

Our Auxiliary Police complement is now complete and they have been used to good advantage whenever necessary.

We are making very good progress in our communication unit. The purchase of a mobile unit for in town communications has been installed and is being used to good advantage daily. Another unit has been purchased but not received as yet. This unit will enable us to contact Sector Headquarters in time of need. Also purchased, but not received, is a monitor radio connected with State Police Headquarters that will give us the earliest possible warning in the event of any emergency. As soon as these units are received they will be set up and put into operation.

The Civil Defense first aid instructors have given first aid courses to all who have requested it and will continue to do so in the coming year.

Your Civil Defense Agency wants to thank the Board of Selectmen and all other town officials for their excellent cooperation received during 1956.

DONALD A. MacGLASHING,  
Director.

January 2, 1957

## Report of Board of Fire Engineers

To the Honorable Board of Selectmen:

The year 1956 has been an average year for the Fire Department. The number of runs has increased somewhat but the losses remain low for the type of buildings that is common in our town.

The Town Dump continues to be a troublesome matter for the Fire Department and without doubt the other departments concerned. We have had 44 calls to the Dump, some of them have had the potential of serious conflagrations.

Our industrial development has increased the extent and the number of the investigations and inspections which we have had to conduct. We have tried to be as lenient as possible in our interpretation of regulations and yet provide for adequate safety for the workers, the citizens and finally the firemen. Most of the plants inspected have been extremely co-operative and have complied with all requests.

At a Town Meeting some time ago, a new inspection by the New England Fire Underwriting Association was proposed. This has been done and the report is in our possession and in the possession of some of the other town officials. We welcome its inspection by any responsible citizen.

We also desire to make some comments upon this report. It proposes numerous changes in the Fire Department and other departments. We will here comment on the Fire Department provisions.

The cost of all the suggestions would be prohibitive. The cost of the required actions is nearly so. The recommendations which are required, if done, would allow the town to be rated in the 5th Class instead of the 6th Class. The benefit to the persons carrying the insurance would be very small.

Some of the comments are debatable, other are genuinely valuable, and still others seem to us absurd.

The required changes are summarized as follows:

1. An increase in the call force to insure the dependable response of at least 10 men to each company.

COMMENT: As there are two companies (Hose and Ladder), this means that a minimum of 40 callmen are necessary. A fifty per cent attendance is all that we can rely upon during the daytime because of the working hours of the men out of town. At

night our response is at least ninety per cent. Our present call force is 15 men, 3 Engineers and 9 permanent men.

We have recommended an additional 3 callmen.

2. New 750 G P M Fire Pumping Engine.

COMMENT: We have felt that this would be coming very soon in any event, as the piece which is to be retired is now 22 years old. We have included a request for the apparatus in our budget.

3. That all 2½ inch hose be tested annually to 200 pounds per square inch.

COMMENT: This is not, in fact, done; but all weak hose is discarded and replaced with new hose. As a practical matter all the hose is tested for somewhat less pressure (about 120 pounds per square inch) which is a pressure that we might commonly encounter.

4. New rules and regulations governing the Fire Department.

COMMENT: This seems a little ridiculous. From time to time, such orders as may be desirable for the proper operation of the Department are issued. These seem to be all the rules that are necessary for the proper and efficient operation of the Department.

5. Comprehensive drill course with a drill master.

COMMENT: Drills are conducted monthly throughout the year and more often if it appears that further training is necessary. We have a drill master who is a graduate of a drill school. All new systems are tried and experiments are conducted in the control of flammable fluids and all chemicals which we are likely to be called upon to extinguish.

6. That the fire alarm be under the constant attendance of a responsible person, preferably under municipal control.

COMMENT: This appears to be ambiguous. We interpret this to mean a permanent force for the maintenance of the fire alarm system. It is now done by the Chief Engineer and the men, with the outside help of Louis Bills who installed it. A full-time man would seem absurd.

7. Technical changes in the Fire Alarm System.

COMMENT: These are to be investigated and it is believed that they can be done with a reasonable cost.

8. Building Code.

COMMENT: This is undoubtedly an extremely desirable move. It is, in our opinion, almost as important as the plumbing code, but it is beyond our power to enact one and is the sole power of the citizens in town meeting. The cost would be borne largely by the people seeking a permit, but it would mean further restrictions upon an individual's use of his property. It does seem that the only way in which some people will exercise care for their own safety is by reason of a law which forces them to do so. It might be said that a building code is the natural result of a Zoning Law and should go hand in hand.

There are numerous other suggestions such as a full-time permanent chief. This might be a good thing; but it seems to us that the same actual result is attained under the present arrangement without the additional cost. The tenure of office which it implies does increase the security and stability of the Department. This could be overcome without further cost by securing an act from the Legislature authorizing permanent appointment of Engineers who are now appointed annually.

A suggestion that Engine 2 be retained as a stand-by piece of equipment to be used only in time of gravest emergency and then only as a hose wagon and deluge truck, has been made. We feel that this has some merit and we intend to do so. Therefore, we do not recommend turning in this truck when purchasing the new one.

It has been suggested that a person be designated as a Department mechanic. This is, in fact, a duplication of our Town Mechanic situation.

A recommendation has been made that the fire alarm be connected to the Water Department and also the Public Works Department. This appears to be a reasonable suggestion and it will be investigated.

Additional fire alarm boxes have been suggested. We question the advisability of this in view of the fact that out of 211 calls this year, only 28 were box alarms and of these, only 11 were sounded from the street and of the 11, 3 were false. It would appear to us that telephone calls were the basic means of notification. However, we have in mind to

locate a box nearer to the Green Meadow School than the present site and this is included in our budget.

There are many provisions applicable to the water situation, which are not our province, but which would entail a much larger expenditure of funds and would have even greater bearing upon the question of calculated risk against cost of protection.

We again must thank the Maynard Public Health Nursing Association for the gift of an additional resuscitator which now makes it possible for us to allow the use of one of the machines in transit to hospitals without risking other people's lives.

We wish to express our appreciation to all departments, officials and citizens who have co-operated with us during the year.

MARTIN GRUBER,  
Board of Fire Engineers.

## Report of Chief of Police

To the Honorable Board of Selectmen:

I hereby submit my annual report as Chief of Police for the year ending December 31, 1956. In performance of the duties of this office I have had the cooperation of this department, the assistance of the Board of Selectmen and the Town Counsel.

### TRAFFIC

One of the main problems that gave this department serious trouble during the past year has been traffic. The great influx of cars coming to Maynard daily is a very economical sign for business but has caused this Department serious concern. Many complaints were received from residents living in the area adjacent to the Maynard Industries, that cars are being parked in front of their homes all day. To prohibit parking from in front of their home would also penalize these residents as their car or their friends' cars would be unable to park there at any time.

The only solution to this problem is more off-street parking area. Three parking areas have already been erected by the Industries and more are in the planning stages, especially to enlarge the parking area off Thompson Street and extend an exit to Sudbury Street. I assure you that the Industries located in Maynard are more than interested in solving this problem and have given this Department their cooperation and assistance.

In the business area more off-street parking is required to meet the demand for parking space especially on weekends. During the year a new parking area was erected by the Manning Pharmacy, adjacent to the United Co-operative Society parking space. Serious consideration to adding additional off-street parking in the business area should be given by the Chamber of Commerce and the businessmen, in order to induce more people to shop in Maynard.

MICHAEL ZAPARESKI,  
Chief of Police.

## Report of Progress

### OF SPECIAL WATER COMMITTEE

During the past year, this committee has done a considerable amount of field work, 115 hydrants were checked and flows measured. In the course of this work three hydrants were found to be totally inoperative and 80 others were found to be in need of repair or replacement. It is very obvious that during past years little attention has been given to maintenance of hydrants or gate valves, most of the latter having been buried whenever streets were resurfaced and are now difficult to locate.

Using the results obtained from these flow tests, the Public Works Department has painted all hydrants with a distinctive color code, for the guidance of the Fire Department. Green denotes good, yellow, fair; red, poor and black, almost worthless.

The present Board of Public Works has also, during the past year, done an excellent job of revising regulations governing the future installation of water mains. These revisions will prevent such shortsighted mistakes as have been made in the past and which now mainly account for the present poor condition of the distribution system, and they will also provide for a more equitable assessment of cost to the users. This Board also deserves credit for facing realities in the matter of water rates, for even with the increase, our rates are still below the average, and it is hoped that this additional revenue will be used for necessary improvements to the system and not diverted to other uses as has been done in the past.

In making comparisons of the amount of water pumped and the amount of water registered on customers' meters, there is an abnormally wide discrepancy. This is caused by either or both of two factors, — leaks, or poor meter maintenance. The latter is very obvious, and here again the present Board of Public Works has made a start towards correcting a condition that has become progressively worse through the years. During the past year enough new meters were purchased to provide a meter for each new service. However this phase of maintenance should be continued and funds should be made available for the rebuilding or replacing of all old meters, thereby protecting the revenue and providing equitable charges to all consumers.

Whereas the town has but a single elevated storage reservoir, we would find ourselves in a most precarious position in event of fire at such times as it is necessary to drain the reservoir for cleaning or repairs. The erection of an additional reservoir has long been recommended by the fire underwriters

and should be considered as soon as the distributing system can be brought up to reasonably fair shape. The 1954 report of the Engineering Firm of Haley & Ward proposed a standpipe located off Old Mill Road. However an investigation of this site showed it to be extremely rocky and the top of the hill to be of solid ledge, which would have to be blasted down more than twenty feet in order to obtain area enough for a foundation. This would then require a standpipe more than 100 feet high, whereas the reservoir on Summer Hill has a head range of only twenty feet a standpipe would be inefficient. So it seems that an elevated tank would have to be used in any event. This leaves several alternate locations which should be considered, so before making a definite decision on this project, the town should obtain professional advice as to comparative costs of the various locations.

Upon the completion of the replacement project voted at the 1956 annual Town Meeting, this committee again strongly recommends a program of cleaning all existing mains of six inch or larger, after which new eight inch mains should be laid on the following streets:

Glendale, from Summer to #47, with cross connection to Prospect St.

Dartmouth, from Walnut to connect dead end at #13 Dartmouth St.

Hayes, from Waltham to Harrison.

These mains would replace existing four inch mains which are entirely inadequate.

Although much more work will have to be done to bring the system up to reasonable shape it might be well to defer more extensive planning until a later date, as many of the conditions effecting future plans may change.

HENRY T. HANSON  
EMILE A. DUMAS  
RAYMOND J. SHERIDAN  
HERBERT RUOTSALA

## Report of Dog Officer

Honorable Board of Selectmen:  
Maynard, Massachusetts

Gentlemen:

I herewith submit my report as Dog Officer.

During the year I have returned nineteen (19) dogs to their owners, thirty-nine (39) were destroyed after six (6) days, and twenty-one (21) were quarantined on suspicion of rabies. After fourteen (14) days the quarantine was lifted.

At this time I wish to thank the Chief of Police, and his officers for their assistance.

Respectfully submitted,

WALTER J. DONOHUE,  
Dog Officer.

## Report of Inspector of Animals

Honorable Board of Selectmen:  
Maynard, Massachusetts

Gentlemen:

As Animal Inspector I hereby submit my report.

Three (3) cows, one (1) heifer, two (2) pigs, seven (7) horses, and one (1) goat.

The barns were inspected, and found to be clean. The cattle were free from barn mange, lump jaw, and other contagious diseases.

Respectfully submitted,

WALTER J. DONOHUE,  
Inspector of Animals.

## Report of Sealer of Weights and Measures

The Honorable Board of Selectmen:

Gentlemen:

I herewith submit my Annual Report as Sealer of Weights and Measures for the year 1956.

In submitting my report, I wish to state that at the close of the year, all the weighing devices and measures examined by me were in good condition.

Scales over 10,000 lbs.	3
Scales 100 - 5,000 lbs.	21
Scales under 100 lbs.	85
Weights	161
Liquid measures under 1 gallon	15
Meters 1 inch or less	34
Vehicle Tank Meter System	9
Other Measuring Devices	12
Oil and grease	14

Respectfully submitted,

JAMES J. RYAN,  
Sealer of Weights and Measures.

# State Audit

## THE COMMONWEALTH OF MASSACHUSETTS

Department of Corporations and Taxation

Bureau of Accounts

State House, Boston 33

December 20, 1956

To the Board of Selectmen  
Mr. John Mitzcavitch, Chairman  
Maynard, Massachusetts.

Gentlemen:

I submit herewith my report of an audit of the books and accounts of the town of Maynard for the period from October 3, 1954 to August 25, 1956, made in accordance with the provisions of Chapter 44, General Laws. This is in the form of a report made to me by Mr. William Schwartz, Assistant Director of Accounts.

Very truly yours,

HERMAN B. DINE,  
Director of Accounts.

HBD:BAB

---

Mr. Herman B. Dine  
Director of Accounts,  
Department of Corporations and Taxation,  
State House, Boston

Sir:

In accordance with your instructions, I have made an audit of the books and accounts of the town of Maynard for the period from October 3, 1954, the date of the previous examination, to August 25, 1956, and report thereon as follows:

The financial transactions as recorded on the books of the several departments receiving or disbursing money for the town or committing bills for collection were examined and reconciled with the books and reports in the town accountant's office and with the records of the town treasurer.

The town accountant's ledgers were analyzed for the period covered by the audit, the receipts being checked with the treasurer's books and the payments being compared with the warrants authorizing them and with the treasurer's records of payments.

The appropriations and loan authorizations were checked with the town clerk's records of town meeting proceedings,

and the recorded transfers from the reserve fund were verified by comparison with the records of the finance committee.

The necessary adjusting entries were made, and a balance sheet, which is appended to this report, was prepared showing the financial condition of the town on August 25, 1956.

The books and accounts of the town treasurer and collector, as town treasurer, were examined and checked in detail. The receipts, as recorded, were analyzed and checked with the records of the several departments collecting money for the town and with other sources from which money was paid into the treasury, while the payments were compared with the selectmen's warrants authorizing the treasurer to disburse town funds. The cash book additions were verified, and the cash balance on August 25, 1956 was proved by actual count of the cash in the office and by reconciliation of the bank balances with statements furnished by the banks of deposit.

The records of payroll deductions for Federal taxes, Blue Cross and Blue Shield, the purchase of savings bonds, and group insurance were examined and reconciled with the controlling accounts and with the balances in the general treasury.

The records of tax titles and tax possessions held by the town were examined, listed, and reconciled with the collector's records and with the accountant's ledger. The additions to the tax title account were compared with the tax books, and the redemptions were compared with the treasurer's recorded receipts.

The books and accounts of the town treasurer as custodian of the several trust and investment funds and as treasurer of the retirement system funds were examined and checked in detail. The savings bank books and other securities representing the investment of the several funds were examined and listed. The reported income was proved and all transactions were verified and compared with the treasurer's and the accountant's books, and, in the case of the retirement funds, with the records of the retirement board.

The cash balances in the trust and retirement funds on August 25, 1956 were verified by reconciliation of the bank balances with statements furnished by the banks of deposits.

The books and accounts of the town treasurer and collector, as town collector, were examined and checked in detail. The tax, excise, assessment, departmental, and water accounts outstanding at the time of the previous audit, as well as all subsequent commitments, were audited and compared with the warrants issued for their collection. The cash book additions were proved, and the reported payments to the treasurer were compared with the treasurer's recorded receipts. The abatements, as recorded, were compared with the assessors' and

other departmental records of abatements granted, the taxes transferred to the tax title account were proved with the treasurer's record of tax titles held by the town, and the outstanding accounts were listed and reconciled with the respective ledger accounts.

Further verification of the tax, excise, assessment, and water accounts was made by mailing notices to a number of persons whose names appeared on the books as owing money to the town, and from the replies received it appears that the accounts, as listed, are correct.

The records of apportioned and deferred sewer and betterment assessments were examined. The apportionments, the payments in advance, and the amounts due and added to taxes were verified, while the deferred and suspended assessments were listed and proved with the ledger controls.

The computations of the tax rates for the years 1955 and 1956 were examined and checked. The records of abatements granted by the board of assessors were checked with the books of the collector and the accountant, while the warrants to the collector were listed and compared with the detailed commitments.

The financial votes passed in town meetings, as recorded by the town clerk, were examined, listed, and checked with the entries in the accountant's ledgers and with the assessors' computations of the tax rates.

The town clerk's records of dog and sporting licenses issued and for the collection of town licenses, permits, recording fees, and miscellaneous charges were examined and checked. The payments to the town were verified by comparison with the treasurer's and the accountant's books, the payments to the Division of Fisheries and Game were compared with the receipts on file, the outstanding town licenses were listed, and the cash balance on August 25, 1956 was proved by actual count of the cash in the office.

The surety bonds of the several officials required by law to furnish them were examined and found to be in proper form.

The records of the board of selectmen, the sealer of weights and measures, and the plumbing inspector, as well as of the police, health, public works, public welfare, veterans' services, school, library, and cemetery departments, and of all other departments collecting money or committing bills for collection, were examined and checked. The payments to the town treasurer were verified, and the cash on hand in the several departments was proved by actual count.

