EMERGENCY CALLS

In an emergency if you call or dial "Operator" and say "Emergency Fire" or "Emergency Police", giving in addition the address from which you are calling and the name of the city or town, an attempt will be made to connect you without requiring a number.

SERVICE CALLS

Our aim is to furnish service satisfactory to our customers. The nature of our service, however, is such that difficulties may occur without our knowledge and despite all efforts to prevent them. We therefore appreciate your reporting difficulties promptly. Observance of the following directions will insure the most effective handling of your service difficulties:

If you cannot find the desired number..Call Information
If your telephone is out of order.....Call Repair Service
For assistance in completing calls.....Call Supervisor
For all other business..... Call Business Office

If Troubles of Any Kind are Not Promptly
Attended To or if They Recur Frequently
Call the Business Office

Community Emergencies

At times when the community is faced with grave emergencies, whether due to an epidemic of sickness, unusual weather conditions or a disaster of any nature, it is imperative — in order that real emergency calls be given prompt attention—that unimportant social or curiosity calls be postponed. Subscribers are respectfully urged to co-operate for the common good during any emergency.

Business Transactions

WITH THE

New England Telephone and Telegraph Company

Business Offices have been established for the convenience of our customers in their business dealings with the Company. These offices not only receive payments but also handle applications for service, requests to change service or equipment, matters affecting the directory, inquiries regarding bills or charges, and requests for special equipment or services.

The Business Office force is available to assist you on any telephone problems. No charge is made for calls to the Business Office serving you.

Bills are due when rendered and are payable by mail or personally at a Business Office or Agency of the Company. Bill stubs should accompany all payments.

Toll Service Information

Toll calls are of two general classes. On either, faster service can be rendered if you give the operator the telephone number you are calling. If you can not find the number, ask "Information."

Station-to-Station Calls

Such calls are for "anyone" and permit a minimum of operating labor and of equipment use.

For fast service at low rates place the call by number with your own operator; saying, for example, "Providence, Dexter 1234".

Day Rates—4.30 a. m.-7.00 p. m.—are lower for "anyone" calls than for person-to-person calls.

Evening Rates—7.00 p. m.-8.30 p. m.—are lower than Day Rates for distances above forty miles.

Night Rates—8.30 p. m.-4.30 a. m.—are lowest and apply to station-to-station calls, excepting to nearby points.

There are no report charges on "anyone" calls, excepting when the called subscriber refuses to accept charges on a collect call and the call is not completed.

Person-to-Person Calls

Such calls are for a particular person and employ more operating labor and equipment.

If you wish to talk with a specified person, call "Toll Operator". Give her the details. Name the person desired and state that you wish to talk with him only. It saves time when you supply his telephone number.

Person-to-person rates are the same at all hours and are higher than station-to-station rates.

Appointment and messenger calls are handled at person-to-person rates, the exact amount expended for any messenger service being charged in addition.

A report charge is made on a particular person call if the called telephone is reached but the call is not completed because the desired person is not available.

United States Taxes

No tax applies to conversations for which the charge is less than 50 cents. The maximum tax on any conversation is 20 cents. Where the charge is 50 cents or more, but less than \$1.00, the tax is 10 cents. Where the charge is \$1.00 or more, but less than \$2.00, the tax is 15 cents. Where the charge is \$2.00 or more the tax is 20 cents.

Collect Calls

Charges for calls may be reversed to the called subscriber, whether placed for "anyone" or for a particular person, without additional charge; except that person-to-person rates apply to collect calls where the initial station-to-station rate is less than 20c., and a rate of 25c. applies where the initial station-to-station rate is 20c.

Rates

The operator will, on request, quote the rate to any point. Unless otherwise requested the rate quoted will be the initial period station-to-station rate in effect at that hour. The initial period is three minutes except that where the rate is five or ten cents the period is five minutes.

Toll Rates

The rates listed below are for station-to-station calls and, except as noted*, for the initial period of three minutes.

SPEED

Do you know that you can call practically any of the vast number of subscribers of the Bell System and have your call completed while you wait? No other means of communication, available for public use, offers faster service.

With the telephone you can call anywhere without bother or loss of time. Your call is personal, too, because "your voice is you". And remember you not only deliver your message but you receive an answer at the time of the call.

NEW ENGLAND TELEPHONE & TELEGRAPH COMPANY

Dependable - - -

Extensive scientific research and well-trained efficient employees combine to make the telephone, of today, as dependable as the flashing beacon that lights the intrepid mariner on his way.

The telephone in your home is a silent sentinel, ever waiting and ready to be of service at all times and in all weather.