The records of guarantee deposits for sewer house connections and water construction were examined. The recorded

deposits, the transfers to the town to cover the cost of the work done, and the amounts refunded were verified and proved with the treasurer's and the accountant's books, and the deposits on hand August 25, 1956 were listed and proved with the balances in the general treasury.

Appended to this report, in addition to the balance sheet, are tables showing reconciliations of the treasurer's, collector's, and town clerk's cash, summaries of the tax, excise, assessment, tax titles, departmental, and water accounts, as well as schedules showing the condition and transactions of the trust, investment, and retirement funds.

During the progress of the audit cooperation was extended by the various town officials, for which, on behalf of my assistants and for myself, I wish to express appreciation.

Respectfully submitted,

WILLIAM SCHWARTZ,  
Assistant Director of Accounts.

## Town Clerk's Report

For the year ending December 31, 1956

---

### Proceedings of Town Election

Held March 5, 1956

On the above date the voters of Maynard cast their ballots for Town Officers and voted on the question of Civil Service for the official and labor service of the Town of Maynard, in accordance with Town Warrant No. 461, at the George Washington Auditorium.

The polling place was prepared by the Town Clerk prior to opening. The Moderator and Town Clerk inspected the ballot boxes, declared them to be empty, locked them and placed the keys in the custody of the election officer in charge of each box.

At eight o'clock A.M. the Moderator called the meeting to order and on motion of John F. Stokes it was voted to waive the reading of the warrant. The Moderator then declared the polls open.

The Ballot clerks, appointed by the Selectmen were sworn by the Town Clerks and were, James J. Ryan, Evelyn M. Mulcahy, Lillian J. Alto, Phyllis P. Savikoski, Helen M. Gilleney, Edward J. Costello, Irving G. Dart, Margaret J. McCormack, Martha L. Champagne, Helena M. Murphy, Ruthmary Armour and Magloire LeSage.

The Town Clerk delivered 3800 official ballots and duplicate voting lists containing the names of 3687 voters to the Ballot Clerks, receiving a receipt therefore.

Permission having been granted to open the ballot boxes before the close of the polls, counting was begun at two o'clock P.M. by the following Tellers, appointed by the Selectmen and sworn by the Town Clerk.

Eva H. Evers, Sadie Sluyski, Elsie P. Brayden, Herbert R. Usher, Edna M. Farrell, Agnes W. Driscoll, Dorothy Garlick, M. Mabel Holly, Margaret I. Fardy, Elvira A. Hicks, Grace E. French, Jessie B. Crowe, Pauline E. Foley, Evelyn Darcy, Mabel A. Bemis and Dorothy E. Hamlin. The tabulation was done by Doris A. Lowney and Myrtle Whitney.

At eight o'clock P.M. the Moderator declared the polls closed. The register on the ballot box in Area 1 showed the figures 1385 (one less than the number of ballots cast as

one ballot went through without registering) the register on the ballot box in Area 2 showed the figures 1297. The numbers of names checked on the list in Area 1 was 1386, the number checked in Area 2 was 1297. Total number of ballots cast and names checked was 2683.

At 9:50 o'clock P.M. the Moderator announced the result of the balloting as follows:

Article 4. William H. Larson moved that the sum of \$266,052.21 be appropriated to be expended by the School Committee as follows: Salaries — \$219,122.50; Maintenance — \$38,154.85; Outlay — \$8,774.86. William Naylor amended the motion that the amounts appropriated be as recommended by the Finance Committee, and this amendment was defeated. The motion by Mr. Larson was then voted on and was defeated. Leonard E. Rae moved to reconsider Article 4 and it was so voted. Mr. Larson repeated his motion and Mr. Naylor moved to amend and appropriate the amounts recommended by the Finance Committee and the Moderator declared the amendment to be carried. The ruling of the Moderator was doubted and, after being sworn, James V. King, Evelyn M. Mulcahy, Margaret J. McCormack, Ruthmary Armour, and Phyllis P. Savikoski counted a standing vote, which was 236 in favor to 101 opposed. It was then voted on Motion of William H. Larson as amended by William Naylor to appropriate the sum of \$262,029.71 to be expended by the School Committee as follows: Salaries — \$217,860.00; Maintenance — \$38,154.85; Outlay — \$6,014.86.

Article 5. On motion of William H. Larson: Voted to raise and appropriate the sum of \$1,500.00 for Vocational Education.

Article 6. On motion of William H. Larson: Voted to raise and appropriate the sum of \$50.00 for Adult Alien Education.

Article 7. On motion of William H. Larson: Voted to raise and appropriate the sum of \$1,300.00 for General Maintenance of Alumni Field.

Article 8. On motion of William H. Larson: Voted to raise and appropriate the sum of \$4,500.00 for School Transportation.

Article 9. On motion of William H. Larson: Voted to raise and appropriate the sum of \$2,850.00 for School Athletics (Chapter 658, Section 47).

Article 10. On motion of William H. Larson: Voted to raise and appropriate the sum of \$2,350.00 for Special Education.

Article 11. On motion of William H. Larson: Voted to raise and appropriate the sum of \$1,800.00 for the purpose of connecting the heating units of the north end of the Senior High School Building with the Gymnasium Boiler.

Article 12. On motion of William H. Larson: Voted 210 in favor to 121 opposed to appropriate the sum of \$600.00 for Membership Fee in the Framingham Youth Guidance Centre.

Article 13. On motion of James S. Wheeler: Voted that the salary or compensation of the various elected Town Officials in accordance with Chapter 41, Section 108, of the General Laws, said salary or compensation to be effective from January 1, 1956 and remain in force until the next annual Town Election, unless sooner changed by vote of the Town, be as follows

Moderator .....	\$50.00
Town Clerk .....	1,700.00
Town Treasurer and Collector .....	4,200.00
Selectmen, 3 members, each .....	300.00
Board of Assessors, Chairman .....	700.00
Other members .....	600.00
Public Works Board, 3 members, each .....	100.00
Board of Public Welfare, 3 members, each .....	50.00
Board of Health, 3 members, each .....	50.00
Library Trustees, 3 members, each .....	25.00
School Committee, 3 members .....	No Salary
Planning Board, 5 members .....	No Salary

All Fees and charges collected by each department must be paid to the Town Treasurer at the end of each month.

The above salaries are effective January 1, 1956 to December 31, 1956. For changes in personnel during the year, salaries will be prorated according to the length of service at above recommended rates.

Article 14. On motion of James S. Wheeler: Voted to appropriate the sum of \$8,000.00 for Finance Committee Reserve to provide for extraordinary or unforeseen expenditures. Transfer to be made to Departments only by vote of the Finance Committee as provided by Chapter 40, Section 6, of the General Laws.

Article 15. On motion of Howard L. King: Voted to accept the following Cemetery Funds, same to be invested and interest to perpetually care for their lots and surroundings in Glenwood Cemetery.

Wirtanen, Doris	\$50.00	Saari, Arvo	\$50.00
Readel, Mabel E.	100.00	Nokelainen, Lizzie	50.00
Allan, Richard	100.00	Wisuri, Saimi	100.00
Niemi, Reino	50.00	Junno, Heikki	100.00
Gentsch, Anna	50.00	Mattson, Anton B.	50.00
Savikoski, Victor	100.00	Kisley, Mrs. Joseph	50.00
Jamieson, Howard A.	50.00	Taylor, Edwin R.	100.00
Nordberg, Ethel N.	50.00	Davis, Alfred S.	50.00
Kuchon, John	100.00	Setzco, Helen	50.00
Rubazko, John	50.00	Champagne, Dahl	100.00
Syrjanen, Ida M.	50.00	Knight, Mrs. Chester	100.00
O'Connell, Margaret	100.00	Stewart, Mrs. Ernest	50.00

Article 16. On motion of Howard L. King: Voted to authorize the Town Treasurer and Collector, with the approval of the Selectmen to borrow money from time to time in anticipation of revenue of the financial year beginning January 1, 1956, and to issue a note or notes therefor, payable within one year and to renew any note or notes as may be given for a period of less than one year in accordance with Chapter 44 of the General Laws.

Article 17. On motion of R. Frank Punch: Voted to appropriate the sum of \$500.00 for the payment of part of the premiums of group life insurance for permanent town employees, in accordance with Chapter 239 of the Acts of 1952. The amount of said insurance to be limited to \$1,000.00.

At this time Leo F. Mullin moved to consider Article 19 before Article 18 and it was so voted.

Article 19. On motion of Leo F. Mullin: Voted to authorize the Board of Selectmen to sell the old Fire Station property on Nason Street, with the advice and consent of a committee composed of the following: The Town Clerk, The Town Treasurer, The Town Accountant, The Town Counsel, the Board of Assessors, The Planning Board, the Finance Committee and the Municipal Building Committee.

Article 18. The Moderator ruled that no action was necessary as it was covered by Article 19.

Article 20. A motion by John S. Soklowski, amended by Toivo J. J. Erkkinen, that the Town accept Chapter 529 of the Acts of 1949, an act relative to the Board of Selectmen appointing a Superintendent of Wires, was defeated.

Article 21. Action under this article was ruled unnecessary.

(re salary and expenses of Superintendent of Wires)

Article 22. Voted to lay this article on the table.

(Re sidewalk roller)

Article 23. On motion of Ernest Mariano: Voted 140 in favor to 113 opposed to lay this article on the table.

(Re catch basin cleaner)

Article 24. On motion of George J. Sharpe: Voted to appropriate the sum of \$1,200.00 from the Excess and Deficiency Account for the Town's share of Chapter 90 Maintenance; also that the sum of \$2,400.00 be appropriated from the Excess and Deficiency Account to meet the State's and County's share of the cost of this work. The reimbursement from the State and County to be restored upon their receipt to the Excess and Deficiency Account.

Article 25. On motion of George J. Sharpe: Voted, unanimously, to authorize the Board of Public Works to lease the property of Leo P. Boeske and Grace Boeske off Waltham Street for the use of a Public Dump.

Article 26. A motion by George J. Sharpe, amended by Viola Iannitelli, under this article was defeated.

(re fence at Naylor Court and Summer Street parking lots)

Article 27. On motion of George J. Sharpe, voted to authorize the Board of Public Works to repair the damage to the retaining walls at the Mill Street Bridge and to appropriate the sum of \$1,500.00 from the Excess and Defi-

ciency Account for this purpose. Said sum to be returned to the Excess and Deficiency Account upon reimbursement to the Town from the State.

At this time Leonard E. Rae moved to take up Articles 41, 42, 45, 56 and 57 and it was so voted.

Article 41. On motion of George J. Sharpe: Voted to authorize the Board of Selectmen to extend the common sewer to No. 194 Great Road, a distance of about 400 feet and to appropriate the sum of \$3,436.00 from the Excess and Deficiency Account for this purpose.

Article 42. A motion by George J. Sharpe under this article was defeated.

(Re 10¢ increase for Public Works employees)

Article 45. A motion of Michael Zapareski under this article was defeated.

(Re 15¢ increase for members of the Police Department)

Article 56. On motion of George J. Sharpe: Voted that Article 56 be laid on the table, and the Board of Selectmen shall hold a Special Town Meeting, no later than April 30, 1956, for the purpose of appropriating a sum of money to be used for the extending of sewerage on upper Main Street to the Stow line on Great Road.

Article 57. On motion of Henry T. Hanson: Voted, unanimously, to authorize the Board of Public Works under authority of Chapter 44, Section 8, Clause 5, of the General Laws, to lay and relay water distributions mains as itemized:

- |  |        |
|--|--------|
| 1. Florida Rd. from Summer St. to Main St.         | 10 in. |
| 2. Walnut St. from Main St. to Bancroft St.        | 12 in. |
| 3. River St. from Main St. to Walnut St.           | 8 in.  |
| 4. Elmwood St. from Bancroft St. to Chandler St.   | 8 in.  |
| 5. Chandler St. from Elmwood St. to Fairfield St.  | 8 in.  |

and to authorize the Town Treasurer to issue bonds or notes for a term of not more than five years for the sum of \$50,000.00 under authority of Chapter 44, Section 8, Clause 5, of the General Laws and to do anything lawfully pertaining thereto.

Article 28. A motion by George J. Sharpe under this article was defeated.

(Re drainage and catch basins on Park Street).

Article 29. On motion of George J. Sharpe: Voted to authorize the Board of Public Works to construct a chain link fence on Great Road near the Ben Smith Bridge and to appropriate the sum of \$662.50 for this purpose.

Article 30. A motion by George J. Sharpe under this article was defeated.

(Re drainage and catch basins on Warren Street).

At 11:30 P. M. on motion of Leonard E. Rae, it was voted to adjourn until 7:30 P. M., Tuesday, March 13, 1956.

Attest:

ELEANOR JONES,  
Town Clerk.

## Proceedings of Adjourned Annual Town Meeting

Held March 13, 1956

Moderator Philip Wilson, called the meeting to order at 7:35 o'clock and declared a quorum present.

Article 31. On motion of George J. Sharpe: Voted, unanimously, to authorize the Board of Public Works to extend the common sewer on Beacon Street from Station 2 plus 13 to 7 Beacon Street, a distance of about 200 feet, and to appropriate the sum of \$1,564.00 from the Excess and Deficiency Account for this purpose.

Article 32. A motion of George J. Sharpe on this article was defeated.

(re Dewey Street sewerage)

Article 33. On motion of George J. Sharpe: Voted to authorize the Board of Public Works to restore Everett Street to the condition it was in prior to the relaying of the water main and to appropriate the sum of \$800.00 for this purpose.

Article 34. On motion of George J. Sharpe: Voted to authorize the Board of Public Works to repair and pave Taylor Road and to appropriate the sum of \$2800.00 for this purpose.

Article 35. Voted to lay this article on the table.  
(re widening Nason Street from Summer Street)

Article 36. On motion of George J. Sharpe: Voted to authorize the Board of Public Works to repair some of the damaged sidewalks throughout the Town and to appropriate the sum of \$6,000.00 for this purpose.

Article 37. Voted to lay this article on the table.  
(re drainage of Pompciticut Avenue)

Article 38. Voted to lay this article on the table.  
(re new storage shed and garage at cemetery)

Article 39. On motion of George J. Sharpe: Voted that this article be laid on the table and that the Moderator appoint a Committee consisting of one member of the Board of Public Works, one member of the Finance Committee, and three others who are mechanics and to further instruct this Committee to report their findings and recommendations at the next Town Meeting by either placing an article on the Warrant for a purchase of a new snow loader or the repair of the present Town owned snow loader, if they deem it necessary.

Article 40. On motion of George J. Sharpe: Voted that the sum of \$3,250.00 be appropriated from the Excess and Deficiency Account for the Town's share of Chapter 90 Construction on Powdermill Road and other streets, also that the sum of \$13,000.00 be appropriated from the Excess and Deficiency Account to meet the State's and County's share of the cost of this work. The reimbursement from the State and County to be restored upon their receipt to the Excess and Deficiency Account.

Article 43. On motion of James V. King: Voted that the sum of \$1,247.85 be appropriated for unpaid 1955 Welfare Department bills.

Article 44. On motion of John Sokolowski: Voted that the sum of \$1,399.00 be appropriated for the payment of unpaid 1955 Veterans' Benefits bills.

Article 46. On motion of Stanley Nowick: Voted that the By-Laws be amended by striking out Section 4 of Chapter 1 and inserting in place thereof Section 4 as follows: The annual Town Meeting to make appropriations for the ensuing year and act upon such other business as may properly be considered, shall be held on the first Monday of March of each year not earlier than 7:30 P.M. and an annual Town Meeting for the election of Town officers and all other matters to be determined by ballot shall be held on the second Monday of March.

Article 47. A motion of David Pallian under this article was defeated.

(re accepting a gift of lot of land in Maybury Village)

Article 48. On motion of Walter E. Carbone: Voted unanimously to amend the Zoning By-Laws by changing at the end of subsection 1 of Section 8, the period to a comma and adding the following: "Provided that no front yard need be deeper than the average of the depths of front yards on lots next thereto on either side, a vacant lot, or a lot occupied by a building with a front yard greater than twenty-five (25) feet deep being considered as though occupied by a building with a front yard twenty-five (25) feet deep, in no case shall a front yard be less than fifteen (15) feet deep." so that said subsection will read:

"8-1 Front Yards

In residential districts no building or structure shall be placed or erected within twenty-five (25) feet of any street line, provided that no front yard need be deeper than the average of the depths of front yards on lots next thereto on either side, a vacant lot, or a lot occupied by a building with a front yard greater than twenty-five (25) feet deep being considered as though occupied by a building with a front yard twenty-five (25) feet deep, in no case shall a front yard be less than fifteen (15) feet deep."

At this time Walter E. Carbone moved to take up Article 50 and it was so voted.

Article 50. On motion of Walter E. Carbone: Voted unanimously to amend the Zoning By-Laws by changing at the end of paragraph (a) of subsection 1 of Section 6, the period to a comma and adding the following:

"except dwellings or other buildings or structures used for human occupancy."

so that said paragraph will read:

"(a) Any purpose authorized in Single residence, General residence or Business districts, except dwellings or other buildings or structures used for human occupancy."

Article 49. On motion of Walter E. Carbone: Voted 78 in favor to 23 opposed, to amend the Zoning By-Laws by deleting all of subsection 5 of Section 8 which now reads:

"8-5 Any dwelling hereafter erected in any district shall be located on a lot having frontage of not less than seventy-five (75) feet on a street or way, provided that one dwelling may be erected on a lot having a lesser frontage where said lot existed at the time this By-Law is

adopted and did not adjoin other land of the same owner available in connection with said lot."

and substitute a new subsection 5 as follows:

"8-5 Lot Area and Frontage

(a) In a single residence district there shall be provided for each dwelling a lot containing an area of at least ten thousand (10,000) square feet and having a frontage of at least one hundred (100) feet on a street or way.

(b) In general residence and in business districts there shall be provided for each dwelling a lot containing an area of at least seven thousand (7,000) square feet and having a frontage of at least seventy-five (75) feet on a street or way, except that multiple dwellings hereafter erected shall be provided with a minimum lot area of at least five thousand (5,000) square feet per family.

(c) In single residence, general residence and business districts one dwelling may be erected on a lot having less area and/or frontage than that required in the district, provided said lot existed at the time this By-Law is adopted and did not adjoin other land of the same owner available in connection with said lot."

Article 51. A motion by George J. Sharpe under this article was defeated.

(re time and one half for supervisory and clerical help, Public Works Department)

Article 52. On motion of George J. Sharpe: Voted to accept Chapter 150, Acts of 1956, which amends Chapter 340 of the Special Acts of 1916, being an Act relative to the apportionment of costs of the Sewer System in the Town of Maynard.

Article 53. On motion of George J. Sharpe: Voted that the Town authorize the Board of Public Works to hire a competent firm to investigate the possibility of a new source of water supply and to appropriate from Water Surplus the sum of \$2,000.00 for this purpose.

Article 54. On motion of George J. Sharpe: Voted that the Town authorize the Board of Public Works to retain a firm of competent engineers to make a study and report as to the most feasible method of sewerage of the area near Great Road, Parker Street, and Marlboro Street with estimated costs of construction and to appropriate the sum of \$4,000.00 for this purpose.

Article 55. The Moderator ruled that no action was necessary as it was covered by Article 57.  
(re laying and relaying water mains)

On motion of R. Frank Punch it was voted to adjourn.  
Time 9:40 P. M.

Attest:

ELEANOR JONES,  
Town Clerk.

April 17, 1956

Boston, Mass.

The foregoing amendment to By-Laws is hereby approved.

GEORGE FINGOLD,  
Attorney General.

A true copy,  
Attest:

ELEANOR JONES,  
Town Clerk.

## Proceedings of Presidential Primary

April 24, 1956

On the above date, in accordance with Town Warrant No. 463 a Presidential Primary was held at the George Washington Auditorium.

Prior to opening the polls the Chairman of the Selectmen, John Mitzcavitch, who was the Presiding officer and the Town Clerk checked the ballot box, set the register at zero and delivered the keys to the officer in charge of the box. The following officers were sworn by the Town Clerk:

James J. Ryan, Evelyn M. Mulcahy, Ann T. MacGlashing, Phyllis P. Savikoski, Margaret J. McCormack and Magloire LeSage.

At 2 o'clock P. M. the Presiding officer called the meeting to order and on motion of James J. Ryan it was voted to waive the reading of the warrant. The polls were then declared open.

2200 Democratic Ballots and 2300 Republican Ballots, received from the Secretary of the Commonwealth, duplicate voting lists containing the names of 3733 voters, of which 870 were enrolled Democrats and 897 enrolled Republicans, were delivered to the election officials by the Town Clerk and a receipt taken therefor.

At 5:30 P.M. the following Tellers were sworn by the Town Clerk:

Evelyn Darcy, Grace E. French, Margaret I. Fardy, Mabel A. Bemis, Margaret M. Boothroyd, Sadie Sluyski, Herbert Usher, Elsie P. Brayden.

The tabulating was done by Myrtle Whitney and Doris A. Lowney.

At 8 o'clock P.M. the polls were declared closed.

The ballot box register showed the figures 161.

The check lists at the gate and box showed 161 names checked. 108 Democrats and 53 Republicans were checked.

At 11:15 the Presiding Officer read the result of the balloting as follows:

## Proceedings of Special Town Meeting

April 30, 1956

On the above date, in accordance with Town Warrant No. 464, a special Town Meeting was held in the George Washington Auditorium.

At 7:30 o'clock P. M. the Moderator, Philip Wilson, called the meeting to order and declared a quorum to be present.

On motion of R. Frank Punch it was voted to waive the reading of the warrant as a whole.

Article 1. John Mitzcavitch, Chairman of the Committee appointed to look into the matter of disposing of the Old Fire Station, read a report for the committee which was accepted as one of progress. Report was filed.

James Wheeler reported for the committee investigating the feasibility of repairing the present Town Snow Loader which was accepted. Report was filed.

The Moderator announced that Victor Nicholas requested permission for his attorney to be present and speak to the meeting. On motion of R. Frank Punch such permission was voted.

Article 2. On motion of George J. Sharpe: Voted, 251 in favor to none opposed, to authorize the Board of Public Works to extend the common sewer from Thomas Street through the right-of-way already obtained in Drechsler Field to Summer Hill Road, then along said Summer Hill Road to a right-of-way to be purchased from Vittorio Nicolazzo, then along said right-of-way to Mill Street, then along Mill Street to Main Street, then along Main Street to Great Road, then along Great Road to the Stow line, also in Dewey Street from Great Road to No. 8 Dewey Street, a total distance of about 6685 feet, and to appropriate the sum of \$62,500.00 therefor, and to meet this appropriation \$2,500.00 is hereby transferred from the Main Street-Great Road Sewer Project and the Treasurer with the approval of the Selectmen is hereby authorized to issue \$60,000.00 bonds pursuant to G. L. c. 44 s. 7(1). To further authorize the Board of Public Works to obtain the necessary easements or rights of ways and to do anything lawfully pertaining thereto.

Article 3. On motion of Irving H. Manning: Voted unanimously, that the sum of \$10,500.00 be appropriated from the Main Street-Great Road Project to the High School Gymnasium Construction project to complete and furnish the gymnasium.

Article 4. A motion by Michael Zapareski to appropriate the sum of \$1,680.00 for the purpose of increasing the salaries of the members of the Police Department fifteen (15) cents per hour was defeated, 43 in favor to 183 opposed.

Article 5. On motion of Dan James Hardesty voted to lay this article on the table.

(re appointment of Inspector of Wires)

Article 6. The Moderator ruled that no action was necessary under this article.

(re appropriation for Inspector of Wires)

Article 7. On motion of Joseph P. Dineen: Voted that the sum of \$510.00 be appropriated from the Excess and Deficiency Account to the Police Department Salaries Account for the purpose of increasing the salary of the Chief of Police and said increase to be effective from May 6, 1956.

Article 8. On motion of John S. Sokolowski: Voted that the sum of \$278.58 be appropriated from the Parking Meter Account to the Police Department Salaries Account for the purpose of increasing the salary of the Meter Officer and said increase to be retroactive from March 18, 1956.

Article 9. A motion by John Mitzcavitch under this article was defeated.

(re increasing salary of janitor of Town Building)

Article 10. On motion of John S. Sokolowski as amended by Leonard E. Rae: Voted, that the sum of \$1,000.00 be appropriated from the Main Street-Great Road Sewer Project for Legal Expenses and Fees, the cases involved being Veleno et al vs. the Town of Maynard; McGloin vs. the Town Clerk of Maynard; White vs. the Town of Maynard.

Article 11. On motion of James S. Wheeler: Voted, to appropriate the sum of \$4,700.00 from the Main Street-Great Road Sewer Project for Finance Committee Reserve to provide for extraordinary or unforeseen expenditures. Transfer to be made to Departments only by vote of the Finance Committee as provided by Chapter 40, Section 6, of the General Laws.

Article 12. On motion of George J. Sharpe: Voted, 94 in favor to 13 opposed, to authorize the Board of Public Works to construct the necessary drainage lines from Great Road to Old Marlboro Road and to appropriate from the Main Street-Great Road Sewer Project the sum of \$2,000.00 for this purpose. To further authorize the Board of Public Works to secure the necessary easements or rights-of-way, and to do anything lawfully pertaining thereto.

Article 13. On motion of James S. Wheeler: Voted, to authorize the Board of Public Works to repair the snow loader and to appropriate from the Main Street-Great Road Sewer Project the sum of \$3,000.00 for this purpose.

Article 14. and 15. On motion of John S. Sokolowski: Voted, 139 in favor to 28 opposed, to take up articles 14 and 15 together.

A motion by Leo J. Mullin under these articles was defeated by a vote of 11 in favor to 217 opposed. The Moderator ruled that this action discharged the committee.  
(re construction of municipal and library building)

Article 16. A motion by Alfred S. Carey, Jr. under this article was defeated.  
(re pension to former Welfare agent)

Article 17. The Moderator ruled that no action was necessary under this article.  
(re appropriation for pension for former Welfare agent)

Article 18. A motion by Alric B. French under this article was defeated.  
(re committee to study plot plan and equalization of valuation)

Article 19. On motion of Raymond Sheridan: Voted to raise and appropriate from the Excess and Deficiency Account the sum of \$3,000.00 for snow removal.

Article 20. On motion of Raymond Sheridan: Voted to authorize the Board of Public Works to lease two (2) parcels of land situated on Summer Hill to the United States of America — Department of the Army for the term beginning May 16, 1956 and not extending beyond June 30, 1961. Said parcels are to be used for military purposes.

Article 21. On motion of Charles M. Lerer: Voted to transfer the unexpended balance of the Main Street-Great Road Sewer Project to the Excess and Deficiency Account.

At 9:46 o'clock P. M. on motion of R. Frank Punch, it was voted to adjourn.

Attest:

ELEANOR JONES,  
Town Clerk.

## Proceedings of State Primary

Held September 18, 1956

The State Primary was held in the George Washington Auditorium on the above date in accordance with Town Warrant No. 466.

Selectman John J. Sokolowski acted as Presiding Officer, and prior to the opening of the polls examined the ballot box with the Town Clerk, found it to be empty, set the register at zero, locked it and gave the keys to the election officer in charge of the box.

The following checkers and ballot clerks were sworn by the Town Clerk: Joe Marsden, Edward J. Costello, Evelyn M. Mulcahy, Ann T. MacGlashing, Pauline E. Foley and Ruthmary Armour.

At 12 o'clock noon, the Presiding Officer called the meeting to order and on motion of Edward J. Costello it was voted to waive the reading of the warrant. The polls were then declared open.

The Town Clerk delivered 2141 Official Democratic Ballots and 2200 Official Republican Ballots, duplicate voting lists containing the names of 3940 voters, of which 875 were enrolled Democrats and 889 enrolled Republicans, to the ballot clerks, taking a receipt therefore.

At 5:30 o'clock P. M. the following Tellers were sworn by the Town Clerk and counting began:

Evelyn Darcy, Elvira A. Hicks, Dorothy Garlick, Jessie B. Crowe, Eva H. Evers, Margaret M. Boothroyd, Elsie P. Brayden, Agnes V. Rizzo, Margaret I. Fardy, Mary V. Bemis, Grace E. French, Natalie P. Bradbury, Sadie Sluyski, Agnes W. Driscoll, Dorothy E. Hamlin and Mabel A. Bemis.

The tabulation was done by Doris A. Lowney and Myrtle Whitney, who were sworn by the Town Clerk.

At eight o'clock P. M. the polls were declared closed.

The ballot box register showed the figures 549.

The check lists at the Gate and the Box showed 549 names had been checked — 318 Democrats and 231 Republicans.

The result of the voting was announced at 9 o'clock as follows:

## Proceedings of Special Town Meeting

Held September 17, 1956

In accordance with Town Warrant No. 465, a Special Town Meeting was held in George Washington Auditorium, on the above date.

Moderator Philip Wilson called the meeting to order at 7:30 o'clock P. M. and declared a quorum to be present.

On motion of R. Frank Punch it was voted to waive the reading of the warrant as a whole.

Article 1. Leo F. Mullin read the final report of the Municipal Building Committee and on motion of R. Frank Punch it was voted to accept the report. Report was filed.

Arthur J. Brooks read a report for the Planning Board regarding the Zoning amendment to be acted upon under Article 2. Report was filed.

Irving H. Manning, Chairman, read a report for the School Building Committee and on motion of R. Frank Punch it was accepted as a report of progress. Report was filed.

Walter E. Carbone requested permission for the admission of two representatives of the Scott Company to the Town Meeting but such permission was refused by vote of the meeting.

Article 2. On motion of Walter E. Carbone: Voted, 124 in favor to 15 opposed, to amend Section 2 of the Zoning By-Laws and the Zoning Map by changing from "Single Residence" to an "Industrial District" a strip of land extending from the southerly line of Powder Mill Road to the median line of Old Mill Road, so-called, said strip of land being one hundred and eighty-five (185) feet wide, parallel and adjacent to the westerly side of the existing Industrial District which is situated on the easterly side of the Town near the junction of the boundaries of the Towns of Acton, Concord and Maynard.

The counters, appointed by the Moderator and sworn by the Town Clerk, were Evelyn M. Mulcahy, Ann T. MacGlash-ing, Sadie Sluyski, and Phyllis P. Savikoski.

Article 3. On motion of George J. Sharpe: Voted, unanimously, to authorize the Board of Public Works to extend the common sewer on Powder Mill Road for a distance of approximately seven hundred and seventy-five (775) feet to the Acton Town line and to issue notes or bonds in accordance with the provisions of the General Laws for the sum of \$6,500.00 also to transfer from the Sewer Surplus Account the sum of \$100.00 for the purpose. To further authorize the Board of Public Works to secure the necessary rights of ways or easements and to do anything lawfully pertaining thereto.

Article 4. On motion of George J. Sharpe: Voted, unanimously, to authorize the Board of Public Works to extend the common sewer on High Street for a distance of approximately four hundred (400) feet and to issue notes or bonds in accordance with the provisions of the General Laws for the sum of \$3,400.00 for this purpose.

Article 5. On motion of George J. Sharpe: Voted, unanimously, to authorize the Board of Public Works to construct a common sewer on Lewis Street for a distance of approximately eight hundred (800) feet and to issue notes or bonds in accordance with the provisions of the General Laws for the sum of \$6,800.00, for this purpose.

Article 6. On motion of George J. Sharpe: Voted, unanimously, to authorize the Board of Public Works to extend

the common sewer on Espie Avenue for a distance of approximately fifty (50) feet and to issue notes or bonds in accordance with the provisions of the General Laws for the sum of \$300.00 for this purpose.

Article 7. On motion of Walter E. Carbone: Voted to transfer from the Excess and Deficiency Account the sum of five hundred (500) dollars which will be matched by a like amount of Federal Funds under Public Law 560-83. Said funds to be used by the Planning Board for consulting services in connection with surveys for immediate and future needs of the Town.

Article 8. On motion of John S. Sokolowski: Voted, 90 in favor to 25 opposed, to accept Chapter 529 of the Acts of 1949. This act provides that the Board of Selectmen shall appoint an inspector of wires.

The Town Clerk, by unanimous vote, acted as Moderator for the foregoing article.

Article 9. On motion of John S. Sokolowski: Voted to transfer the sum of \$100.00 from the Excess and Deficiency Account for the salary and expenses of the inspector of wires.

Article 10. On motion of John Mitzevitch: Voted that the sum of \$4,200.00 be appropriated and transferred from the Excess and Deficiency Account for the purpose of installing a new boiler in the Town Building.

Article 11. On motion of Irving H. Manning: Voted, unanimously, that an additional \$18,000.00 be appropriated for the purpose of constructing and originally equipping and furnishing an elementary school building, said sum to be added to the appropriation of \$344,000.00 previously appropriated for the same purposes, under Article 3 of the warrant for the special town meeting held April 26, 1954, and to the \$38,000.00 previously appropriated for the same purposes under Article 47 of the warrant for the annual town meeting held March 14, 1955, and that the town treasurer be authorized to issue notes or bonds for the sum of \$18,000.00 to meet the foregoing appropriation in accordance with the provisions of Chapter 645 of the Acts of 1948 as amended.

On motion of R. Frank Punch it was voted to adjourn. Time 9 o'clock, P. M.

Attest:

ELEANOR JONES,  
Town Clerk.

## Proceedings of State Election

November 6, 1956

An election was held on the above date, in the George Washington Auditorium, for Electors of President and Vice President, National, State and County Officers and to vote on one question, pursuant to Town Warrant No. 466.

The Presiding Officer, John Mitzcavitch, Chairman of the Board of Selectmen, called the meeting to order at eight o'clock A. M. and on motion of John F. Stokes the reading of the Warrant was waived, the polls were then declared open.

The ballot boxes had been examined by the Presiding Officer and Town Clerk, who pronounced them empty, set the registers at zero, locked them and put the keys in the custody of the election officer in charge of boxes.