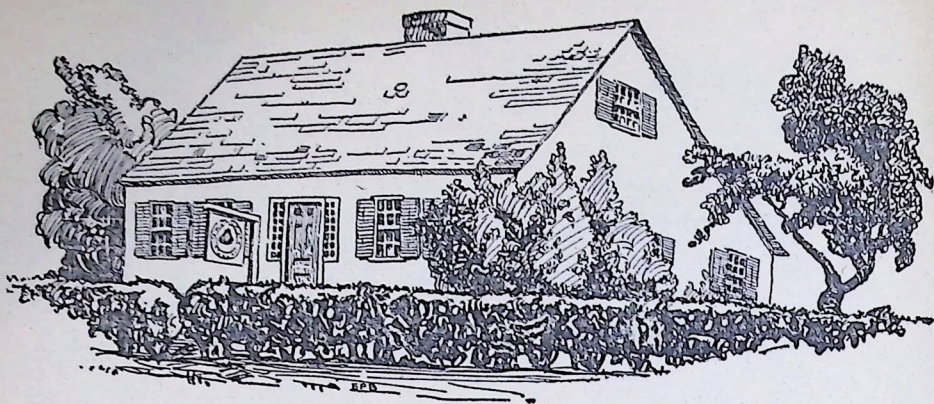

It is democratic, it serves all classes and colors with the same speed and precision.

It is a business ally, a social aid and a decided protection against fire and theft, especially in sparsely settled communities. It has proven itself invaluable, time and again, in times of illness or accident and is a harbinger of joy to the invalid or shut in.

Nothing is offered for public use that gives so much for so little.

NEW ENGLAND TELEPHONE & TELEGRAPH COMPANY

A Sign of Friendly Service

Wherever the blue bell
is displayed, at home or in
distant cities, you are as-
sured of the same friendly
service and cooperation.

There is no variation because, at all
times, we try to give the customer the
best that is in us.

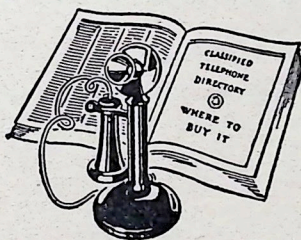

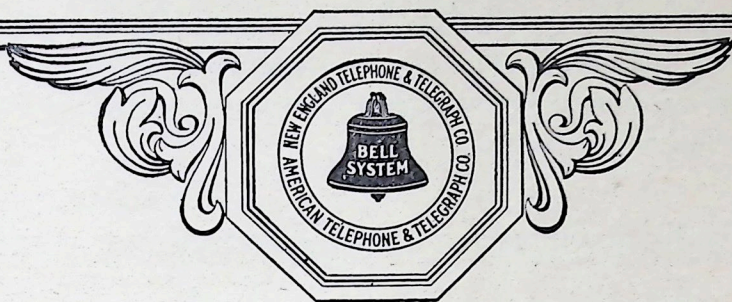

Our standards demand employees
of the highest caliber and the latest
and best in equipment.

This is all provided for you - to use.

“WHERE TO BUY IT”

The Classified Telephone Directory

The business telephone customers in this vicinity are listed on the following pages under headings descriptive of their general business, the service they render or a commodity they sell. Below are directions for using the Classified Telephone Directory to the best advantage.

To find where to buy an article or service

Turn to the heading descriptive of that article or service. Those in a position to serve you are listed alphabetically under these headings.

To find a business concern you have in mind

Turn to the heading descriptive of the general type of business. This will be in its regular alphabetical order. The desired concern will be listed in alphabetical order under the heading.

Trade names of registered articles appear as main headings either with a group of dealer listings or with a reference to the heading under which the dealer listings appear.

The display advertisements provide more complete buying information.

A QUICKER WAY

The modern housewife and her husband are trained to be efficient. They do things quickly, well, and without needless work. They make a habit of using the Classified Telephone Directory as a guide to local buying.

You too can save time and needless steps by using this handy reference book daily.

The Classified Telephone Directory is the Key to your City.

NEW ENGLAND TELEPHONE & TELEGRAPH COMPANY

the way to the store....

Often you are told that a neighborhood dealer can supply you with this or that commodity. But where is he—this neighborhood dealer—and what is his name, address, and telephone number? The Classified Telephone Directory will help you find him.

Look for the article you want by brand name or type of product. Many are now so listed, together with the names, addresses, and telephone numbers of authorized dealers. More than likely, one is located right in your neighborhood ready to serve you.

The Classified Directory will help you in other ways, too. You will find that it can direct you to landscape architects, opticians, drug stores, flower shops, and all sorts of personal or business helps.

The "Where to Buy It" Classified Telephone Directory will be glad to pass its information on to you. Use it regularly.