The following Ballot Clerks and Checkers were sworn by the Town Clerk, who delivered 4343 Official Ballots and Duplicate Voting Lists, containing the names of 4085 duly registered voters and eight (8) Service persons (registered by kindred or by personal application), James J. Ryan, Evelyn M. Mulcahy, Dorothy Garlick, Joe Marsden, Martha L. Champagne, Margaret J. McCormack, Ruthmary Armour, Pauline E. Foley, Phyllis P. Savoski, Helen M. Gilleney, Edward J. Costello and Magloire LeSage. Receipts were given to the Town Clerk for ballots and voting lists.

At ten o'clock A. M. the ballot boxes were opened, this having been authorized by the Selectmen, ballots were removed and counting began by the following Tellers, after they had been sworn by the Town Clerk.

Margaret M. Boothroyd, Eva H. Evers, Elsie P. Brayden, Agnes V. Rizzo, Helen T. Brayden, Gertrude Duggan, Mabel A. Bemis, Jeannette I. Robblee, Grace E. French, Lillian J. Alto, Elvira A. Hicks, Dorothy E. Hamlin, Mary V. Bemis, Evelyn Darcy, Constance J. Quinn, M. Mabel Holly, Sadie Sluyski, Agnes W. Driscoll, Jessie B. Crowe, Louise M. Anderson. The tabulating was done by Doris A. Lowney and Myrtle Whitney and Esther M. Evans was in charge of folding and preparing the ballots for counting, they too were sworn by the Town Clerk.

At eight o'clock P. M. the Presiding Officer declared the polls closed. He then cast 104 Absent Voter Ballots, 43 in Area 1 and 61 in Area 2. Of these ballots 78 were Official Absent Voter Ballots and 26 were Official War Ballots.

The register on the ballot box in Area 1 showed the figures 1885 but the election officer in charge of the box had reported that several times ballots had caught in the rollers and

caused the register to over ring. The actual number of ballots cast in area 1 was 1878. The register on the ballot box in Area 2 showed the figures 1857.

Number of names checked on Voting List — Area 1 — 1878

Number of names checked on Voting List — Area 2 — 1857

Total number of ballots cast and tabulated 3735

The result was announced at 2:15 A. M., November 7, 1956, and was as follows:

### ELECTORS OF PRESIDENT AND VICE PRESIDENT

## NOTICE

All dog licenses here listed expire  
March 31, 1957.

Dogs must be licensed on or before  
April 1st or the owners or keepers  
thereof are liable to a fine.

The law applies to all dogs three  
months old or over, regardless of  
time of year ownership is acquired.

No tax bills are sent to owners  
of dogs.

## Board of Registrars of Voters

To the Board of Selectmen  
Maynard, Massachusetts

Gentlemen:

The Board of Registrars of Voters held several meetings prior to the 1956 Annual Town Meeting, to register new voters and to correct and revise the voting list.

A recount of the ballots cast at the Town Election for the offices of Assessor, Member of the Board of Public Welfare (for one year) and member of the Board of Public Works (for one year) was made on March 15, 1956. The result of the recount did not affect the election of the candidates who were declared elected at the close of the polls.

Registration meetings were held prior to the April Presidential Primary, the September State Primary and the November State and National Election. Signatures on nomination papers were checked and certified and all applications for absent voter ballots were checked and ballots sent to those approved.

The voting list used at the November Election contained the names of 4,085 registered voters and 8 service registered voters.

The Annual Listing of Residents, 20 years of age and over, and the listing of dog owners was conducted by the Board in January.

Respectfully submitted,

ALEXANDER J. BOURKE, Chairman  
REGINALD JONES  
EDWARD E. PUFFER  
ELEANOR JONES

## Assessors' Report

To the Board of Selectmen:

The Annual Report of the Board of Assessors for the year ending December 31, 1956, is submitted herewith:

In accordance with the provisions of the General Laws of Massachusetts, Chapter 59, Section 29, all owners of taxable property shall, each year, on or before the 31st of January submit to the local Assessors a list with the valuation of their taxable property. Notices are posted, and forms may be obtained at the Assessors' office in the Municipal building.

All male inhabitants who are 65 years of age and over, and who wish to be exempted from payment of a poll tax, must make a request in writing on a form furnished at the office of the Assessors.

All requests for abatement or exemption of taxes must be filed on forms which can be obtained at the Assessors' office.

## Town Accountant's Report

To the Honorable Board of Selectmen:

Herewith is presented the report of the Accounting Department for the year ending December 31, 1956. The report is made in accordance with the requirements of the State System of Accounting.

In accordance with the provisions of Section 61, Chapter 41, of the General Laws, I hereby certify that I have verified the cash balance of the Town Treasurer as of December 31, 1956. The total cash balance December 31, 1956 was \$296,837.58.

In accordance with the provisions of Section 23, Chapter 59, General Laws, as amended, the amount of available funds or "free cash" as of December 31, 1956 is \$121,861.19.

The courtesy and co-operation received from the various town boards, officials and employees is gratefully appreciated.

Respectfully submitted,

JAMES V. KING,  
Town Accountant.

## Report of Finance Committee

The Committee held 40 meetings during the year 1956.

Transfers from the reserve fund during the year 1956 have been made by the Finance Committee totaling \$12,700.00.

Again the Committee reminds the Departments to make requests for transfers before money is expended. This practice is not being followed.

Due to the two snow storms in March and April transfers totaling \$4,298.60 were made to Public Works Department for snow removal.

The Committee expended an unusual amount of time and consideration on the budget and articles submitted for recommendation. After giving careful study and consideration we met with the Departments and discussed Budgets where there was a differential between the requests and our recommendations.

Following last year's Town meeting the Moderator reappointed Mr. Stanley D. Nowick and Mr. Leonard E. Rae and appointed Mr. J. Francis Cleary. In June the Committee elected Mrs. Ingrid A. Martin to fill the vacancy caused by the resignation of Mrs. Almeda S. Jones.

## Report of the Board of Retirement

To the Members of the Maynard Contributory Retirement System:

The Maynard Board of Retirement submits herewith the annual report of the Retirement System.

Eight new members have been added during the year 1956, eight members withdrew from the System, and one member retired. During the year one member transferred to another system and one member was transferred from another system to the Maynard system.

A statement has been mailed to each member giving his or her credit as of December 31, 1956.

J. FRANCIS CLEARY,  
ANGUS E. HANSON,  
JAMES V. KING,  
Maynard Retirement Board.

## Report of the Public Works Commissioners

To the Board of Selectmen  
Gentlemen :

The Public Works Commissioners are pleased to submit to you and the citizens of Maynard, their report for the year ending December 31, 1956. The board met every Tuesday night and in addition held numerous special meetings throughout the year.

The board would like to thank their former chairman, Mr. Raymond Sheridan, for his guidance, leadership and devotion to serving the best interest of the town during the past year. Mr. Sheridan accepted a position with the Army Engineers in December and was requested to resign from the board.

Since Public Works was organized a short four years ago, three different men have served as Superintendent. During the past year, Mr. Peter T. Peterson resigned as Superintendent to enter private business. Mr. Gerald Nee, one of the original organizers of Public Works and a former chairman of the board, was appointed Superintendent last July. The board would like to call to your attention the new Superintendents' report which shows a tremendous amount of work accomplished under his administration.

The State Board of Sanitary Engineers have investigated our sewage disposal plant and have notified the Public Works Commissioners it is inadequate and must be enlarged. The disposal plant is now over-taxed and there are many additional citizens who have requested to be connected to the town sewerage system immediately.

Where is the money coming from to pay for all this? The commissioners have asked themselves this question many times. In most surrounding municipalities, in order to help pay for the high cost of running a sewerage system, a rental charge is paid by users of the sewerage system. In line with this, we have placed an article on the town warrant authorizing the Public Works Commissioners to charge a rental fee for using the town sewerage system.

Also, during the year, the board completely changed the antiquated water regulations that should have gone out with the horse and buggy. Private developers were flocking to Maynard because they felt the town was a soft touch paying for fifty per cent of all water systems installed in their developments. Under the new regulations, private developers pay one hundred per cent. This change alone should result in saving the taxpayers thousands of dollars in the near future.

An intensive study of conditions in the Water and Cemetery divisions revealed that both departments, which should be self-supporting, have been operating in the red for some time.

To offset the operating loss of these departments, money has been taken from other sources, thus increasing the general tax rate. This does not make sense especially when large users of town water such as industrial concerns, are getting water at a loss to the town.

In the past, water mains were illegally extended out of Maynard. Out-of-town water users were getting water at the same low rates of local users. This practise was also costing the Maynard taxpayers money.

At the present time the water system in Maynard is in a deplorable condition due to lack of foresight and false economy. There is a great deal of work to be done as outlined in the Planning Boards' special water report to the citizens of Maynard. The replacing of water mains and other costly improvements should be paid for with earnings of the Water Department and not by increasing the general tax rate.

In order to wipe out the operating loss of the Water Department and correct the condition of the water system, the board of Public Works commissioners raised the water rates effective November 1, 1956.

The local rates were raised with a minimum of \$5 every six months. The out-of-town rates were raised with a minimum of \$9 every six months. Even with this increase, the water rates in Maynard are much lower than those in most surrounding towns.

Increased costs of maintenance and operation of the cemetery without comparable increase in revenue has resulted in an operating loss for this department. An upward revision of prices for lots and other services was made in the cemetery effective December 4, 1956. The new prices for the cemetery are still lower than most surrounding towns but are sufficient to wipe out the operating loss.

Since 1948, \$119,250.00 has been taken from the excess and deficiency fund for the operation of departments that come under the jurisdiction of Public Works. About \$70,000.00 of this amount was used to pay salaries. Money taken from excess and deficiency to meet current operating expense is comparable to somebody who would use his savings to pay his weekly food bill.

This method of financial maneuvering tends to hide the true general tax rate which eventually will come to light.

The Public Works Commissioners realized the high tax rate we now have in Maynard is mainly due to the building pro-

gram that has gone on recently. By making divisions under Public Works self-supporting and charging costs where they belong, we are doing our share in keeping down the general tax rate.

On our 1957 budget, we have requested \$5000 for the purchase of a sand spreader. At the present time we have one sand spreader, which cannot adequately cover the town in time after a storm. The majority of the towns people now work out-of-town and they are entitled to faster and better sanding service which they will get with this additional spreader.

It was the decision of the board to let Chapter 90 Construction on Powdermill Road out on contract. A large section of Powdermill Road was reconstructed in record time with a minimum of inconvenience to travelers.

Finishing touches are now being put on the Sudbury Street Bridge. This bridge was damaged during hurricane "Diane" on August 19, 1955. Because of the alertness and efforts of members of Public Works a new \$80,000 bridge was built with state and federal aid without cost to the town.

At the present time federal aid is being sought to help defray the expenses of enlarging the sewer disposal plant.

Federal aid paid for damage to the retaining walls on both the upstream and downstream sides of the Mill Street Bridge.

Money received from the state during 1956 for the construction of roads far exceeded any previous allotments.

In our 1957 budget, we asked for a five dollar a week raise for every employee under Public Works. The Public Works' wages in Maynard are well below wages paid to employees who work in comparable positions in other towns.

The board would like to express their appreciation for the unselfish devotion to duty the Public Works' employees showed during the year. They were called out many nights, weekends and holidays to battle stormy and icy road conditions. In addition, many long, hard, extra hours were spent unblocking sewer mains, fixing water breaks and digging graves for weekend burials.

We also wish to thank the members of the Special Water Committee and especially Henry Hanson for their cooperation and time. We would like to call to your attention that this Committee has their own report in another section of this book.

The assistance received from various departments and officials during the year was certainly appreciated. Your Public

Works Board would like to especially thank James V. King for his help and co-operation.

Respectfully submitted,

GEORGE J. SHARPE, Chairman  
FRANK KANE

---

Maynard, Mass., January 10, 1957.

To the Board of Public Works:

Gentlemen:

I submit herewith the annual report of the Superintendent of Public Works for the year ending December 31, 1957. This report includes the activities of the following divisions: Water, Sewer, Highway and Bridges, Parking Areas, Parks, Cemetery, Trees and Insects and Public Dump.

I received the appointment of Superintendent on July 2, and was faced with many projects either to be done by the Department or to be let out on contract. The following is a list of the work accomplished:

#### **Highway Department**

All streets throughout the Town were swept and picked up. The main business section was swept and picked up at least once a week.

#### **Snow and Ice**

Sidewalks and roads were plowed, sanded and salted where needed. Snow was removed from the business district, churches and other public buildings. Snow fences were taken in and repaired in the Spring and reset in the Fall. Sand barrels were placed and filled at various places in the Town.

#### **Parking Areas**

All parking areas were kept in repair by gravel and patching whenever needed. A new Type I driveway was added to the driveway connecting the Main Street and Fine Arts parking area.

#### **Garage**

All equipment listed under Public Works was checked and serviced by the mechanic at the Highway Garage. The snow loader was overhauled and a new undercarriage and belt installed. Since being repaired, it has been used to pick up snow twice and has operated satisfactorily.

**Sidewalk and Resurfaced Type I**

Acton Street .....	1,750 Sq. Ft.
Brooks Street .....	6,100 Sq. Ft.
Lincoln Street .....	840 Sq. Ft.
Main Street .....	2,100 Sq. Ft.
Glendale Street .....	550 Sq. Ft.
Great Road .....	3,100 Sq. Ft.
Nason Street .....	450 Sq. Ft.
Maple Street .....	5,100 Sq. Ft.
McKinley Street .....	500 Sq. Ft.
Park Street .....	350 Sq. Ft.
Randall Road .....	540 Sq. Ft.
Summer Street .....	1,850 Sq. Ft.
Waltham Street .....	3,100 Sq. Ft.
<b>Total .....</b>	<b>26,330 Sq. Ft.</b>

**Replacement of Cement Blocks**

Acton Street .....	1 Block
Arthur Street .....	2 Block
Bancroft Street .....	6 Block
Brown Street .....	7 Block
Chandler Street .....	4 Block
Cleveland Street .....	3 Block
Harrison Street .....	11 Block
Lincoln Street .....	5 Block
Linden Street .....	3 Block
McKinley Street .....	2 Block
Roosevelt Street .....	4 Block
Tremont Street .....	2 Block
<b>Total .....</b>	<b>50 Block</b>

The following Streets received seal coats and sand:

	<i>Sealed Gals.</i>	<i>Length</i>
Dean Street	250 RC 2.	250 Ft.
Lewis Street	1,800 RC 2.	1,987 Ft.
Newton Drive	650 RC 2.	800 Ft.
Warren Avenue	250 RC 2.	294 Ft.
Euclid Avenue	600 RC 2.	650 Ft.

The following Streets received penetration, plus seal coat:

	<i>Pen. Gals.</i>	<i>Sealed Gals.</i>	<i>Length</i>
Everett Street	500 MC	250 RC	250 Ft.
Beacon Street	560 MC	310 RC	227 Ft.
Thomas Street	625 MC	375 RC	264 Ft.
Marlboro Street	650 MC	400 RC	520 Ft.

Old Marlboro Road	670 MC	525 RC	600 Ft.
Taylor Road	2,300 MC	700 RC	1,785 Ft.

In addition, Beacon and Thomas Streets were excavated, all structures raised or lowered and regraded with gravel and rolled.

Taylor Road. Twenty-five trees were cut. The road was widened for about 1,000 feet, all structures raised and the entire length was graveled, regraded and rolled.

A 250-foot section of Chain Link Fence was installed on Great Road at Ben Smith's Bridge. The slope was made with fill from Powdermill Road, shaped, loamed and seeded.

One Hundred and Sixty-two feet of 12-inch C.C. drainage and two catch basins were installed on Marlboro Street. The street and shoulders were regraded and 120 square feet of Type I. placed.

200 catch basins were cleaned throughout the Town. The drain line from the Parking Area behind the First National Store on Nason Street to the river on Waltham Street was cleaned with two Flexible Power Bucket machines rented for this purpose. Another section of drain on Sudbury Street from Great Road to Mill Pond and from Park Street to Sudbury Street was also cleaned. This has been a trouble spot for years and I am confident that the trouble in that drain line is now corrected.

Chapter 90 Maintenance. Under Chapter 90 Maintenance 2500 feet of Acton Street from Everett Street to railroad crossing at Brown Street received a mix in place plus armour coat. In addition about 2,000 feet of Parker Street from Fairfield Street to Rotary at Great Road received an armour coat.

Chapter 90 Construction. Powdermill Road was let out on contract to Greenough Brothers of Waltham and in less than four weeks they had re-constructed some 1,850 feet of new road at a minimum of inconvenience to the people and business men in the neighborhood.

### Bridges

The walls at Mill Street were rebuilt and pointed and new gravel was placed. This project was carried out under the Flood Relief Program.

The Chain Link Fence on Sudbury Street was taken down, all trees and brush was cut on the slope and the road widened with 1,500 yards of fill from the excavation on Powdermill Road. The bridge on Sudbury Street was removed and the new one should be completed early in the Spring.

Besides these extra projects, the Highway Department set 28 street signs on various Streets, reset parking meters where necessary, removed all rubbish from schools and Town House and cooperated with all other departments when called upon.

### **Trees and Insects**

Fifty-eight new trees were planted and 64 dead or diseased ones removed. Brush was cut and all dangerous limbs taken down. Spraying for Poison Ivy, moths and insects was completed. The grounds and adjacent land near the Green Meadow and Coolidge Schools were sprayed with D.D.T. for mosquito control.

### **Parks**

The grass in Memorial Park was mowed when needed. The shrubbery and flowers were sprayed and trimmed. Lights were hung during the Christmas Season and walks were plowed and sanded.

Crowe Park was mowed frequently. The diamond was raked, trimmed and regraded. Foul lines were limed and a new home plate and pitchers rubber installed.

### **Cemetery**

During the past year several sunken graves were repaired, grass markers reset, and shrub beds cultivated and edged. The evergreens and flowering shrubs were trimmed and sprayed and weed killer applied to avenues. Avenues were graded and gravel applied where necessary. Much of the brush was cut and burned bordering the Cemetery.

Total interments numbered 68 and of these 27 occurred on week-ends or holidays.

### **Water and Sewer**

All hydrants were painted. Six hydrants were repaired and reset. Three new hydrants were installed. Hydrants at dead ends were flushed several times and wherever else was thought necessary. Meters were read by the Department in April and October. The daily maintenance of the pumps at White Pond and Powdermill Road pumping stations were carried out. In addition, two men were assigned to the Sewage Disposal Plant and Beds in order to keep the plant functioning properly.

The Department was called out to clean 40 sewer house connections blocks and 14 main blocks. Most of these blocks occur at night or week-ends and every year the number increases. A total of six manholes were raised and repaired.

Thirty-seven homes were connected to the sewer system and 30 homes to the water system. Fourteen new water relays were made and 11 breaks in house water connections and 8 breaks in water mains were repaired. Twelve curb boxes and 3 main gate boxes were raised or replaced.

### Sewer Mains

Beacon Street .....	200 Ft.	8 in. V.C.
Upper Great Road .....	400 Ft.	8 in. V.C.
High Street .....	396 Ft.	8 in. V.C.
Powdermill Road .....	625 Ft.	8 in. V.C.
Powdermill Road .....	175 Ft.	6 in. V.C.
Summer Hill-Great Road .....	6,400 Ft.	8 in. A.C.

### Manholes

Beacon Street .....	2
High Street .....	2
Upper Great Road .....	2
Powdermill Road .....	3
Summer Hill Road .....	26

New Water Mains were installed on the following streets:

Marlboro Street .....	162 Ft.	8 in. A.C.
B. Street .....	486 Ft.	6 in. A.C.
Walker Street .....	589 Ft.	8 in. A.C.
Butler Avenue .....	36 Ft.	8 in. A.C.

Since taking office in July a daily and accurate record of the Sewage pumped at the Powdermill Road pumping station has been kept. The following is a monthly report:

July .....	10,638,250 Gals.
August .....	11,079,250 Gals.
September .....	11,592,500 Gals.
October .....	12,150,500 Gals.
November .....	12,383,000 Gals.
December .....	12,902,350 Gals.
Total .....	70,745,850 Gals.
Daily Average .....	387,648 Gals.

For the first time the 650 gallon per minute pump at the White Pond Pumping Station has been in almost continued use. The following is the Water pumping record for the year:

January .....	14,628,825 Gals.
February .....	13,674,550 Gals.
March .....	14,283,500 Gals.
April .....	14,967,100 Gals.
May .....	15,768,000 Gals.
June .....	14,006,700 Gals.

July .....	18,688,750 Gals.
August .....	17,993,500 Gals.
September .....	15,322,500 Gals.
October .....	16,116,250 Gals.
November .....	13,072,200 Gals.
December .....	15,437,500 Gals.
Total .....	183,969,375 Gals.
Daily Average 1955 ....	474,978 Gals.
Daily Average 1956 ....	504,025 Gals.
Daily Increase .....	29,047 Gals.
Overall increase for year 1956 .....	10,602,155 Gals.

This has been an unusually busy year for construction in Maynard and has drawn heavily on the time of this Department. The following is a partial list of some of the jobs started or completed in the year 1956.

L. P. Boeske Sewer Extension, 6600 feet. Chelsea Construction Sewer Extension, 2675 feet. Ramp to Bradley's, Thompson Street. Transmitter and Receiver Station for Raytheon, Thompson Street. Bridge on Sudbury Street, Electric cable on Powdermill Road by Boston Edison. Boston Edison Station on Acton Street. New section of Powdermill Road by Greenough Bros. Testing Station on Summer Hill by Air Corp Engineers. Thirty-six new lights installed by Boston Edison on poles in various parts of Town. New electric cable laid from Brown Street to new station at Acton Street by Boston Edison. Poles removed and reset on Taylor Road and Sudbury Street. Testing of hydrants on Powdermill Road in conjunction with building for H. F. Scott Company.

Miscellaneous: Eighty-six calls to fix leaky or damaged meters. One hundred new meters were installed and 100 old meters repaired. All the pipe and fittings for the Water Replacement Program was unloaded and stored at the Winter Street Station. Father Linehan was hired to make a survey and tests for a new water supply and a report of his findings should be ready for the Annual Town Meeting.

There are a great deal of things that are needed by this Department but for economy sake I am requesting a bare minimum for 1957. These requests will be listed in the Finance Committees Report with or without their recommendations.

In conclusion, I wish to thank the Foremen and men of the Department for their cooperation, also the members of the Board and the other employees of the Town. And no Town Report is complete unless it ends with a "Thank You Jim."

Respectfully submitted,

GERALD J. NEE,  
Superintendent of Public Works.

## Report of the Planning Board

To the Board of Selectmen  
Maynard, Massachusetts

During 1956 the Planning Board held 37 regular meetings, several field trips and a number of meetings with other departments. The activities, accomplishments, future projects and recommendations are briefly summarized in this report.

### Building Activity

During 1956 building activity showed a decrease over the previous year but was more than other years and considerable for the town which now contains only four square miles of land area. A total of 72 building permits were issued under the protective Zoning By-Law, of which 31 were for the erection of single family dwellings. A comparison of building activity for the past five years follows:

	1952	1953	1954	1955	1956
Single family dwellings	26	29	41	66	31
Garages	13	14	13	16	7
Other additions	22	18	17	15	16
Accessory buildings	2	1	3	4	3
Commercial buildings	2	—	4	9	6
Remodel commercial buildings	—	—	—	—	3
Conversion to 2-family dwelling	1	2	2	2	2
Municipal buildings	—	—	—	3	—
House trailers	—	—	4	3	—

The above table indicates that only 7 permits have been issued for house trailers, inspection shows that at the present time there are 14 located in the town. Owners of house trailers that do not have permits have been notified by the Board of Selectmen to obtain them.

### Subdivision Control

During the year 1956 the Planning Board reviewed plans of six subdivisions. Four of these had been first presented near the end of 1955. Four subdivisions were approved consisting in total of 46 building lots. One is under review at the year's end. The plan of a proposed subdivision "Elmfield Acres" submitted by John McGloin of Framingham was not approved by the Board due to inadequate provision for storm drainage. This developer appealed to the Superior Court to have his plan approved. The Court upheld the Town in this case. The proposed plan contained 74 building lots. A subdivision of this size, if constructed in a short space of time, could quickly tax all the town facilities.

During the year the Department of Public Works took steps to have legislation enacted which requires the developer to pay the full cost of water and sewer.

### **Zoning**

Included in the By-Law amendments was the adoption of 10,000 square foot minimum lot area and 100 foot minimum lot frontage for single residence districts. This safeguard was very important as it not only preserves property value but is consistent with the long one-story homes of today which require a larger building site. In cases where no town sewerage system is available this lot size will allow for septic tank leaching fields.

Also adopted in 1956 was an amendment to prohibit the erection of dwellings in an industrial district. This will prevent industrial sites being split up in smaller parcels difficult for future reassembly. At a special Town Meeting the industrial district on Powder Mill Road was extended to make available an additional 185 feet of frontage for the erection of a campus type electronics plant by the H. H. Scott Co. At the present time the Planning Board is making a survey to locate additional land to be zoned for industry.

### **Parking and Traffic**

With the influx of the new larger industries into the mill a real traffic and parking problem has arisen since the majority of the people employed travel by automobile. The Planning Board was requested by the Board of Selectmen to make recommendations on making certain streets in the vicinity of the mill one way. The Planning Board called on the State Department of Public Works, Traffic Division, for assistance. A report of proposed traffic flow, one way streets and curb parking circumferential to the mill was submitted by this department to our Chief of Police.

Three parking areas have been constructed by the industries which are being used to capacity but are insufficient to park all the cars coming to the mill. It is hoped that more off street parking will be furnished.

There is need for more off-street parking in the business district for which the Planning Board has taken steps to find possible sites and means of acquisition.

### **Land Use Survey**

With funds furnished by the Town and a like amount by a Federal Grant the Board has taken steps to have a land use survey and report made by professional planners. This report will be a basis for determining future needs by the Town in

the way of betterments. This graphic picture of existing physical conditions is considered the single most important work in a comprehensive planning process.

Until such time as this survey is made it would be difficult to predetermine what the future needs of the Town will be and all town property not in use should be held until it is determined that it will not be of use for a future municipal project. The purchase of land in a specific location, especially with existing buildings would prove to be costly. Some towns have been acquiring undeveloped land for future municipal purposes.

The Planning Board has been notified by the Post Office Department that a survey which the Board requested will be made of the old Fire Station property as well as other locations for a possible approved Post Office site.

### **Recommendations for 1957**

With the Greenmeadow School now in use many of the children are walking to this school. A recommendation has been forwarded to the Department of Public Works to repair or construct sidewalks on the northerly side of Great Road from the rotary to Dewey Street.

Since elevated sites are being acquired in the town for radar and relay towers it has been recommended that land be purchased for the elevated water storage tank, proposed in the Water System Report, while land is still available.

Previous excavations which are close to the shoulders of Waltham Street at the Town dump were eroding the slopes with the possibility of causing damage to the street. It was recommended that this area be filled by dumping in order to overcome the condition. A chainlink fence should be erected, the shoulders of the road cleaned of all rubbish and a planting of conifers placed along here to screen the dump.

During 1956 representatives of the Planning Board served on the following Town Committees:

Appeals Board

School Building Committee

Town Building Committee

Also the Sudbury, Assabet, Concord River Watershed Asso.

Your Planning Board wishes to take this opportunity to thank the voters of the Town of Maynard for the interest which they have indicated in its work.

FIorentino J. DiGRAPPA, Clerk  
WALTER E. CARBONE, Chairman  
DAVID L. PALLIAN  
FRANKLIN D. CAMPBELL

## Report of The Board of Appeals

To the Board of Selectmen:  
Maynard, Massachusetts  
Gentlemen:

The following appeals and petitions have been considered during the year 1956 under the protective Zoning By-law.

Lawrence W. Quinn, 13 Linden Street	
Front yard variation for porch extension	granted
Helen Phaneuf, 17 O'Moore Avenue	
Authority to operate beauty shop in home	granted
Ralph and Marie Sheridan, 7 Lindberg Avenue	
Side yard variation to erect breezeway and garage	modified
Alan and Myrna Palmer, 3 Bent Avenue	
Side yard variation to extend porch	modified
John McGloin, 23 Great Road	
Front yard variation to erect dwelling	modified
Edna Horstkotte, 110 Parker Street	
Authority to use room in home for hairdressing	granted
Raytheon Mfg. Co., Thompson Street	
Authority to erect directional signs	default
Stephen Lowell, 66 Great Road	
Authority to sell plants and flowers not grown on premises	modified
Arnold C. Anderson, between 37 and 43 Great Road	
Lot frontage variation to subdivide lot for a dwelling	granted
James Wheeler, 115 Waltham Street	
Authority to conduct rug cleaning business in an accessory building	granted 1 yr.
Mary Luca, 87 Waltham Street	
Authority to convert single family dwelling into two family dwelling	granted
Precision Line Inc., 71 Main Street	
Authority to continue industrial operation in business district	extended 1 yr.

William Barry, 99 Concord Street

Authority to conduct photography studio in a room  
in home granted 1 yr.

Ralph and Marie Sheridan, 7 Lindberg Avenue

Side yard variation to erect garage granted

Respectfully submitted,

EDMUND W. BEEBE, Chairman

WILLIS I. LESTER, Clerk

JAMES P. BAUDREAU

WALTER E. CARBONE

HOWARD E. SCHREIBER

LAURI W. MANNING, Alternate

PASQUALE LALLI, Alternate

## Report of the Public Library

To the Honorable Board of Selectmen:

Gentlemen:

We herewith submit the report of the Librarian and the Board of Trustees for the year 1956.

### REPORT OF THE LIBRARIAN

We are indebted to the following Libraries for the loan of books:

The Division of Public Libraries, Brookline, Concord, Watertown and Lynn.

The following people and organizations have donated books or magazines to the Library for which we express our thanks.

The American Legion  
Mrs. Walter Carbone  
Mrs. Mary Flannery  
Mrs. Howard Jones  
Dr. Frank Lituri  
Mr. and Mrs. Patrick Murphy  
Mrs. Herbert Pratt  
Mrs. Ralph Sheridan  
United Cooperative Society  
Rotary Club  
Mr. and Mrs. Charles Warren

Statistical Report is as follows:

Books in the Library January 1, 1957	14,812
Lost Books .....	35
Discarded .....	85
Borrowed .....	130
Bound .....	6
Purchased .....	290
Magazines .....	42
Daily Papers .....	1
Weekly Papers .....	2
Fines Collected .....	\$179.62
Circulation .....	26,985

Respectfully submitted,

OLIVE R. MORGAN,  
Librarian.

## REPORT OF THE BOARD OF TRUSTEES

For seventy-six years Maynard has had a Public Library and it is incredible to realize the town still does not have a Public Library building. It was a great disappointment this year when the building committee did not present the Library as a separate building on another location at the special Town Meeting in April. A Library to be efficient should be placed where the maximum flow of pedestrian traffic is the heaviest.

The Federal Library Services bill passed in 1956 by the 84th Congress was investigated but found that the money will be allotted to each state to improve Library Services in rural areas, tentative plans for Massachusetts are for forming regional Library centers, the first year in the north-eastern Merrimac Valley area, later they plan to form one in the Worcester area which may benefit us to some extent.

A large window fan helped keep the library a little more comfortable during the very hot weather. Mr. Glatky, our landlord, has recently installed a new doorway, aluminum storm windows and screens, these are a great addition for looks and comfort.

Through the Maynard Garden Club holiday arrangements made by Mrs. Chester Lech, Mrs. Frank May and Mrs. Walter Carbone were on display during November and December, other arrangements will be furnished from time to time.

Books have been received in memory of Mrs. Earl Ryan, Mr. Hiram Parkin and Mr. Gavin Taylor.

A new Websters Reference Dictionary and a floor model world Globe have just been purchased, these will be much appreciated by the students. Dictionaries should be replaced every five to ten years as new words are being coined all the time. Our discarded dictionary saw much longer service than that.

According to "Standards for Public Libraries" the American Library Association recommends \$1.50 per capita for limited or minimum service and our budget last year was \$1.03 per capita and if this year's budget is approved it will be \$1.12 per capita so you can see we are operating way below the minimum standard and we do hope to build it up as soon as possible.

The Trustees endorse the report of the Librarian and thank Miss Morgan and Mrs. Lester for their splendid cooperation throughout the year.

Respectfully submitted,

WILLIS I. LESTER, Chairman,  
EDITH H. CARBONE, Secretary,  
R. FRANK PUNCH

## Report of The Board of Public Welfare

To the Citizens of Maynard:

The Annual Report of the Board of Public Welfare is herewith submitted.

### General Relief

As of January 1, 1957 we have 41 cases receiving General Relief (16 more cases than a year ago). Consisting of 6 families and 35 single cases, cared for in Maynard, and 3 cases cared for in other cities and towns. Also we are caring for 3 cases at the State Hospital and Infirmary at Tewksbury.

### Disability Assistance

We have 12 cases receiving Disability Assistance, one of our Disability Assistance clients is a patient at the Holy Ghost Hospital in Cambridge, and one is in the State Hospital and Infirmary at Tewksbury.

### Aid to Dependent Children

Six cases of Aid to Dependent Children, consisting of nineteen children are receiving aid at the present time.

### Old Age Assistance

Eighty-four persons are receiving Old Age Assistance in Maynard, as of January 1, 1957. (five cases more than a year ago.) They consist of fifty-six women and twenty-eight men.

We have opened seventeen new cases and closed eleven cases during the past year.

Thirteen of our cases are without settlement, and we receive full reimbursement from Federal and State.

Ten of our cases are settled elsewhere and must be paid for with Maynard funds.

Eight of our cases are in licensed nursing homes at a rate of \$35.00 per week plus clothing and personal care.

Nine cases are cared for in licensed boarding homes at a rate of \$25.00 per week plus clothing and personal care.

Effective July 1, 1956 payments to recipients on all classes of assistance were increased 5.8% from 14.2% to 20% according to the cost of living index. Granted by law passed November 7, 1956 Old Age Assistance benefits were granted to non-citizens who have resided in the United States for 20 years.

We regret to announce that Mr. Patrick Murphy, our Welfare Agent for many years resigned as of March 31, 1956 after many years of faithful service to the town of Maynard and the Welfare Department in particular. Mrs. Barbara Hayward was appointed, April 23, 1956 under a provisional appointment as Welfare Agent.

We wish to thank Miss Gertrude Morgan who carried on the office during the interim between agents, also Mr. Philip Wilson for his valuable help, that he gave to the Welfare Board, in the settlement of an Old Age recovery case, that made the difference between contemplative compromise and a full settlement, and to Mrs. Marion Weaving for the aid she has rendered during the year, and to the many Officers and personnel of the town who have aided this department during the year without compensation.

At the present time we are in dire need of a part-time clerk-typist, to aid in the new policies and requirements and reinvestigations that are in demand by the State Welfare District Office. We feel that this help is the minimum that is needed to operate the office, in a manner, which the Board and the Town will be proud of. In order to expedite the work more efficiently, we have purchased, during the past year, 2 modern business machines for the office, a Royal Electric Typewriter, and a Grey Audograph recording machine, which have proved very helpful and time saving. In the future, we plan to purchase new "Fire-Proof" filing cabinets which are a must for this department in keeping our many records safe from the possibilities of fire.

Respectfully submitted,

ALFRED S. CAREY, JR.,  
HOWARD F. KING,  
ALAN G. PALMER,  
The Board of Public Welfare.

## Report of the Board of Health

To the Honorable Board of Selectmen:

During the year 1956, the Maynard Polio Inoculation Program — the first to be organized and carried out in this township, and certainly in many respects one of unprecedented significance and scope — was, we believe, the most notable undertaking of the Maynard Health Department, as indeed it undoubtedly was for the many such departments — working under Federal and State auspices throughout the country — which concurrently were conducting similar programs of their own, and whose efforts as a whole in this common enterprise, of which we, as a community, can be justly proud to have contributed our share, constituted one of the most united and determined efforts, for the purpose of controlling and preventing a specific disease, ever put forth in the history of public health.

### POLIO

In March, newly elected member to the Board of Health, Dr. Frank C. Lituri, was appointed to direct the program in Maynard, which also included the allocating of Salk vaccine to physicians for those children not attending the clinics and for expectant mothers. A total of 12 public clinics were held over a period of nine months, during the course of which over 2500 polio vaccine injections were administered without a single untoward reaction. Four successive clinics were carried out, during the month of March for school children up to 15 years of age and for those children below school age, as follows:

<i>No. Children Inoculated</i>	<i>Date</i>	<i>Place</i>
320	3/12/56	Roosevelt School
248	3/13/56	Emerson Junior High
254	3/14/56	Coolidge School
281	3/21/56	Town House

The participating physicians were: Dr. Samuel M. Cremer, Dr. Raymond E. Hooper, Dr. Frank C. Lituri, and Dr. Earl F. Ryan. They were assisted by the following nurses: Miss Mary A. Ward, Mrs. Dorothy G. Holt, Mrs. Myrna E. Palmer and Mrs. Martha D. Champagne.

During the same period, private physicians were receiving their requirements of Salk vaccine, which in the aggregate amounted to over 350 doses; and with this the first phase of the program was concluded.

In June, at a time when some Boards of Health were reportedly postponing their Polio Programs for the summer

because sufficient personnel was lacking or for other reasons, this Board decided to go ahead with its scheduled plan to administer second doses to those children inoculated in March and first doses to all others who were eligible. With the public schools closed, and faced with the further handicap of a possibly reduced working staff — which actually turned out to be the case — we nevertheless proceeded with the prodigious task of inoculating 1024 children on July 9th, 12th and 13th at the Town House — with Dr. F. C. Lituri and Dr. E. F. Ryan in charge, assisted by Mrs. Holt, Miss Ward and Mrs. Palmer — thereby affording to every child the maximum available protection of immunity against this dread disease well in advance of the height of the Polio season which normally obtains in August. It is indeed a fact and it may be significant to point out that not one case of polio was reported in Maynard since the start of our program of immunization. At the same time throughout the country as of October 13, 1956, the incidence of Anterior Poliomyelitis had reached the total of 13,156 cases reported. But even this number, high as it seems, represented a drastic reduction from that of the previous year for the same period — a drop of nearly 50%. To what extent exactly was this reduction due to the use of the Salk vaccine, authorities admit it is yet too early to say, although undoubtedly it was a substantial factor. In any case, the vaccine has been proved both effective and safe. But more than this, it has reinforced immeasurably the long-fought campaign against polio. And already, as one envisions the future, it appears not inconceivable that the day should come when the incidence of Polio — under the hammer-blows of a weapon such as this — will have diminished finally to the vanishing point.

On September 26, 1956 at the High School, over one hundred youngsters (15 to 19 years of age) received their first polio inoculations administered by Dr. Cremer and Dr. Lituri assisted by Miss Ward, Mrs. Holt and Mrs. Palmer. On November 7th, this same group were given their second doses by Dr. Lituri. Also on the same day at the Town House, a make-up clinic was conducted for anyone up to nineteen years of age who had missed either his first or second dose. Over sixty were inoculated at this time. The last polio clinic of the year was carried out on the fifth of December at the Town House when make-ups for second doses and some first doses were administered by Dr. Lituri.

The 1956 Polio Program in Maynard was an overwhelming success, and we look forward to an equally successful year in 1957.

We take this opportunity to express our deepest gratitude and appreciation to all who contributed to making this tremendous program a successful one, including the local press for their interested coverage — we thank the physicians,

Doctors S. M. Cremer, R. E. Hooper, F. C. Lituri and E. F. Ryan, who gave gratuitously of their time and services and without whose efforts the program could not have been possible — and especially do we thank, for their faithful and efficient assistance, Public Health Nurse Mary Ward and School Nurse Dorothy Holt, who were in attendance at all the clinics, Mrs. Palmer, R.N. and Assistant Public Health Nurse Martha Champagne.

Also we wish to express our appreciation to the parents for their cooperation and patience, and, lastly but in no way least, to the children for their display of sterling fortitude, all of which made our task that much easier.

In conclusion, we feel certain all will agree that if we — speaking for all participants — have been in any way instrumental in preventing the outbreak of even one case of polio among the children of Maynard as a result of this program, our efforts will have been more than rewarded.

---

Two other worthwhile clinics, the diphtheria and smallpox vaccination, were carried on during the year under the aegis of the board of health with Dr. F. C. Lituri in charge, Miss Ward and Mrs. Holt assisting.

### SMALLPOX VACCINATION

This very important clinic took place on the 16th of May at the Town House. Twenty-eight pre-school children were successfully vaccinated.

### DIPHTHERIA CLINIC

The diphtheria clinic was reinstated as a board of health project after a lapse of two years. Moreover, for the first time in many years, the "triple" vaccine (Diphtheria and Tetanus Toxoids and Pertussis Vaccine, Combined) was employed, so that the children in addition to receiving their diphtheria boosters, were inoculated at the same time against whooping cough and tetanus.

On October 24th the board of health conducted four clinics as follows: three for first graders at the Coolidge, Roosevelt and Green Meadow schools (at the latter, the clinic was the first to be conducted there since its opening) and one for pre-schoolers at the Town House. Altogether seventy-five children received inoculations.

As a rule, all children on reaching the age of 3-6 months are immunized routinely by their physicians against Diphtheria, Whooping Cough and Tetanus. It is recommended that this be followed up one year later and again at 5-6 years with

a recall (booster) injection in order to renew the immunity against these diseases. The value of active immunization against diphtheria and other infectious or contagious diseases is so well appreciated nowadays as to require little comment. However, for those who may not be entirely aware of the tremendous strides made in this particular sphere of preventive medicine, it should prove interesting to point out that, as a result of such measures — speaking with respect to diphtheria alone — statistical evidence clearly shows that since 1895, when mass immunization of children of pre-school age was generally instituted, there has been a sharp and steady decline in the diphtheria death rate. As a typical example, in New York City 242 infants succumbed from that cause in 1889 — in 1938, none.

### MILK INSPECTION

As in past years, monthly milk and dairy inspections have been carried out by Inspector of Milk, Robert W. Rimbach of Burlington, whose reports of his findings to the board indicate that the quality of consumer milk in Maynard and the condition of local dairies is satisfactory. In the near future, the need for expanding this service to more frequent inspections will be carefully studied. Inquiries will be made to determine how other towns in the area are handling this same problem, and if the change is found to be advisable and feasible the board will favor its adoption.

### INSPECTOR OF PLUMBING

Inspector of Plumbing, William F. Osbeck, reports that this department has been unusually active. During the year, 155 plumbing and 13 cesspool permits were issued.

### INOCULATION OF DOGS

The board of health continued as usual its sponsorship of the inoculation of dogs against rabies, a service it has rendered for many years. The event took place on May 26th under the direction of Dr. O'Keefe, veterinarian from Clinton.

### TUBERCULOSIS

One of the most important functions of a board of health is concerned with the program for the control and eradication of tuberculosis. All active cases should be properly provided for. But equally essential, however, is the detection of those early subclinical cases which often go unsuspected until the process has become well advanced. One way this can be done is by means of the X-ray. In order to provide X-ray service for this purpose, an X-ray screening clinic was set up nearly four years ago under the jurisdiction of the Board of Health and has been functioning ever since. This program is made pos-

sible through the cooperation of the Middlesex Health Association and their local organization, The Maynard Tuberculosis Committee, who sponsor the sale of Christmas Seals. The proceeds from this sale are used to defray the expense of such X-rays and support many other activities in the fight against tuberculosis.

---

Public Health has been defined as "the science and art of preventing disease and promoting physical health and efficiency through organized community efforts." The State Department of Public Health represents the social machinery developed to implement and guide this concept; within its structure, it encompasses and integrates into an organized unit the broad divisions of public health activity, which, briefly stated, involve: medical and nursing services for the control, early diagnosis and preventive treatment of disease — environmental sanitation — public education in health — and research.

Your Board of Health is an integral member of this working unit. By the exercise of its vested functions and powers, this Board, as with other such boards, is performing its intended part towards the advancement of those great and ultimate objectives to which Public Health everywhere is dedicated, in the interest of longer life, greater health and happiness for all.

Respectfully submitted,

JOHN J. JOHNSTON  
JOSEPH DUTKOWSKI  
FRANK C. LITURI, M.D.  
Board of Health.

## Report of School Building Committee

January 1, 1956 - December 31, 1956

To the Board of Selectmen  
Maynard, Massachusetts

During the year of 1956 the School Building Committee held 36 full meetings with an equal number of special meetings held by the sub-committees.

Mr. Manning, Chairman, met daily with the architects and contractors to check on the progress on the Memorial Gymnasium and the Green Meadow School.

Mr. Walter Carbone, Constructional Advisor, met with the contractors several days weekly and made periodical tours of inspection at both buildings.

Mr. Albert Lerer, Superintendent of Schools, and Advisor to the School Building Committee, has given generously of his time.

At the April 16, 1956 meeting, the School Building Committee found it necessary to ask the Finance Committee to recommend an appropriation of \$10,500 for equipment and job completion to make the Memorial Gymnasium completely functional. The Finance Committee approved this sum of money and the Townspeople voted in favor of the appropriation at a Special Town Meeting April 30, 1956.

On August 1, 1956, the insurance on the Memorial Gymnasium and the Green Meadow School was taken over by the town.

On August 20, 1956, the School Building Committee accepted the interior of rooms No. 33 and 34 in the Green Meadow School subject to an accompanying punch list. These rooms were the first to be completed and were accepted at that time for the purpose of storing the classroom furniture which consisted of pupils desks and chairs for the eight classrooms.

On August 27, 1956, the School Building Committee voted a verbal acceptance of the Memorial Gymnasium and the Green Meadow School with the assurance that a written agreement would be drawn up by the architect and approved by the Town Counsel, Mr. Charles Lerer.

On August 28, 1956, Mr. Burton, Architect, passed Mr. Manning the letter recommending the acceptance by the School Building Committee of the Green Meadow School and the

Memorial Gymnasium as substantially completed and in suitable condition for acceptance by the Town of Maynard.

In accepting the building at this time the Committee did not waive any of its rights under its contracts with the constructional companies. These rights include the obligation of the contractor to correct defects in materials or workmanship appearing within a year from the date of acceptance, August 28, 1956. Keys to both buildings were passed to Mr. Lerer, Superintendent of Schools, at this time.

The roofs on both buildings are covered by a ten year leakage guarantee.

On September 5, 1956, the Green Meadow School opened with equipment consisting of only pupils desks and chairs.

At the September 6, 1956 meeting, the School Building Committee arrived at a figure of \$20,000 needed to fully equip the classrooms, administration area and the All-Purpose Room. Due to the added expense of \$17,072.20 for rock removal at the Green Meadow School, this request was made necessary.

A meeting was held with the Finance Committee explaining the equipment needed and the cost of such. The Finance Committee recommended \$18,000 to be appropriated at the Special Town Meeting, September 17, 1956, for the purpose of fully equipping the school.

On September 16, 1956, Open House was held at the Green Meadow School. In spite of the inclement weather more than 300 Townspeople inspected the school. This occasion gave them an opportunity to see the need for the requested appropriation.

At the Town Meeting September 17, 1956, the Townspeople voted to appropriate \$18,000 to fully equip the Green Meadow School.

Practically all the equipment for both buildings has arrived to date.

There is considerable landscape planting and grading to be completed in the spring.

The dedication of the Memorial Gymnasium was held on November 11, 1956, with an appropriate program for the occasion.

# DEDICATION AND OPEN HOUSE

## MAYNARD MEMORIAL GYMNASIUM

November 11, 1956

2 - 4 P. M.

Master of Ceremonies

Albert Lerer

Superintendent of Schools

### PROGRAM

INVOCATION .....Rev. Robert K. Jones  
Pastor, Methodist Church

PRESENTATION OF FLAGS ....William Morrill, Commander,  
American Legion, Post No. 235  
Mary Primiano, President,  
American Legion Auxiliary, Post No. 235

PLEDGE OF ALLEGIANCE TO THE FLAG

THE STAR SPANGLED BANNER .....Maynard School Band

DEDICATORY ADDRESS .....Rev. Francis S. Miaskiewicz  
Pastor, St. Casimir's Church

INTRODUCTION OF SCHOOL BUILDING COMMITTEE  
Irving H. Manning, Chairman

PRESENTATION OF GYMNASIUM ON BEHALF OF TOWN  
Irving H. Manning, Chairman, School Building Committee

ACCEPTANCE OF GYMNASIUM ON BEHALF OF  
SCHOOLS .....William H. Larson  
Chairman, School Committee

### INTRODUCTION OF GUESTS

Samuel M. Cremer, M.D. —  
Representing Rodoff Sholom Synagogue

Board of Selectmen  
John Mitzevitch, Chairman  
Joseph P. Dineen  
John Sokolowski

Michael DeGrappo — Commander,  
Veterans of Foreign Wars, Post No. 1812

Rena Lalli — President,  
Veterans of Foreign Wars Auxiliary, Post No. 1812

Jeremiah F. Lynch — Commander,  
D. A. V., Minute Man Chapter No. 28

Arthur Wright — Past Commander,  
Spanish War Veterans, Camp No. 55

Roger Burton — Architect for Hugh Stubbins Associates

## ACKNOWLEDGEMENTS

Maynard Garden Club                      Maynard Woman's Club  
    Maynard Lodge of Elks  
 for flags presented to the Green Meadow School

## GUEST SPEAKERS

Howard E. Schreiber — Junior Vice-Commander  
 American Legion of Middlesex County  
 Donald A. MacGlashing — District Commander  
 Veterans of Foreign Wars

## INVITATION TO INSPECT THE GYMNASIUM

Irving H. Manning, Chairman, School Building Committee

BENEDICTION .....Rev. Thomas C. Kangas  
 Pastor, St. John's Evangelical Lutheran Church

## REFRESHMENTS

Maynard Parent Teachers' Association

---

The flags for the new buildings were presented as follows:

**Memorial Gymnasium:**

American Flag, by the American Legion.  
 State Flag, by the Legion Auxiliary.

**Green Meadow School:**

American Flag for the All-Purpose Room,  
    by the Maynard Garden Club.  
 State Flag for the All-Purpose Room,  
    by the Maynard Woman's Club.  
 American Flag for the flag pole,  
    by the Maynard Order of Elks.

The School Building Committee deeply appreciates the gifts of the above flags from the local organizations.

After three years of functioning, the School Building Committee feels that it has been rewarded with the completion of two beautiful buildings for the Town of Maynard of which the citizens may well be proud.

# School Calendar for 1956 - 1957

## HIGH SCHOOL

Fall Term began .....	September 5, 1956
Closed .....	December 21, 1956
Winter Term began .....	January 2, 1957
Closed .....	February 15, 1957
Early Spring Term begins .....	February 25, 1957
Closes .....	April 12, 1957
Late Spring Term begins .....	April 22, 1957
Closes .....	June 21, 1957

## ELEMENTARY SCHOOL

The same as for the High School except that Late Spring Term closes on June 14, 1957.

## DAILY SESSIONS

Green Meadow School	8:30-11:15 A. M.	12:30-2:45 P. M.
Coolidge School	8:45-11:30 A. M.	12:45-3:00 P. M.
Roosevelt School	9:00-11:45 A. M.	1:00-3:15 P. M.
Junior High School	8:45-11:45 A. M.	1:00-3:00 P. M.
Senior High School	8:00 A. M.	1:00 P. M.

## HOLIDAYS, etc.

October 12	Columbus Day
October 26	Teachers' Convention
November 12	Observance of Veterans' Day
November 22, 23	Thanksgiving Recess
May 30, 31	Memorial Day Recess

## STORM SIGNALS

Three blasts for first eight grades, five blasts for entire school system. Blown at 7:15 A. M. and 12:00 P. M.

Announcements of "No School" will also be broadcast over WBZ, WEEI, WKOX, between 7 and 7:30 A. M.

N. B. Errors in judging the weather are unavoidable. It is suggested that parents exercise independent judgment about sending children to school in stormy weather.

## Report of Maynard School Committee

To the Citizens of Maynard:

We herewith submit the Annual Report of the School Committee for the year ending December 1956.

The past year has been a very busy, but satisfying one for your Committee. We have been fortunate in being able to make use of our new plant facilities:— the Green Meadow School and Memorial Gymnasium, since the opening of school in September. These buildings have allowed us to relieve the overcrowding at the elementary level and have made it possible to have additional play and educational areas which have been badly needed. The citizens of Maynard can be justly proud of these new buildings.

While the opening of the new Gymnasium and Elementary School had eliminated one major problem of the Maynard School System, there was still the problem of being able to secure and retain the best possible teachers for our school children.

The past two years as we attempted to employ qualified teachers, we found that our salary schedule was wholly inadequate. With the help of a committee of teachers from the Maynard Teachers' Association, we have made a comprehensive study of the salary schedules in effect in neighboring towns and in communities of the state comparable in size and in ability to pay. The statistics of this study indicated conclusively that Maynard salaries were very much below the averages of similar communities.

It was the opinion of your committee, after much deliberation, that if Maynard expected to obtain and hold good teachers for its children, it was necessary to revise its Salary Schedule. Accordingly, on July 2, 1956, the School Committee adopted a revised Schedule to be effective January 1, 1957. Based on years of experience, educational background and professional growth, the new schedule will run from \$3,000 to \$4,800 for teachers having a Bachelor's Degree or equivalent and from \$3,200 to \$5,150 for those having a Master's Degree. It might be well to mention that the minimum of \$3,000 of our Bachelor's Degree is now required by state law.

While the minimums and maximums of the new schedule are still somewhat below those of neighboring towns, it was felt that the revisions adopted would help in alleviating the disadvantageous position we were in as we attempted to employ and hold good teachers.

As citizens and taxpayers, we are well aware of the increasing costs of education as well as other public services of the town. Considering that we have an increasing enrollment, a new Salary Schedule, two new buildings requiring maintenance, new teaching and non-teaching personnel, and rising costs of school books, supplies and maintenance services, we believe that we have operated your schools as economically as possible without sacrificing the efficiency of the educational system.

The School Committee wishes to take this opportunity to thank all Maynard Civic Organizations, citizens, parents and the various town departments for their interest and cooperation in helping us in our efforts to maintain the high standards we demand for our schools.

Respectfully submitted,

WILLIAM H. LARSON, Chairman,  
VIRGINIA N. ROBINSON, Secretary,  
NOBLE E. LOOMER,  
School Committee.

## Report of Superintendent of Schools

To the School Committee and Citizens of Maynard:

I herewith submit the Annual Report of the Maynard School System for the year 1956.

Today, no less than in the first days of the formation of this government, we seek the security of freedom. Throughout the world, hour by hour we hear of those who are struggling to retain it. Freedom is never secure. Without education to nourish it, freedom cannot survive at all. Democracy's true security lies within the will of its citizens and in their ability to cope with the new demands of our age.

The task of providing the best possible education to every American child on completely equal terms, and of keeping public education responsive to traditions and to change, is the task for each worthy citizen of our country.

It is a demanding responsibility, but for the citizen who accepts will come the satisfaction of knowing that in a crucial area, he has constructively served the future as he, in fact, has been served by the past.

With renewed faith in the democratic tradition, the citizens and the school men and women of each community must find their own answers. The sum of all their findings will chart the path of our schools and of our democracy of tomorrow.

The schools today are asked to do many things — and the list grows longer with the years. In an effort to cope with the demands of society for school programs that will offer equal opportunity to all children, the schools have assumed many new responsibilities. Nearly every community asks its schools to do most, if not all, of the following.

1. Teach the basic skills and impart knowledge in the traditional fields of academic study and teach students to think and reason.
2. Train boys and girls in the vocation of their choice.
3. Impart other knowledge that will help children become competent adults and good citizens.
4. Provide guidance for students on their school careers and the selection of jobs, and counselling on personal problems.
5. Provide physical education programs to develop healthy bodies and sponsor athletic events for the entertainment of the community.

6. Develop appreciation of music and the arts and offer training in crafts and hobbies, as well as other leisure time activities.
7. Provide supervised recreation for after school hours to combat the threat of juvenile delinquency and to help students develop social poise and assurance.
8. Provide eye, ear, and dental examinations and other medical services to help maintain students physical and mental health.
9. Provide special classroom help or separate programs for exceptional children—the handicapped and retarded.
10. Offer an adult education program to allow parents and other adults to pursue their studies or learn new skills.

It is small wonder that public education is beset with problems today. As enrollments increase and diversified interests have to be served, the task of your schools to meet the challenge is a tremendous one. It is reflected on the public mind through the need for more classrooms, more specialized teachers and higher budgets to provide the tools necessary to insure that the goals demanded for all children are adequately met.

In addition to its primary role of insuring the survival of democracy, education also has a direct relationship with the economic prosperity of a nation. The level of education within a country is normally indicative of its level of prosperity. Colombia, South America, for example, is the richest land in the world in natural wealth, but its people, who are among the world's most illiterate, are also the poorest. On the other hand, little Denmark, with almost no natural resources or hydro-electric sources, has one of the highest economic standards in the world; it also has one of the highest educational levels. In our own country, the communities with the highest level of education are the communities that buy the most. The higher the standard of education, in other words, the higher the standard of living.

The public school is the principal training ground for informed American citizenship. What is taught in a classroom today shapes the sort of community we have in the future. The typical classroom holds children of all kinds with a wide variety of social, political and economic backgrounds. The teacher of that classroom is charged with the responsibility of providing the education that will make it possible for all children to successfully meet the challenge of preserving our democracy. They, the teachers are the only sure reliance for the preservation of liberty. A thorough understanding of a teacher's responsibilities by citizens of the community is necessary so that mis-directed criticism

of detail will not hamper the attainment of the major aims and objectives of her vital program.

Maynard, like every other town has the responsibility of preparing its children for an increasingly interdependent world society. The problems of education here are similar to those of other communities. The development of curricula, sufficient classroom facilities, the retention of good teachers, and adequate financing of all three, are of foremost concern to all of us. Particularly in Maynard, we have found the problem of obtaining and holding good teachers a difficult one. Our curricula are continuously revised in keeping with the best accepted content and methodology, to meet the needs of our pupils. The new gymnasium and elementary school have eliminated crowded building conditions and have given the children adequate classroom and health education areas. The problem of holding good teachers, however, requires that we compete with other towns and cities for their services. A Salary Schedule equal to neighboring towns is essential if we expect to attract the good teachers your children should have. The new Schedule adopted by the School Committee last July should help considerably toward solving this problem.

Responsible, well-informed citizens will know that an expanding educational program presents increased costs. These increased costs are true in all aspects of life today. Teachers' salaries have not kept pace as incomes of others have risen. It is important for Maynard citizens to solve this problem also, as good buildings without good teachers are of little value. The latest statistics released by the Massachusetts Department of Education indicate that the per pupil cost of education in Maynard is considerably below that in neighboring towns and also much below the State average. While this is indicative of economy of operation, it also reflects the fact that our Salary Schedule is much below that of comparable communities.

Considering the school problems all towns and cities are facing, we have much for which to be thankful. Our buildings are in good condition, our program is adequate for the needs of our children and our teachers have carried on their work at the high level of interest and concern that we expect from them.

Details of our accomplishments for the year will be found elsewhere in this report as excerpts or summaries from the reports of Principals, Supervisors, Nurse and others responsible for administration and special services in your schools.

#### CHANGES IN PERSONNEL

During the year we have had our usual large turnover of personnel. Listed below are the resignations and appointments for your information:

## RESIGNATIONS

**Superintendent**

Mary A. Doyle

**High School**

Albert Lerer, Principal  
 Ruth L. Castendyk  
 John Sullivan  
 Paul Ryan  
 Margaret McDonough Ayotte  
 Elizabeth Piantoni  
 Donald Sisson  
 Katherine Cameron

**Junior High**

Madeline Dalton  
 Patricia Finnegan  
 Francis Sullivan

**Roosevelt School**

Delma Sanborn  
 Ann Frazier

**Custodians**

Harold Cuttall  
 (High School)

## APPOINTMENTS

**Superintendent**

Albert Lerer

**High School**

Frediano D. Mattioli, Prin.  
 Marie Dutilly  
 \*Lawrence Lerer  
 John Gonynor  
 Elizabeth Piantoni  
 Ernest Glynn  
 Katherine Cameron  
 Alan Start  
 John Hayes

**Junior High**

Louis Picardi  
 Mary Carpenter  
 Renard Romano

**Roosevelt**

Barbara DeLuca  
 Doris Fardy  
 Dorothy Read

**Green Meadow School**

Mary Kivikoski

**Supervisors**

Eleanor Hodgdon

**Custodians**

Cyril Spratt  
 (High School)  
 Wendell Leithead  
 (Gymnasium)  
 Harold Sheridan  
 (Green Meadow)

\* Returned from a two-year Leave of Absence

## MAINTENANCE

Within the limitations of the Budget, the School Committee has continued its program of repair and replacements in 1956. The health, safety, education program and adequate classroom facilities for the children have been of primary concern to the Committee. The following listing will indicate many of the major projects completed during this time to maintain our schools at maximum efficiency:

### Senior High School

Painted inner and outer laboratory, and inner and outer girls' basement  
 Renovated girls' basement area  
 Repaired cold air shaft ventilators and floor in laboratory  
 Replaced window shades in Rooms 11 and 12, furniture in Principal's Office and two typewriters in Commercial Department  
 Purchased a Dictaphone, an Electric Calculator and a manually operated Adding Machine for the Commercial Department  
 Repaired major leak in High School Roof  
 Purchased one additional set of classroom furniture for Room 16, because of increased enrollment  
 Constructed baffle board in boys' inner basement  
 Renewed Maintenance Contract for Typewriter Service

### Junior High School

Industrial Arts Department  
 Major renovation of Industrial Arts area completed, including removal of wall, carpentry, plumbing and electrical work  
 Replaced wash sink, jointer, wood turning lathe and miscellaneous woodworking tools  
 Purchased an addition Engine Lathe, Art Metalworking Equipment and Drafting Equipment for Shop  
 Purchased a new double sewing machine table for Household Arts Room  
 Replaced light fixture in Principal's Office

### Auditorium

Replaced all black window shades  
 Installed lighting in balcony stairwells for safety purposes

### Roosevelt School

Repointed and waterproofed north wall of building and repaired internal damage caused by leakage  
 Repaired Cyclone Fence on south boundary of playground  
 Replaced duplicating machine in teachers' workroom

### Coolidge School

Rewired and improved lighting in basement all-purpose room  
 Painted one classroom and dado of rear stairwell  
 Installed hot water line from basement to upper floors  
 Purchased new table and book case

### Miscellaneous

Band — purchased instruments and uniforms  
 Provision made for removal of ashes from all buildings

Usual emergency repairs; plumbing, heating, electrical, carpentry, etc.

## NEW EDUCATIONAL FACILITIES

The Town of Maynard may well be proud of its two new educational facilities. The opening of the Maynard Memorial Gymnasium and the Green Meadow School has provided much needed facilities for rounding out the educational program of the community. In the gymnasium, in addition to the regular Physical Education Program, enthusiastic crowds are enjoying both boys' and girls' inter-school basketball games and community basketball. Club meetings, town elections and town meetings will also be held there as the occasions arise.

In addition to relieving the congestion in the other elementary schools, the Green Meadow School, in its beautiful setting, contains space and equipment for many educational and social activities. The All-Purpose Room can become a social gathering place for the community and local organizations are encouraged to use this fine auditorium.

## ADULT EVENING EDUCATION

Twenty-eight aliens are enrolled in our Adult Civic Education class which is held twice a week in the Junior High School. There are thirteen enrolled in the Beginners' Group and fifteen in the Intermediate. The interest and attendance at this class shows a strong desire among our new arrivals, to learn to read and write English and to become American Citizens.

Adult evening classes are held also in upholstery, cabinet work and sewing. It is hoped that these evening classes will be expanded in the future as it is the desire of the School Committee to make full use of the facilities available. Classes will be offered in any subject as an evening class if a sufficient number of citizens request it.

## ELEMENTARY EDUCATION

In addition to the acquisition of the basic skills, the current elementary program offers opportunity at all grade levels for enriching experiences of great variety, which contribute to the balanced development of the whole child. The highlights of these activities are noted here.

In the Emerson Junior High School, Industrial Arts and Home Economics are part of the regular program. Religious Education classes are offered every Wednesday at churches in Maynard. Pupils who wish to attend are released from school. Junior Literary Guild membership is valuable

throughout the year. Types of extra-curricula activities which the students enjoy are assemblies, orchestra, band, glee clubs, dramatics, dancing classes, evening socials, major-ettes, outings, cheerleading, and an athletic program which is both intramural and interscholastic.

The Roosevelt School presented an operetta in the George Washington Auditorium on April 5th which was enjoyed by a capacity audience. In June, on an educational trip to Boston, the sixth-graders visited the Museum of Science, Museum of Fine Arts and Logan Airport.

The Coolidge School pupils took excursions to the Maynard Fire Station and to points of interest in historical Concord. Special programs and exercises presented monthly by various classes included a George Washington Program, Arbor and Bird Day Exercises, United Nations' Day Observance, classroom voting on Election Day, Thanksgiving, Christmas, and Coolidge School Glee Club Programs.

The Green Meadow School opened its doors for the first time to receive the students who were enchanted with the beauty of the building, the lovely setting and the useful All-Purpose Room. Physical Education classes, games, rehearsals, assemblies, operettas, etc., can be held in this room. The outstanding event of the year was the presentation of the operetta "A Christmas Fantasy." The program included every child in the building and was attended by many parents and friends. The pupils here are happy with the new equipment available, including the Information Picture Library with accompanying film strips for social studies at every grade level, the film projector, new piano and record players.

In the elementary grades the pupils who complete the requirements of reading five approved books and submitting accepted book reports are given State Library Certificates issued by the Maynard Public Library. Some students receive a number of these certificates indicating interest and achievement in good reading.

## SPECIAL EDUCATION

Special Education, which was organized last year in accordance with Chapter 514 of the Acts of 1954 of the General Laws of Massachusetts, has been continued.

In the class for "The Educable," elementary school subjects and practical arts are taught through the use of special material, such as the Rochester Occupational Reading Series, the American Adventure Series, Hammett's Self-Keyed Number Cards and the Dolch Reading Games.

Provision was made for "The Trainable" by paying tuition for attendance at a class for pupils of this level, now being held in Concord. Since these Special Education Classes are now required by State Law, the State reimburses the town for fifty percent of the cost of this instruction.

## HEALTH AND ATTENDANCE

The School Health Program in Maynard follows the procedure recommended by the State Department of Public Health.

The annual Pre-School Round-up was held in May when forty-seven children were given physical examinations by the School Physician. All candidates for athletic teams have been examined also. Students in the fourth, seventh and tenth grades will be given physical examinations this year.

A toxoid clinic for the prevention of diphtheria was held in October for the first graders and pre-school children.

Ninety-eight percent of our students have received two inoculations of Salk vaccine for the prevention of poliomyelitis. Booster shots will be given during the present school year.

The Massachusetts Vision Test was given to all students this year, by the School Nurse. Seventeen were found with defective vision and referred to an eye specialist. With our audiometer, we can discover a "hard of hearing" child quickly and accurately. Nineteen pupils failed the test and were referred to ear specialists.

A Dental Clinic is held every Tuesday and Friday at the Town House with Dr. Samuel Garland in charge. To date, one hundred ten children have requested dental permits. A dental survey of pupils in the elementary grades was made by a dental hygienist from the State Department of Dental Health. Parents were notified of the presence of dental caries. The use of the new "teaching model," purchased by the School Department, has been helpful in stressing the importance of a clean and healthy mouth.

Three hundred twenty-two home visits have been made by the School Nurse this year. As Attendance Officer, she has made nineteen home visits to investigate the absences of truants.

## ART

In the High School, mechanical drawing and free-hand drawing courses are offered. Throughout all the schools, in the regular art classes, many media are used to enable each child to express creative talent. Through facility with crayon,

water color, finger paint, poster paint, blockprint, etching, charcoal, clay, plaster and papier mache, the principles of design, color, construction and illustration are studied. The students have made many posters and decorations for school and community groups thereby giving them an opportunity to apply skills learned in the classroom.

## MUSIC

The five-point plan of singing, rhythms, listening, creative activities and instrument playing is followed in the school music program in Maynard. This plan is generally recognized as the newest and best approach to a musical experience for the child from the first grade through high school.

Singing is a basic activity of every good music class in the elementary grades. The method is developmental, beginning with tone-matching devices, progressing to good tone quality, understanding of the musical score, introduction of minor mode and of part singing.

In singing, rhythmic response to the song is encouraged through creative movement. Simple singing games and folk dances, walking, running and skipping to music, toy orchestras and bands all form a part of learning to sense and feel the rhythm of music.

Listening to good music should be an active process. Therefore discussion and activities center around the various means of bringing listening experiences to the children. The rhythm, melody and instrumentation of each composition are analyzed and discussed.

The creative process is used for song enrichment through the addition of accompanying or rhythmic instruments. Playing simple chordal progression on the autoharp exemplifies this. In all the activities of singing, playing and listening, the students are encouraged to be creative.

Children are given the opportunity to play the various rhythm instruments, the autoharp and the melody bells. These are used in conjunction with the basic expression activities of the music classes.

A program that stimulates girls and boys to sing, play, dance and listen to beautiful music and to express themselves through these activities, promotes a pleasant, happy classroom atmosphere.

## SCHOOL BAND

More and more, there appears concrete evidence of the value of music and its contribution to the education of the whole individual. Instrumental music, placed in the hands of a growing child, is a tool he can use all through life.

The Maynard School Band has now a membership of thirty-five High School students and twelve from the Junior High, playing the trumpet, trombone, clarinet, saxophone, flute, baritone-horn, sousaphone, glockenspiel, snare-drum, bass-drum and cymbal. Rehearsals are held twice a week, and during the football and spring seasons, an extra rehearsal takes place at Alumni Field. The Band has performed at all school football games and rallies, at school and community programs, at the Music Festival in Watertown and at patriotic parades.

The Junior Band has a membership of thirty-two and the Beginners' Band of twenty pupils. Both groups hold weekly rehearsals.

The High School Dance Band of ten members, rehearsing weekly also, has played at school dances, concerts and even a wedding reception.

The Majorettes are divided into three groups — Advanced, Intermediate and Beginners, and are instructed once a week by Mrs. Dorothy Slamin Hill. The Advanced Majorettes have performed with the band at all its functions.

Free instrumental instruction has been organized for pupils interested in playing a stringed instrument, — with a future school orchestra in mind.

Private instructors give lessons on all band instruments at one dollar per lesson, to eighty-seven students. They are: Mr. Alan Wells and Miss Anita Sullivan — brass; Mr. Robert Nagles and Mr. Morey Saxe — woodwinds, and Mr. Thomas Hawkins — drums. Mr. Norman Sherer drills the band in marching techniques and formations.

## PHYSICAL EDUCATION

The completion of the Maynard Memorial Gymnasium and the All-Purpose Room at the Green Meadow School and the addition of a Physical Education Instructor for Girls have made it possible to expand the program of Physical Education in our system.

It is the aim and purpose of our instructors to develop in each child a wholesome desire for individual participation in athletics and other forms of physical activities for a healthy and vigorous body. The good sportsmanship practiced in this program is an excellent basis for good citizenship of the future.

Following is a list of some of the activities offered to the students in this phase of education:

### High School

Boys	Girls
A. Gymnasium Classes	A. Gymnasium Classes
Calisthenics	Calisthenics

Football	Ball Games
Baseball	Tag Games
Basketball	Bean-bag Games
Dodgeball	Relay Races
B. Indoor Program (Both Boys and Girls)	
Health and sports instruction and indoor games	

### INDUSTRIAL ARTS

The Industrial Arts program has been greatly improved during the past year. The workroom was enlarged by the removal of the walls which divided the department into two rooms. This increased the general working space and pro-

vided larger areas of safety around the machines. The electrical power supply was renovated so that it is now adequate for both present and future requirements. It was also equipped with safety devices for accident prevention, and sufficient fuse boxes for motor protection.

Two valuable storage rooms, for supplies and students' work were added.

One wood-turning lathe and jointer were replaced with modern, safer machines and a new lathe and hand tools for art metal work were purchased.

New hand washing facilities have eliminated the serious problem of congestion at the close of each period, when large numbers of boys are washing up before leaving for other classes.

Last spring, at the State Project Fair in Stoughton, six High School students received certificates for outstanding craftsmanship, including one adjudged among the top fifty.

## HOME ECONOMICS

The work in this department is based upon the following objectives:

1. To teach pupils how to purchase, prepare, serve and preserve food for family nutrition and budget needs.
2. To teach pupils how to select proper patterns, purchase fabrics and clothing intelligently, make garments, and to be well-groomed through personal cleanliness and proper care of clothing.
3. To teach pupils the basic principles of home nursing, first aid care, child care and general health fundamentals, to promote clean, healthy living.

Work in the high school classes is divided into three major units: food, home nursing and child care, and clothing. Some craft work is done to improve a pupil's skill in handling various types of materials, Projects for special events, holidays, etc., are incorporated into the regular class work.

Junior High School girls learn to plan, prepare and serve refreshments at parties and luncheons. In sewing, they learn basic sewing stitches and some machine skills; making aprons, skirts and blouses.

The new sewing table, with two machine heads, has proved to be an excellent addition to the Home Economics equipment.

## AUDIO-VISUAL EDUCATION

Audio-Visual materials have become invaluable in developing the modern curriculum. The knowledge imparted by the spoken and written word is better understood when the learner has had the experience. It is generally conceded that the best substitute for actual experience is the seeing of pictures of events and processes and hearing the recorded sounds. Furthermore, the success of teaching with realistic, concrete materials is encouraging and gratifying to the teacher.

Each type of audio-visual material makes its own contribution to the experiences of the children. Motion pictures are especially effective where motion is necessary to the understanding of the concept. Animated films have the added advantage of being objective and impersonal.

Where motion is not an important factor in learning, filmstrips and slides, which can be shown at regulated speeds can illustrate topics accompanied by teacher-class discussion.

One of the most important uses of audio-visual materials in the classroom is to provide for common experiences directly related to the subject being studied. Illustration, in this manner, gives concrete meaning to spoken and printed words.

Maynard, with Marlboro, Shrewsbury, Westboro, Grafton and the Lyman School, has a cooperative film plan. Thereby, approximately one hundred sixty educational films are made available to these schools. An average of fifteen to seventeen films are added to the pool yearly, each School Department purchasing a certain number. Every two weeks, the Directors from each community meet at Shrewsbury to select the films which have been requisitioned. Many free films are also available.

In addition to films, filmstrips and slides, the Maynard teachers use other audio-visual aids such as opaque projectors, tape recorders and record players. Each school is equipped with a film projector which is operated by trained student projectionists. The assistance of these student operators make it possible for the teacher to concentrate upon the educational value of the aid.

## DRIVER EDUCATION

High School Seniors have been given classroom instruction in the motor vehicle rules and regulations, and road instruction in the Driver Training Car obtained from the Barber Chevrolet Company.

The material covered in the classroom included such items as the historical background of the automobile industry and

the driver and his physical, mental and emotional qualities. The course also included a discussion of the car itself and what makes the wheels turn; economical operation; and finally the fundamentals and proper attitudes necessary to become a safe driver. It is the aim of the course to give pupils practical as well as theoretical knowledge, so that they will conduct themselves as good drivers, cautious pedestrians and well-informed citizens.

Forty-five students successfully completed the course and passed their Registry Examinations during the past year.

## GUIDANCE

The Guidance Department strives to provide guidance services in Grades I - XII, with the aim of the optimum adjustment and ultimate self-knowledge of each individual pupil. To this end, a cumulative record, containing many evaluations: scholastic achievement, ability, effort, health, personality, behavior and teacher observations, progresses with the pupil until he leaves school.

The best objective measuring devices obtainable are used for evaluating the mental ability, achievement, interest and aptitude of Maynard children through group tests, including the Otis, Kuhlmann-Anderson California Mental Maturity, Stanford Achievement, Cooperative Reading Comprehension, California Arithmetic, Differential Aptitude, Minnesota Clerical Aptitude, Minnesota Paper Form Board, Kuder Preference Record, and California Occupational Interest Inventory. Special tests are given as the need arises, such as the individual Stanford-Binet and Wechsler.

In the High School, examinations were administered to Seniors for the National Merit Scholarships, the National Honor Society Scholarships and the Betty Crocker National Homemaker Award. The United States Employment Service has given the General Aptitude Test Battery to the Seniors who have registered for employment following graduation. A group of Seniors took the tests of the College Entrance Examination Board in January and March, a requirement for college admission and scholarships. Some Juniors also took these examinations in May for a practice run. The Juniors also were given a battery of vocational tests by the Boston University Cooperative Testing Service. Through personal interviews, the scores were interpreted for each student to aid him in planning his future.

School and college information and applications for admission have been distributed, and interviews arranged with college admissions officers. Many applications have been filed by Seniors, this year, and some candidates have already been notified of acceptance through high school certification.

The returns of the November follow-up survey of the Class of 1956 produced interesting data from the sixty-three graduates. Twenty-nine graduates or forty-six per cent of the class continued their education beyond high school, this markedly exceeds the National average. A number of these graduates have received scholarship grants in varying amounts, for higher education.

Our annual School Drop-Out Survey reveals that the percentage of children who leave the Maynard Schools before graduation from high school, is considerably below the State and National average, a tribute to the skill and patience of the entire school personnel in successfully adapting our educational system to the extremely varied needs of so many children.

Vocational information is distributed through films, Guidance Library materials, individual interviews and career conferences. The series of monthly occupational career conferences is being presented by experts in various fields, arranged by the Guidance Department in cooperation with Northeastern University. A Student Career Conference Committee handles publicity and registration, greets speakers, welcomes guests and conducts these meetings which Juniors and Seniors may attend. Each year, we are happy to invite students from Acton High School to share these valuable conferences with us. All visiting speakers have been enthusiastic in praising the courtesy and interest of our students who have attended these meetings.

With the excellent cooperation of industrialists and retailers, the part-time job placement of students and the satisfactory permanent placement of graduates has been very high this year.

We were fortunate, this fall, in having a special program for eighth grade students, to aid them in selecting the high school courses most suitable for their vocational goals.

After a survey of the students in Grades I - VIII, involving teacher reports and conferences, some were referred for adjustment and others for Special Education. Conferences were held with the Consultant from the Youth Guidance Center in Framingham, concerning certain severe personality maladjustments. The teachers in Maynard are alert to individual problems and contribute time and effort in reporting personal observations of children and in adapting their methods and techniques to the specific needs of each child. They welcome and use professional advice.

In summary, guidance activities have been numerous and varied throughout the school system. In the elementary grades, problems of social and scholastic adjustment were discovered, and with the cooperation of the school and the

parents, suitable action followed. Such action included special testing, interviewing of pupils, teachers, nurse and parents, home visits, remedial reading, counselling, and in some cases, referrals to suitable agencies. Beginning in January, a regular schedule of guidance activities will be conducted every afternoon in the Roosevelt, Coolidge, Green Meadow and Emerson Junior High Schools.

At the secondary level, all the above problems are found also; but there are the additional ones of planning for a career, which involve selection of a high school course of study, knowledge of vocational information, choice of a career, required preparations, school and college information regarding admission and scholarship aid and job placement — part-time and permanent. Forwarding of numerous records and recommendations, making interview and visiting appointments, and assisting students in the filing of all necessary forms are some of the guidance services rendered.

## CONCLUSION

No duty is more pleasant nor opportunity more willingly approached than the recognition of the ever-widening circle of interested people to whom the public schools of Maynard are so deeply indebted. This increasing interest and concern for the education of our children speaks well for the continued success of our graduates as they assume the responsibilities of adulthood.

By dint of loyal and informed service of our staffs, ready and unfailing cooperation of parents and the financial support of the taxpayers, for whom education is an investment in a better community, the year 1956 has been an excellent one for our public schools.

I wish particularly to express my appreciation for the cooperation of the Maynard School Committee and the entire school personnel. Without their earnest support and effort, our educational objectives could not have been attained.

Respectfully submitted,

ALBERT LERER,  
Superintendent.

January 15, 1957

## Report of The High School Principal

Mr. Albert Lerer  
Superintendent of Schools  
Maynard, Massachusetts  
Dear Mr. Lerer:

I herewith submit the Annual Report for Maynard High School for the year 1956.

Education has a two-fold purpose. In the first place it must help young persons to appreciate, as far as each individual can, our common cultural background and should fit them for effective living in a society enjoying this heritage. Secondly, it must prepare each one for the unique station he will occupy in life.

At all levels, the local, the state, and the national, school authorities are agreed that a secondary school graduate of our American public schools should have competence in the basic fundamentals, the three R's. Upon leaving school a student should be able to read fluently, write capably, and use numbers effectively. To the depth that one does read, to the extent that one does achieve the mastery of language, and to the degree that one attains proficiency in mathematics, to this extent will he have become educated in the more common usage of the term.

While the business courses and the Industrial or Practical Arts courses obviously satisfy the second purpose, it can be seen upon a little reflection that all subjects may well meet some of the requirements of a specific vocation for a particular individual.

Maynard High School is attempting to give each student as much of this broad base as is possible commensurate with his native ability, interests, maturity, and aim in life, and as much pertinent preparation for a vocation as he desires at this time. The results of standard tests administered each year in many subject areas, when compared with national norms, indicate that our medias and average scores and our top scores place our students in a sound position.

Qualified students have been encouraged to compete in such approved activities as the National Merit Scholarship Program, the National Honor Society Scholarship Examination, the Ford Motor Company Industrial Arts Awards Competition, the Massachusetts All-State Band Competition, the Mathematics Contest sponsored by the Metropolitan New York Section of the Mathematical Association of America,

the National Essay Contest sponsored by the Ladies Auxiliary to the Veterans of Foreign Wars, the Betty Crocker Search for the Homemaker of Tomorrow, and the University of Massachusetts Mathematics Contest. Our representatives in these activities have done well.

The follow-up studies conducted by our Guidance Director continue to show that the large majority of our graduates are adjusting satisfactorily to their post — high school education and occupations.

Again this year there have been many personnel changes in the High School faculty. Capable secondary school teachers are not easy to find. They must possess the human qualities of patience and understanding of youth in their most important formative years; they must have excellent character and personality which provide the fine example for our young adults; they should be dedicated to their profession, be intensely interested in teaching and more specifically in teaching the particular subject matter of their field, and they must have the intelligence and a broad background in their area to correlate the product of their teaching with the already acquired knowledge and everyday activities and interests of their students.

We at Maynard High School have been fortunate in the teachers we have had and now have, but many fine teachers have been lost because our salaries have not kept pace with those of other communities.

The enrollment at the High School continues to grow rapidly, but a temporary levelling off within two years is indicated by the number of students presently attending school in the lower grades. High School enrollments as of October 1st for the last five years are as follows: 1952 — 288, 1953 — 276, 1954 — 274, 1955 — 312, 1956 — 346. Since there are at present 59 seniors in the High School and 113 eighth graders in the Emerson Junior High School, an enrollment increase of 50 to 55 students is seen for September, 1957. A further increase is indicated for September, 1958. At the present time some of our classes are too large for existing facilities. Physics classes are notable examples of this. Present conditions not only prohibit the use of our library as it should be used, but fail to provide adequate facilities for our Guidance Director and our School Nurse. However, an additional teacher this past year has enabled us to stabilize the size of our English and Social Studies classes.

The completion of the Maynard Memorial Gymnasium has at last given all Maynard High School students, boys and girls, fine facilities for their physical education program. For the first time in many years Maynard High School inter-

scholastic basketball teams not only have adequate practice facilities but enjoy the benefits of a home floor and home town rooters.

Alterations completed in the shop have made a more comprehensive Industrial Arts program possible.

The necessary enlargement of the girls' basement area has solved the crowded recess conditions that existed here last year due to the construction of the Memorial Gymnasium heating system.

The major problems that still exist would seem to be the general increase in class size expected as enrollment increases, the extremely crowded conditions anticipated in the Laboratory, the necessity for separate rooms for both the Guidance Director and the School Nurse, and the improvement in our Library facilities. All of these situations can be ameliorated only by more classroom space and additional teachers.

In conclusion I should like to remark that the large number of parents and friends who visited the High School during its Open House and at the National Honor Society Induction Assembly was immensely gratifying. Such parental interest in the school activities of their boys and girls often helps us to better understand our students and to more adequately prepare them for their goals in life. I wish also to commend the many local organizations which have shown an active interest in the welfare of the High School.

Whatever we have accomplished has been made possible only through the diligence and cooperation of the members of the High School staff to whom I wish to express my appreciation.

May I thank you, also for your support and cooperation which have been helpful to me in carrying out my duties.

Respectfully submitted,

FREDIANO D. MATTIOLI,  
Principal.

# Graduation Exercises

of the  
Class of 1956

ALUMNI FIELD  
MAYNARD, MASSACHUSETTS  
SUNDAY AFTERNOON, JUNE TENTH  
AT THREE O'CLOCK

---

## PROGRAM
